FILMS JOIN IN FRANCE

Producers Form Huge Trust

Two Combinations Merge With Capital Placed at $10,000,000

Money and Brains Sought in American Industry Despite Hostility

(Copyright, 1929, by the New York Times.)

PARIS, Sept. 11. (Exclusive)—After several months of intensive negotiations practically the entire French motion-picture industry now is understood to have been brought into one powerful working group with a capitalization of 250,000,000 francs ($10,000,000.) Officially speaking, the control of this country's film business recently has become centered in two strong combinations, but well-informed film circles assert these two groups have just made a working agreement.

The leaders of the new trust, for such it will be in the exact sense of the word, are very reserved in their statements, but one important executive admitted that if the understanding is not already in effect it will be only a question of a month or two before it will be a reality.

OPERATE AS UNIT

Assuming these reliable reports are correct, and everything indicates they are, the French industry, excepting a few independents will, henceforth, be operated as a single unit. The advantages of such an arrangement are obvious, but according to American observers, the combination however powerful potentially, has a long road to go before it is an accomplished fact.

One of the main incentives for a merger has been the advent of the talking pictures and the revolutionary changes this new form of entertainment has brought about. The backers of the new combination would like to dominate the European talkie field. They realize that here, as in the silent field, the Americans know more about production than any other nation.

On the score of money, French capital has always displayed unmistakable coldness to the French film industry. Hence it is that the new trust is said to be seeking both money and brains in the United States.

BUT ASK CAPITAL

The fact that the American and French industries have been in open disagreement for five months on the question of conditions governing the sale of foreign pictures in France has not discouraged French promoters from feeling out American capital for their new venture. Just what success they have achieved is not known, but it highly unlikely the new French trust will be able to obtain important amounts of money from American cinema sources until the present film dispute is finally settled to the satisfaction of the American companies.

MISS GAYNOR AND LAWYER GO TO ALTAR

Actress Will Mix Film Career With Matrimony; Trip Taken to Hawaii

OAKLAND, Sept. 11. (AP)—With the utmost secrecy surrounding the event, Janet Gaynor, film star, was married today to Lydell Peck, attorney, at the home of the bridegroom's father, James L. Peck, also an attorney.

The ceremony was performed by Rev. Alexander Allen, rector of St. Paul's Episcopal Church. After a wedding breakfast, attended only by close relatives and friends of the bride and bridegroom, the couple rushed to San Francisco.

The bridegroom was attended by his father and Miss Gaynor by Miss Alice Bergdoll, a friend.

At the ferry Peck found he had forgotten his bags and, consequently, the party made a hasty dash back to Peck's home. They arrived in San Francisco just in time to embark on the liner Maui for Honolulu, where they will spend their honeymoon.

Miss Gaynor, it was learned, completed the picture she has been working on in Hollywood, and, although she still is under contract, is not aware when she will start her next picture. She plans to mix matrimony and her film career.

STREET CAR DYNAMITED IN STRIKE

New Orleans Police Use Gas Bombs on Crowd Following Blast

NEW ORLEANS, Sept. 11. (AP)—A street-car was dynamited tonight, less than four hours after the local carmen's union announced it had rejected a street-car strike agreement recently drawn up in New York. None of a large crowd that gathered, and was dispersed by tear-gas bombs, was injured.

The explosion, occurring at Washington and South Dupre streets, only slightly damaged the car, which carried three passengers, two of them negroes, but a crowd that gathered stormed the car, smashing the windows.

Police used gas bombs to scatter the crowd which had just left a political meeting in the section, attended by Acting Mayor Walmsley. Mayor Walmsley prevailed upon police to cease throwing the bombs after he had suffered from the gas attack.

Fourteen Lost When Collision Sinks Steamer

FLUSHING (Holland) Sept. 11. (AP) Fourteen seamen were believed to have been drowned today, when the Belgian steamer Estella collided with the German steamer Indira in the River Scheldt near Walsoorden, Holland, during a fog.

The Estella was reported as sinking with only two of her crew rescued.

POWER TRUST CHICK PEEPS

Hatching of $2,300,000,000 Company Manifested in Maryland With Filing of Tax Certificate

BALTIMORE, Sept. 11. (Exclusive)—Declared to be a concrete manifestation of the much-discussed power trust, a certificate of incorporation for a $2,300,000,000 investment trust and power stock company has just been filed with the Maryland Tax Commission.

One of the temporary directors is a woman, Anna Van Bennekom of Hackensack, N. J.

The other temporary directors, who also are the incorporators, are Taylor Murray of New York and John S. Hedden of Chappequa.

With an authorized stock of 23,000,000 shares, the company, the United States Electric Corporation, is the largest ever chartered under the laws of Maryland. The shares without par value, on the arbitrary basis of $100 a share, at which the tax commission assesses no par shares, for taxation purposes, would be worth $2,300,000,000.

Heretofore the largest concern to be incorporated under the laws of this State was the Ward Food Products Corporation formed several years ago and later dissolved under proceedings by the United States government.

Taft Declares Failing Heatlh Reports False

POINTE - AU - PIC (Que.) Sept. 11. (AP)—Reports in Washington and New York that the health of Chief Justice William Howard Taft of the United States is failing are entirely inaccurate, he said today. A long walk he took in the rain with no apparent ill effects added emphasis to his statement.

The Chief Justice said he did not know he was supposed to be in bad health until the concern caused by the reports among his friends was reflected in letters that have come to him lately at his summer home here.

Schneider Race Winner to Get British Cross

LONDON, Sept. 11. (AP)—Flying Officer H. R. D. Waghorn, who won the Schneider Cup race Saturday for England, is to receive the Cross of the Royal Air Force from King George.

Lord Thomson, Minister of Air, made the announcement today in the course of a luncheon offered by the British government to the Italian and British Schneider Cup teams. The guests included high officials of the Royal Air Force, the Italian team and designers of seaplanes.

LINDBERGHS STICK SPUR IN PEGASUS

Winged Steed Loaned By Hawks Ridden to Record, St. Louis to New York

NEW YORK, Sept. 11. (AP)—It appears today that Col. Charles A. Lindbergh has been teaching a record-breaking plane what speed really means.

Several days ago he borrowed the plane in which Capt. Frank Hawks beat both east-west and west-east nonstop transcontinental records, to join the search for the Transcontinental Air Transport plane then missing in the West. Yesterday he flew back from St. Louis with his wife as a passenger, in 5h. 21m., a distance of 905 miles.

It was not until today that computation of his average speed showed that apparently he had set a record for the distance. Capt. Hawks averaged somewhere in the neighborhood of 150 miles an hour. Col. Lindbergh averaged about 170. Capt. Hawks's record of course, is not affected as his distance was three times that of the colonel.

Asked what his hurry was, the colonel smiled, "I was just coming along home," he said, "and there was fair weather all the way."

Gunshot Wound Fatal to Child

DEL MONTE HEIGHTS, Sept. 11. (AP)—William Seidel, 7 years of age, son of Mr. and Mrs. A. Seidel, died here today from the effects of a gunshot wound inflicted by his 7-year-old playmate, William Smith.

Four children were playing at the home of Mr. and Mrs. J. C. Smith, parents of William, authorities learned, and the lad had a .25 gauge rifle. The gun apparently went off accidentally.

SHIP STEWARD DROWNS

PORTLAND (Or.) Sept. 11. (AP)—Graham G. Crawley, 18 years of age, asistant steward in the engineers' mess on the Royal Mail steamer Nichtheroy, was drowned in the river here today when he suffered a heart attack while swimming near his ship. His body was recovered.

READERS WHO CONTEMPLATE THE PURCHASE OF REAL ESTATE

Will find a listing of more than ordinary interest in the forthcoming Sunday Times Real Estate Section. Many of these offerings are being submitted by owners and dealers who have been waiting for the opening of fall, and, as a result of the increased demand during the past few weeks, are now placing their properties on the market.

Homes both inside the city and in the surrounding suburbs and towns, business and income property, building sites, country property, both improved and raw land, are among the attractive new offerings which are being received for the forthcoming Sunday issue.

RUSS DENT FOES' LINE

Chinese Suffer Initial Defeat

Pogranichnaya Laid in Ashes, Forcing Manchurians to Rally at Mohlin

River Gunboats Clash and Bombers Active But Hope Still High for Peace

(Copyright, 1929, by New York Times)

SHANGHAI, Sept. 11. (Exclusive) With the entire Manchurian and Siberian border ablaze with war and Russia exerting pressure official admission was made by Chinese sources of an initial defeat along the eastern front.

The announcement stated that Pogranichnaya was reduced to ashes and a new defense line is being established by the Manchurian forces at Mohlin, the first place of any size, forty miles west of the border. The railway has ceased to operate east of Mohlin and the remnant of Chinese defenders in the Pogranichnaya region are out of touch with the new defense position.

BOMBING INDECISIVE

Intensive bombardment by Russian artillery and planes of Manchuli and Dalainor was indecisive, Chinese correspondents said. Minor engagements took place between Amur River gunboats near Blagoveschensk and seven soviet gunboats which appeared at the mouth of the Sungari, which has been mined by the Chinese.

Large bodies of Russians which three days ago captured Tungingenhesin now are advancing upon the railway, having flanked Pogranichnaya by this move, and aerial bombers are extending their activities to the new Chinese lines at Mohlin.

NO PROPAGANDA

That Nanking still hopes for a settlement is indicated by the continued official silence and utter lack of warlike propaganda to arouse the country against Russia. This abstention from propaganda is a puzzling and marked contrast to the immediate resort to this weapon against Japan in May last year as a result of the Tsinan-Fu clash.

The pathetic spectacle is afforded here of a nation practically bankrupt drifting helplessly into war with its powerful neighbor. Grave anxiety is felt lest Russia plans to synchronize onslaught from without with a Communist uprising from within and so achieve its long-cherished project—the sovietization of China.

CHINA REPLIES VERBALLY TO RUSSIAN PROPOSALS

BERLIN, Sept. 11. (AP)—The Chinese legation this afternoon submitted to the German Foreign Office a verbal note replying to previous Russian proposals for settling the Manchurian railway conflict. The Foreign Office sent it to Moscow.

It was learned that the new Chinese note did not clear up any of the points which the Russian government made in its last communication to the Nanking government.

SOVIETS BOMBARD TOWN, KILLING MANY

HARBIN (Manchuria) Sept. 11. (AP)—The captain of a Chinese river steamer arriving here today said soviet troops yesterday bombarded the village of Kuochiatien. Many were killed and wounded.

The body of a Russian railway worker was found today in the new Harbin railway shops. Authorities said the man apparently had been strangled. The incident has embittered feelings between the Chinese and Russians.

McCORMICK GIVES EAST DRY SPELL

California Jurist Leaves Arid Trail in Handling of New York Liquor Cases

NEW YORK, Sept. 11. (Exclusive)—Leaving a trail of aridity in his wake, Federal Judge McCormick, here from California, is interpreting the prohibition law literally in the cases taken before him, to the consternation of New York's moist inhabitants, accustomed to more or less free-and-easy justice.

After closing the Club Mimic and eleven other places Tuesday, Judge McCormick signed nine padlock decrees today, most of them against swanky hide-aways and popular roadhouses in Westchester county, six for a year and three for nine months each.

As in his action on Broadway resorts, he signed personal injunctions against managers and employees of the padlocked resorts.

Two in Hold-up Death Executed

MILLEDGEVILLE (Ga.) Sept. 11. (AP) — Homer Simpson, former Greeneville (Tenn.) Police Chief, and Malcolm Morrow of Jacksonville, Fla., died in the electric chair at the Georgia Prison Farm here today for the murder of C. A. Perry, cashier of the State Bank of Kingsland (Ga.) on February 23, 1928, during a robbery.

Will Rogers Remarks:

BEVERLY HILLS, Sept. 11. [To the Editor of The Times:] So we are the nation that travels so fast, and think all the other countries are still in a covered wagon. Well, some Englishman just went 355 miles an hour in a plane yesterday and almost wept because it was foggy and misty and he was not able to open it up.

If you remember, one came over here and run an automobile faster than we can even wreck one, so when it comes to speed we are not exactly what you would call sitting on top of the world. Englishmen live slow and move fast, we live fast and move slow.

Yours,

WILL ROGERS.

WAR'S END SOUNDED

Hoover Offered Peace Fund

Chemistry and Flying Make Conflict Impossible, Says Recipient of Medal

Time Some Day May Become Younger Instead of Older, Scientist Predicts

MINNEAPOLIS, Sept. 11. (AP)—War has been made impossible by chemistry and airplanes, Francis P. Garvan of New York told the American Chemical Society tonight in a written communication.

As president of the Chemical Foundation he formally offered President Hoover the use of millions of dollars to investigate the great possibilities of chemistry as an agent of peace."

MEDAL AWARDED

Ill in New York, he sent his communication to be read at the presentation by the Chemical Society of the Priestly Medal, the highest honor of chemistry, given him as America's most distinguished "lay chemist."

Garvan also sketched the chemist's power to protect public health, and Dr. Irving Langmuir, president of the American Chemical Society, announced a new research sponsored by the society to search for the cause and cure of cancer.

"Can the development of American chemistry do anything for the peace of the world?" said Garvan's communication. "I believe that modern chemistry plus modern aeronautics has made war impossible. I am notified that in case of a modern war between great powers it would be foolish and useless for a battleship or cruiser to leave its dock or any army to take the field.

HOOVER PRAISED

"The common people of the world, as well as our wisest rulers, President Hoover and Prime Minister MacDonald, realize the horror of war and its tremendous wastage of life and of the means of living. They are bending every effort to safeguard the peace of the world by treaties and by agreements. Should not the terrible powers of chemistry, as we know them, and its war messengers, the airplane, strengthen their hands? Should not the dread possibilities of chemistry support the convictions of the com-

(Continued on Page 2, Column 3)

FIRE DEMON RAGES ON

Train Rushes Aid to Area

Incendiaries Blamed For Blazes Which Burn Over Thousands of Acres

National Forests Hard Hit; Washington Hazard Now Worst in Years

PORTLAND (Or.) Sept. 11. (AP)—Forest fires in the Northwest continued their destructive career today.

In Lane county burned telephone poles cut off communication with the Silver Falls Lumber Company, near which a large fire was burning. A special logging train with a crew of section hands was dispatched to the scene of the blaze in an effort to prevent further destruction of logging railroad trestles and other property.

Unleashed Monday by an incendiary's torch, Coos county's worst fire, in the Rough Creek section of Camas Valley, raged on into valuable stands of fir and Port Orford cedar today. On one three-mile front a force of 250 men was being pushed back steadily while the blaze swept forward on the wings of a stiff northwest wind.

TIMBER DESTROYED

Near Powers in the same district another dangerous fire broke out late yesterday and today had resisted a force of thirty men and spread over more than 100 acres of green timber. The Coos Bay Lumber Company faced another outbreak of the fire, which swept over its holdings Monday destroying logging equipment and bucked logs, and for a time threatened the town of Powers.

The Sixes River fire is still out of control and dozens of new fires are reported in Coos and Curry county. Maj. John D. Guthrie of the district forest office here described the fire situation in national reserves as "alarming."

"Not one of the fourteen national forests in the State has escaped this year," he said, adding that the Siskiw probably has been harder hit.

FIRE LEAPS RIDGE

The Triangle Lake fire in the Siuslaw National Forest today had leaped a ridge between Deadwood and Greenleaf creeks and was sweeping toward a highway, where fighters hoped to halt it. Fifty men were sent from the district office to assist in fighting a 10,000-acre blaze in the Waldport district of the same forest. Two other large fires are reported consuming green timber.

Four dangerous incendiary fires are said to have been started in the Umpqua National Forest. Supervisors report the fires gained considerable headway before being discovered because of poor visibility.

Two fires which started yesterday were reported burning over large areas in the Siskiyou National Forest tonight.

FOREST FIRE PERIL GREAT SAYS OFFICIAL

OLYMPIA (Wash.) Sept. 11. (AP)—Washington's forest fire hazard is worse than it has been for twenty-seven years, Supervisor of Forestry Joy said today. Earlier in the day Gov. Hartley closed the hunting season in Kittitas county because of the danger of the fire and issued another proclamation exhorting citizens to use the greatest possible care in preventing fires.

Western Washington forests, thoroughly dried by a long, hot summer, are in an exceedingly precarious condition with the present dangerous fire weather, Joy said. More desirable weather and a favorable wind have left Eastern Washington in a much less serious position.

Although the stage is set for fires recalling the "black days" of 1903—just twenty-seven years ago today and tomorrow—present fires are "not so bad," the Supervisor em-

(Continued on Page 2, Column 3)

ATOMS MATED BY "CUPIDS"

Chemical Society Hears of Go-Betweens Which Cause Unusual Fusion of Units

MINNEAPOLIS, Sept. 11. (Exclusive)—Atoms marry atoms to form chemical compounds.

As in the case of human beings, the contracting parties are often put up to it by third parties acting as go-betweens. Considerable attention has been paid by scientists attending the meeting of the American Chemical Society here to the activities of these chemical cupids, which include such diverse forces as ordinary light, high-potential electric discharges, alpha particles given off by radium and cathode rays from vacuum tubes.

Participants in the discussion were Dr. M. Bodenstine, noted German chemist, and Prof. S. C. Lind, Dr. George Blockler and Dr. Hubert Alyea of the University of Minnesota.

Among the most important of the offspring of these "promoted" chemical weddings are phosgene, one of the most notorious of war-time gases now tamed to the use of peace, and several grades of lubricating oil. Phosgene has been born of carbon monoxide and chlorine under the auspices of both light and alpha particle bombardment. In the laboratory of Prof. Lind and Dr. Blockler various gases have been induced by electric discharges to unite into the larger and heavier molecules of liquid hydro-carbons, or oils.

COST TOO MUCH

Substances like gasoline have been found but since they cost much more than they can be sold for this part of the work is regarded as of academic interest only for the present. But the heavier oils that can be induced to form by regulating the temperature of the combination chamber give promise of becoming good lubricants.

Cathode rays as well as electric discharges have also been used in this work. They have strange effects on some of the heavier oils and waxes. Paraffine was changed by them into a tough, leathery stuff that seems to be impossible to melt. One piece of this transformed paraffine was kept in contact with a piece of pyrex glass while the latter was melted.

MELTING POINT HIGH

The melting point of pyrex is far above that of most metals, yet the cathode-rayed paraffine showed absolutely no effects from this heat. The same rays caused the common illuminating gas acetylene to condense and fall as a sort of brown snow, reported A. L. Marshall of the Schenectady laboratories of the General Electric Company.

The chemical properties of the new compound have not been determined as yet for nothing seems to be able to either dissolve or to melt it.

QUARANTINE RETAINED

Fruit Fly Danger Still Exists

Washington Rules Florida Restrictions Must Stand for Some Time

Federal Eradication Fund of $26,000,000 Assailed as Too Large

BY LAWRENCE M. BENEDICT
"Times" Staff Correspondent

WASHINGTON, Sept. 11. (Exclusive)—The government has no idea of immediately lifting the Mediterranean fruit-fly quarantine against Florida citrus fruits, no matter how vociferous the demand for such action may become.

This was stated today by Dr. C. L. Marlatt, chief of the bureau of plant quarantine and control of the Department of Agriculture. Dr. Marlatt said that for the government to remove its quarantine before having made certain that the fruit fly has become eradicated completely would be to invite potential destruction of the fruit and vegetable industry of the entire country.

He added, however, that the government is agreeable to, and shortly will order, a further modification of the quarantine restrictions so that Florida fruit, grown outside infected zones, and outside the protected areas that have been established, may be shipped anywhere in the United States provided the fruit is sterilized. There is a question as to whether the growers and dealers will be willing to process fruit which, they contend, is free of infection and so should be allowed unrestricted marketing facilities.

PRESSURE EXERTED

The agricultural department has been under heavy pressure from Florida interests to remove its embargo on fruit not known to be infected with fruit-fly larvae, but Dr. Marlatt made it plain that no amount of argument can make his division relax its vigil until it is satisfied that free shipment of Florida fruit carries no threat to the fruits and vegetables of other States. He sympathizes with Florida in its predicament, but does not want to alleviate its suffering at the possible expense of a national fruit-fly epidemic.

He said the agricultural department is standing pat on its program which contemplates an additional appropriation of $26,000,000 by Congress to deal with the fruit-fly situation in Florida. At about the same time he was saying this, Representative Wood of Indiana, chairman of the House Appropriations Committee, was telling newspaper men at the White House that $26,000,000 is too much to spend on the fruit fly.

Wood declared he had told the President that the government had been misled many times in the past into spending exorbitant sums to fight crop pests, and that unless Florida could make a "much better showing" than it had made so far, the Appropriations Committee could not see its way clear to authorize the $26,000,000 which Secretary of Agriculture Hyde intends asking of Congress as soon as the regular session starts in December.

PEST CONFINED TO FLORIDA

Florida itself is divided on the desirability of the proposed $26,000,000 fund, some of its spokesmen, including Senator Fletcher, insisting it will place the State unreasonably in position of dependence upon Federal charity, and will unduly exaggerate the importance and seriousness of the fruit-fly situation. Fletcher's views are shared by George W. Bean, former Republican national committeeman for Florida, who declared in a recent statement that while the State can advantageously use perhaps $1,000,000 additional, what it needs most is freedom for uninfected fruit from the government quarantine regulations.

Mr. Marlatt said that in the last three weeks only one discovery of fruit-fly larvae has been made in Florida, and that was in the area originally attacked by the pest. Since the clean-up of Florida fruit all over the country last spring, he said, no infected fruit has been found anywhere outside Florida, and never, at any time, has the fly been detected in the local crop of any other State. Reports from California, he declared, were such as to indicate the fly has not found its way there, although such a conclusion cannot be reached safely until another year has passed. He praised California for the manner in which it is co-operating with Federal authorities to protect the State against possible intrusions by the fruit fly.

The Postoffice Department today notified its postmasters in Florida that they may again accept nursery stock for mailing, provided it has been inspected by Federal agents and declared free of fruit-fly larvae. The notice warned, however, that "host" fruits and vegetables were still barred from the mails.

Eyes Ache, Smart

YOUR EYES EXAMINED GLASSES COMPLETE **$3.85**

All this week, an Examination of Your Eyes, a pair of Spherical Glasses, in a frame, complete for $3.85.

Gold or shell frames, toric, cylindrical, fancy shapes and double vision glasses correspondingly low.

Insist upon having an Oculist's examination without delay. Remember, correct vision increases earning power. Give your eyes the best of care; you'll find they're worth it. Proven Ability and Confidence is the basis upon which discerning people select their help and advice in time of trouble. If your eyes are troubling you in any way—let me care for them. I will tell you the facts and your own Eyes will tell you the rest of the story. Having corrected Thousands of people's eyesight—is conclusive evidence that my method is Correct. Let me correct yours. No drops used. Charges very reasonable.

CHEMIST SEES DOOM OF WAR

(Continued from First Page)

tion people that there shall be no war of the future, and rule out the politicians and the greedy who are, aiming to defeat these high purposes?

"If the politicians would give to research in chemistry, in the other sciences and in medicine a fraction of the huge cost of navies and armies, the world would see discoveries of the greatest moment.

"The Chemical Foundation stands ready to bear all the expenses of any commission the President may care to appoint to inquire into the vast possibilities of chemistry as an agent of peace, outlawing war by its terrors, advancing health and prosperity by its humane discoveries."

TIME MAY CHANGE

An inkling of the things of which chemistry dreams for the future was given by Dr. Langmuir in his annual presidential address preceding the medal ceremony. With Einstein's theory and other purely mathematical concepts of the nature of time and space, he said, it is possible to conceive that in a distant future different forms of light than those now known may evolve. He asked whether it may be possible that sometime time itself will be different, its "arrow" pointing in other directions. The idea is of time that grows younger instead of older.

"Such speculations may seem fantastic," he said. "It is, I believe, of the most importance for the chemists and the physicists to evolve fundamentally sound conceptions of such things as time and entrophy."

ENTROPHY EXPLAINED

"Entrophy" is one of the mathematical conceptions under which the idea of time turning backward is possible.

"It seems," Langmuir went on, "that there never has been a time when we can predict with such certainty rapid progress in fundamental chemistry."

He gave numerous illustrations of once seemingly impossible mathematical theories that have turned into daily realities. One is the radio dial giving wave lengths of broadcasting stations. In 1860 the existence of these long waves, now marked on dials, was shown by Clerk Maxwell's mathematics. That was many years before Hertz discovered radio waves.

MRS. HOOVER AND SON START ON MOTOR TRIP

WASHINGTON, Sept. 11. (AP)—Mrs. Herbert Hoover and her son Allan left the White House today for an automobile trip into the Virginia hills, for a rest before the latter's departure for the Harvard School of Business Administration next week.

BRITISH NAVAL STAND STATED

Winston Churchill Talks at Bay City Banquet

Competition With America Not in Calculations

England's Food Supply Sole Concern of Sea Power

SAN FRANCISCO, Sept. 11. (Exclusive)—Great Britain has no intention of competing with the United States in the size of naval armaments, but must build ships to protect those that bring in three - fourths of Britain's daily food supply. Because of the essential protection its navy cannot very well be reduced and probably will be enlarged.

WINSTON CHURCHILL

These thoughts of Winston Churchill, Chancellor of the Exchequer in the Conservative government recently defeated by the Labor party in England, were put into words today at a luncheon tendered him by Gerald Campbell, British Consul-General, during the course of remarks in which the English visitor discussed several current subjects.

WANTS FRIENDS STRONG

"Great Britain," he said, "has no quarrel with the United States on naval armament. We want America to have a strong navy. We want all our friends to be strong.

"The size of our own navy does not depend on how big a navy someone else builds. We have our own shipping lanes to cover and when one thinks of us bringing in three-quarters of our daily food supply by ships, it is easily seen that we must have a navy to protect our shipping.

"But that does not mean that we must enter into competitive building with the United States. Neither does it mean that we will reduce the size of our navy.

LARGER, IF ANYTHING

"I do not see that our navy could possibly be reduced—rather, it probably will be enlarged."

As the former Chancellor spoke he fingered in his coat lapel the ribbon of the United States Distinguished Service Medal, awarded him after the war for his work in helping bring about the victory of the Allies. Churchill said he believes the Labor government will remain in power for some time to come. He does not believe the extreme radicals in the party are numerous enough to foist any extravagant experiments on the country and that the more conservative party leaders will not make many more mistakes than other parties which have preceded them.

NO MORE OPPRESSION

"Although our emigration to the colonies has about reached a prewar level, I do not look for the British people to leave their homeland in any large numbers," he said.

"It takes oppression of some sort, like your Pilgrim Fathers suffered, to produce wholesale emigration. We have none of that, of course, so our emigration problem will take care of itself."

FOREST FLAMES ROAR IN OREGON

(Continued from First Page)

plained. A somewhat similar condition prevailed during the disastrous fires of 1910 when more than 100 persons were burned to death in Idaho, but the bad spell came earlier that year and was therefore less dangerous.

"If a fire started now we couldn't do anything with it, it would go so quickly," Joy said. "All the forests are dried from the earth to the tree tops—perfect conditions for a crown fire, sweeping everything before it. With a little wind there would be no telling when or where such a fire would stop," Joy said.

BRUSH AND GRASS FIRE UNDER CONTROL

PORTERVILLE, Sept. 11. (Exclusive)—Control was established this morning about a brush and grass fire which broke out late Monday afternoon on the Tule River Indian Reservation, in the mountains southeast of here.

A total of 900 acres was burned over, requiring a force of ninety men to combat the flames. The fire fighters are being withdrawn with exception of patrols. The fire is believed to have been started near the agency on the reservation by children playing with matches. Its origin will be investigated.

Tulare County Fire Warden Metcalf, with headquarters in Porterville; Assistant Tulare County Fire Warden Hickle, and Sequoia National Forest Ranger Snyder of Porterville and J. Stansbury of California Hot Springs directed the fire fighting.

Mexican Bandits Attack Children

LAREDO (Tex.) Sept. 11. (AP)—While en route to points in the United States to attend school, forty-seven Mexican school children were fired on by bandits near Salinas, Mex., Monday, they reported when they arrived here yesterday.

The children were forced to lie on the floors of the cars as the train ran the gauntlet of rifle shots. None was injured.

Ship Disaster Toll at 120

HELSINGFORS (Finland) Sept. 11. (AP)—The number of dead in the Kuru steamship disaster Saturday was stated officially today to be 120, while an unofficial estimate placed the total at 145. Only forty-eight bodies have been recovered. The steamer stands in an upright position in fifty feet of water just outside the harbor of Temmerfors where it sank in a storm.

NAVAL ACCORD BELIEVED NEAR

Hoover and Cabinet Men Have Busy Day

Extensive Discussions of Subject Held

Official News Lacking as to Developments

WASHINGTON, Sept. 11. (AP)—American diplomatic and naval experts joined today in the most extensive discussions since the beginning of the naval reduction conversations with Great Britain and as a result several messages were prepared tonight for dispatch to Ambassador Dawes.

President Hoover, Secretaries Stimson and Adams and other of the State and Navy departments took part in the conferences which kept them in almost constant touch for nearly ten hours.

It was understood from an authoritative source that the conversations at the White House centered largely around the American naval program, under which fifteen cruisers are to be constructed. It has been determined that some rebalancing and readjustment of the Navy's plans might possibly be used advantageously in the reconciling of the American and British viewpoints.

BEGUN EARLY

The general impression in diplomatic circles, although wholly lacking in official confirmation, is that a very near settlement of the naval question has been approached. These same circles point out that both President Hoover and Secretary Stimson, desiring to be exceedingly cautious and to be sure of their ground, will wish to confer further before a definite step toward an accord is taken.

The conferences were begun early today by a two-hour session at the White House between President Hoover, the general board of the Navy and Undersecretary Cotton, in addition to Secretaries Stimson and Adams. Later in the day the two secretaries, accompanied by Cotton returned to the White House and early tonight Mr. Hoover again was visited by the heads of the State and Navy departments.

NEWS WITHHELD

After this final meeting with the President Mr. Stimson joined the Naval Secretary in a discussion with the Navy general board and then returned to his office, where he was busy for several hours with a staff of stenographers on duty. He declined to give out any information, however, on the trend of the conversations.

At the same time, Secretary Adams continued to confer with the general board and with Cotton after Stimson left for home, and when this meeting adjourned there again was silence as to the particular subject under discussion.

Ambassador Dawes will be informed fully tomorrow of the nature of the conversations in order that at his next conference with Prime Minister MacDonald he will have full cognizance of the latest developments on the question in Washington.

IRISH IN PLEA TO QUICK DISARMAMENT

GENEVA, Sept. 11. (AP)—The Irish Free State, through its spokesman, Patrick McGilligan, Foreign Minister of the Saorstat, today voiced impatience with the slow rate of progress in the movement for reduction of world armaments and called on the powers to convene a general disarmament conference.

"An improved atmosphere practically is the only result claimed for the activities of the preparatory commission for disarmament since last year," said McGilligan. He suggested that an antiwar pact between nations, such as the Briand-Kellogg pact, should be followed almost automatically by reduction in the weapons of war.

The Irish Foreign Minister praised the United States and Great Britain for their efforts to reach a settlement on the question of naval power.

OPPOSITE PROPOSALS

The Free State proposal runs counter to the disposition seen in influential quarters of Geneva, notably in circles familiar with the French viewpoint, to leave disarmament discussions alone until the Anglo-American conversations result in the successful issue which Prime Minister MacDonald predicted here last week.

Popular interest in the League of Nations disarmament program was increased today by a report that Lord Cecil on behalf of the British delegation would offer a resolution inviting the League to speed up the call for a general disarmament conference.

QUESTIONS OF RADIO

The session of the disarmament committee this afternoon was given over entirely to the question of whether the League should own and operate its owne wireless station. The majority sentiment favored the League's having independent control of wireless communication during emergency periods at least.

The committee adopted Lord Cecil's resolution instructing the secretary-general of the League to take the provision for a radio station as soon as possible.

The Assembly of the League today finished with its list of speakers on the work of the League and adjourned plenary sessions for several days.

Printer Against Teaching Craft

SEATTLE (Wash.) Sept. 11. (AP)—Vigorous opposition to providing printing instruction in public and private schools was voiced here today by Charles P. Howard, president of the International Typographical Union, in convention here.

"By taking printing out of the competitive field we have the worst form of State socialism," Howard said, "and a form just as vicious as the contract-labor system."

Formal opposition to the practice is scheduled to be brought before the convention by the executive council tomorrow in its annual report.

elected to Congress. He resigned his pastorate in 1923 but remained a member of the Board of Education of the Norwegian Lutheran Church of America.

SON PLAYS IN JAZZ ACT DESPITE SORROWING HEART

CHICAGO, Sept. 11. (Exclusive)—When word reached Chicago today that Representative O. J. Kvale of Minnesota had burned to death in a fire which destroyed his summer cottage at Otter Tail Lake, Minn., a backstage drama which has often been played as "make believe" on stage and screen was enacted in reality on the stage of the Oriental Theater here while the audience looked on unknowingly.

Al Kvale, jazz orchestra leader and master of ceremonies of the stage show at the large film house, whose act is billed as "A Rollicking Riot of Melody and Mirth," was about to go on when he was called to the telephone to receive a long-distance announcement of his father's death. By a strange twist of chance, Al's three brothers, who had just arrived in Chicago from the summer home in Minnesota to pay Al a visit were standing in the wings with him when the message arrived. The brothers are Walter, Robert and Arthur.

The jazz band leader told his brothers the news. As he was talking the stage manager, unaware of the shock the star performer had just received, was beckoning frantically for Al to go on the stage. The curtain was up and his orchestra had gone into first bars of the opening number without him. In short, Al Kvale was facing a situation every performer dreads, the necessity of answering the question, "shall I go on with the show?"

And like many a trouper before him, Kvale made the true actor's decision. He went on with a smile and fought through the hardest performance of his career without revealing to the audience in any way the terrific emotion behind his quips.

The four brothers left for Minnesota tonight.

Air Police Will Have Four Beats

NEW YORK, Sept. 11. (AP)—Four aerial beats will soon be part of New York's police routine.

Commissioner Whalen said four amphibian planes will be purchased and patrols established at Coney Island, the Rockaways, Jamaica Bay and on Long Island Sound. This action followed several recent airplane crashes in the city in which several persons were killed. An appropriation of $100,000 is to be asked.

Empringham Still "Missing"

NEW YORK, Sept. 11. (AP)—Sol Ullman, assistant States Attorney-General, said today that Dr. James Empringham, former Episcopal minister who is accused of operating a health clinic, although not a holder of a medical degree, still is "somewhere in California."

The case against Empringham continues active, Mr. Ullman said, but nothing can be done until Empringham's return to this jurisdiction as he is charged only with a misdemeanor under which he can not be extradited.

POWER GROUP SEEKS SHOALS SETTLEMENT

ENGINEERS' ASSOCIATION ALSO CALLS BOULDER DAM PROJECT URGENT

CHATTANOOGA (Tenn.) Sept. 11. (AP)—Immediate development of natural resources at Muscle Shoals and Boulder Dam is urged in resolutions presented at today's meeting of the National Association of Power Engineers.

The resolutions, offered by a committee headed by John Calahan of Jersey City, declare that the association recognizes the advantages of the south in natural resources, and especially in potential hydro-electric power and pledge the association's support of a movement for the early settlement of the Muscle Shoals project. Immediate action on the Boulder Dam project also is declared urgent.

SHIP SCANDAL BEFORE SENATE

Inquiry Into Propaganda at Geneva to Be Held

Activities of Shipbuilders Will Be Looked Into

Shearer Listed as Witness; Hearing Opens Today

WASHINGTON, Sept. 11. (AP)—Investigation of activities of American shipbuilding corporations at the unsuccessful Geneva naval limitations conference of 1927 was ordered today by the Senate and will be started tomorrow by its naval committee.

An executive session will be held in the morning to determine the witnesses to be called and the procedure to be followed. Open hearings are expected and William B. Shearer, who has sued three shipbuilding corporations for money asserted to be due him for his services in their behalf at Geneva, is slated to be the first witness.

No voice was raised against the investigation in the Senate today as the resolution of Senator Borah, Republican, Idaho, was adopted without even a roll call. Senator Blaine, Republican, Wisconsin, asked if the resolution were broad enough to permit investigation of American naval officers who have been "reported" to have been in touch with Shearer. Senator Borah said he believed the resolution was broad enough to permit that.

ROBINSON OUTSPOKEN

Senator McKellar, Democrat, Tennessee, expressed hope that later an inquiry would be made into all manner of naval propaganda including that issued by "the other side." Senator Robinson, of Arkansas, the Democratic leader, insisted, however, that this particular inquiry be limited to this specific case which he contended "involves interference in what is essentially the foreign relations of the United States."

"No citizen and no corporation," asserted Senator Robinson, "has the right under the most liberal construction of the right of free speech to interfere for mercenary considerations with the efforts of the Chief Executive to arrange for treaties and agreements with other nations."

BORAH PLAYS GRACE

Senator Borah has suggested that the director of the shipbuilding corporations being sued by Shearer be called for examination and there is no doubt that this course will be pursued. It seems likely that for the time being, at least, the Senate Committee will work along on its own course, aside from the inquiry being conducted by the Department of Justice at the request of President Hoover.

Commenting on the letter made public yesterday by E. G. Grace, president of the Bethlehem Steel Corporation, one of the companies sued by Shearer, in which he said the company had severed connections with Shearer after learning he was a "propagandist," Senator Borah said the statement was "an insult to the intelligence of the American people."

GAS OFFICIAL LAUDS PRESS ADVERTISING

Los Angeles Man Tells Convention Newspapers Form Best Medium

DEL MONTE, Sept. 11. (AP)—Newspaper advertising was given credit for a great share in the development of the gas industry at today's general session of the Pacific Coast Gas Association's annual convention here.

Daniel L. Scott of the Los Angeles Gas and Electric Corporation in an address said that newspaper advertising today is recognized as one of the greatest sales helps in the development of any successful business.

"The gas industry," he said, "being keenly alive to the situation, has tied in through a co-operative program whereby practically every major medium on the Pacific Coast will be used. It long has been recognized that the newspaper is the backbone of any successful advertising campaign. The gas companies are using this medium to a greater extent than ever before."

Other speakers included Keith Clevelinger, director of publicity and advertising for the American Gas Association; A. B. McBeth, president of the Southern California Gas Company, and Franklin H. Bivens of Los Angeles, president-elect of the association.

CHURCH DEFENDANT IN ALIENATION SUIT

SALT LAKE CITY, Sept. 11. (AP) Excommunication by officers of the Mennonite Church and consequent refusal of his wife to maintain family relations with him are the grounds of a $200,000 damage suit for alienation of her affections brought by Aden Shank of this city against twelve members of the sect at Chambersburg, Pa. Details of the action were made public here today by William L. Beesley, member of a law firm representing Shank.

Filing of the alienation suit followed granting of a divorce here last spring to Shank on the grounds of desertion and cruelty.

SENATE DEFERS ACTION ON VARE

Step Taken to Insure Tariff Bidding Right of Way

Action by Watson Prevails Over Norris Proposal

Nebraska Member Resents Filibuster Charge

WASHINGTON, Sept. 11. (AP)—Consideration of the Vare case until after the regular December session of congress, to the end that tariff can hold right of way in the special session was voted today by the Senate.

The motion of Senator Watson, Republican leader, to postpone until December 2 next, a decision whether William S. Vare of Pennsylvania should be granted a Senate seat, prevailed by a vote of 41 to 34. Senator Norris, Republican, Nebraska, had sought immediate consideration of his resolution to unseat Vare because of "fraud and excessive expenditures" in the 1926 primary campaign.

REASON FOR ACTION

The vote was not regarded as a test of strength on Vare's right to the senate seat, which has been withheld from him for three years pending a decision by the Senate. Senate leaders urged the postponement until December solely on the ground that consideration of the Vare case would interfere with action on the tariff bill at the special session.

The Democrats voted with thirty-four Republicans for postponement of the resolution, while nine Republicans and twenty-five Democrats opposed delay of the Vare case.

THREE-HOUR DEBATE

Three hours of sharp debate preceded the vote on the Watson motion, the Republicans charging that Senator Norris's move to bring up the Vare case now was actually a filibuster against the tariff bill.

The Nebraskan retorted by proposing to vote on his resolution to deny Vare a seat at once. Senator Reed, Republican, Pennsylvania, who is leading those favoring Vare's seating, objected.

"The charge of a filibuster," retorted Senator Norris, "is a cruel screen put up by those who would delay the Vare case in order to help Vare."

BOYS IN BLUE MARCH AGAIN

G.A.R. Veterans Stay Gamely in Parade But Some Have to Go to Hospitals Later

PORTLAND (Me.) Sept. 11. (AP)—Nine hundred "Boys in Blue," their faltering footsteps stirred by martial airs which they followed into battle more than sixty years ago, strode for a mile today in the parade opening the sixty-third national encampment of the Grand Army of the Republic.

The less than a regiment of veterans was but a remnant of the host that rallied to its country's defense in the '60's. Besides the marchers, 500 others enfeebled by the passing of time, rode in automobiles.

ONLY ONE GIVES UP

Only one of the marchers was forced to give up. He wearied and was assisted into an automobile. The rest stepped sturdily on, some on canes, some on crutches and some on the arms of younger persons. Two refused to give up until they had passed the review-stand and then were taken in ambulances to emergency hospitals.

Although many appeared weary and tired as they neared the end of the march they all drew erect and snapped to salute to their commander-in-chief, John Reese, of Broken Bow, Neb.

MASSACHUSETTS LEADS

Massachusetts had the largest contingent, 132, while Idaho had a lone representative carrying the department flag. Oregon and Georgia each had only two men in line and they staggered somewhat toward the end as the weight of the large American and department flags began to tell on them.

The proposed reunion of the soldiers of the North with those who fought for the Confederacy probably will come before the delegates tomorrow. Commander Reese today said that he, as an individual favored it. Richard A. Sneed, commander-in-chief of the Veterans of the Confederacy, by telegram last night, voiced his approval of the move, but a number of the delegates have said they objected.

Touching briefly on the fast diminishing ranks of the G. A. R., Commander Reese in his address said that the present death rate of veterans and their widows is about 125 each day, or one every twelve minutes.

ROSENSTOCK ON WAY

ROTTERDAM (Holland) Sept. 11. (AP)—Joseph Rosenstock, Kapellmeister of the Wiesbaden State Opera, sailed for the United States today on the Holland-America liner Rotterdam to succeed Artur Bodansky as conductor of the Metropolitan Opera in New York.

SAN JUAN CRASH TRIAL LAUNCHED

Mate of Ill-Fated Vessel and Two of Dodd's Men Charged With Wreck

SAN FRANCISCO, Sept. 11. (Exclusive)—The midnight lunch of August Olson, second mate of the steamer San Juan, occupied the position of greatest attention today as Federal steamboat inspectors launched the trial of three officers, who survived the crash of the San Juan and Dodd off Pigeon Point August 29. The officers are Hugo O. Bleumchen, captain of the Dodd; Otto V. Saunders, third mate of the Dodd, and Robert Papenfus, third mate of the San Juan. They are charged with inattention to duty and unskillful handling of their ships.

Olson's testimony at the preliminary investigation regarding the time af which he became aware of signal blasts blown by the two vessels just before they crashed differed somewhat from that given today. Attorneys for the Standard Oil Company, owners of the Dodd, made capital of the discrepancies to such an extent Olson finally forgot virtually everything he knew of the shipwreck except that he was eating a midnight "snack" when the two ships struck and he dashed on deck holding a sandwich in one hand and a cup of coffee in the other.

Luther Leathers of San Pedro, who was at the wheel of the San Juan, reiterated testimony given at the preliminary hearing. Briefly, he said he sighted the tanker about twenty minutes before the crash, put his wheel over half a point on orders from the mate, and just before the accident put it "hard over."

All three officers entered formal pleas of not guilty as the trial got under way before inspectors Turner and Dolan.

BANKER AVOWS ACT ALTRUISTIC

Waggoner Defends Fraud on New York Financiers

Retaliation for Easterners Closing Mines, He Says

Money Obtained All Goes to Benefit of Depositors

NEWCASTLE (Wyo.) Sept. 11. (Exclusive)—Charles Delos Waggoner, 54 years of age, president of the Bank of Telluride, a man termed by urbane financiers of New York "a seedy small-town banker," today freely admitted his guilt in the amazing and almost unbelievable $500,000 swindle of New York City banks and boasted he knew his scheme could not fail. He was taken into custody last night after a ten-day search that spread all over the country.

A slight, bespectacled, partly bald man, Waggoner is not imposing in appearance. His dress is far from immaculate and usually his suit evidences a need of pressing. He lacks personal charm and grace. But he outwitted and misled some of the most astute financial men in the nation.

PLANS PERFECTED

"I was certain my idea would not fail," he asserted. "I had been doing business with the New York banks for years and I was certain they would accept the drafts I presented." And, as he blandly boasted, the banks did grant his requests without question.

"I am solely responsible," he said. "I planned the whole thing. I arranged its execution. I went into it with my eyes open. I set out to accomplish certain things for the Bank of Telluride. I have accomplished them. *Now* I am ready to take my medicine, whatever it may be.

"Last night I got my first real night's sleep in ten days. My arrest has taken a weight off my mind."

FOR DEPOSITORS

Waggoner said his only concern is for the depositors of the Bank of Telluride and he expressed hope that Colorado State Bank Commissioner McPerson will be hounded until those depositors get their money. Fifty thousand dollars of the money obtained by Waggoner has been received by the bank and mingled with its other assets. The bank is now in the hands of McPherson in his capacity as bank commissioner.

Waggoner views his predicament without sentiment. He discusses various phases of the affair as though some one else and not himself was the culprit.

"My bank had deposits of $1,750,000 at one time," Waggoner went on. "The mining industry there had gone to the bad. I wanted to get some money for the Telluride bank that the New York banks couldn't get back.

"So I sent the coded telegrams and then went to New York and presented the drafts which transferred the money from the Chase National Bank to the credit of the Bank of Telluride. I had been doing business with the New York banks for years. I was known there and believed they would accept the drafts."

EASTERNERS BLAMED

Waggoner admittedly dislikes the eastern financiers with whom he dealt. He blames them for "wrecking Telluride." Several years ago a group of eastern capitalists bought mines in the district and shortly afterward closed them to protect interests elsewhere. One of these mines, the Smuggler-Union, closed down in December, 1928, in the past has produced $55,000,000 worth of gold ore. Since it was shut down the town has dwindled in population and many families that had lived in Telluride for years have moved away. This naturally has had its effect on financial conditions in the mining camp.

These eastern men, Waggoner contends, deprived many Telluride workers of their means of livelihood. Through his complex manipulation his people will be able to get the money they had deposited in his institution, Waggoner believes.

WAGGONER TELLS HOW HE WORKED PLAN

DENVER, Sept. 11. (AP)—The Denver Post prints a copyrighted statement today from C. D. Waggoner, president of the Bank of Telluride, dictated over telephone from the jail in Newcastle, Wyo., in which he explained details of his disposition of the $495,000 certified checks which he obtained from the Chase National Bank in New York on the strength of spurious telegrams sent from Denver.

"I drew one check for $270,000," he said. "I took that check to the Central Hanover Bank and I paid off four notes. One of them was a $100,000 obligation of the Bank of Telluride. Two notes of $50,000 each were obligations of the Norwood Cattle Loan Company. There was a $15,000 note of my own.

PAID OFF NOTES

"All of these were paid, and I directed the Central Hanover Bank to send the collateral which had secured these loans to the Bank of Telluride. I am told that was done and I feel certain that the Bank of Telluride has been relieved of obligations totaling $300,000.

"Anyway, after I had paid off the $100,000 of the Bank of Telluride and the $100,000 of the Norwood Cattle Loan Company, and my personal note of $15,000, there was $55,000 left from the $270,000 certified check. I left that on deposit in the Central Hanover to the credit of the Bank of Telluride. So far as I know it is still there.

"At the Chase National Bank, I obtained another draft for $225,000. That made a total of $495,000 drawn, and there was left in the Chase National Bank a balance of $5000 out of the half million.

AT CHASE NATIONAL

"The $225,000 certified draft was sent to the First National Bank of Pueblo and I instructed the First National of Pueblo to send through a $30,000 credit to the Continental National Bank of Salt Lake City. That was to pay a personal obligation.

"I am told the $30,000 went through as directed to the Continental of Salt Lake City. And I know, as I previously have indicated, that $50,000 was sent to the Bank of Telluride by the First National of Pueblo, also on my instructions. Consequently there is a credit in the First National of Pueblo for the Bank of Telluride of $145,000.

"My intention in the beginning was to have this money available for the Bank of Telluride. I made it available and I cannot see any reason why the depositors of the Bank of Telluride should not be protected."

QUAIL LIMIT LOWERED

PHOENIX, Sept. 11. (AP)—The bag limit on quail in the State has been reduced from twenty birds to fifteen, it was announced today by the State Game and Fish Commission. The season opens November 1 and closes December 31.

TREES TO GREET AUTOISTS' EYES

Beautification Program in Illinois May Obliterate Signboard Evil

SPRINGFIELD (Ill.) Sept. 11. (AP)—Out of the soil may come obliteration of the "signboard evil" in Illinois. The plan, a State enterprise, calls for the planting of trees and shrubs at unsightly places along the highways.

The departments of Public Works and Public Welfare already have begun work, concentrating the beautification program on the more outstanding eyesores. The idea is later to extend the program to the entire system of highways.

METAL YIELDS NEW SECRETS

Science Adds to Knowledge of Steel Structure

Tests Result of Demand for Greater Durability

Research Findings Revealed at Meeting in East

CLEVELAND, Sept. 11. (AP)—Results of research which promises a new understanding of the inner structure of metal today were revealed by Prof. Albert Sauveur of Harvard University before delegates of the American Society for Steel Treating at the National Metal Congress.

His experiments were in response to the demands of industry that steel maintains its strength in temperatures as high as 2000 deg. Fahrenheit in such apparatus as stills for refining crude oils, boilers for heating steam to super degrees and the newer mercury boilers.

The tests have revealed that austenitic steels, or those with large percentages of nickel and chromium, resist the best.

Instead of pulling a steel bar under tremendous pressure until it snaps and then measuring the pull, Sauveur twists it while it is under elevated temperatures.

The steel at first may resist stubbornly and then weaken, or weaken at an increasing rate until it breaks, the apparatus giving a full picture of this behavior. Certain austenitic steels may twist through fifty revolutions before they break.

For eighty years the music-loving public has acknowledged the superiority of the Kurtzmann piano . . . for eighty years it has been noted for its beauty, durability and lovely tone.

The new Kurtzmann grands maintain these Kurtzmann traditions and are today — as several decades ago—a wise piano investment.

Grands $850 up
Uprights $475 up

Our liberal policy—small down payment—two or more years to pay—makes the buying of a Kurtzmann an easy matter.

REFORM OF TAX SYSTEMS URGED

National Association Told Farmer Burdened

Income Measure Declared Most Equitable

Uniform Budget Plan Viewed as Money Saver

SARANAC INN (N. Y.) Sept. 11. (AP)—Arguing that a carefully prepared income tax is the most equitable tax yet devised, Stanley M. Powell, manager of the Ingleside Farm at Ioania, Mich., told the National Tax Association today that the general property tax pinches the farmer, the city home owner and the renter. All should join, he said, in an effort to obtain tax readjustment and relief.

"One of the most grievous features of the heavy taxes borne by agriculture is that the farmer has no power to pass any portion of them on or shift them in any way, as he has so little to say concerning the price which he receives for the product of his labors," said Mr. Powell.

Powell advocated three steps toward obtaining relief more efficiently in local government through adoption of administrative reforms and prevention of duplication in the functions of the various units and offices; improved machinery for the administration of the general property tax; and acceptance by the State, to a large extent, of the responsibility of financing highways and schools, thus relieving the local units of the responsibility.

"Each State should adopt," he said, "a compulsory system of standard forms for budgets, and require uniform accounting and provide for hearings and review of local budgets and bond issues."

More efficient methods of assessing farm property, said Whitney Coombs of the Bureau of Agricultural Economics, United States Department of Agriculture, constitute one of the most pressing requisites of a program of farm-tax reform.

RESIGNATION SOUGHT OF SANTA CRUZ MAYOR

SANTA CRUZ, Sept. 11. (Exclusive)—A demand for the resignation of the Mayor, Chief of Police and City Attorney on account of the "conditions of shame and debauchery" here on Admission Day will be made at an indignation meeting Friday, it was announced today by a committee of four clergymen.

TOADS HOP INTO NEW PROBLEM

Arizona Race Officials Must Decide Eligibility of African Species

TUCSON (Ariz.) Sept. 11. (AP)—The perplexing question of whether African toads are eligible to participate in a horned-toad race here the 27th inst. faces Lions Club officials who are sponsoring the race.

L. Boettcher of Ocono, Wis., has filed entry for several toads of his stable, which are of the African variety. Local fans are poring over the records of the African species to determine if the Arizona toads would be placed at a disadvantage.

BEATING OF MAGISTRATE TERMED LIE

Brother Vigorously Denies Macrery Was Attacked Over Bribe Prior to Death

NEW YORK, Sept. 11. (AP)—Charges by Edward V. Broderick, lawyer and politician, that Magistrate Andrew Macrery was beaten on the day of his death because he failed to pay $30,000 for reappointment to the bench were denied vigorously by the magistrate's brother today.

Dist.-Atty. Banton issued a subpoena for the appearance of Broderick before the grand jury tomorrow to explain his charges.

Broderick, who is contesting the power of Andrew D. Keating, Tammany leader on the Upper West Side, made his charges at a political meeting last night, and said Wallace Macrery, the magistrate's brother, intends to ask an investigation by the District Attorney and to have the body exhumed.

Magistrate Macrery died of heart disease a week after he had been reappointed to the bench for a ten-year term.

Arizona Power Conference Set

PHOENIX, Sept. 11. (AP)—In an effort to arrive at Arizona's possible power requirements from the proposed Boulder Canyon Dam, R. W. Van Orden, personal representative of Dr. Ray Lyman Wilbur, Secretary of the Interior, will meet with the Arizona Colorado River Commission here for an informal discussion of the hydroelectric-power situation in this State on Friday.

John Mason Ross, secretary of the river commission, announced the conference.

Nebraska Pilot Killed in Crash

COLUMBUS (Neb.) Sept. 11. (AP)—Frank Cropsey, 25 years of age, piloting a plane in the first annual Nebraska air tour, was killed today. He crashed from 1800 feet a half mile from the airport here.

The fall was in full view of several thousand people assembled to greet the thirty planes making the tour.

CHURCHES SEEK CHRISTIAN PACT

Twenty Denominations Will Meet in New York

NEW YORK, Sept. 11. (Exclusive) While statesmen are discussing peace relations among the nations and the Kellogg peace pact is becoming a permanent factor for international friendship, churchmen are planning a significant conference on Christian unity at St. George's Church, New York, November 13 to 15.

Members from twenty denominations will share in the conference, which will be based on the pact of reconciliation among the churches proposed by the Christian Unity League. It follows close on the Kellogg peace pact and is as simple and direct as that international instrument.

KIDNAPED WHITE WOMAN WEDDED TO MAORI CHIEF

AUKLAND (New Zealand) Sept. 11. (AP)—Kidnaped by the Maoris in childhood and eventually married to a native chief, a white woman has been restored to her relatives after nearly thirty years.

When a child 6 years of age, Caroline Perrett went to tend the cows on her parents' farm at Taranaki in the north island of New Zealand. She disappeared and it was revealed at the time that she was carried off by Maoris in revenge for the disturbance of their burial ground to make way for a railway. From then until recently no trace of her was found.

A niece of the missing woman saw a European woman with the Maoris at Tanesatua. She was struck by the extraordinary family likeness and questioned the woman, who said she had been with the Maoris all her life. She could not remember how she came to be with them.

The niece asked the woman to show her her neck, as she knew that when a child the aunt had fallen across a hot grate, which left a scar. The woman bore this mark.

She remembered the Maoris taking her in open canoe to the gumfields near Whangarei. She had married a Maori chief and had two children. The chief died recently.

BRUCE TO END PARLIAMENT

CANBERRA (Australia) Sept. 11. (AP)—Premier Bruce today decided to dissolve Parliament, following the defeat of his government by one vote on a Labor arbitration measure yesterday.

INQUIRY OPENED ON WHEAT PRICE

Farm Board Also to Study Storage Facilities

WASHINGTON, Sept. 11. (AP)—Investigation of the disparity between Canadian wheat prices and the prices of wheat in the Northwestern States, together with a study of the whole subject of grain-storage facilities, has been initiated by the Federal Farm Board.

The Bureau of Agricultural Economics in the Agriculture Department has been assigned the task of conducting the inquiry. A board announcement today said the investigation would include a study of the situation in a number of border States.

MARATHONS IRK EAST CHICAGO

Council Ponders Ordinance to Prevent Contests That Never End

HAMMOND (Ind.) Sept. 11. (AP)—The curse of the rocking-chair marathon, the skating bee, the gum-chewing tourney, and the hog-calling contest, has not yet fallen upon the city of East Chicago, and the city fathers are determined to forestall it.

An ordinance designed to prevent the promotion of marathons of all kinds is before the City Council.

The search of the house where Nickels stayed revealed documents compromising others. Those arrested include ex-Lieut. Waeschke and Bruno Von Salomon, publisher and editor of a small Agrarian newspaper. In Berlin police arrested Ernest Von Salomon, a brother of Bruno; Dr. Salinger and Hans Techow, brother of the murderer of Foreign Minister Rathenau, together with several workmen. The police also raided the offices of ex-Captain Ehrhardt, but said it could not be stated as yet whether Ehrhardt was implicated in the conspiracy.

JOHN R. CUDAHY DIES AT DWIGHT

Myocarditis Kills Son of Late Millionaire

Was Bachelor and Figured in Many Escapades

Once Disappeared Here With Wedding Day Set

CHICAGO, Sept. 11. (Exclusive) John R. Cudahy, 46-year-old son of the late John Cudahy, pioneer packer, and central figure in many spectacular escapades, is dead.

Cudahy's death at Dwight, Ill., late Monday night, was revealed today when a permit for burial at Calvary Cemetery was obtained.

The death certificate gave myocarditis, an inflammation of the muscles of the walls of the heart, as the cause.

Death occurred at the home of Andrew Nickelson, a private hotel in Dwight. There, it was learned, Cudahy was taken only a few hours before his death. Dwight is the home of the widely-known Keeley Institute, whose officials, however, denied he had been a patient there.

John R. Cudahy, sometimes known as "Young Jack," was a bachelor. He was scheduled to marry Miss Louise Chenier Francis, St. Louis society girl, at Los Angeles on January 6, 1922. But a week before the wedding young Cudahy disappeared from his apartment. Miss Francis and her mother also suddenly left their Santa Monica home.

The only explanation ever offered was by Miss Francis's father that the wedding has been "indefinitely postponed." It never took place.

For many years Cudahy had divided his time between California and Chicago, living at various hotels.

When his father died he left $1,500,000 of his estate to his son, but in trust, the son to receive only the income.

BLUSHING OYSTER FOUND TO BE INNOCENT OF EVIL

ALBANY (N. Y.) Sept. 11. (AP)—The "pink oyster," after undergoing ten years of investigation, today received a clean bill of health from the State.

It's as wholesome as those of normal color, chemists of the Department of Agriculture reported.

Dealers, said the department, were afraid of the pink bivalves, usually throwing them away or destroying the whole consignment, so the chemists investigated the private life of the oyster, to determine just why it changed color.

Some persons attributed the "permanent blush" to the presence of yeasts. The chemists studied sixteen samples and said no. Then it was suggested that the pink might be due to red plants which the oysters had consumed. Again the chemists set to work and again their answer was no.

They went to work then on the oyster's liver. They isolated crystals of coloring substance by the aid of solvents. "Bilirubin," they said triumphantly. Bilirubin, the coloring substance, they paused to explain, is harmless.

GEN. ORTIZ DECLARES MEXICO STABLE NOW

MEXICO CITY, Sept. 11. (AP)—Gen. Eulogio Ortiz, one of the staunchest of the Mexican Federal generals in the March rebellion, arrived here yesterday to assume command of the 14,000 troops which will be reviewed by President Portes Gil Monday, Mexico's Independence Day.

Interviewed by El Universal, he declared the Mexican military leaders do not intend to participate in any way in the Presidential elections in November. He said there is not the slightest likelihood of a military uprising in Mexico now.

TARIFF HINGES ON DEFINITIONS

Farm Spokesman Says Bill Favors Industry

Senators Prove Opposite By Same Figures

Difference All in Classing Processed Products

WASHINGTON, Sept. 11. (Exclusive)—Agriculture has not been placed on a parity with industry through increased duties in the pending tariff bill, it was declared by Chester H. Gray, Washington representative of the American Farm Bureau Federation, today in a letter to all members of the Senate. Mr. Gray asserted that the weighted average ad valorem rate on agricultural products has been increased from 26.34 per cent in the 1922 act to 32.60 per cent in the Senate Finance Committee bill, or an increase of 426 points. The weighted average rate on industrial products, he estimated, has been increased from 38.18 to 43.38 per cent, or an increase of 5.65 points.

The weighted average rate in the Senate bill on industrial products is 11.23 points higher than the rate on agricultural products, according to his figures, while in the act of 1922 the difference is 9.84 points. The increase in the spread between industrial and agricultural protection over the existing law under this basis of figuring is 1.39 points.

FIGURES BOTH WAYS

Using simple averages instead of weighted averages, Mr. Gray contends that much the same result is obtained.

Republican members of the Finance Committee dispute the correctness of the inferences drawn by Mr. Gray. By a different method of computation they are preparing to show that the average rate of protection on industrial products is less in the present law than on agricultural products and that the increase for the latter has been much the greater. Instead of industry gaining a still greater advantage than at present, as claimed by Mr. Gray, the contention of the Republican framers of the pending bill is that the spread has been widened in favor of agriculture.

The conflict between the two sets of figures is due to the fact that the Farm Bureau Federation classifies as an agricultural product for tariff purposes "one upon which the farmer is the prime beneficiary of a rate of duty."

PROCESSED PRODUCTS

An industrial product is defined as "one upon which a processor is the prime beneficiary of a rate of duty." Under this classification all processed farm products, such as flour, canned vegetables and refined sugar are listed as industrial products.

Under the other method of computation used by the Republican framers of the bill, all imports under the agricultural schedule and under the sugar and tobacco schedules and raw wool from the wool schedule are classed as agricultural products. The average ad valorem rate under the existing law on agricultural products as thus grouped is 42.76 per cent, while the average rate for industrial products is only 29.76 per cent.

OTHER SIDE OF SLATE

The House bill increased the rate on agricultural products by 32 per cent and the rate on industrial products by 18 per cent. The percentage increase for agriculture in the Senate bill is slightly less for agriculture than in the House bill and considerably less for industrial products, according to the Republican figures.

The argument promises to be one which will cause endless debate with neither side conceding the correctness of the other's position.

The Senate today approved the motion of F. M. Simmons, Democrat, North Carolina, ranking minority member of the Finance Committee, to consider administrative problems ahead of rate schedules. Senator Smoot, Republican, Utah, chairman of the Finance Committee, joined in asking approval of the motion. Senator Simmons will make the opening attack on the tariff bill tomorrow.

Capitalist Wins Fight for Child

REDWOOD CITY, Sept. 11. (AP)—Walter H. Linforth, Peninsula capitalist, today won his battle to gain custody of 3-year-old "Billie Marie" Threlkeld, his grand daughter. The Superior Court ordered the child to the custody of the grandfather as long as he lives and stipulated that the father, William S. Threlkeld, former Los Angeles stable master, and the mother, Walta Linforth Threlkeld, might spend a reasonable amount of time with the girl.

In event of Linforth's death before the girl reaches the age of 21, custody will revert to her father, the court said.

PEDESTRIAN TRAFFIC SIGNALS IN OPERATION

BAY CITY INAUGURATES NEW SYSTEM FOR WALKERS ON MARKET STREET

SAN FRANCISCO, Sept. 11. (AP)—Pedestrians of San Francisco started walking under more stringent traffic rules today, with inauguration of a new stop-and-go signal system on Market street.

Previously pedestrians had been required to observe the same signals as motorists. A separate system was installed for pedestrians after trying out an anti-jaywalking ordinance for a year in the belief that a separate system would make walking safer.

Under the new system pedestrians must stop at street intersections when a red light flashes. A green light is the signal to go. They are to pay no attention to the bell signals for automobiles and street cars.

Inauguration of the new method of controlling pedestrian traffic was marked by a parade. At noon Mayor Rolph turned on an electric switch at Market and Montgomery streets that set the mechanism in motion. It operates by automatic control.

RUSSIAN JEWS' LOT FOUND SAD

Rabbi Returns With Doleful Picture of Conditions

Life Being Snuffed Out of Millions, He Reports

Death and Insanity Hailed as Agents of Mercy

PARIS, Sept. 11. (AP)—After four weeks spent in soviet Russia investigating the conditions of Jews living under the Bolshevik regime, Rabbi Simon Glaser, president of the Central Council of Rabbis of Greater New York, has returned to Western Europe convinced that "slowly but surely the life is being snuffed out of more than 3,000,000 Russian Jews by the iron rule and diabolical ingenuity of Bolshevism."

Rabbi Glaser passed most of his time while in Russia in the villages. He got in touch with Russian rabbis and Jewish faithful.

DEATH WELCOMED

From the results of his investigation he told the Associated Press correspondent that not more than 10 per cent of the number of Jews once in Russia now are attached to Judaism there. Among those who have survived the troubles of the last ten years "death and insanity are considered messengers of mercy," Rabbi Glaser said.

He interviewed several of thirty-one rabbis who signed a proclamation to the Jewish world last December saying religion is guaranteed freedom in Russia and that they have no need of outside help.

"They told me they were all forced to sign at the point of a pistol or under the threat of having their families scattered."

RICH "HOODWINKED"

Rabbi Glaser said several rich American Jewish philanthropists have been "hoodwinked" into contributing to the foundation of colonies in Russia. He found "not a single colony inhabited today by the original settlers."

Rabbi Glaser affirmed that rabbis' homes have been confiscated, Jewish cemeteries turned into parks and synagogues into public buildings.

"There is no antisemitism in Russia because there is no longer any need for it. Jewish life as such no longer exists in that country."

TAX TOTAL FIGURED

BAKERSFIELD, Sept. 11.—Kern county taxpayers must raise a grand total of $5,273,856 in taxes this year, according to figures prepared by County Auditor S. A. Woody. Of this total the taxpayers have voted more than half of the amount on themselves by special taxes, or $2,726,019, according to the Auditor's office.

EX-WIFE SUES M'ARTHUR

Screen Critic Seeks to Have Set Aside Playwright's Marriage to Helen Hayes

SPRINGFIELD (Ill.) Sept. 11. (AP)—Asserting that she had been given a divorce against her will and over her objection, Carol Frink, screen critic on a Chicago newspaper, today started legal action which if successful will annul the marriage of her former husband, Charles MacArthur, playright, and Helen Hayes, actress.

Miss Frink filed for a writ of certiorari in the State Supreme Court, asking a review of an Appellate Court decree. She filed the original bill charging extreme and repeated cruelty, her petition states, but by the time the case got to the Appellate Court she had decided not to get a divorce. She moved for dismissal of the case, she asserts, but the court granted the decree anyway.

MacArthur and his first wife were divorced several years ago. Since then he has married Helen Hayes, star of "Coquette" and other plays. If the divorce is set aside, as Miss Frink requests, the second marriage will be annulled.

MacArthur wrote the play "Lulu Belle" and collaborated with Ben Hecht in writing "The Front Page." He also is the author of several war stories, including the novel, "War Bugs."

EQUITY FIGHTS ACT-OF-GOD PLEA

NEW YORK, Sept. 11. (Exclusive) The "act of God" plea which Jed Harris, theatrical producer, made to the Actors' Equity Association, when six members of his "Coquette" company demanded two weeks' salary from him on the closing of his play in Los Angeles July 27, has been declared unavailing so far as child birth is concerned.

Harris was notified today by the Equity that the expected arrival of a baby in the Helen Hayes-Charles MacArthur family, which caused the closing of the play, was not an "act of God" and that he must abide by his contract with his players.

When "Coquette" was being played in Los Angeles last July, Helen Hayes, the star of the production, announced that she was unable to continue in her part and the show was closed. Six members of the cast had signed a "run of the play" contract with Harris, calling for a continuance of the play until the 30th inst., with Miss Hayes as the star. The six players took their grievance to Equity.

Windy City Man Taken for Ride

CHICAGO, Sept. 11. (AP)—A man believed to have been Charles Brown, precinct captain for Alderman Dorsey Crowe, was "taken for a ride" and slain tonight.

His body, shot several times through the head, was dumped from a curtained automobile in the center of the South Side's "foaming fifties," scene of many recent beer-war shootings.

COAST GIRL KIDNAPED IN OWN HOME

Small Sister Tells How Two Men Dragged Victim from House By Hair

MARTINEZ, Sept. 11. (AP)—The kidnaping of a 17-year-old girl in Pinole late today by two unidentified men, who dragged the girl from her home by her hair, was told tonight in reports to the Sheriff's office here. The girl is Amisita Avila, daughter of Mr. and Mrs. John Avila of Pinole.

While their parents were absent, a younger sister told Pinole police, two men entered the Avila home and seized the elder girl. When she attempted to fight them off, the younger sister said, Amisita was thrown to the floor and dragged from the house by her hair to a waiting automobile.

Carquinez bridge employees reported seeing a touring car with two men and a girl riding in the front seat, shortly after the kidnaping. The machine crossed the bridge and headed toward Oakland, they said. The Sheriff's office has broadcast the girl's description throughout the State.

American Missed in Mid-Atlantic

MANSFIELD (O.) Sept. 11. (AP)—Relatives and friends of Claude V. Marks, secretary of the Ohio Brass Company, who disappeared from the White Star liner Homeric, while en route to France, tonight awaited word from the ship officials, who promised an investigation as soon as the liner docks at Plymouth, Eng.

Marks sailed with Charles K. King, president of the brass company, from New York Saturday. They were going to France to discuss contracts with the concern's French representatives.

Late last night William A. Springer, assistant treasurer of the company, received a radiogram from the ship notifying him that Marks had been missing for twenty-four hours.

ARAB ATROCITY CHARGE SIFTED

Bodies of Hebron Massacre Victims Exhumed

Board of Doctors Conducts Grewsome Work

Jewish, British and Moslem Physicians Attend

(Copyright, 1929, by Chicago Tribune.)

JERUSALEM, Sept. 11. (Exclusive)—The grewsome work of exhuming the bodies of the fifty-seven victims, including eight Americans, of the Hebron massacres, began this morning. The object of the ghastly work is to determine whether the Arabs mutilated as well as killed.

In public statements since the massacres the Arabs invariably quoted that the department of health reported that the bodies at Hebron were not mutilated and since the Jews reported mutilations the latter demanded re-examination of the bodies, despite the fact that exhumation is against the Jewish religion.

POLITICAL ANGLE

Political significance is given the examinations, for if mutilations are discovered the fact will be presented by the Jews as proof that the British authorities tried to discredit them, minimize the massacres and whitewash as much as possible the Arabs.

The small cemetery on the top of a hill is surrounded by cordons of British soldiers and Arab police. The route to Hebron itself is heavily guarded. The commission investigating the mutilations is composed of three groups of physicians, with three in each group, Jewish, Arab and British.

NONE DISCOVERED

The bodies are put on litters and carried to an improvised room, where they are examined first by the Jewish doctors. Unless they discover a mutilation the body is returned and another brought in. If mutilation is discovered, the attending British doctors are called, whereupon the Arab doctors are requested to acknowledge the fact. Today passed without any mutilations being discovered. The work is going on in the strictest privacy, with even the newspaper men being barred.

PUBLISHER URGES GIVING UP OF MANDATES

LONDON, Sept. 11. (AP)—Viscount Rothermere, in a signed article to appear tomorrow in the Daily Mail, of which he is the chief proprietor, says that England should hand back its mandates for Palestine and Irak to the League of Nations forthwith "or the Middle East may be our ruin."

He suggests that the United States is much more attractive to the Jews as a national home than the prospect of "patriarchal poverty in Palestine."

WOMEN TO PUFF BEHIND BARS

Ban on Smoking at Joliet Is Slated for Removal By Prison Board

JOLIET (Ill.) Sept. 11. (Exclusive)—The 107 women prisoners at the State penitentiary will be permitted to smoke. The age-old ban on smoking will be lifted at the woman's prison when Mrs. Bertha Finnegan, the new superintendent, takes office.

The official announcement, which is expected to be made by the State Prison Board tomorrow at Springfield, will be extended to other prisons.

Publicly Owned Radio Stations Urged in Canada

OTTAWA, Sept. 11. (AP)—Building of seven high-power radio broadcasting stations by the Canadian government at a total cost of $3,225,000 to replace the privately owned stations throughout the Dominion and furnish nation-wide programs under public ownership was recommended today by the royal commission appointed to investigate the problem.

To finance operation of the national chain, with annual expenses estimated at $2,500,000, the commission proposed to raise the receiving-set tax from $1 to $3 and suggested a Dominion subsidy of $1,000,000 annually for five years. Revenue from indirect advertising was estimated at $700,000 a year. Direct advertising would be barred.

Metal Dirigible to Lakehurst to Undergo Trials

DETROIT, Sept. 11. (AP)—The ZMC-2, first all-metal dirigible, took off at 9:58 o'clock tonight from Grosse Isle airport for Lakehurst, N. J.

The dirigible is expected to reach Lakehurst about 9 a.m. tomorrow. Capt. William E. Kepner is piloting the craft and is accompanied by Sergt. Joseph Bishop, copilot, and Lieut. H. J. Dugan, naval observer.

Further tests will be made at Lakehurst before the ship is accepted by the Navy.

SPEEDBOAT OWNER DROWNS

VANCOUVER (B. C.) Sept. 11. (AP)—Unable to swim, Capt. John Boydell of Victoria, owner of the speedboat Sally No. 1, was drowned in Barkley Sound on the west coast of Vancouver Island yesterday when the boat was destroyed by fire.

CHINESE IN LEAGUE ROW WOULD QUIT

Delegation Threatens to Secede if Body Delays Off Extraterritoriality Action

GENEVA, Sept. 11. (AP)—The Chinese delegation to the tenth Assembly of the League of Nations threatened to withdraw tonight following rejection by a committee of a resolution submitted by Dr. C. C. Wu, Minister to Washington and leader of the deelgation here.

Dr. Wu asked adoption of a resolution for revision of treaties which have become inapplicable. Article XIX of the covenant of the League says that the Assembly may from time to time advise reconsideration of such treaties. To the dynamic Ambassador these treaties are those conferring extraterritoriality privileges in China on foreign powers.

By a vote of three to four the agenda committee of the Assembly tonight decided it was unable to transmit the resolution to the juridical committee of the Assembly on the ground that it opened up a question of too vast an importance.

The Chinese representative thereupon announced that if the committee did not find a way to change its decision his delegation might be obliged to leave the Assembly. Adherence of the new Nationalist China is of importance to the League and leaders of the international organization tonight were seeking to adjust the crisis.

It saves you enough to buy a dozen handkerchiefs

Buy yourself some handkerchiefs with what you save by using Listerine Tooth Paste at 25¢ the large tube, instead of dentifrices in the 50¢ class.

The saving averages about $3 per year per person, assuming you use a tube a month.

Your teeth can be WHITE LUSTROUS BEAUTIFUL

BRUSHED with the correct dentifrice, teeth that now are unattractive may become lustrous and beautiful—and in a very short time.

We waited many years before producing a tooth paste. During that time we studied every phase of dental caries (decay) and oral hygiene.

At last we produced a remarkable dentifrice—and gave it our name.

Now we ask you to try it—to give it a thorough trial. We ask you to note how naturally and gently it removes discoloration and tartar. Note, too, the wonderful luster it imparts to teeth.

That is due to modern ingredients which first cleanse, then polish. They are harder than tartar, so destroy it. But they are softer than enamel, therefore are harmless to it.

And remember that Listerine Tooth Paste costs you 25¢ not 50¢. A clear saving of about $3 per year. Lambert Pharmacal Company, St. Louis, Mo.

Finer flowers
hardier shrubs

Read Simple Directions

Apply Vigoro Evenly

Wet Down Thoroughly

YOU'VE admired them on the better homes—those *finer* wintering flowers. Large, abundant blossoms of rich color. And luxuriant dark green shrubbery.

Now you can enjoy this same beauty on your own grounds—quickly! You can *feed* your flowers and shrubs—the method long used on large estates.

Follow the simple method shown here—with Vigoro. 2,000,000 homes are beautified this way!

Vigoro will bring you a finer lawn, too. Leafier trees, a thicker hedge. It quickens growth, increases humus.

Vigoro is the largest-selling plant food. The reputable landscape gardeners and leading nurserymen use Vigoro. It's complete, scientific, properly balanced. *Clean and odorless, free of weed seed.* Pleasant to handle, easy to apply. And inexpensive!

Your dealer in lawn and garden supplies has Vigoro. Order from him today!

Swift & Company

FREE BOOK

"The Gardening Handbook," written by a well-known plant physiologist, contains valuable suggestions for developing finer lawns, flowers, vegetables, shrubs, and trees. Write for your free copy! Address Swift & Company, 4003 Packers Ave., Chicago.

Vigoro comes in 100, 50, and 25 lb. bags, and in 5 lb. packages. For real results, be sure to order enough Vigoro!

DE SANO WILL DIRECT STAR

Mae Murray to Start Work On "Peacock Alley" Soon

James Murray May Essay Lead for Universal

Shannon Day Signed for Fine M.-G.-M. Role

BY GRACE KINGSLEY

When Mae Murray goes to work for Tiffany-Stahl in her talking version of "Peacock Alley," she will have as her director Marcel De Sano, who has been borrowed from Paramount to guide Miss Murray's artistic footsteps in this revival of one of the star's greatest former successes.

MAE MURRAY.

De Sano is becoming a very busy man. He will begin work on the direction of Ruth Chatterton in "Zaza," for Paramount, as soon as the Murray film is finished.

George Barraud, the English actor who played opposite Norma Shearer in one of her recent pictures, is to appear opposite Miss Murray.

"Peacock Alley" is to have color sequences and Tiffany-Stahl plan to make the film one of the most pretentious of the year.

JAMES MURRAY MAY HAVE LEADING ROLE

While there is nothing official to report, we understand that there is a strong likelihood that James Murray may take the lead in "All Quiet on the Western Front," which Universal is to produce.

JAMES MURRAY

Another possibility for the part, although he is not under contract to Universal, is Doug Fairbanks, Jr., whose splendid work at the Vine street in Philip Barry's "The Youngest" is delighting all his admirers.

Either of these young actors would be perfect in the role, it seems. Whoever wins is going to have our heartiest support.

Shannon Day With M.-G.-M.

As everybody knows, there are two leading feminine roles in Metro-Goldwyn-Mayer's "Lord Byron of Broadway," which William Nigh is directing.

Shannon Day was signed for one of these yesterday. Miss Day began her career, as everyone remembers, in the Follies. She has appeared in both films and in stage plays locally during the past few years. Her present role will provide a fine acting opportunity.

Ethelind Terry, as heretofore announced, will have the other leading feminine role, while Charley Kaley is to be leading man.

Norman Kerry to London

Norman Kerry, having received a fine offer to appear in a talking feature to be made in London by the British concern known as World Films, sees no reason for turning the opportunity down.

He is, therefore, according to word just received, sailing from New York for Europe within the next few days to undertake the star role in a picture, the name of which we did not learn.

The actor owns a home near London, and there his wife, from whom, according to report, he has been estranged, is living with her little daughter. As is known, Kerry has been trying to effect a reconciliation with his wife.

Roy Pomeroy's New Camera

While Roy Pomeroy may seemingly be quiescent these days, the fact of the matter is he is busy on a new invention.

The invention is nothing less than that will-o'-the-wisp ideal of the picture business, a third-dimension camera. He brought the germ idea in the form of an uncompleted camera invention from Europe with him when he returned a few months ago and has been working to perfect it ever since.

Pomeroy, as you remember, was the genius behind the talking device which Paramount uses in its productions.

Jean Arthur With Buddy

America's boy friend has a new girl friend. Jean Arthur is to be Charles Buddy Rogers's leading lady in his next Paramount starring picture, adapted from Henry L. Gates's best seller, "Here Comes the Bandwagon," which George Abbott is to direct.

JEAN ARTHUR

Another important member of the cast was added yesterday. He is Paul Lukas, who will have the heavy villaining work to do in the picture. You may remember how successful he was with the professional dirty work in "The Wolf of Wall Street."

Will Kernell Writes Operetta

The production of operettas in the sound pictures is opening up a whole new field for those musical persons attached to studios who really understand composition.

Will Kernell, with Fox, is now writing an operetta. The operetta is called "The Lost Waltz," and is from a work of fiction of that name. The locale, however, is to be changed from New York and Sherry's to the more romantic atmosphere of a delightful old-time restaurant in New Orleans.

El Brendel's Wife In Films

While no contract has yet been signed, we understand that El Brendel's wife, Flo Bert, is to go to work under the Fox banner, the movie standard with which Brendel himself is allied.

Miss Bert was formerly her husband's vaudeville partner. When Brendel went into pictures, the young actress declared that she was retiring from the profession. But when Winfield Sheehan, who saw her assisting her husband in a screen test, invited her to reconsider her decision, she promised she would.

Joe Cawthorn In It

Joseph Cawthorn has just signed for the leading comedy role in R.-K.-O.'s "Jazz Heaven," which Mel Brown is directing, we learned yesterday.

The actor was formerly a musical-comedy star of note. He went into pictures a couple of years ago, and has played some important roles in the talkers.

SHOPPING-ologue
HOLLYWOOD BOULEVARD
"STYLEGESTER OF THE WORLD"

By YVONNE of Hollywood

The three fashionable Pig'n Whistle cafes in Hollywood provide a pleasant retreat for the after-theater crowds, bridge teas or the passer-by in quest of delicious food served in an attractive environment. Only to the true epicurean and connoisseur of beauty do these delightful rendesvous appeal. No matter where you may be on the boulevard you are sure to find the sign of the "Little Pig" close by.

The princess silhouette leads all other types.

Capelet themes find many sponsors for neckline variation.

The higher waistline is stressed everywhere.

Circular and low-placed flares are noted.

Lingerie collars, cuffs and vestees are strongly indorsed.

Novel cuffs are introduced on coats and gowns.

The croquignole permanent being offered at the Studio Beauty Shop, 1679 N. Western, for $5, is creating much favorable comment among the smart women of Hollywood for its beauty and individuality.

The multistrand necklaces, already familiar in seed pearls are being shown now in shimmering iridescent beads of bugle shape to match the new autumn colors. An unusually effective color combination intertwines chocolate brown strands with gold beads. These necklaces follow the usual multi-strand designs—chokers in loose stranda, braided lariats ending in deep looped multistrands, long twisted ropes or the longer necklaces made of loose stranda with accents of clear stone. Whatever the design, the finished effect is exquisite.

Metal cloth is used extensively for formal gowns and wraps.

Printed silks come in tweed and plaid effects.

The bridle paths were never more alluring than now, though your morning canter will be doubly enjoyable if you choose your saddle from Bohlin Co., 1610½ N. Cahuenga, English and western saddlery. Expert repairing on all leather goods.

Woolens are featherweight.

Tweeds and homespuns are much in evidence.

Brown, the deep reds and various shades of green are leading colors.

The Knit Shop, 6648½ Hollywood Blvd., in accordance with fashion's latest whim for tweeds, is showing tweed effects in stunning knit sport coats and ensembles which are creating quite a furore along the boulevard. These are moderately priced at $19.75 and up.

Velvets lead, with panne and transparent favored.

Crepe satins, faille and stiff silks follow closely.

"Men Page" perfume, blended by Gerly for the fascinating little star of "Broadway Melody" fame. Blended fragrance—magnetic in its attraction — a counterpoint of odeurs exquisite. Crisp coolness of the north caught in a nimbus of soft, fair hair. Languorous grace of carriage that thrills—that sways like fronded leaves in warm Southland breezes. A contrast acclaimed for its rarity by artists of every land. Token size. At all exclusive shops.

Modernistic weaves meet favor.

The sports silhouette is changed in accordance with the new silhouette of other occasions though much modified. Sports skirts are four inches below the knee, and most of them have a normal waistline or at least simulate one. Often a wide belt is used in lieu of the hip-yoke effect.

Evening mode as well as afternoon favors the uneven hemline.

Tiers continue in fashion.

A MESSAGE FROM THE MAKERS OF THOS. HEATH CLOTHES...

"We take pleasure in sending you a number of genuine Irish Twist suits, which we believe your clients will find particularly appropriate for the Autumn." Thus, with characteristic restraint, the makers of Thos. Heath announce the most notable new suits of the season. Not a word about their sightliness. Not a word about their comfort. Not a word about the hand work, personal supervision, and everlasting fussing with details incident to their makeup.

Thirteen Escape as Plane Sinks

TRAVEMUENDE (Germany) Sept. 11. (AP)—Al Rhirteen passengers and crew of the Rohrbrack superhydroplane Romar escaped with their lives today when the great craft submerged after a forced landing. The Romar rests in sixty feet of water.

Salvage vessels rushed to the spot, but have not yet raised the plane.

Escaped Convict Shot by Police

BUFFALO (N. Y.) Sept. 11. (AP)—Steve Pawiak, Buffalo convict, who, with three companions, escaped from Auburn State prison during the riots of July 28, last, was shot and seriously wounded early today in a gunfight with Buffalo police. Hospital surgeons said his death is a matter of only a few hours.

At the time of his escape from Auburn Pawiak was serving a life sentence under the Baumes law for the hold-up and robbery of a gasoline station.

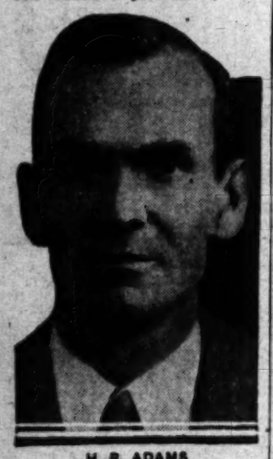
ALLEN MADE COLONEL OF GUARD INFANTRY

SACRAMENTO, Sept. 11. (AP)—Adjt.-Gen. R. E. Mittelstaedt, chief of the California National Guard, announced today the promotion of Lieut.-Col. Wayne R. Allen of the One Hundred and Fifty-ninth Infantry at Oakland to the rank of colonel in the same unit. Col. Allen is to succeed Col. A. J. Eddy, deceased. He served on the Mexican border and in the World War. His promotion is of interest to units of the One Hundred and Fifty-ninth in Oakland, San Francisco, Hayward, Alameda, Berkeley and San Jose.

Adams' Friends All Agree That It's Wonderful

"Sargon did me such a world of good that I've recommended it to lots of my friends. Every one of them have thanked me and we all agree that it's the finest medicine ever made.

"I suffered for years with a severe case of stomach trouble. I had 'knife-like' pains in my stomach day and night and my stomach at times seemed as sour as vinegar. Indigestion robbed me of many a meal because I dreaded the awful pains I knew would follow. Gas would form in my stomach and press up against my heart and although I knew I didn't have heart trouble, it surely did feel like it. My food didn't nourish me and I was so weak that the least exertion tired me out. My nerves were all 'shot to pieces' and my sleep was so restless that I'd wake up, feeling worn out and weary. I fell off in weight and although I did everything I knew to do, my condition became worse instead of better. I was constipated, too, and my whole system was so run down that I felt bad all the time.



H. R. ADAMS

"It's wonderful the way Sargon picked me right up and ended my trouble. It just seemed like it was made especially for my case. I can eat meat, potatoes and heavy foods of all kinds now and my stomach never bothers me. The acid condition in my system is all gone and gas and heart palpitation never worry me. I eat three hearty meals every day and sometimes between meals. Every bit of my nervousness is gone and I sleep fine every night. I just feel stronger and better in every way than I have in years.

"Sargon Pills are wonderful. They ended my constipation, without upsetting me in the least.

"The Sargon treatment certainly made me feel great and I feel like it's my duty to pass the good word along so others may benefit by my experience."

The above statement was made by H. R. Adams, 2310½ S. Curson Ave., Los Angeles.

Hundreds are daily calling on the special Sargon representative at the Owl Drug Store, 6th & Broadway, to learn more about the remarkable new medicine. Sargon may also be obtained at all Owl Drug Stores in Los Angeles and other cities.—[Advertisement.

VETERANS PICK GREEN AS CHIEF

Spanish War Group Elects Michigan Governor

Confederate Warrior Given Ovation at Convention

Angeleno Elected as Senior Vice-Commander

DENVER, Sept. 11. (AP)—Fred W. Green, Governor of Michigan, was elected commander-in-chief of the United Spanish-American War Veterans here today.

Green was given a two-to-one majority over Col. Winfield Scott of Enid, Okla., former commissioner of pensions under the Coolidge administration. Green polled 839 votes and Scott 427. No other nominations for commander-in-chief were placed and the anticipated three-cornered fight failed to develop when supporters of Otto N. Raths of St. Paul did not place his name in nomination.

Resolutions on scores of subjects ranging from pensions to church attendance were disposed of today by the convention. One proposal by the Monmouth (Ill.) veterans to put the U.S.W.V. on record as favoring religious instruction in public schools of the country was allowed to go by without action.

Failure of public schools to give religious instruction will "eventually cause the downfall of our government," the proponents of the resolution said.

OVATION FOR SPEAKER

One of the most impressive ovations of the entire encampment was given Maj.-Gen. A. Appleyard, Confederate veteran of Tallahassee, Fla., when he addressed the assembly. The distinguished southerner put the delegates in an uproar when he gave the Spanish War veterans credit for healing the wounds of the Civil War.

The encampment went on record as opposing the abandonment of the veterans' hospital at Fort Bayard, N. M.

It was decided that services conducted in Arlington Cemetery in commemoration of the sinking of the battleship Maine will be in charge of the U.S.W.V. national officers instead of the Washington camps of the organization.

Indorsement was given a proposal that the United States and Cuba join in erecting a memorial at Tampa, Fla., commemorating the Spanish-American war heroes. The veterans also voted to donate $1000 toward the building of a chapel at the Walter Reed Government Hospital in Washington.

DEWEY'S FLAGSHIP

A resolution to pass unanimously was one favoring the preservation of Admiral Dewey's flagship, the Olympia, as a memorial.

New Orleans was selected as the 1931 convention city by a vote of 762 for 463 over Oakland, Cal. Philadelphia already had been designated for the 1930 convention.

Other elections were:

Senior Vice-Commander-in-Chief Robert Mankowski of Los Angeles, over Frank Shea, department of Connecticut, and E. W. Simmons of Wisconsin. Surgeon-General H. L. Davis, Rockford, Ill., elected without opposition.

Chaplain-in-Chief Roy B. Parcel of Ferndale, Wash., over Thomas H. Derrick of Massachusetts.

AUXILIARY ELECTION

Lulu Shakespeare, Everett, Wash., was elected president of the national auxiliary. She was succeeded as national senior vice-president by Edith H. Bird of Toledo, who had been national junior vice-president.

National chaplain for the new term will be Anna C. Jesmier, Los Angeles.

Other uncontested offices of the auxiliary were filled as follows: Cora A. Thompson, Portland, Or., national judge advocate; Margaret Herzog, Milwaukee, national inspector; Julia Coursey, South Dakota, national historian; Lucille Pinard, Cheyenne, Wyo., national assistant guard; Gertrude McCarren, Portland, Or., member of educational board for three years.

Mary E. Craig of Denver was elected national president of the Spanish-American War Nurses.

Other officers chosen are Mary Kennedy Morrison, California, secretary; Margaret Thompson Howe, Washington, D. C., treasurer; Helen B. Schuler, New York, correspondent; Eliza A. B. Jones, Illinois, chaplain; and ten vice-presidents, Eva T. Green, Virginia; Esther S. B. Hasson, Washington, D. C.; Mary E. Buckley, Ohio; Mary D. McDonald, Illinois; Elizabeth McCoy, Ohio; Kitty E. Doxsee, Florida; Hannah M. Daddell, Illinois; Elizabeth Hewitt, Massachusetts; Laura Beecroft, Arizona, and Bertha C. Holland, California.

Jury Ready for Trial of Woman in Bank Hold-up

NEW BRAUNFELS (Tex.) Sept. 11. (AP)—A jury was completed here today for the trial of Mrs. Rebecca Bradley Rogers, former University of Texas student, charged with the robbery of the Farmers' National Bank of Buda, Tex., in December, 1926. Many veniremen showed reluctance to serve and 132 were examined before the jury box was filled.

Otis Rogers, young lawyer and husband of the defendant, said an insanity defense will be presented. Mrs. Rogers was convicted on a charge of robbery with firearms at La Grange, Tex., and sentenced to fourteen years in prison, but won a new trial.

Dry Agent Death Suspect Indicted

DETROIT, Sept. 11. (AP)—John M. Heath was indicted by the Federal grand jury today on three counts in connection with the death in the Detroit River of Richard J. Sandlands, Federal prohibition agent, August 2, last.

The indictment charges Heath with assaulting a Federal officer with a deadly weapon, making away with government property and violating the Tariff Act in attempting to smuggle liquor into the United States.

THE *New* PACKARD EIGHTS

Built in three complete and luxurious lines - at three distinct ranges of price

The new series Packard Straight Eights are outstandingly more advanced, more beautiful, more comfortable and convenient than any Packard cars in history. They embody all the engineering improvements and the enriched luxury which the world naturally expects from Packard.

Three complete lines of cars are included in the new series. They cover the entire fine car field—and dominate it! In value they range from the costliest individual custom creation to the lowest figure at which a truly fine car can be sold.

In excellence of engineering and expert craftsmanship all Packard cars are alike. But they differ in size, power and degree of individuality available in color, upholstery and appointments.

Whether you desire the supreme luxury of custom designed coach work—fitted, trimmed and upholstered according to your personal tastes—or the comfort, beauty and distinction of a Packard in the usual full measure, you will find among the new series Packard Eights a car to meet your exact requirements.

THE DE LUXE EIGHT

The Packard Eight De Luxe with its 145½-inch wheelbase is the largest, roomiest and most perfectly appointed car which Packard has ever produced. It is practically an individual custom creation, for fittings, appointments, and upholstery—as well as colors and trim—are usually the individual specifications of the purchasers.

The Packard Eight De Luxe literally provides the supreme degree of luxury in motor car transportation. Its size, its power and speed, its divan-like comfort and ease of control are luxuries in themselves—while the very satisfaction of owning and riding in the world's finest automobile is perhaps the greatest luxury of all.

Prices at the factory range from $4585 for the Roadster to $5350 for the Seven-Passenger Sedan Limousine. The finest masterpieces of the world's most famous individual custom-body builders are also available to order at prices up to $10,000.

THE CUSTOM EIGHT

For those who desire the power and speed of the De Luxe engine, Packard also provides the Custom Eight. Built on a chassis of 140½-inch wheelbase, it is powered with the same motor—the famous Packard Straight Eight, with its nine-bearing crankshaft, improved and developed to new standards of performance.

The Packard Custom Eight, with its new and enriched fittings and upholstery, its greater refinement of detail, offers today luxury far beyond that of any famous Packard of the past. Save for the Packard De Luxe Eight, it is truly the world's finest motor car—in brilliance of performance, in beauty and distinction of appearance.

Prices at the factory range from $3190 for the Roadster to $3885 for the Seven-Passenger Sedan Limousine. A wide choice in color and upholstery is available for any of the eleven beautiful body types.

THE STANDARD EIGHT

The Packard Standard Eight is a smaller edition of the larger and costlier Packard cars. It is provided for those who desire the luxury and distinction of Packard transportation in cars of modified wheelbase and at more moderate price.

Eleven distinguished models are available in the Standard Eight line—each one a Packard through and through, powerful, smooth and fleet.

Like the De Luxe and Custom Eights the new Standard Eight cars offer important engineering advances and refinements of detail. Nothing to provide for the comfort and convenience of owners has been omitted from these new cars. It is literally true that Packard engineers can think of nothing to make these Packard cars more complete.

Prices of the Packard Standard Eight at the factory, including a wide choice of colors, range from $2375 for the Five-Passenger Sedan of 127½-inch wheelbase to $2775 for the Seven-Passenger Sedan Limousine with wheelbase of 134½ inches.

All new series Packard Eight cars include the new, inside, adjustable sun visors, adjustable driver's seat and steering gear, newly perfected shatter-proof glass, dash board lockers and new beauties of fixtures and upholstery. All provide the improved powerplant with its new four-speed transmission and still further refined straight-eight engine.

We cordially invite you to come and see the new series Packards—to drive the model of your choice. Then let us show you, with pencil and paper, how you can enjoy the luxury and distinction of Packard transportation—very likely at no greater expense than you are paying for your present motoring.

ASK THE MAN WHO OWNS ONE

LOS ANGELES WILL BE PROUD OF SILVERWOODS NEW STORE

[5522 Wilshire Boulevard, near La Brea]

A MONUMENT TO STYLE AND VALUE LEADERSHIP

Silverwoods great store at Sixth and Broadway has kept pace with the marvelous growth of Los Angeles

As the city has taken a commanding place in population, and in progress, the store has gained a national reputation for its smart styles, fine service and great values

Now Los Angeles has become too great to be adequately served by one store from a single location. Silverwoods have met the city's needs with this second beautiful store in the famous "Miracle Mile" of Wilshire

We are happy to be represented in Los Angeles by two such stores

HART SCHAFFNER & MARX

LOCATION

A FAVORABLE FACTOR IN WHICH HUNTINGTON PALISADES SCORES 100%

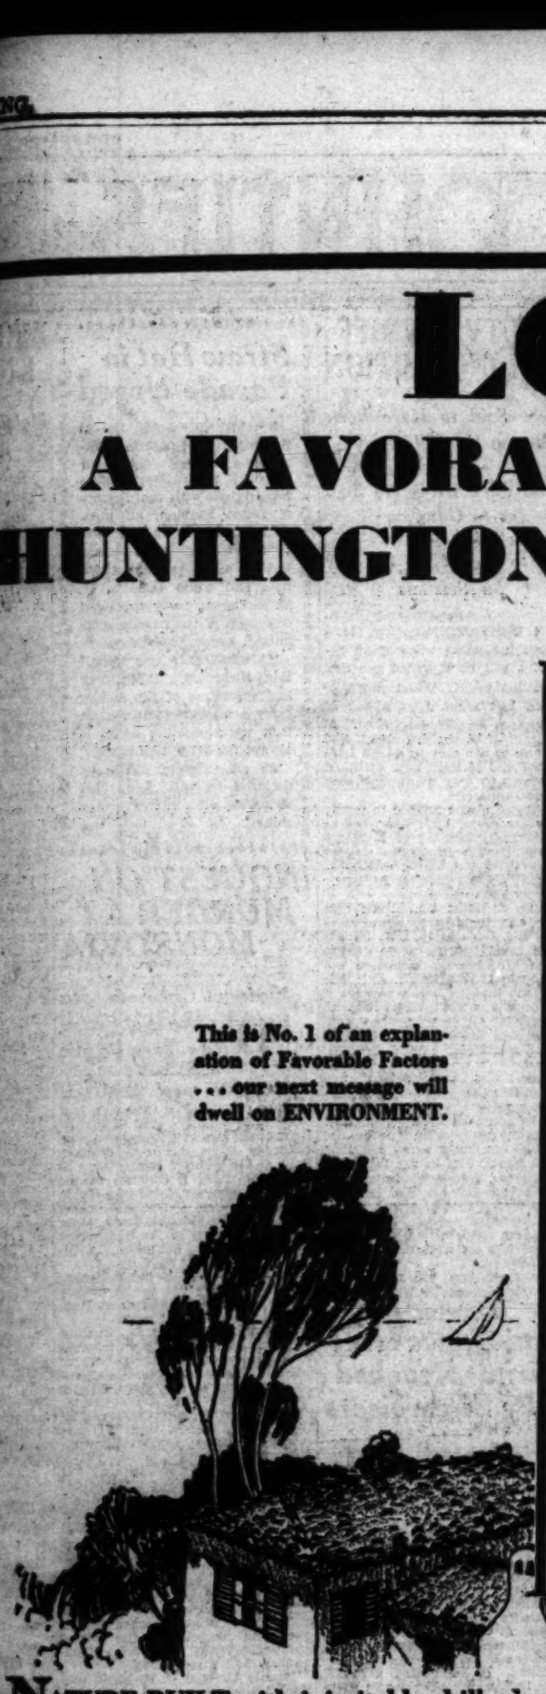
This is No. 1 of an explanation of Favorable Factors . . . our next message will dwell on ENVIRONMENT.

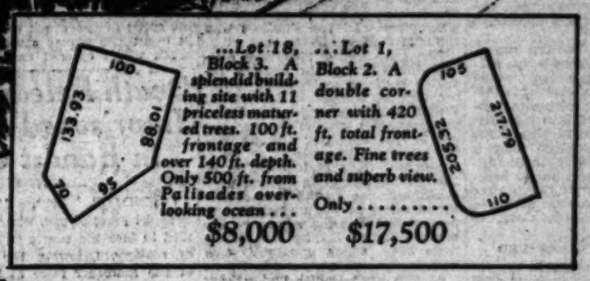
How does the property you contemplate buying check up in these ten

Favorable Factors

as compared with Huntington Palisades?

Factors	Huntington Palisades
1. Location	100%
2. Environment	100%
3. Natural Advantages	100%
4. Improvements	100%
5. Restrictions and Architectural Control	100%
6. Accessibility	95%
7. Cultural Opportunities	100%
8. Convenience	90%
9. Investment Asset	100%
10. Moderate Price	100%





...Lot 18, Block 3. A splendid building site with 11 priceless matured trees. 100 ft. frontage and over 140 ft. depth. Only 500 ft. from Palisades overlooking ocean . . . $8,000

. . . Lot 1, Block 2. A double corner with 420 ft. total frontage. Fine trees and superb view. Only $17,500

NATURE BUILT with inimitable skill when she created Huntington Palisades. She endowed it with a strategical location that is the envy of the people of the world.

Think of an *Island Empire* overlooking the sea, located directly in the path of the most rapid development of the fastest growing city in the world, and you will visualize . . . . . Huntington Palisades . . . "On Santa Monica Bay"

EIGHTY PERCENT of Los Angeles' finest development is Westward. The city limits have advanced 21 miles westward, far beyond Huntington Palisades, and only two miles eastward since Los Angeles was founded in 1781.

Huntington Palisades is in District 15 which comprises the exclusive residential areas. In 1928 this district outstripped all others in permits for homes to cost in excess of $10,000.

This homeland beautiful is only 40 minutes drive from downtown Los Angeles, over two of the proudest thoroughfares in America . . . . two boulevards that traverse a region of exclusive homes . . . . Beverly Boulevard and Wilshire Boulevard.

Yet, Huntington Palisades is forever protected against the encroachments of commercial activities that have caused former exclusive homeplaces to deteriorate. Nature provided against this contingency.

She carved beautiful tree-bowered canyons to form its east and west boundaries. She brought the placid Pacific Ocean to stand guard over its southern exposure and scenic Beverly Boulevard closes the bounds on the north.

No one can foretell with exactness what Time will have wrought, but you can buy, invest and build in Huntington Palisades with the full assurance that Nature will never bow to the will of man . . . . her pristine beauties will remain unsullied . . . . but you must give thought to selection now. Huntington Palisades is limited . . . . and each day witnesses the variety of choice reduced.

NEWS OF SOUTHERN COUNTIES

VENTURA FAIR OPENS TODAY

Largest and Best Exhibits Will Be on View

This Year Marked by First Citrus Fruit Display

Initial Horse Show to Be Presented Tonight

VENTURA, Sept. 11.—The biggest and best fair in the history of Ventura county is all ready for its opening tomorrow. The opening ceremonies will occur at 10 o'clock with President Adolpho Camarillo presiding and for the next four days this exposition will remain open, closing Sunday night.

The directors of the fair had a sort of a preview this afternoon. They visited each department and at the conclusion of the jaunt about the fairgrounds announced that it is by far the biggest exhibition of Ventura county's resources ever assembled. Each department is filled to overflowing. In some cases additional room was necessary to take care of the increased entries. It is estimated that there are more than 100,000 separate and distinctive exhibits.

The visitor will see separate shows for high-class dogs, poultry, rabbits, goats and the junior fair. In this latter division the boys and girls who will be the agriculturists of the future have assembled exhibits of every description from live stock to products of the soil. Dog fanciers, poultry experts and others engaged in the pet stock lines from many sections of the Southland are represented in their respective departments.

FIRST CITRUS DISPLAY

The main tent is more than 600 feet long and upon entering this huge emporium visitors will be entranced with the very beautiful decorations. On the left side extending for more than 150 feet is a rack display of citrus fruits exhibited for the first time at this fair. In the past the citrus fruits have been merely used as decorations of the feature exhibit, but this year they come into their own with an exhibit which is very creditable.

In the main fruit tent will be found exhibits from Santa Paula, Oxnard, Ventura, Fillmore, Mound and other sections of the county. These are various and unique designs depicting the resources of each particular locality. Also in this same section will be found outside county exhibits representing Los Angeles, San Bernardino, Santa Barbara, Riverside, Orange counties. Ventura county's exhibit that was at the State Fair has also been set up here.

There is a very large industrial show, automobile show, and the heavy machinery exhibit. All the late make automobiles are displayed as well as farm machinery and implements and household appliances and such.

For amusements Ventura county claims to have no superior this season. There are trained lions, police dogs, bears, a bevy of clowns, vaudeville acts, band and orchestra concerts all free. There is a big midway with all the usual side shows and rides. Each afternoon there is a thrilling chariot race, three running and two harness races, bareback and pony express races. More than $15,000 in purses has attracted the best horses on the Coast to Ventura.

HORSE SHOWS REVIVED

Great interest prevails in the revival of the night horse shows. The first of these shows will be given tomorrow night, and will continue each night to and including Sunday. Something like 200 horses representing the cream of the best noted strings in the country are on hand for the more than $10,000 premiums. A new tanbark arena has been erected for the horse show beautiful.

The opening day tomorrow is Ventura day, Friday will be children's day, Saturday will be county day, and Sunday is American Legion day. The latter will see a contest of a dozen or more American Legion drum and bugle corps for cash awards amounting to $750 and trophies.

There are so many other features arranged for the various days that the directors feel that their efforts will be rewarded with the largest crowd in the history of the fair. Especially large crowds are expected from Los Angeles and the Santa Monica Bay district due to the opening of the new Coast Highway which provides a delightful ride along the ocean almost all the way to Ventura.

CONSTABLE TAKES REST

AZUSA, Sept. 11.—A. C. Russell of Redondo Beach and former officer in Beverly Hills, is acting constable in the place of W. I. Hamblin, now on vacation, Deputy Constable P. H. Belford announced today. Hamblin will be away for several weeks.

THIS MISS SHOWS NEAT CALF

But It's Bovine Kind at County Fair

Ever Try Holding Down a Young Beef?

The feat is not at all easy, but Hester Allen, Ventura miss, appears to do it gracefully, and smiles beamingly even though it took twenty minutes before the photographer could shoot the picture. As is quite logical anatomically speaking, there is a knee just above the calf.

DEAD BODY NOT FOUL PLAY VICTIM

Investigation of Death of Mrs. Reitmeir, Found Dead on Beach, Made by Police

WEST LOS ANGELES, Sept. 11. Suspicion that foul play might have figured in the death of Mrs. Salome Reitmeir, 76 years of age, whose body was found on the beach at Santa Monica Canyon on the night of the 3rd inst., learned today as officers made further investigations, according to Detective Sergeant Cody, in charge.

It was learned Mrs. Reitmeir had gone to the Los Angeles First National Trust and Savings Bank branch at 6922 Western avenue on the 2nd inst. and drawn a check for $5 for herself, also obtaining a cashier's check for $100 to send to her son, Arthur Reitmeir of Delanco, N. J. These sums were not believed sufficient to have prompted a murder and it was learned further that the woman had two brothers who committed suicide in the past.

Her son Alfred of 2601 West Seventy-third street, Los Angeles, revealed that his mother had a sister, Mrs. M. Schmidt of 5416 South Wilton Place, Los Angeles, and that she frequently left the home of the son to visit the sister without stating where she was going.

Sergeant Cody and detectives of the West Los Angeles division were continuing the investigation today in an effort to learn whether any persons had seen the woman on the beach prior to finding her almost nude body, which apparently had been in the water about two hours.

At the Price-Daniel undertaking establishment in Ocean Park, where the body was taken, it was stated there would be no inquest and the funeral will be held next Friday afternoon from the Inglewood Park chapel.

EL MONTE GOLFERS GO OUT FOR PRIZES

EL MONTE, Sept. 11.—El Monte business men have become golf minded on the eve of the El Monte Herald thirty-six-hole tournament which will begin tomorrow at the Montebello Park Golf Club. More than forty business and professional men have entered the tournament which will close next week. Prizes will be as follows: First low gross, silver trophy and six golf balls; second low gross, golf bag; first low net, silver trophy and six balls; second low net, twelve balls, selected nine holes, golf club by Willie Hunter; eccentric nine, three balls, blind bogey using own handicap, six balls, worst score for thirty-six holes, six balls by E. W. Selbach and George Batchelor.

Willie Hunter, professional at the Montebello golf course, selects Deane Richardson to win low gross but concedes R. E. Lodge, Bernie Bergstrom, J. C. Thurman and Dr. Thomas Freer a chance of upsetting the dope; F. W. Selbach to win low net and Wallace Ewing, local druggist, to cop second low net.

PILOT LEAPS WHEN PLANE TAKES FIRE

Enlisted Man at North Island Joins Caterpillar Club Without Scratch

SAN DIEGO, Sept. 11.—Leaping from a flaming plane soaring above the Camp Kearney mesa, Aviation Pilot Wooly, enlisted man at North Island, effected a successful parachute landing at noon today.

Report at the headquarters office of Rear-Admiral Henry V. Butler, commanding the aircraft squadrons, United States battle fleet, states that although the plane was rendered a total wreck, Wooly escaped without a scratch. The cause of the plane's catching fire in midair has not been determined, it is reported.

When word of the accident was received by naval officials a detachment of 160 bluejackets at the naval training station was ordered to stand by in readiness to depart for the scene of the wreck to fight fire in event the flames spread to the brush which covered the area.

Death Releases Imprisoned Man in Bandit Case

GLENDALE, Sept. 11.—David Beck, 24 years of age, who is scheduled to face the courts on a charge of robbery, following the hold-up of the MacMarr store at 110 West Lexington Drive, will not answer when his case is called. Beck, who was in poor health at the time of his arrest, was transferred from the County Jail to the General Hospital and was placed in the psychopathic ward. Death came last night to free Beck of his troubles.

The report of the hospital authorities, as telephoned to Detective-Lieutenant Charles P. Blake, said that Beck had died during a convulsion, but it was known when he was arrested here that he was suffering from tuberculosis.

Beck was arrested on July 22, within an hour after the MacMarr store had been held-up by an unmasked bandit who forced Jack Eitt, the manager, to hand over the contents of the safe at the point of a revolver.

Blake, who captured Beck, stated that the stolen money was found in his room at 101 East Doran street, a block away from the scene of the robbery. Beck is said to have been identified by Eitt as the bandit who robbed the store.

E. E. WIKER NOMINATED

Tenth District Backs Him For New Realty Regional Vice-President

VENTURA, Sept. 11.—E. E. Wiker was nominated for regional vice-president of the California Real Estate Association at a meeting of the tenth district at the Athenae clubhouse last night. The meeting was attended by fifty members and guests of the association, including the presidents of the San Luis Obispo, Santa Barbara, Oxnard and local boards. Addresses concerning the forthcoming State rally at San Diego were delivered by Roy F. Bleifuss, president of the San Diego board, and Ralph C. Williaman, executive secretary of the State association.

RAINFALL WILL OPEN CANYONS TO PUBLIC

UPLAND, Sept. 11.—There will have to be a generous rain over the mountains before the local canyons will be opened to the public, according to Ranger E. R. Son. The fire hazard continues extremely high particularly through September, Son said, and rather than take the risk of other fires this fall, the canyons are not to be opened until the rains have started.

EDUCATION FOR INDIAN CHANGED

Sherman Institute's Fall Term Begins New Policy

Superintendent Back With Program of Innovations

Vocational Training, Self-Reliance to Be Taught

RIVERSIDE, Sept. 11.—Advent of the fall term at Sherman Indian Institute this year marks the beginning of a new educational policy designed to train the more than 1200 Southwest Indians to be more self-reliant in the world of commerce and industry and more skillful in the art of home-making. This was revealed today by Frank Comser, superintendent of the local school. He recently returned from Washington, where he discussed this improvement with other Indian Department officials and with Ray Lyman Wilbur, Secretary of the Interior.

"The Indian mind," said the educator, whose school is noted throughout the United States, "grasps more quickly the industrial arts. It often has extreme difficulty in mastering the sciences and other academic studies.

"With this in mind, the school is to be turned more toward a vocational training center. The Indian Department believes the Indians should be trained to be better fitted to provide for themselves after leaving school.

"The academic side of their schooling will be slightly decreased this year and the vocational training built up. For the boys we have besides the agricultural study, in which most of them are adept, all the building trades, printing, auto mechanic, harness work and drafting.

"Girls will be given special training in home-making, domestic science and home arts, which include sewing. Other studies will be maintained but not in the ratio of past years," he revealed.

Eventually, according to Comser, Sherman will become an industrial school with the training almost exclusively vocational. Students enrolled in grades below the fifth will be sent to other schools and their places taken by older boys and girls. At present three-fourths of each student's time is to be given over to vocational training.

Former Varsity Man Saves Life of Easterner

REDLANDS, Sept. 11.—Ernest "Pic" McIver, former university athlete, risked his own life and was badly battered and bruised against the rocks at Laguna when he dove into the breakers and dragged Ben Hassler of Los Angeles to safety. Hassler was unconscious but was revived and taken to the Los Angeles County Hospital, where he is in a serious condition with scalp wounds and other injuries. It was the scalp wound received when he fell into an inlet that almost caused him to drown.

McIver was climbing around the face of a cliff when he saw Hassler, a member of a party of four exploring the inlets of the sea, fall. When Hassler did not reappear, McIver jumped in after him and after a struggle of several minutes, succeeded in bringing the unconscious form to the surface.

Firemen working with an inhalator revived Hassler and he was later removed to the Laguna Hospital. He was removed to the Los Angeles County Hospital yesterday.

Hassler is a tourist having recently arrived from the East.

RETIRED PASTOR HELD ON MORALS CHARGE

SANTA MONICA, Sept. 11.—William A. Willis, retired minister, 75 years of age, was held to answer to the Superior Court by Police Judge Spencer today on morals charges brought by two young boys. The aged minister was said to have spent forty-two years in China as a missionary, and he claims Canada as his official place of residence.

Police believe conviction on the charge, which was of a character prompting Judge Spencer to bar visitors from the courtroom, would make Willis liable to deportation Bond was fixed at $1000, which he put up.

Death's Move in Dominoes

EL CENTRO, Sept. 11.—While he was meditating over his next play in a game of dominoes in the lobby of the El Centro Hotel today, John Arthur Tressell, 65 years of age, started to arise from his chair and slumped over dead on the table. Tressell had been night clerk in the hotel about five years.

His opponent in the game, Arthur Miles of this city, had frequently played with him. He told Deputy Coroner C. C. Cockley today that Tressell had evinced no excitement during the game. An autopsy revealed that heart trouble has caused the death.

Tressell had no known relatives and had few intimate friends, none of whom knew of any relatives. He had mentioned a sister in Cleveland.

FIXING CASE MAY GO TO GRAND JURY

Churchmen Intimate They Will Take Hand in San Diego Liquor Scandal

SAN DIEGO, Sept. 11.—Individuals, some of them connected with a church organization, have intimated to Dist.-Atty. Stephen Connell, they will go direct to the grand jury seeking investigation of an alleged "liquor fixing" conspiracy of a month ago, the District Attorney admitted today. He reiterated his statement made to newspapers last week that he stands ready and willing to aid in such a probe of it is undertaken by the grand jury.

The District Attorney hesitates to predict what the grand jury will do, that body not having been organized as yet. A grand jury venire was summoned last week by Judge C. N. Andrews to appear today at 2 o'clock, at which time the Superior Court presiding judge expects to select nineteen or more of the prospective grand jurors for service.

Demand for investigation has been constant since police raided a downtown storehouse and uncovered a cache of $27,000 worth of liquor. The raid resulted in statements by some of the men arrested that they had paid $2000 for "protection" from just such a raid. If any person received the money under promise to protect the rum dealers, the act constituted a conspiracy to violate both Federal and State liquor laws, authorities say.

The Federal men here are understood to be conducting an investigation apart from that expected from the county grand jury.

Anaheim Man in Car Mishap Dies

ANAHEIM, Sept. 11.—Charles Eygabroad, wealthy real-estate operator and bank director of this city, died this afternoon at Madison, Wis., where he had been taken from Sauk City, Wis., for care following an automobile accident at the latter place on the 3rd inst.

Eygabroad left Anaheim three weeks ago with his wife and two other relatives for a tour of the Midwest. As he was nearing his farthest east point on the trip his car hit loose gravel at the side of the road and turned over, pinning the Anaheim man beneath. Telegraphic reports indicate that pneumonia developed causing death.

HOW MUCH ARE HENS WORTH? SIXTY DAYS

ONTARIO, Sept. 11.—Hereafter Virgil M. Johnson and Charles P. Norris, Ontario men, won't have much craving for chicken dinners. Nabbed in Pomona on charge of stealing two hens from A. C. Gebbie, each man has been sentenced to sixty days in County Jail. Thus the value of two fowls has been placed at 120 days, a new record high figure on the Sunday dinner tidbit.

DEPUTY SHERIFF IN INQUISITION

Officer Said to Have Been Beaten Up Tells Story

Grand Jury Gives No Sign as to Outcome

Body to Meet Again Tuesday for Sessions

SAN BERNARDINO, Sept. 11.—Without indicating whether an indictment will be returned the San Bernardino county grand jury adjourned last night after a day of questioning Deputy Sheriff J. A. Larson, chief of the dry squad, and witnesses in the case in which Larson was said to have been attacked and beaten by Guy Wadsworth, Oro Grande rancher.

Wadsworth, who refused to testify before the grand jury, was freed at a preliminary hearing of a charge of assault with intent to murder Larson when the officer attempted to search Wadsworth's car for liquor nearly two months ago.

Larson reviewed the attack case before the inquisitors, telling virtually the same story that he did at the court hearing when Justice George W. Holbrook dismissed the case against Wadsworth with the statement that he didn't "believe a jury in the world" would convict Wadsworth. Other witnesses, mostly ranchers living in the district where the asserted attack occurred, testified.

Larson was beaten into unconsciousness by Wadsworth, armed with a monkey wrench. Wadsworth told the court at the hearing that Larson was not wearing a badge, did not place him under arrest and that Larson struck him in the face with a flashlight. Wadsworth believed he was fighting for his life, he said. Larson denied that he struck Wadsworth, testifying that Wadsworth struck him from behind, continuing to beat him in a terrific struggle that followed.

The grand jury will meet again Tuesday and probably will continue the investigation of the case.

Taxi Dance Hall Permit Revoked by Supervisors

SANTA BARBARA, Sept. 11.—With the combined recommendation of the offices of the Sheriff and the District Attorney that the "taxi" dance hall in Guadalupe be closed on the ground that it was "immoral and improper and not for the best interests of the community," the Board of Supervisors yesterday unanimously voted to revoke the dance-hall permit granted several weeks ago to R. M. Hutchinson and A. Cruz.

Hutchinson and Cruz appeared before the board and declared their intentions of operating a "taxi" dance hall, where girls charge partners by the dance. Such a dance is the only kind which can be operated in Guadalupe," said Hutchinson. "When we found girls who were not proper we fired them."

Undersheriff Ross in his report to the board characterized the dance hall as "improper" and told how several of the girls registered in the hotel across the street under fictitious names. He also went into the details of a talk he had with the girls and a check of activities around the hall. He told board members he considered the place immoral. Dist.-Atty. Clarence C. Ward supported his statements with a recommendation to revoke the permit.

"The Board of Supervisors is not a body to regulate the morals of the county," Chairman Preisker declared. "Probably some entertainment of the taxi dance hall type should be allowed in Guadalupe, as I understand conditions there are unusual. There is a large population of Filipino and Mexican vegetable workers. The standards of one class do not apply to another. But I cannot see where the county government can give sanction to an 'immoral' place."

A petition carrying the names of many Guadalupe residents asking that the dance hall license be not revoked was presented.

Ralphs to Open New Store Today

ALHAMBRA, Sept. 11.—Ralphs Grocery Company open their doors to the general public in their newest store, located at 810-12-14 West Main street, Alhambra, tomorrow at 10 a.m. This new unit is the fourteenth store to be established by this firm and this number will soon be increased to sixteen, two stores being under construction now, one in Pasadena and the other in Westwood Village, both of which will be opened this year.

Equipped with the most modern fixtures, the new Ralphs store will operate a quick-service system, whereby a customer can select goods in any department at leisure, not paying until all selections are completed. Through a new cash register device all items are listed by the cashier, while a checker wraps or packs the goods, many times having them ready before the customer pays.

"HOT DOGS" MAY FACE CHARGES OF ARSON

VENICE, Sept. 11.—Hot dogs were indirectly responsible for starting a fire which broke out this morning on piling of the Pacific Electric Company's Del Rey line near the Westport Beach Club. Glowing embers from the fire of a "wienie" bake last night, according to Venice fire fighters, who extinguished the blaze, apparently spread to the piling. Service on the line was not interrupted, and service of hot dogs along the beach took on added impetus from the crowd watching the fire.

Straw Hat in Parade Urged

PASADENA, Sept. 11.—In the belief that Southern Californians should dress in harmony with the climate rather than with the dictates of Dame Fashion, all men, who participate in the 1930 Tournament of Roses parade will be asked to wear straw hats and white flannels, H. M. Nickerson, newly appointed chairman of the parade committee, announced today.

"It would be a fine thing," said Nickerson, "if pictures and spectators of the parade carry a message to the world that warm weather attire is always the style in this city."

As an example, Nickerson declared he will wear his straw what all winter, "rain or shine."

INQUEST ON MURDER AT MONROVIA

Mexican Came to His Death By Hands of Parties Not Known, Jury Decides

MONROVIA, Sept. 11.—Without naming the slayer, a Coroner's jury brought in a verdict that Secundino Rodriquez, Mexican, murdered on Saturday night during a drunken fight at 510 Almond street, came to his death from a fracture of the ribs and concussion of the brain caused by being struck presumably with an iron bar or some other blunt instrument in the hands of a party or parties unknown to the jury.

Pedro Contreras, held for investigation, was returned to the County Jail following the inquest at Renaker's undertaking parlors.

Tronquilino Contreras, a third Mexican, said to have been involved in the three-cornered fight between himself, Pedro Contreras and the murdered man, was charged with the killing by Mrs. Reyes Oballes, stepdaughter of Pedro Contreras. He is at large. He is said to have made his escape before police arrived.

A highlight of the testimony was given by Mrs. Rita Mason of 512 Almond street, who declared she heard a voice cry out "Not to blame Pedro, Tronquilino did the killing."

Mrs. Oballes gave a dramatic description of the fight with M. L. Hutchinson acting as interpreter.

Pedro Contreras testified that the fight started over some beer and that Tronquillino knocked Rodrigues and himself to the ground stunned. When he got up Tronquillino had disappeared.

Deputy Coroner J. R. Kane conducted the inquest and Dep. Dist.-Atty. Hugh McIsaacs and C. A. Cavett, Investigator from the District Attorney's office, questioned the witnesses.

Chief of Police Frank Scott stated that an extensive search is being made for Tronquillino Contreras and that all border cities have been notified, as it is thought that he might attempt to cross the border into Mexico.

Woman Seeks Venue Change

ARCADIA, Sept. 11.—Released as sane, from the psychopathic ward of the County Hospital, where she was committed for observation last week, Mrs. Dot Stewart, arrested by local police on August 10 on charges of chicken stealing, will go to trial on the 19th inst. in Justice Court here unless Judge Horlock grants a change of venue, to Judge Wilson's court in El Monte, it was learned from police today.

At a hearing on August 29, Mrs. Stewart pleaded her own case and demanded a change of venue on the grounds that the court was prejudiced. As she failed to produce two witnesses, who she declared at her second hearing on the 10th inst., would clear her of the charges, and as her attorney, William Fox of Pasadena, refused to continue with the case, an order was issued from the District Attorney's office to commit her to the psychopathic ward for observation.

AVENUE TO BE IMPROVED

BURBANK, Sept. 11.—Olive avenue was taken in hand by the City Council last night and was ordered improved from the Southern Pacific right-of-way to the southerly city limits, a distance of approximately four miles.

Spaulding is a [illegible] and this morning they had [illegible] to take him to Pomona [illegible] is to enter a period [illegible] Mrs. Spaulding [illegible] 3 a.m. and was present [illegible] fact without the [illegible] Though terribly burned [illegible] her family and [illegible] small home. The [illegible] destitute. They [illegible] had, clothes, furniture [illegible]

Termites Rout Club Folk

COVINA, Sept. 11.—[illegible] of the foundation of the [illegible] clubhouse has brought to [illegible] tion of prominent [illegible] one of the largest [illegible] mites yet discovered in [illegible] California, according to [illegible] ment officials.

Two of the most [illegible] of termites, reticulitermes [illegible] lohersi, constitute the [illegible] which will be treated [illegible] by Prof. Thomas E. [illegible] entomologist of the [illegible] and Prof. S. F. Light of [illegible] versity of California. [illegible] house represents one of [illegible] remarkable colonies of [illegible] tion by termites, [illegible]

Before the opening of [illegible] program in October, the [illegible] will be completely [illegible] concrete foundation and [illegible] ening of side walls and [illegible] slabs by Mrs. Wilson [illegible] president. The [illegible] cost approximately $[illegible] rect result of the [illegible] tion.

VALLEY GAS DEPOT ROBBED OF $[illegible]

NORTH HOLLYWOOD, [illegible] A burglar [illegible] the Texaco Oil Company [illegible] station on Chandler [illegible] Tujunga avenues, [illegible] safe and stole $[illegible] checks. Police [illegible] of the robbery found [illegible] hammer, which had [illegible] open the safe. The [illegible] had been broken [illegible] is no other clue to [illegible] Forrest Hicks, [illegible] the local Chamber of [illegible] manager of the [illegible] tion.

SCHOOLS OPEN IN MONROVIA

For First Time in History of District, Including Seven Cities, No Quarantine Cases Reported

MONROVIA, Sept. 11.—Depicting a steady increase, more than 2000 school children entered their first classes of the year yesterday, according to Supt. A. R. Clifton.

The total enrollment at all of the schools, including the grade schools and the Monrovia-Arcadia-Duarte High School, was approximately 2350, while the approximate enrollment of the high school was 820.

As a highlight of the opening day Dr. J. M. Furstman, district health officer, announced that for the first time in years school opened with not a single quarantine in the entire district, which constitutes seven cities.

FOUR HUNDRED PUPILS AT AZUSA WILL ENTER LATE

AZUSA, Sept. 11.—Far exceeding all other years in the history of local grammar schools, a total enrollment of 1300 school children is expected will be recorded by January 1, according to announcement made today by Supt. Charles C. Carpenter.

Local grammar schools opened yesterday with 900 children enrolled and there are at least 400 school children, mostly Mexicans, who will be picking fruit until later in the season, Carpenter said.

COVINA HIGH EXPECTS LARGE MIDYEAR GROUP

COVINA, Sept. 11.—With an increase of fifteen students, Covina Union High School opened yesterday with a total enrollment of 538. The total enrollment last year was 523.

According to school officials, the big increase in enrollment is expected at the beginning of the second semester next February, when about seventy-five new freshmen will enter from the grammar schools.

The personnel of the new staff of the athletic department includes Coaches Ted Gorrell, Pendleton and Horner, who will coach the varsity, medium and lightweight teams. Coach Gorrell succeeds Chief Newman, who is coaching at Whittier this year.

FOUR AUTOS MEET HEAD-

Six Persons Injured in Crashes at Bonn and Pomona; One Driver Flees

POMONA, Sept. 11.—In a head-on collision [illegible] East Holt avenue near Reservoir street, four persons were injured when machines driven by William [illegible] and Dr. S. C. Holmes, 2069 Clarendon avenue, [illegible] together with terrific impact.

The injured:

Hamilton, internal injuries; Mrs. Marie A. Holmes and Dr. Holmes, facial and body lacerations.

Wilson McKinley, Hollywood negro, long deep cut on right arm.

Ralph B. Williams, 1006 East Twenty-eighth street, Los Angeles, and H. W. Strain, 2420 North Gower avenue, Hollywood, were not injured.

According to investigating officers, the two machines met head on as they were attempting to pass in the center lane of traffic, both traveling about thirty-five miles an hour. All

injured persons were [illegible] Health Center.

SANTA ANA GIRLS IN ACCIDENT

BUENA PARK, Sept. 11.—[illegible] Mrs. F. J. Kelly of [illegible] Santa Ana, were [illegible] at Knott [illegible] when [illegible] velved in a [illegible] car [illegible] by [illegible] land of the [illegible] driving the [illegible] scene [illegible]

Mr. and Mrs. [illegible] to the Anaheim [illegible] are said to be [illegible] and bruises.

SPEEDER GIVES HIMSELF UP

Adolph Stelp, Asserted 90-Mile-an-Hour Motorist, Escapes Hospital and Sees Police Station

ONTARIO, Sept. 11.—Declaring that he doesn't like hospitals Adolph Stelp, 43 years of age, of 722 Crescent Drive, Beverly Hills, plunked his 210 pounds in an Ontario police station chair last night and brought to a close a wide search being made by Riverside Community Hospital authorities and police.

Stelp was severely injured Sunday afternoon when his automobile leaped from the highway while going at an asserted speed of over ninety miles an hour. Yesterday he stole away from the hospital and made his way to Ontario Police Station, where he was placed under arrest by Chief of Police Arthur Axley on a reckless-driving charge.

Stelp was visibly in great pain when he entered the police station and declared he would not return to the hospital. After a long argument he consented to be taken to San Bernardino County Hospital.

Today police were notified that Los Angeles and Beverly Hills authorities want Stelp on reckless-driving charges, he assertedly having chased a number of motorists from the highway Sunday in his mad race to Riverside in an expensive new roadster, which he wrecked when a driver on the way to Ontario refused to give way to the racing car pursued by a motorcycle officer. Stelp said he was on his way to Riverside to see his "sweetie."

NOTICIAS MUNDIALES DE ULTIMA HORA

NOTAS TELEGRAFICAS

Dice el General Ortiz que Méjico ya Está en Calma

CIUDAD DE MEJICO, Septiembre 11.—El general Eulogio Ortiz, uno de los más firmes y fieles generales del ejército federal, que combatieron la revolución de Marzo último, ha llegado aquí ayer para tomar el mando de los 14,000 soldados que revistará el presidente Portes Gil el próximo lunes, aniversario de la independencia nacional.

En entrevista con un reportero de El Universal, ha declarado Ortiz que los jefes militares mejicanos se proponen no tomar participación ninguna en las elecciones presidenciales de Noviembre venidero. Agregó que no existía al presente la menor probabilidad de un alzamiento militar en Méjico.

Violenta Tormenta en España

BADAJOZ (España), Septiembre 11.—Ayer y anoche fue barrida esta provincia por un violento temporal, que interrumpió las comunicaciones y ocasionó desgracias personales. En la aldea de Mirandilla, las chispas eléctricas quemaron varias casas. Murieron quemados dos labradores de edad madura, y cinco más resultaron lesionados. En Trujillo, murieron dos de rayo, y cuatro salieron heridos.

Es Procesado el Presunto Matador de un Agente Prohibicionista

DETROIT, Septiembre 11.—El gran jurado ha dictado aquí hoy auto de procesamiento contra John M. Heath. Se formularon tres capítulos de acusación, con motivo de la muerte violenta de Richard J. Sandlanda, agente prohibicionista federal, acaecida el 2 de Agosto último en el Río de Detroit.

Se procesa a Heath por asaltar a mano armada a un funcionario federal; por escapar llevándose propiedad del gobierno, y por violar la Ley de Arancel al intentar meter licor de contrabando en los Estados Unidos.

Roosevelt Consigue el Apoyo del Senado

WASHINGTON, Septiembre 11.—Hoy ha sido confirmado por el senado el nombramiento de Theodore Roosevelt para gobernador de Puerto Rico.

Entre otras designaciones confirmadas por el senado figuran las de John W. Garrett, de Maryland, para embajador en Italia; de Garritt John Diekema, de Michigan, para ministro en los Países Bajos, y de George T. Summerlin, de Luisiana, hoy ministro en Honduras, para ministro en Venezuela.

La Señorita Gaynor y su Novio Abogado Marchan al Altar

OAKLAND, Septiembre 11.—En medio de la mayor reserva, Janet Gaynor, estrella de la pantalla, fue conducida hoy al altar por Lydell Peck, abogado, en la casa del padre del novio, señor James L. Peck, que también es jurisconsulto.

Ofició en la ceremonia el Reverendo Alexander Allen, rector de la Iglesia Episcopal de San Pablo. Tras un desayuno de bodas, al que sólo concurrieron los parientes muy cercanos y los amigos íntimos de los novios, partieron éstos a toda prisa para San Francisco.

Fue asistido el novio por su padre, y la señorita Gaynor, por la señorita Alice Bergdoll, amiga suya.

En el embarcadero se enteró Peck de que había dejado olvidados sus sacos de viaje, y hubo que regresar con toda premura a la casa para recogerlos. Tuvieron apenas tiempo de llegar al muelle de San Francisco de donde zarpaba el transpacífico "Mauri" rumbo a Honolulú. En las islas Hawai pasarán los novios su luna de miel.

Sábese que la señorita Gaynor terminó la vista que ha estado filmando en Hollywood, y, aunque sigue contratada tan gentil artista, no sabe aún cuando haya de comenzar su próxima cinta. Tiene el propósito de combinar sus deberes matrimoniales con sus exigencias artísticas.

NOTAS LOCALES

Próxima Exhibición de las Joyas de Slavick

Con la apertura de la Exposición de Modas Otoñales de 1929, va a venir la de la duodécima exhibición anual de diamantes de la Compañía Joyera de Slavick, domiciliada en el 427 de la Calle Séptima Oeste.

"Hemos reunido para esta celebración de aniversario una rara colección", dijo el señor A. N. Slavick, presidente de la empresa. "Nuestros operarios y artistas han montado los diamantes que nos vinieron a bordo del Graf Zeppelín, y que forman parte muy importante de nuestra colección de aniversario."

Lubitsch Será Quizá Administrador de un Testamentaría

La viuda del señor Paul Levi, o sea la señora Leonore Levi, ha pedido que se nombre albacea de la testamentaría de su difunto esposo al señor Ernest Lubitsch, director cinematográfico. El juicio testamentario se abrió ayer. El testamento es uno de los más cortos que se conocen. Por él lega el testador $35,000 de títulos y bonos a la señora Levi.

Charlas Infantiles para Chiquillos de Escuela

IV.

Cuando Hawthorne hubo crecido, fue un joven muy guapo (Hawthorne grew up to be a very handsome young felow). Andaba un día de paseo en los bosques, y topó allí con una vieja gitana, que nunca había visto a nadie tan bien parecido (One day he was walking in the woods. He met an old gypsy woman. She had never seen anybody so fine-looking).

"¡Eres hombre o ángel?", le preguntó ella ("Are you a man, or an angel?" she asked him).

Algunos de los mejores libros de Hawthorne fueron escritos para muchachas y muchachos (Some of Hawthorne's best books are written for girls and boys). Llámase uno de ellos "El Libro de las Maravillas". Otro de sus libros para jóvenes es "Tanglewood Tales" (One of these is called "The Wonder Book". Another of his books for young people is "Tanglewood Tales").

WEBB RULES ON DRUNKEN DRIVER LAW

License Can't Be Revoked on First Offense, He Says; Defines Other Sections

SACRAMENTO, Sept. 11. (AP)—Answering questions of Frank G. Snook, chief of the Division of Motor Vehicles, regarding punishments and suspension of operators' licenses under the 1929 traffic code revisions, Atty.-Gen. Webb issued a blanket decision today on reckless and intoxicated driving cases.

The Attorney-General ruled that a court cannot revoke an operator's license save on a second conviction for driving while intoxicated. On such second conviction the court can do nothing else but revoke the license. A suspension for one year is mandatory with the court on a first conviction.

In reckless driving cases the court may set an ascending scale of suspensions. On the first conviction suspension will follow for thirty days, on the second for sixty days and on the third for one year.

The request by Snook for a decision came after complaints from various sections of the State that courts were either handling traffic cases too leniently or were placing excessive suspensions and revoking licenses on first convictions.

Vessel Missing With Six Aboard

VANCOUVER (B. C.) Sept. 11. (AP) The fishing vessel Chasam No. 3, owned by the Marine Transport Company of Vancouver, with Capt. Chris Berg and five fishermen aboard, was reported missing today.

The boat left the Fraser River August 28, last, for the Lagoon Bay cannery.

ANGELENOS NAMED TO ARMY RESERVES

WASHINGTON, Sept. 11. (Exclusive)—The War Department today made John M. Morris of 111 North Alexandria avenue, Los Angeles, a major in the chemical warfare reserve, and Thomas H. Boardman of 516 North Harvard Boulevard, Los Angeles, a second lieutenant in the cavalry reserve.

At the same time reserve corps commissions were issued to two residents of Pasadena—Clayton B. Atkisson being made a first lieutenant in the infantry and William L. Hall a second lieutenant in the cavalry.

Why your baby and you need the very best milk

For Your Baby...
Arden Certified Milk

DURING the first few years your baby builds the sturdy strong little body which means so much to future health and happiness. Most babies *treble their weight in the first twelve months*...the greatest growth at any time during their lives.

What Doctors Say

During these helpless first years the healthy growth of the tiny bones and muscles is dependent on the care with which you choose the food to build the strong little body you want. Doctors say that every baby's feeding problem is an individual one, but that the best available milk is an investment in future health and strength.

Your care in the selection of the *very best milk you can get* means much in the sturdy growth of this little body.

Arden Certified Milk

At the famous Arden Certified Dairy Farm at El Monte, *oldest Certified Dairy in California*, Arden Sanitary Gold Seal Farms produce only Certified Milk under the direct supervision of the Los Angeles County Medical Milk Commission. Doctors recommend Certified Milk for babies. Ask the Arden Milkman about Arden prize winning Certified...25c a Qt.

A CHUCKLE FOR EVERYBODY

THE BEASTS OF TARZAN

By Edgar Rice Burroughs

After Tarzan and Sheeta had feasted to their heart's content on the fresh buffalo meat, the two curled up together in a thicket, the man's curly head pillowed upon the tawny hide of the panther, and thus they slept until dawn. Upon returning to the apes' camp, Tarzan found that four of the beasts—those who had suffered most from fright during the voyage to the mainland—had deserted.

With Mugambi's help, Tarzan righted and launched the overturned dugout, and after an hour's search for the missing apes the boat put off without them. They paddled up the coast until they came to the mouth of a great river. Shortly after noon the party put in for shore to search for food. Then they continued on up the river, thus far without seeing either man or beast.

But from the dense screen of verdure lining the river's bank, a slender naked savage watched them for a moment. Then he melted away up-stream before any of those in the canoe discovered him. Like a deer he bounded along the trail, until, filled with the excitement of his news, he burst into a native village several miles above the point at which Tarzan and his pack had stopped to hunt.

"Another white man is coming," he cried to his chief, "in a great canoe with many warriors." In a moment the rumble of the war drums rose, calling in the hunters from the forest and the tillers from the fields. Seven war canoes were launched and manned by paint-daubed, befeathered warrriors. Noiselessly they glided down the river to overwhelm this white savage by sheer force of numbers.

FOX PLANS INCREASE IN CAPITAL

Board of Film Concern Votes Boost in Common to 4,900,000 Shares

NEW YORK, Sept. 11. (Exclusive) Directors of the Fox Film Corporation voted today to increase the authorized capital from 1,000,000 to 5,000,000 shares of no par value, leaving the authorized "B" common stock unchanged and increasing the "A" common from 900,000 to 4,900,000 shares.

A special meeting of stockholders has been called for the 16th inst. to ratify the proposal and increase the directorate from eight to twelve members.

Stockholders will also ratify proposed change in preferences and voting powers of the stocks so that beginning April 15, 1930, Class A holders shall have the right to elect five directors and Class B holders seven directors. Heretofore the voting power has been vested in the 100,000 "B" shares, the majority of which is owned by William Fox and associates.

The plan also provides that if four consecutive quarterly dividends of not less than $1 each are in default the "A" and "B" stock, Class A holders shall have the right, on or after October 15, next, to elect nine directors and Class B three directors until such time as the four consecutive quarterly dividends have again been paid.

It is understood that the purpose of the increased capital is to permit the company to further expand its activities and acquire properties. In some circles the belief prevails that an initial step is contemplated looking toward the merging of all the Fox interests which include Fox Film, Fox Theaters and a controlling interest in Loew's, Inc., which in turn controls Metro-Goldwyn-Mayer.

Oil Shutdown on Card Today in Oklahoma

OKLAHOMA CITY, Sept. 11. (AP) Shutdown of the South Oklahoma City oil field for thirty days beginning at 7 a.m. tomorrow was ordered today by the State Corporation Commission.

The order followed a hearing on a petition of the Indian Territory Illuminating Oil Company, one of the operators in the field, which asked the shutdown.

No protest was made by any of the field's operators.

Under the order all wells must remain shut in for the thirty-day period. Drilling will be permitted to continue, but wells brought in must be shut in after flowing twenty-five hours.

The curtailment was asked because of inadequate marketing facilities.

Trading Quiet on London Mart

LONDON, Sept. 11. — The local stock market was quiet today. Weakness prevailed in international securities. The talking machine group was easier, Columbia Graphophone having a sharp drop. Tobaccos improved and Artificial Silks were quiet, with British Celanese holding firm. Textiles were also quiet. International Nickel declined. Margarines and molasses issues turned easier.

Oil shares were dull. In the mining list Rio Tinto was easier and Rhodesians weaker. Rubber stocks showed firmness. Ford Motors, Ltd., held around £3 9-16 and Brazilian Traction ordinary around £68 3-4.

The gilt-edge division was steady and a firmer tone was evident in home rails. Argentine rails were irregular, and Canadian Pacific lower.

NEW FINANCING OF UTILITY ON MART

Public offering of $2,000,000 American Fuel & Power Company five-year secured 7 per cent convertible gold notes is being made by Freeman, Smith & Camp Co., at 100 and accrued interest to yield 7 per cent. The proceeds will be used for acquiring additional producing properties and for improvements to present holdings of American Fuel & Power Company, largest distributor and producer of natural gas for industrial purposes in the United States. Average net earnings for the ensuing five years' operations are estimated by engineers at more than six times the annual interest requirements on this issue.

JERSEY COMPANY BOOSTED

Standard Oil Following Reminiscent of Preliminary Cheering for General Motors, Radio, Etc.

BY EARLE E. CROWE

From the standpoint of the stock market, the most encouraging indication of a decisive turn in the affairs of the oil industry is the character of the trading and the interest in the shares of the Standard Oil Company of New Jersey. The patient holder of oils only has to look back at the stock market action of other industries to remember that it was the General Motors, the radios, the General Electrics, and the United States Steel about which all the hooray was heard before the real move in the various industries got under way.

For the people who engineer market operations it is perfectly logical to turn first to the strongest unit in the industry when they believe that industry is unwarrantedly behind the rest of the market. Whether the price is high or low makes no difference, although the leaders are generally high priced. But if the value is there the fact that the stock may be selling at a new high is not a deterrent to the people who look behind the scenes.

CHOSEN TO LEAD

Apparently Standard of New Jersey has been selected to lead the oils out of the wilderness if all these signs are right. The noise accompanying the march of the stock to higher prices lately has approached the proportions of a grand crusade of cheering speculators to 26 Broadway, home of Standard of New Jersey. The tipsters, brokers, research experts all are talking Standard Oil of New Jersey.

Of a more tangible nature it was reported yesterday that blocks ranging from 10,000 to 16,000 shares changed hands in yesterday's market. Well known operators, investment trusts and private traders are accredited with this buying, which is of the same character noticed in the last few weeks. Moreover, it is further reported that another large investment trust has been organized to deal in the oil shares.

Nobody knows accurately what the Jersey company is earning this year, except that it is certain to show a substantial increase over the previous year. Current estimates run around $6 or $7 a share, which would compare with $4.43 in 1928 on a total of 24,484,219 shares outstanding. In 1927 the Jersey earnings were $1.53 a share.

CHANGE MADE

Standard of New Jersey in 1928 completed its transition from an operating to a holding company, and now functions through a number of subsidiaries operating producing, refining, pipe line, transportation and sales companies. It is the leader in the oil business in research and experimental work.

Right behind the Jersey company is Standard Oil of California, a company that many expert analysts believe has the greatest future in the petroleum industry. Despite the current trading level between $70 and $80 a share, these observers believe that Standard of California has not begun to discount the potentialities of its producing lands alone, particularly West Texas and Kettleman Hills. The latter field is now closed down by government order, but remains a reserve of enormous value.

Should an oil market actually materialise to fulfill the extravagant predictions now in circulation, the movement would naturally extend to all well regarded companies. Closely following the leaders would come Shell Union, Union Oil, Standard of New York, Standard of Indiana, Texas Corporation, and others.

Forty Courses in Business to Start Monday

University college, University of Southern California will begin next Monday evening the fall semester of forty evening commerce courses for business men and women. The lectures will be held in the Transportation Building.

The courses will be conducted by the regular members of the university faculty appointed to teach business subjects. In addition special lecturers will be obtained who are recognized authorities in their particular fields.

Courses will cover accounting, merchandising, management, real estate and trade and transportation subjects. Under these various headings are included a wide range of subjects treating of principle of banking and finance, foreign exchange, credits, collections and investments; advertising salesmanship, hotel management, commercial aviation, economics and business law.

New Offer for Wheeling Rail

WASHINGTON, Sept. 11. (Exclusive)—Pittsburgh and West Virginia Railway, in an amended application filed with the Interstate Commerce Commission, reveals details of its plan to purchase the Wheeling and Lake Erie Railway and its subsidiary, Lorain and West Virginia Railway.

Pittsburgh would purchase 75,795 shares of Wheeling prior lien stock, 9867 shares of preferred and 112,000 shares of Wheeling common stocks. This stock is now in the hands of trustees following its removal from the Allegheny Corporation. Pittsburgh and West Virginia stated it would pay for the stock $21,362,638, plus interest at 6 per cent. No agreement has as yet been made between carrier and trustees for the stock transfer.

APPOINTMENT APPROVED

Appointment of A. H. Smith to the position of assistant manager assigned temporarily to the market and produce branch of California Bank, was approved by the board of directors yesterday, according to an announcement by A. M. Chaffey, president.

Plans for Huge New Investment Trust in Making

NEW YORK, Sept. 11. (AP)—Plans for another large investment trust, which is to have a fund of more than $100,000,000 at its disposal, were announced today.

The new company is to be called the Reliance International Corporation and has been organized as a subsidiary of Reliance Management Corporation. It will operate internationally, thereby supplementing the activities of its parent concern.

Directors of the corporation will include Matthew C. Brush, president of American International Corporation; Harry A. Arthur, vice-president of the same company; Ambrose Benkert, vice-president of Ames, Emerich & Co.; Marshall Forrest, vice-president of Ames, Emerich; Matthew S. Sloan, president of the New York Edison Company; Charles F. Hazlewood of Estabrook & Co.; David Friday, economist, and Norton H. Fry, president of Reliance Management Corporation.

The trust has been given an authorized capitalization of $75,000,000 in gold debentures, 1,500,000 shares of no par preferred, 50,000 shares of $3 cumulative preferred, 2,000,000 shares of Class A common and 1,000,000 shares of Class B common.

Investment Unit to be Formed

Formation of an investment trust and one which will specialize in the securities of chain store systems is expected to be announced shortly by George H. Burr & Co. The corporation will be known as Burco, Inc., and will start business with more than $5,000,000 cash. Tentative plans call for a capitalization of $25,000,000 of convertible preferred and 1,500,000 shares of no-par common stock.

The corporation will be authorized to buy, sell and trade in securities of all kinds and to participate in syndicates and underwritings. A portion of its resources will be used for the development of chain companies that warrant consideration but which have not attained growth sufficient to undertake public financing. George H. Burke & Co. has been prominently identified with chain store financing for many years.

Union Company to Offer Issue

Union Company, investment subsidiary of the Union Bank & Trust Co., today will offer to Southern California investors $1,000,000 of its own 6 per cent collateral trust serial gold certificates priced at 100 to yield 6 per cent, according to a statement yesterday by Ben R. Meyer, president of Union Bank and Union Company.

Proceeds from the sale of these certificates are to be used to provide additional working capital for the Union Company. The certificates are dated the 1st inst., and mature serially from 1930 to 1934, inclusive. They will be secured, it is stated, by readily marketable securities of a market value of not less than 125 per cent and they will be a legal obligation of the Union Company.

CHICAGO BANK PLANS INVESTMENT TRUST

CHICAGO, Sept. 11. (Exclusive) The Continental Illinois Bank and Trust Company is organizing an investment trust, according to sources familiar with the organization plans. Details are not available, although it is understood that Arthur Reynolds, chairman of the Continental's board of directors will head the new concern. Stock of the trust company is to be offered publicly, and the bank's own stockholders are to be offered the privilege of subscribing to shares on favorable terms.

CALITALO ACQUIRES BANK AT RIO VISTA

SAN FRANCISCO, Sept. 11. (Exclusive)—M. Maffei, president of Calital Investment Corporation, announced today the acquisition of an affiliated interest in the Delta Bank of Rio Vista. The capital of the bank will be doubled immediately. G. Baldocchi and George Stratton have been elected directors of the bank. The latter is a partner in Frederick Vincent & Co.

ORDERS REPORTED

NEW YORK, Sept. 11. (Exclusive) Westinghouse Electric and Manufacturing Company has received orders for a total of fourteen electrical locomotives from Chile Exploration Company, Anaconda-Cananea Copper Company, Virginia Iron, Coal and Coke Company, Clover Splint Coal Company, Weyerhauser Timber Company, New India Quicksilver Company, Dillon & Orr and Spring Valley Water Company.

TOBACCO NET REPORTED

NEW YORK, Sept. 11. (Exclusive) American Tobacco Company reported today net profits for seven months ended July 31, last, of $15,597,866, equal after preferred dividends to $7.18 a share on 1,952,917 combined A and B common shares.

SIGNAL ROYALTY PROFITS MOUNT

New Company Earns 75 Cents Per Share a Month

Directors Declare Initial Cash Dividend

Bankers Absorb Additional Capital Issue

Earnings of the Signal Royalties Company, operated by the same management controlling the Signal Oil and Gas Company, are running at the rate of 75 cents a month, or $9 a share annually after all charges, S. B. Mosher, president, announced yesterday. The announcement was made in connection with the declaration by the directors of an initial dividend of 50 cents a share, placing the stock on a $2 annual basis.

Mr. Mosher also announced that a substantial block of unissued stock has been sold to an investment banking group consisting of Banks, Huntley & Co., and the America Company, the latter of which is the investment subsidiary of the Bank of America of California. Proceeds from the sale of the stock will materially increase the amount of capital available for investment in oil royalties.

INCREASE RAPID

Although only in actual operation for five and one-half months, the Signal Royalties Company, Mr. Mosher said, has increased its net income before depletion from a total of $2343 in April to $21,300 in August. September earnings are running at the rate of $25,000 for the month, or the equivalent after depletion and Federal taxes to 75 cents a share.

Royalty income is obtained from a total investment since April 1 of $250,000 in royalties, located in a widely diversified list of oil fields. Prospects are, according to Mr. Mosher, for substantial increases in income through wells now drilling and through the employment of additional capital obtained through the sale of the stock to the banking group.

Royalty payments to the company are now coming from a total of thirty-five producing wells in which the company owns an interest. Signal Royalties also owns interests in thirty wells now drilling, and in 128 proven locations. The royalty interests cover 1130 acres of land of which 738 are considered proven. The total net production accruing to the company amounts to 1120 barrels daily at this time.

Segregated into fields, the royalty interests owned by the company cover acreage in Santa Fe Springs, Long Beach, Round Mountain, Elwood tidal lands, Maricopa Flats, Yates Extension, Pecos county, Tex., and Kettleman Hills. The Elwood royalty interest is in a strip offsetting the largest Elwood field producer, while at Maricopa Flats a 2300-barrel well has just been completed, offsetting a 120-acre piece in which Signal Royalties owns a large interest. A well is drilling on 480 acres in the Kettleman Hills in which an interest is owned.

Capitalization of Signal Royalties consists of 100,000 shares authorized of no par stock, of which approximately 22,000 shares are now outstanding, without including the stock to be taken up by the banking group. Stockholders of the Signal Oil and Gas Company were given the privilege at the time of organization to subscribe to Signal Royalties at $10 a share. Current quotations over the counter now range between $25 and $30 a share.

The initial dividend of 50 cents a share is payable the 15th inst. to stock of record the 1st inst.

United Aircraft Tells Earnings

NEW YORK, Sept. 11. (Exclusive) Consolidated net income of the United Aircraft Corporation for seven months ended July 31, last, amounted to $5,817,559 after all charges, equal after the 6 per cent preferred series A dividends, to $3.47 a share on 1,557,308 common shares outstanding, it was announced here today.

Net earnings for the month of July totaled $1,356,021. Unfilled orders of the equipment companies as of July 31, last, aggregated more than $14,000,000.

The earnings do not include the results of the Sikorsky Aviation Corporation, Stearman Aircraft Company or the Standard Steel Propeller Company, which are now in the process of a consolidation with the parent organization.

COTTON MARKET

NEW YORK, Sept. 11. (AP)—Advances in the cotton market today seemed to be promoted by apprehensions that rains had come too late to greatly benefit the crop outlook in Texas and Oklahoma. Claims met liquidation and southern selling, however, and were not fully maintained. The mid-afternoon market was quiet with the active months showing net gains of 3 to 6 points.

RANGE OF PRICES

NEW YORK, Sept. 11.—Cotton futures closed:

TARIFF BATTLE PROLONGED

Senate Opens Way for Long Struggle by Adoption of Income Tax Return Resolution

JOHN F. SINCLAIR

(Copyright, 1929, by North American Newspaper Alliance.)

NEW YORK, Sept. 11.—When the Senate passed the resolution, sponsored by the Democrats and the progressive Republicans calling for information from official income tax returns of taxpayers seeking tariff favors, it started the tariff battle which may take months and maybe a year to finish.

Salaries paid to officers by corporations of the United States as revealed in the tax returns is one piece of information the Senate wants to know all about. It is an immense task. The data sought will take weeks to compile and months to digest.

The information asked for is sweeping. It seeks data not only of manufacturers and producers, but of importers as well.

The Senate is now in extra session. The House has already passed a tariff act which the Senate is working over. It does not look as if it is possible to complete tariff legislation before November 30. The extra session ends on that day.

The regular session begins on December 3. The line-up as revealed between the Democrats and the progressive Republicans on the one side and the regular Republicans on the other, indicates a long, hard fight.

Unless the age of miracles has arrived, no tariff bill will come out of the extra session. This much at least can be inferred from the income-tax information resolution passed by such a large majority of the Senate this week.

This is the day of the week when the directors of the Bank of England meet to determine its discount rate and the financial world awaits the result of the meeting with considerable interest.

Will the rate, now standing at 5½ per cent, be raised? Ever since the New York Federal Reserve rate was increased from 5 to 6 per cent, England has been working at a disadvantage. The surplus money of Europe has been moving into New York and away from London, for the London rate today is ½ per cent below the New York rate.

Another thing has happened in regard to the British gold depletions. Formerly every New York bank announced when it was receiving a shipment of gold from London. But not now. In fact, the announcements are only made after the gold has finally sought shelter in the Federal Reserve.

Of course, this new policy of secrecy works as a real advantage to the Bank of England. Perhaps it also helps to explain why, when sterling cables are selling at $4.8475 or less, more gold has not been shipped here. For at that rate gold can be brought from London to the United States at a profit.

But the main question — the Bank of England rate. England's rate must go up unless the American rate goes down. And there is no prospect at present that the New York Federal Reserve rate will drop.

An increase in England's rate therefore would seem fairly certain.

ICE CREAM UNIT TO ACT ON EXTRA

Directors of the Chapman's Ice Cream Company are expected to meet this morning to take action on the declaration of an extra dividend, A. A. Comey, president, stated yesterday in announcing the declaration of the regular quarterly of 31 1-4 cents a share payable October 15 to stock of record the 25th inst.

POOL ACTIVITY REVIVES MART

Losses of Previous Session Largely Canceled

Sharp Drop in Call Rate Aid to Bullish Faction

General Improvement Led By Oil Group Advance

NEW YORK, Sept. 11. (AP)—The stock market had one of its "day-after" rebounds today, which have become characteristic of late on days succeeding floods of selling. Price indices indicated that more than half of yesterday's losses were regained. Trading was in large volume, nearly 4,800,000 shares changing hands.

Powerful pool operations in selected issues prompted general short covering, which accelerated the rally. Operations for the most part appeared to be professional, and were attributed to powerful banking interests and investment trusts. Commission houses stated that the public was not a large buyer, although western wires brought in a fair amount of business.

The outstanding bullish development of the day was an influx of call money, which carried the rate down to 7 per cent, after renewals at 9, as compared to yesterday's closing rate of 10. The ease in money was attributed by bankers to the piling up of funds here against the midmonth settlements. The market failed to show the Wednesday uneasiness, customary of late, over the prospect of an increase in the Bank of England's discount rate. Private advices to Wall street from London indicated that it was felt such action would

(Continued on Page 18, Column 1)

What do you buy When you invest?

Do you buy security?— If you seek security of principal at all times, our 6% Municipal Improvement Bond Certificates will most certainly meet your requirements. In the current offering, certificates represent ownership in 5,617 separate bonds averaging $151.36 apiece which constitute direct liens ranking ahead of all mortgages on real property appraised at $20,900,000 or more than 24 times the amount of this issue. The average amount in a single property per $1000 invested is less than 13c.

High net return?— Certificates yield a full 6% return exempt from all California Personal Property Taxes and Federal Income Tax, including the surtax.

Or convenience?— If you are interested in obtaining convenient serial maturities from 1930 to 1939, and even $500, $1000, and $5000 denominations, our Certificates will solve your problem.

All these desirable features are combined in this attractive investment. Please send name and address below for full details.

6,000,000 People and 10% Stock Dividends

THESE two features command your attention the moment you start to analyze UTILITIES POWER & LIGHT CORPORATION Class "A" Stock.

(1) First of all, the fact that the Company's properties serve over 6,000,000 people compels admiration for it, and places the system among the largest and most powerful in the world. A substantial portion of the Company's properties are in England and Scotland, where the use of electricity is increasing twice as fast as in America.

(2) Next, the fact that this important Company allows Class "A" stockholders, at their option, to accept dividends in additional Class "A" Stock at the rate of 1/10 of a share annually (or 10%) is indeed a feature worthy of notice. This generous privilege will double the original holdings in seven years' time.

The more you analyze this security listed on the New York Stock Exchange, the more you realize the value of this opportunity. Send for a circular today to help you in making comparisons.

Neon Company Control Sought by Purchase

CHICAGO, Sept. 11. (Exclusive)—Purchase of control of the Claude Neon Federal Company of Chicago and its nineteen subsidiary and associated companies throughout the Middle West has been contracted for by George L. Johnson, chairman of the board of Rainbow Luminous Products, Inc., and his associates at a reported price of $7,000,000, it was announced today. The Claude Neon Federal Company is controlled by Samuel Insull and associates and there has never been a public offering of stock.

The company is the licensee of Claude Neon Lights, Inc., in Illinois, Texas, Missouri, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Minnesota, Wisconsin, Iowa, Arkansas, Louisiana, Mississippi, Tennessee and Kentucky.

Paul D. Howse, president of Claude Neon Electrical Products Corporation, Ltd., western licensee of Claude Neon Lights, Inc., yesterday declared that the purchase of two-thirds interest in the Claude Neon Federal Company by the Rainbow financial interests was, in his opinion, a complete recognition of the Claude patents. The western Neon companies are in nowise affected by the Chicago transaction and there have been no negotiations whatsoever looking toward the purchase or sale of any of these concerns, Mr. Howse added.

Claude Neon Lights, Inc., one-third owner of Claude Neon Federal Company, has applied for and secured a temporary injunction restraining the sale of the two-thirds interest in the Claude Neon Federal Company pending a hearing to be held in New York City at a later date, according to Mr. Howse.

NEW YORK BOND PRICES

NEW YORK, Sept. 11. (AP)—Moderate pressure exerted against the bond list today caused prices to drift lower. Liquidation was of small proportions, but was sufficiently noticeable in all groups to indicate a lack of favorably sentiment.

In the last hour of trading came the announcement that the new issue of Treasury certificates, bearing 4¼ per cent interest, had been oversubscribed nearly three times. The large inquiry for the tax-exempt securities was about what had been expected, and the news found listed obligations of the United States selling at slight declines, which prevailed at the close.

From Chicago came word that the State of Illinois issue of 4 per cent bonds, totalling $11,000,000, had been awarded to a syndicate headed by the Continental Illinois Company on a bid of 92.627. The last previous sale of similar obligations—a $15,000,000 loan floated last June—brought 93.775, but since that time the market has slumped almost steadily.

Convertibles made a show of strength in the day's dull trading and advances running as high as 3 points had developed by middleteroon. The gains were not held in their entirety, however, so that the close found American Telephone 4½s, which again turned over with a flash of their early summer activity, at a net advance of 1½ points against a maximum rise for the session of approximately 5. Atchison 4½s moved within a restricted range, finishing a fraction higher, and International Telephone 4½s behaved similarly, although the last sale was 1½ above the Tuesday close. Railroad bonds of standard types showed general easiness, although the prevailing declines ran to fractions. Larger losses cropped out in a handful of issues, notably Chicago, Great Western 4s, and Pennsylvania Gold 4s, off 1 each, New Haven Debenture 4s, off 2, and New Orleans, Texas and Mexico 5s, off 2½, all on small turnovers.

Bethlehem Steel 6s, to be redeemed on February 1 at 105, suffered a net loss of ½, dropping at 104½. Certainteed Products Debenture 6½s featured the industrial group, however, on a 3½ point rise. Armour 5½s and Armour Real Estate 4½s gained fractionally. Steels as a whole were mixed.

Utilities yielded a substantial part of Tuesday's advance. New York Edison 6½s went down to equal the year's low at 110½. Foreign issues were dull and irregular. The most conspicuous change was a 3 point rise in Vertientes Sugar 7s.

Foreign obligations drew scant attention and the tone was easy.

The quotations represent sales of bonds (in thousands of dollars) and the highest and closing prices in the order given. To expedite transmission, the name is omitted when same as that of issue, and both low and close when same as high.

6% Interest

***plus* the satisfaction of knowing your money is safe and available**

ISSUED UNDER STATE SUPERVISION

WHEN you select a security for investment (not speculation), you usually plan to not disturb it—but rather just hold it and receive your interest regularly and without worry or fuss. You can do that with our 6% Guaranteed Investment Certificates.

However, you may unexpectedly want the actual cash—and you can get it, on your investment here—100 cents on every dollar plus interest earned. No buying or selling charges, no fees, no dues.

If you want only part of the money, you can borrow up to 90% of the face value. No delay.

These conveniences are two of the outstanding desirable features of our Certificates. Your money is safe—principal and interest are both guaranteed—and it is available in case you want it.

Certificates issued in Units of $100

Delivered promptly upon receipt of check by mail, if not convenient to call

Grain Futures Sharply Up on Bullish News

CHICAGO, Sept. 11. (AP)—Foreshadowing of big damage to wheat in Argentina, together with confirmation of unparalleled North American grain shortages, gave all cereal prices a decided upturn here today. Interest centered in wheat, especially on the 3½ cent bulge in the Argentine market over the week-end. Harvests in Argentina, usually the quickest barometer of havoc met with by Argentina wheat, indicate government crop figures current today were aimed at showing 1,381,850,000 bushels total shortage of grain this season in the United States and Canada, with the domestic potato crop 25 per cent below last year.

Closing quotations on wheat were strong, 2@2½c a bushel higher than yesterday's finish. Corn closed 1½@2c up, oats, ½ to ¾@¾c advance, and provisions unchanged to a shade to 7c higher.

Latest advices at hand today said prolonged absence of rain where most needed in Argentina has certainly impaired the Argentine wheat crop, and that in Santa Fe province alone the damage is from 30 to 50 per cent. Moreover, the Argentine forecast today included a continuance of drought intensified by climbing temperatures, and it was asserted that many Argentine farmers were plowing up wheat and flax to plant corn. In addition to the Argentine news, and to strengthening effects of United States and Canadian government crop reports, wheat trade authorities here laid stress on a disposition by commission houses to clear out of the September wheat market this year and to buy December values 10c a bushel from mid-September on.

Under such circumstances, wheat toward the last shortly rallied nearly or quite to the general price advance of the entire list of grains, although at first the corn market was the quietest to show an upward trend. The July delivery shares covering most estimate of corn yield this season and handling much of such selling, were down for the first month than the majority of traders had looked for, whereas domestic wheat requirements showed symptoms of being fairly broadly maintained. Export trade was also reported practically limited to continued apparent absence of export demand from the Orient, from South America, and also from Europe, it is intimated that the world's available supply of wheat had increased by 5,000,000 bushels in the week, to a new 350,072,000 bushels against 176,447,000 bushels a year ago. On the other hand, primary domestic receipts of wheat today were nearly 1,000,000 bushels less than was the case last year.

Corn owed its advance mainly to the influence of the government crop report and to prospects that the September estimate of the official crop estimate owing to end-of-the-season frost damage. Oats also responded to the government crop report, rising 1c to a new high-price record for the season.

Provisions tended to ease owing to down turns in the value of hogs.

OIL NEWS

BY HOWARD KEGLEY

Having leased approximately 14,000 acres west of Kerman, in Fresno county, the Rio Grande Oil Company is preparing to haul in material for the derrick of its Mossian No. 1 wildcat, to be drilled at the southwest corner of Section 14, 13-27.

Based on geological indications in a test well drilled by the Associated Oil Company about four years ago, Rio Grande recently started an active leasing campaign in the Kerman district. In the same general area much acreage is held by major operating companies and it is expected that the new acreage will be slowly prospected in search of an oil structure.

Increased Output

Daily average production of oil last week at Santa Fe Springs increased 16,000 barrels. Total output was 278,000 barrels last week, as against 262,000 barrels for the preceding week from 190 wells.

Following are the week's completions: General Petroleum Corporation's Anderson No. 153-E, 2300 barrels; Hill Midway No. 104, 700 barrels; Santa Fe No. 145-C, 370 barrels; Santa Fe No. 161-B, 4480 barrels; Santa Fe Community No. 191-E, 1900 barrels.

Associated Oil Company's Dewenter No. 8, 2000 barrels; Bell View Oil Syndicate's Grohs No. 2, recompleted for 2600 barrels; Italo Petroleum Corporation's Archer No. 1, 2900 barrels; H. R. MacMillan's Ratcliff No. 1, 3100 barrels; Reiber Oil Company's No. 1, 3400 barrels; Shell Oil Company's G. H. No. 24, 900 barrels, and Slusher No. 15, 4000 barrels; Standard Oil Company's Hepler No. 6, 2300 barrels; Sunset Pacific Oil Company's Santa Fe No. 2, 6400 barrels; Union Oil Company's Alexander No. 18, 900 barrels, and Parkwell No. 12, 640 barrels; Universal Consolidated Oil Company's Blanchard No. 11, 3000 barrels.

Completes One

The Shell Oil Company has completed Slusher No. 15 at Santa Fe Springs for an initial output of 4000 barrels of 33.5-deg. gravity oil per day from a depth of 7885 feet. The Thompson No. 6, with bottom at 8097 feet in the lower Clarke sand, yesterday was making a production test.

At Signal Hill Shell's Ness No. 11—deepest hole in the world, is pumping 700 barrels of water per day from a depth of 9280 feet.

Sands Up

The Lomas No. 1 discovery well of the Olympic Oil and Refining Company in the Palisades field, three miles west of Santa Barbara, has sanded up and efforts are being made to clean it out for recompletion.

Into Oil Sand

Yesterday the Erburu No. 1 wildcat of the General Petroleum Corporation on a 250-acre lease held jointly with the Shell Oil Company, eight miles southeast of Elwood, drilled into oil sand at 1238 feet and now is milling ahead.

Southern California Women are GOOD INVESTORS

STATISTICS of Edison security holders show that more than 50,000 women belong to the large family of 123,000 Edison partners. These women bought more than $50,000,000 worth of Edison securities after considering them from every standpoint that guides a good investor in making a decision.

Mr. George R. Bury, President of the Corporation, has summarized his letter to us as follows:

HISTORY: LOS ANGELES METROPOLITAN AIRPORT was officially dedicated December 16th, 1928. (Approximately 50,000 people attending the ceremony.) Since that time an extensive program of construction and development has been in progress, until today this field is recognized as the largest and finest commercial airport in Southern California. Numerous events of national and international importance have taken place at the Metropolitan Airport, including the famous flight of the U. S. Army's plane, "Question Mark," Captain Frank Hawk's record-breaking, Transcontinental, non-stop flight, and his round-trip, Lockheed flight between Los Angeles and New York. Waldo Waterman, General Manager of this airport, established a new altitude record with a Bach, tri-motored, transport plane there recently, (ascending 20,320 feet with 2,200 pounds dead weight aboard.) The non-stop race to the 1929 Cleveland Air Races started at the Los Angeles Metropolitan Airport.

INDUSTRY: There is an ever-growing necessity for adequate airport facilities in this country, and particularly in Southern California, where 32 per cent of all the aviation activities of America are conducted. The Los Angeles Metropolitan Airport has been developed to meet this urgent need, and as a going, operating field, fulfills every requirement of the modern airport, offering indispensable service to manufacturers, airline operators, private plane owners, oil companies, flying schools, distributors and allied branches of the aircraft industry. Although the Los Angeles Metropolitan Airport has only been in operation since December 16, 1928, present developments there rank it among the most completely equipped airports in the country and statistics show that as great a development has taken place there during the past six months as at any other airport in the United States.

PLANT: The Los Angeles Metropolitan Airport is located in the San Fernando Valley, the "Air Harbor of Los Angeles," where a net-work of paved highways place it within convenient distance of metropolitan areas. (This airport is within 40 minutes of down-town Los Angeles, 20 minutes of Hollywood and six air minutes from the passenger air terminal in Glendale.) Direct rail transportation is also provided by the Southern Pacific, 4,000 feet of main line trackage forming the northerly boundary of Metropolitan Airport, 381 acres of property ideally situated as to both climatic and topographical conditions for a major airport development, comprise the Los Angeles Metropolitan Airport. Two 1,000x4,000 feet all-weather runways provide a landing area of nearly 200 acres. Completion of the present construction program will place more than 250,000 square feet under roof at the Metropolitan Airport for aviation purposes.

ASSETS: A pro forma balance sheet of the Los Angeles Metropolitan Airport as of August 31, 1929, shows total assets of $1,055,278.01 with total current assets of $169,236.48 against current liabilities of $4,960.37. The land cost, improvements, buildings and equipment are carried at their actual cost of $306,586.22, against which there is a land incumbrance of $398,775.00. (These land payments are due in annual installments over a period of ten years at an average interest rate of 6¼%. As each payment is made, acreage is released from the mortgage.) The airport comprises 381 acres of land carried on the books at cost of $712,189.16, which was appraised May 11, 1929, by the appraisal committee of the Van Nuys Realty Board at $1,143,000.00.

EARNINGS: Income for the month of August showed an increase of 500 per cent over that of January. With less than 10 per cent of the available income area of Metropolitan Airport in use the Company now has sufficient revenue to pay all operating costs and interest on the land indebtedness. With the completion of additional buildings and leases now projected, the Company should be showing a substantial profit by January 1, 1930. Income has substantially increased each month, while the item of monthly operating cost is practically stationary.

GROWTH OF BUSINESS: In the space of six months 200,000 square feet of buildings have been completed and are occupied on the Airport. The main factories of the Bach Aircraft Company, The Commercial Aircraft Corporation, and the Apache Motor Corporation are now operating there. In addition there are located on the port, four major oil companies, seven airplane dealers and distributors, five schools, five maintenance and service companies and one flying club. The Airport Company owns four hangars now occupied and plans to build additional hangars, a restaurant and an aero club. Although the past eight months have seen a phenomenal development at the Los Angeles Metropolitan Airport, it has not been possible to keep pace with the demand for additional hangar space and the construction of new hangars for rental purposes will prove a profitable investment for the Corporation.

MANAGEMENT: The management will continue in the hands of the men who have successfully developed the Metropolitan Airport to its present point. Mr. George R. Bury, President, was formerly General Sales Manager of the Packard Motor Car Company of Detroit, and is Chairman of the Board of Bach Aircraft Company, Inc. H. J. Heffron, Vice-President, is President of the Apache Motor Corporation. Lloyd L. St. John, Secretary Treasurer, is President of the Hollywood Group Corporation. G. G. Greenwood, Director, is Vice-President of the Security First National Bank of Los Angeles. C. S. Beesemyer, Director, is Vice-President of the Gilmore Oil Company. J. B. Irsfeld, Director, is General Counsel for the Mountain States Life Insurance Company. Ivor McCray, Director, is Secretary-Treasurer of the Hollywood Group Corporation. Waldo D. Waterman, General Manager, is a pioneer of aviation and has been an active pilot for the past twenty years. All of these men have been prominently associated with various phases of the aviation industry in Southern California, and are regarded as pioneers in this field.

NEW YORK CURB STOCKS

NEW YORK, Sept. 11. (AP)—Speculative sentiment was decidedly bullish in today's curb market although there were several points of weakness and final quotations disclosed a fairly long list of net declines. The sharp reversal in the general price trend was attributed to lower call money rates, favorable dividend and trade reports, and rumors of the organization of several new investment trust and holding companies.

Revival of activity and strength in the oil shares, despite the disappointing production statistics, was one of the features of the day's trading. Ohio Oil again moved into new high ground, Cosden ran up nearly 6 points and moderate gains were recorded by Gulf of Pennsylvania, Vacuum and Standard Oils of Ohio and Indiana.

Public utilities were again the most active features. Electric Bond and Share ran up more than 5 points to 170¾, but lost part of its gain, and net advances of 2 to 3 points or more were registered by American and Foreign Power warrants, American Gas and Electric, International Superpower, United Gas and United Gas Improvements.

Electric Investors ran up 6 points on the publication of an annual earnings report showing $14.82 a share earned in the year ended July 30, as contrasted with $2.51 in the previous year.

National Investors, which sold as low as $11 a share this year, ran up 45 points to a new high at $345, closing at $340. Fourth National Investors crossed 50 to a new high record, but Third National Investors was heavy. Blue Ridge common and preferred were under heavy selling pressure, the common getting down to 19¾ and the preferred to 47½, or below the recent offering price.

Establishment of new high records by such issues as American Cyanamide B, General Printing Ink, General Theaters Equipment, Georgs Hormel, Pilot Radio Tube, and Trans-America Corporation was offset by the registering of new lows by Fairchild Aviation and National Aviation.

The closing price is omitted when same as the low, and both low and close when same as the high.

Offering at Today's Market

COMMERCIAL AIRCRAFT CORPORATION, Ltd.

Originally offered at $1 we urged you to buy because we felt sure that the completion of the first planes and the booking of additional orders would be reflected in an increased price.

Our prediction was true. Commercial Aircraft has started up.

We are in a position to handle orders for a limited number of shares at

$1.25

Call, phone or wire.

Unusual Oil Lease Opportunity

IN PROVEN STRUCTURE

Have tied up, under lease, 800 acres in one of Kern County's Proven structures. Prominent geologist, after careful analysis, has issued a written report indicating high-grade oil at shallow depth. We invite one or two men in a financial position to aid in its further development, to make a thorough investigation. Tremendous profits seem inevitable. Prompt action advisable.

LOS ANGELES MARKET

CATTLE—Part of yesterday's moderate supply was late in arriving, however, demand was fairly broad and a ready clearance was made on all classes. Prices were very uneven but mostly strong with spots higher on both steers and cows. The run was largely steers, she stock being comparatively scarce.

A load of good 686-pound Southern California feed lot yearling steers topped at 13.00, while a small lot of good 970-pound Central Californias made 12.25. A load of Imperial Valley steers and two loads of Central Californias sold from 11.50@11.60, while the majority of steers went over from 11.00@11.25. Several lots of common and low medium steers cleared from 10.25@10.75, including a load of Arizona Mexicans at 10.25. Other steers, mostly very common kind, sold from 9.00@10.00.

Odd lots of light heifers sold from 8.50@10.00, with odd lots of good handyweights and small lots of cows turned from 9.00@9.50, while a car of 996-pound Central California typed in carlots at 9.60. Common and medium cows cleared from 7.00@8.50, mostly 7.75@8.25. Culters and low cutters moved from 5.50@6.25, mostly 6.00 head of good bulls sold from 8.25@8.50, while common and medium kind went over mostly from 7.00@8.00.

CALVES—Broad demand existed and a ready clearance was made of the moderate supply. Prices were uneven, mostly strong with spots higher, quality considered. Small lots good and choice 200 to 225-pound vealers sold from 13.50@16.00, while a car of good 310-pound vealers made 13.00 with 382-pound averages at 13.60. Other vealers and calves were in small supply from 10.00@14.00, with very thin kind down to 8.00.

HOGS—Demand narrowed and yesterday's market was slow and very uneven. Early sales were mostly 25@40c lower. A small lot of good 171-pound trucked-in butchers topped at 13.35. Several lots of 149 to 186-pound trucked-in butchers sold from 11.75@12.00. One car of 192-pound Central California butchers made 11.90 with 208-pound averages at 11.50. Packing sows ruled steady. A car of smooth 361-pound Wyoming packing sows made 10.35. Other sows went over from 9.00@10.00.

SHEEP—None. Medium to choice lambs were quoted from 11.00@13.00, with medium to choice wooled ewes from 5.00@6.50.

YESTERDAY'S QUOTATIONS

SLAUGHTER CATTLE AND CALVES—Steers, 900 pounds up, medium, 10.25@11.75; common, 8.25@10.25. Heifers, 850 pounds down, good, 10.75@12.00; common and medium, 7.50@9.50. Cows, good, 8.25@9.50; common and medium, 6.25@8.25; low cutters and cutters, 5.50@6.25. Calves, (bulls, yearlings excluded), good, beef, 9.25@11.50; cutter to medium, 8.50@9.25. Vealers, 500 pounds down, good to choice, 11.50@14.50; cull and common, 7.00@11.50. Calves, milk fed, good and choice, 14.00@16.00; common and medium, 13.00@14.00; cull and common, 9.00@12.50.

HOGS — Medium weight, 200 to 250 pounds, medium to choice, 11.25@12.15; light weight, 150 to 200 pounds, medium to choice, 11.50@12.25; light lights, 130 to 150 pounds, medium to choice, 11.25@12.00; heavyweight, 250 to 300 pounds, medium to choice, 11.00@11.50; butcher sows, 250 pounds down, medium to choice, 9.00@9.50; all weights, cull and common, 8.00@9.50.

Sheep, 18,000; slaughter lambs higher, 25c; sheep steady, feeders strong; spots 25c higher; range slaughter lambs, 12.60@13.00; natives, 12.50@12.75; slaughter ewes, 4.00@5.00; range feeding lambs, 12.00@13.00; feeding ewes, 4.00@5.00; breeding ewes, 5.50@8.35; sec, 11.00.

DENVER, Sept. 11.—Cattle, 500; steady; light fed steers and yearlings, 13.00@14.75; vealers, 15.00@16.50; stock steers, 9.00@10.25; mixed steer and heifer stock calves, 12.50.

Hogs, 700; active, 15@25c lower; 160 to 260 pounds, 10.00@10.40; 300 to 350 pounds, 9.00@9.25; packing sows, 7.25@8.50; butcher cows, 9.50.

Sheep, 600; fat lambs, 25c higher; four out of five cars 76 to 78-pound Colorados, 12.60; some higher; fat ewes steady, 4.00 down; nothing done on feeders; Montpelier, 12.50; aged breeder ewes, 5.00@6.50.

ST. JOSEPH, Sept. 11.—Hogs, 7000; uneven; 10@15c lower; 170 to 220 pounds, 9.75@10.00; 240 to 300 pounds, 9.10@9.65.

Cattle, 3000; steer trade not fully established. Opening sales around steady; native steers and yearlings, 11.75@14.10; westerns late arriving and none sold; beef cows, 7.00@8.25; cutter grades, 5.25@6.50; veal top, 14.00.

Sheep, 3000; very little done. Bidding upward to 12.00 or steady for best range lambs asking stronger price. Native lambs, 12.25 down, steady, aged sheep and feeders unsold.

PORTLAND, Sept. 11.—Cattle and calves steady; receipts, 100. Steers, 800 and up.

Hogs slow; receipts, 280; feeder and stocker pigs, 10.75@11.00.

Sheep and lambs steady; receipts, 750. Ewes, 120 pounds down, 3.75@5.00.

DAILY EASTERN CITRUS MARKETS

[By the Associated Press.]

Carlot shipments of California citrus, compiled for the California Fruit Growers' Exchange from railroad passing reports, were announced as follows:

SOUTHERN CALIFORNIA

	Oranges.	Lemons.
September 11	178	14
Season to date	24,697	13,717
Last season to date	32,371	10,699

CENTRAL CALIFORNIA

September 11	4	0
Season to date	2,428	173
Last season to date	2,335	339

NORTHERN CALIFORNIA

September 11	0	0
Season to date	423	47
Last season to date	403	104

The market for California Valencias was generally improved today, although the price increases generally were spotty, reports from eastern and middle western auction centers showed. Lemons were generally unchanged to lower.

Analysis of trading developed the following price range per box:

	ORANGES Graded above choice.	Choice.	LEMONS Graded above choice.	Choice.
New York	3.20@7.50	3.50@5.10	12.00@15.20	11.10@14.15
Boston	3.10@4.40	3.50@3.90	11.50	
Chicago	3.10@4.50	3.50@3.90	11.75	
Cleveland	3.10@4.10	3.10@3.70	11.00	11.00
Cincinnati	3.10@4.85	3.10@3.70	12.00@13.25	11.00@10.15
Philadelphia	3.50@4.50		12.00@13.25	13.00
Pittsburgh	3.10@4.00	3.10@4.00	8.50@14.00	
St. Louis	3.50@4.50	3.50	11.50	11.00
Baltimore	4.10@5.05	3.75@4.10	11.10	12.00
Detroit	3.50@4.75	3.15@3.90	7.75	9.85

Prices by size of Sunkist brand Valencia oranges were reported to the California Fruit Growers' Exchange shippers, as follows:

PACKARD

(One of World's Oldest Motor Car Manufacturers)
Selling around $31.00 a share

Develops a New Diesel Airplane Motor—

Authorities look upon it as one of the most outstanding developments in Aviation in recent years. Will it bring radical changes in the Automotive as well as Aviation industries? Who knows?

In a recent test flight from Detroit to Langley Field, Virginia, the new motor consumed only $4.68 worth of fuel, according to report. An ordinary airplane motor would have consumed almost six times that in cost and bulk, or about $27.00 worth.

Lindbergh Pleased With It

Col. Lindbergh, in a flight with Maj. Thomas Lanphier, August 15th, tested the new Diesel airplane motor and expressed himself as being highly pleased with it. He is the first person outside of the Packard staff to fly with the new engine.

For Immediate Purchase

Already the leading producer of high priced cars, Packard bids fair to become dominant in Aviation motors as well. We recommend this stock.

METAL MARKETS

CLEVELAND, Sept. 11. (Exclusive)—Daily Metal Trade today says: Steel speculations from the automotive industry are lacking in the Cleveland district, but the trade in general expects a revival of demand by October. Prices generally have been reaffirmed for fourth quarter. Plate deliveries have improved in the East with demand only moderate. Some new business in steel sheets is coming to the Youngstown district mills, but tonnages is light compared with what booked a month or two ago. This situation is likely to improve within the next week or so.

Western wire mills are opening their books for fourth quarter on the basis of $2.00 per 100 lbs. for Chicago, for wire nails and $2.10 to $2.00 for plain wire. Some wire mill departments are operating at fairly high rate but for the first time in two years the industry is not much above 50 per cent at the moment.

Improvement in demand for cold finished steel bars from the automotive industry is expected by Pittsburgh district producers, for from now on for the fourth quarter in the Chicago district is heavy.

METAL PRICES

NEW YORK, Sept. 11. (P)—Copper steady; electrolytic spot and future, 18. Iron steady, unchanged. Tin steady; spot, 47; future, 46.00@46.12.

Lead steady; spot New York, 6.90; East St. Louis, 6.70@6.75.

Zinc steady; East St. Louis spot and future, 6.60.

Antimony, 8.75.

RUBBER MARKET

NEW YORK, Sept. 11. (Exclusive)—After two days of advancing prices, futures on all the local rubber exchanges today were under pressure throughout the entire session to result in net losses of the greater part from 50 to 85 points. Liquidation which was generally reported to have emanated from dealer sources was largely responsible for the setback. One of the main reasons for this selling was the Washington report of rubber invested in to the United States during the week ended September 7, which showed an increase of 3892 tons over the figures of the preceding week. Some buying came from several large Wall street commission houses.

Sales for the day represented 321 contracts or 8025 long tons, of which about one-half was transacted in the first month of the new crude rubber contract. The transferable notices brought the total for the month up to 407. London spot was unchanged and 1-16d lower at 9 3-16d while Singapore quoted the September position at 8⅛ for a rise of 1/16th amount in a dull market. The outside market under dealer selling declined ⅛c to 20¼c. Outside values were:

	Spot.	Oct.	Jan.
	Sept.	Dec.	Mar.
Smoked ribbed sheets	20¾	21¼	21¾
First latex crepe	17½	....	....
Clean thin brown crepe	17½	....	....
Amber No. 3	17½	....	....
Para upriver fine	20½	....	....

GASOLINE MARKET DULL

CHICAGO, Sept. 11. (Exclusive)—Motor gasoline, 7⅛ to 7⅜c; Kerosene, quiet; 41-43 water white, 5½ to 5¾c. Fuel oil strong; 34-38 gravity, 77½ to 80 cents.

COYNE TRADE SCHOOLS

Most widely advertised name in print today carries more full-page advertising than any trade name in the world, and has for the past 25 years.

I originated vocational training in America. I formerly owned the only chain of trade schools ever operated before or since I sold them. The Chicago schools run under my name and system enroll over 50,000 students per year. Their profits run into millions. It is a live-going, intensively advertised business. I own all my original copyrights. I have a clear record and a successful one. Have never been connected with a failure. Have local bank and credit references. The International Correspondence School and similar schools have made hundreds of millions of dollars' profit.

I want a successful stock promoter or parties with capital to start a plan that will net ten millions profit in 90 days on an investment of $250,000.

Opportunity for Active Men and Women Investors.

W. R. COYNE
Phone: CR. 3526—1462 Kings Rd., Hollywood

SHANTUNG'S EX-WAR LORD FACES TRIAL

Killing of Prince Hsien Charged to Chang Tsung; Accident Plea Accepted

TOKIO, Sept. 11. (AP)—Chang Tsung Chang, former Shantung war lord, went on trial in the Oita district court today on charges of accidental homicide growing out of the death recently of Prince Hsien Kai, cousin of the former boy Emperor of China Pu-yi.

Chang's secretary testified in his behalf, relating that the young Manchu was standing in a garden at the Beppu Hotel below a window in which Chang was examining a revolver. In the course of the examination it was fired, fatally wounding the Prince, who cried out he was murdered and that Chang should be watched.

The Prince and the former Shantung war lord had not met each other until the evening of the shooting, when the Prince, hearing of Chang's presence, had visited him. The Prince, who was graduated from the Japanese Military Academy in July, was spending a vacation in Beppu at the time of the shooting.

Chang was permitted to be absent from court today and was represented by his attorney.

The public prosecutor asked for a fine of 500 yen (less than $250,) indicating that the state probably will accept the accident story. Judgment will be given the 13th inst.

PROMINENT LEADER OF JEWS DIES

Louis Marshall, Noted as Philanthropist and Law Authority, Expires Abroad

ZURICH (Switzerland) Sept. 11. (AP)—The correspondent of the Jewish Telegraphic Agency here reported today that Louis Marshall, prominent Jewish philanthropist of New York City, died this afternoon of an infection of the pancreas. Mr. Marshall had been ill for several weeks and a blood transfusion was given him several days ago.

Louis Marshall attained an eminent place among the outstanding lawyers of the United States as an authority in constitutional and corporation law.

Notwithstanding his extensive law practice, he gave freely of his time and services in civic and communal movements and was honored on several occasions for his leadership of Jewish causes in America.

Mr. Marshall was born at Syracuse, N. Y., December 14, 1856, and began his law practice in that city. Later he removed to New York and became a member of the firm of Guggenheimer, Untermyer & Marshall.

Dixie Offical in Drug Tangle

ATLANTA (Ga.) Sept. 11. (AP)—Dr. John Wilkins, city physician, and Alfred L. Curtis, drug-store operator and former alderman, are under indictment today with two other physicians, another drug-store operator and two drug clerks in connection with three asserted conspiracies to violate the Harrison Narcotic Act.

DRY LAW OFFENDER HIT BY OLD STATUTE

ELGIN (Ill.) Sept. 11. (AP)—When Judge Allen threatened several days ago to invoke an 1877 statute to punish second offenders against the prohibition law, he wasn't fooling. Grady Vaughn, negro, found that out yesterday.

The charge against Vaughn is driving an automobile while intoxicated. It is his fourth conviction. Judge Allen fined him $100 and costs and ordered that the fine be worked out on the county highways at the rate of $1.50 a day. If there is no work to be done, Vaughn must wear a ball and chain in the County Jail.

Mr. Jack Ratliff Tells How Cuticura Healed Eruptions.

"About five months ago eruptions started breaking out on my chest. They itched so badly that I could hardly stand them. They finally spread all over my body, and I lost my sleep on account of the continuous burning and itching. My clothing aggravated them, and sometimes I scratched until the eruptions would bleed.

"A friend advised me to try Cuticura Soap and Ointment so I purchased some, and after using two cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." (Signed) Jack Ratliff, 208 So. 11th St., Marion, Iowa, April 9, 1929.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold everywhere. Sample each free. Address: "Cuticura Laboratories, Dept. H, Malden, Mass."

Cuticura Shaving Stick 25c.

THE WEATHER

(Official Report)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Sept. 11.—(Reported by W. E. Hershey, Meteorologist.) At 8 o'clock a.m. the barometer registered 29.98, at 5 p.m., 29.85. Thermometer for the corresponding hours showed 63 deg. and 73 deg. Relative humidity, 5 a.m., 85 per cent.; 5 p.m., 60 per cent. Wind, 5 a.m., northwest, velocity 3 miles; 5 p.m., southwest, velocity 6 miles. Temperatures, highest, 78 deg.; lowest, 62 deg. Rainfall for season, none; normal to date, .05 of an inch; last season to date, trace. Barometer reduced to sea level.

WEATHER CONDITIONS—Sept. 11: Light to moderate showers have occurred during the past twenty-four hours in the Atlantic and Gulf States and in Tennessee, Arkansas, Texas and New Mexico but fair weather has prevailed in other portions of the country. It was rather cool this morning in Minnesota and the Dakotas and in Montana, Wyoming and Colorado, but moderate temperatures were reported elsewhere. In Southern California fair weather was experienced yesterday with moderate temperature. It was cloudy or foggy near the coast this morning but clear in the interior. Temperatures were generally a little above normal. Fair weather will continue in Los Angeles and vicinity Thursday with moderate temperature. Fog or clouds may be expected in the morning.

Wells in Santa Fe Springs Petroleum District

Part of State's Fight to Stop Great Loss

Legal action to restrain fifty-four operators in the Santa Fe Springs field from the unreasonable waste of natural gas was started yesterday with the filing of a complaint in Superior Court by Fred G. Baetz, State Director of Natural Resources.

The petition was filed before Presiding Judge Craig, who issued an order requiring them to appear in court on the 26th inst., and show cause as to why a temporary restraining order and injunction should not be issued. The writ of injunction will be heard by Superior Judge Hardy.

Baetz, according to James S. Holbrook, who has been named special attorney to represent the State Mineralogist in the prosecution of the case, will serve to test the constitutionality of the new law which gives the right to compel oil companies to conserve natural gas.

The complaint names as defendants the companies and charges them with unreasonable waste of natural gas by flaring and releasing natural gas derived from the wells in the Santa Fe Springs oil fields into the air, to the following:

COMPANIES NAMED

Associated Oil Company, General Petroleum Corporation of California, Standard Oil Company, the Texas Company, Shell Oil Company, Union Oil Company, Industrial Fuel and Supply Company, Rio Grande Gasoline Company, Standard Gasoline Company, Amalgamated Petroleum Company, Amalgamated Royalty Company, American Petroleum Company, Bandini Petroleum Company, Bell View Oil Company, Buckeye Union Oil Company, Commodore Petroleum Company, Co-Operative Oil Syndicate, Del Amo Daley Land and Oil Company, Elliott Consolidated Oil Company, Graham-Loftus Oil Company, Oscar B. Howard, Jameson Petroleum Company, C. C. Julian Oil Company, Redd Petroleum Corporation, Inc., George W. Rio Grande Oil Company, Twin Bell Syndicate, the Standard Petroleum Company, Star Petroleum Company, Sunset-Pacific Oil Company, Superior Oil Company, Syndicate Company, Twin Bell Syndicate, United States Oil Company, Universal Consolidated Oil Company, Whiston Petroleum Company, Whittier-Fullerton Oil Syndicate No. 1, Paul F. Getty, Inc., Associated Oil Company, Willard Oil Company, Inc., Mohawk Petroleum Company, H. H. Rice, E. O. and Fullian, John Doe One, Richard Roe Smullen, John Doe Two, Richard Roe One, John Doe Three, Richard Roe Two, Richard Roe Three and the Bell Syndicate.

Some of the action is set forth in forty-nine lengthy paragraphs, while the prayer of the complaint, in the name of the people of the State of California, is developed in four counts.

GAS LEASTS SET

The limit of 2000 cubic feet of gas per barrel of oil produced is set forth in the complaint as the amount to be considered reasonable in the views of the State Director, and the charge is made that a greater production than the amount is in violation of the provisions of the conservation law.

Setting the limit and requesting court action to halt the alleged waste of an aggregate of 400,000,000 cubic feet of gas each twenty-four hours in the Santa Fe Springs field, the complaint prays judgment as follows:

That an order issue forthwith restraining the defendants to show cause before this court why a preliminary restraining order and injunction should not issue; that upon such hearing coming on to be heard a preliminary restraining order and injunction be issued prohibiting, restraining and enjoining the defendants from the unreasonable waste of gas by flaring, suffering or permitting the natural gas produced from any of the wells in, or to the wells, of the gas to escape or be blown into the air either before or after the removal of gasoline.

That the defendants be ordered, directed and commanded forthwith to cease and desist and cease the gas in the manner or refusing to do so the defendants be ordered and directed to remove the necessary materials

RUMOR SAYS NOTED SCENARIST TO WED

Frances Marion

ROMANCE TOLD BY FRIENDS

Report of Wedding Plans of Frances Marion and Director Undenied

Frances Marion, well-known scenarist, and George Hill, director at the Metro-Goldwyn-Mayer Studios, intend to wed within the next few months, according to friends, who further said that Miss Marion is wearing an engagement ring given to her some time ago by Hill.

While the former could not be reached yesterday for a statement, it was learned she has confided to many of her friends that she and Hill plan on being married in December or the first part of next year. They are seen together continually at Hollywood social functions.

Hill, asked about his engagement to Miss Marion, would neither deny nor affirm the report and suggested that she be seen for a statement. All efforts to reach Miss Marion were unavailing. Hill declared that he and Miss Marion have been friends for years and admitted they admire each other very much.

Miss Marion is well known in the cinema colony and is the widow of the late Fred Thomson, athletic screen hero.

Indian Fighters Who Made West to Meet Sunday

Indian fighters of the nation will gather here Sunday for the annual convention of the United Indian War Veterans of the United States, to be held the 15th, 16th and 17th inst., in Veterans Hall, 246 South Hill street. All participants in Indian warfare, wives, direct descendants and widows are to attend. The convention's most important business, it is announced, will be planning for larger pensions for Indian fighters or their widows.

Business will occupy the first day's session, to be followed by a banquet in the hall. A camp fire and war dance is announced for Monday night, while on the third day the veterans will make a bus tour of Hollywood and the beaches, followed by a film show.

The sessions are to wind up with a midnight supper at which the guests of honor will be J. F. W. Unfug and Luther Barker, past national commanders of the amalgamated organizations. Albert Fensch, national adjutant-general, announces that a permanent register of all Indian war veterans is being prepared to be placed in the historical division of the Army War College.

RULING ON FARE DUE IN OCTOBER

Supreme Court Will Pass on 7-Cent Charge

District Tribunal Accused of Exceeding Jurisdiction

Railroad Commission Brief Sent to Washington

Whether Los Angeles street-car patrons will be refunded the 2-cent extra fares they have been paying the Los Angeles Railway since October 28, 1928, will be decided by the United States Supreme Court. This was determined yesterday with the dispatching of a brief of the California State Railroad Commission to Washington in appeal from the decree of the United States District Court authorizing the local railway to collect a 7-cent fare in Los Angeles.

The Supreme Court is scheduled to act on the case October 21, next, to decide whether the thousands of dollars collected under the fare increase will be retained by the street-car company and the 7-cent fare will continue.

FIGHT BEGAN IN 1926

If the Supreme Court decides against the railway, holders of 2-cent coupon receipts, which have been given with each fare, can cash them, it is indicated in the State brief filed jointly by the commission and the city of Los Angeles through Arthur T. George, chief counsel for the commission.

Charges are contained in the brief that the District Court exceeded its jurisdiction when it authorized the fare increase. It charges that the 102 franchise contracts between the city and railway are being violated and that the District Court had no power to enable the transportation company to break these.

The fight of the railway to gain an increase on its lines here started November 17, 1926, when the railway filed an application with the commission to raise the fare from a flat 5-cent rate to a basic cash fare of 7 cents or four single-fare tokens for 25 cents.

APPLICATION DENIED

After exhaustive hearings the commission denied the company's application on March 26, 1928. Three months later the railway filed a bill of complaint with the District Court setting forth two causes of action.

It contended that the 5-cent rate under the city franchises was confiscatory and that the commission's denial of the increase application should be declared void.

The District Court held in favor of the railway October 1, 1928, and three weeks later the toll was raised.

Appeal to this decision was perfected by the commission and the city and on motion of the appellants the case was advanced for argument to the Supreme Court with yesterday's resultant action.

George served the brief on the railway yesterday from his San Francisco office and notified the local headquarters of the commission of his action.

Ex-Port Pilot Writes Mayor Scoring Board

A letter of complaint from Capt. Harry Miller, former port pilot, to Mayor Porter against the Harbor Commission, charging that the board employed a pilot from San Francisco and another from Seattle, ignoring his application for a job, was referred to the commission yesterday by the Mayor. Several weeks ago Miller appeared before the board and demanded a job as pilot.

Miller pointed out that an extra pilot had been employed during the vacation period at a cost of $650 and that this pilot later was appointed a pilot for San Francisco. If this pilot was not needed, he asserts, the money was wasted "thereby bringing discredit to your administration of city affairs."

President Allen requested Traffic Manager Starr, who has jurisdiction over the pilots, to explain the situation to the Mayor. Starr informed Mayor Porter that Miller had been dropped following complaints from four steamship companies at the port and Federal officers.

NEW HOTEL IN HOLLYWOOD

Plans Announced for $6,000,000 Hillcrest Terrace Structure Financed By Film Colony Members

Plans for the Persian Hotel, a $6,000,000 hostelry to be built in the Hillcrest Terrace area of Hollywood, were announced yesterday by Charles E. Carrico, president of Screenland Select, Inc.

The hotel's site is a nine-acre tract owned by Betty Compson, motion-picture actress. It is situated just north of Hollywood Boulevard between Curson avenue on the east and Nichols Canyon Road on the west.

Miss Compson is declared to head a group of screen colony celebrities who will finance the undertaking. The project is a private investment, and there will be no public offering of stock.

C. E. Noerenberg, architect and engineer, and formerly a member of the city engineering department, is handling all the technical details of the structure.

Exclusive shops will occupy a large portion of the main floor of the central unit.

Plans for landscaping the nine acres are being worked out and in addition to gardens, flower beds, shrubbery, artificial ponds and bridges, there will be a miniature golf course, bowling greens, an archery gallery, swimming pool and tennis courts.

The elevation of the building makes possible an extensive panoramic view extending south across Hollywood to the Palos Verdes Hills and west to the ocean.

FALL FASHION'S MAGIC DRAWS CROWDS TO WINDOW REVIEW

Fall fashions were the magic words that brought more than 100,000 of the Los Angeles family down to the retail section radiating from Seventh and Broadway last night. Display windows that had been shrouded for the past two days were unveiled and fabrics and creations in wearing apparel were revealed for the first time in Los Angeles.

While mothers and daughters crowded closely about the windows of the great department stores and small shops, fathers, brothers and sweethearts lined the curbs. The men declared a "ladies' night," and gave the women every opportunity to carry home mental pictures of the new styles.

Display windows were brilliantly illuminated and even the very small shops did their part in making this fashion event worth traveling many miles to see. Several of the merchants had engaged huge spotlights which played over their buildings and the streets.

Traffic on Broadway and Seventh street was never more congested than it was last night. Motor cars were three and four deep, and any pedestrian could have easily outwalked their progress or those of the street cars which proceeded by starts and halts, mostly halts.

As for the fashions, they all carried one sharp note.

Skirts are longer. Not only are they longer, but many evening gowns were shown last night with skirts that touched the floor at all points. These were the exception, however, and the uneven hem line holds its place. But whether tabs or ripples, godets or cascades these dependent effects just escaped the floor.

"Cover your knees, girls!" a curb observer admonished as a pair of flappers strolled by. "Knees are not only demode, they're suffering a total eclipse."

Many of the sports and street costumes showed a skirt hem from three to five inches below the knee. This lengthening of the skirt is one of the most drastic steps Fashion has taken in years.

Metallined brocades, sheer and lovely; transparent velvets; short evening wraps; coats much betrimmed with fur. These were the outstanding lights in the fall fashion show provided by the merchants last night.

DRUNK-DRIVING NET SPREAD

Police, Hospitals and Prosecutor Join Campaign to Make Streets Safe for Sobriety

Plans for a vigorous campaign to reduce the number of automobile accidents caused by drunken drivers were decided on yesterday at a luncheon conference at the Alexandria attended by Mayor Porter, Dist.-Atty. Fitts, Chief of Police Davis and Chief Police Surgeon Dodge. The campaign mapped out at the conference is designed to insure swift and certain punishment for all drunk drivers.

Before yesterday's conference it had been stated that the general crime and law enforcement situation would be discussed at it, but following the luncheon Mayor Porter said only the drunk-driver problem was given any detailed attention. He did not say, however, that no other matters were discussed. Concerning the findings of the conference on the drunk-driver situation, the Mayor issued a formal statement.

THREE-ARMED DRIVE

According to the Mayor's statement, the chief innovation decided upon at the conference is in the direction of increased co-operation between the police and the District Attorney's office to insure prosecution of drunk drivers. To this end a Deputy District Attorney will be assigned to the police department for night duty, to work with the police and the Receiving Hospital on intoxication reports and the police will present all cases of arrests of asserted drunk drivers immediately to the District Attorney's office.

Another step decided upon was to instruct the doctors at the Receiving Hospital to draw stricter lines as to what is meant by the phrase "under the influence of intoxicating liquor" as used in the California Vehicle Act. Furthermore, a new report system will be instituted at the Receiving Hospital, with all reports to be made in triplicate—one copy for the hospital, one for the police department and one for the District Attorney's office. These reports will include a complete diagnosis of the degree of intoxication and, it is presumed, will be convincing evidence to a judge and jury.

POLICE INSTRUCTION

Every policeman on the force will have to attend special lectures which will instruct them in what constitutes proper evidence in drunk-driving cases, how to get

(Continued on Page 2, Column 3)

COX NAMED FOR POST ON FIRE BOARD

Mayor Says Appointee "Well Qualified" in His Report to Council

Edwin E. Cox, whom Mayor Porter describes as a retired business man, was nominated by the Mayor yesterday to the Fire Commission to succeed State Senator Rochester, whose term has expired. The nomination was received by the City Council yesterday morning and referred to the Police and Fire Committee, which will report on it next Wednesday.

Mr. Cox, who lives at 738 Longwood avenue, was a member of the real estate firm of Filcher & Cox and last year was a member of the grand jury on which Mayor Porter also served. In transmitting his name to the Council, the Mayor said "he is especially qualified by reason of training and experience for the work which shall devolve upon him," but added no details concerning these qualifications.

It is understood that the matter of a possible reappointment was discussed with Senator Rochester by an emissary from the Mayor and that the Senator replied that he didn't desire a reappointment. Senator Rochester is the author of the radio slander law passed by the last Legislature.

CAVE EXPLORER TELLS STORY

Miss Elizabeth Lee, First Woman Ever to Enter Great Carlsbad Caverns, Recalls Vivid Experiences of That Journey in Underworld Realm

Miss Elizabeth Lee, 876 South Victoria street, knew the Carlsbad caverns of New Mexico when they were considered old bat caves and not one of the natural wonders of the world. She also was the first woman to make a trip through the tremendous underground palace and at a time when it was uncharted and practically unexplored.

Miss Elizabeth Lee

Her father, the late Dr. Willis T. Lee, headed the National Geographic Society expedition to the cave and made the first real exploration of the subterranean rooms. She helped him take the photographs which really brought the magnificent beauty of the Carlsbad underworld to the attention of the world. Later it was through the efforts of Dr. Lee and on his recommendations that the place was set aside as a national park.

Miss Lee had some thrilling experiences during the exploration. She told yesterday of how her father happened to discover the caves. They were known locally for a number of years, and one man, Jim White, partly had explored them. Dr. Lee's interest at once was aroused and he brought the caves to the attention of the National Geographic Society which realized the importance of the find. The expedition in 1924, in charge of Dr. Lee, followed.

"We had to go straight down 170 feet in pitch darkness in an old iron bucket," Miss Lee said in telling of her experiences. "We then walked three miles through the deep labyrinth. I had to be carried across chasms several times.

"We discovered several wonderful

MRS. PANTAGES CALLED DRUNK

Four Policemen Tell About Actions After Wreck

More Witnesses Give Stories of Auto Collision

Prosecution Nearing Close of Its Testimony

Four prosecution witnesses today will close the people's case against Mrs. Lois Pantages, now on trial before Superior Judge Hardy on a murder charge which resulted from the death of Joe Rokumoto following an automobile accident.

Two of the witnesses yet to be called will give surprise testimony, according to Dep. Dist.-Atty. Costello, heading the prosecution, and the other two simply will repeat testimony given once before at the preliminary hearing. The names of the two surprise witnesses and the nature of their testimony will not be disclosed until they take the stand.

In all, nine prosecution witnesses yesterday gave testimony in the case which got under way before a jury of five women and seven men one week ago last Tuesday morning. One by one the witnesses built up the prosecution case until the court day was climaxed late yesterday afternoon by the testimony of four police officers of Hollywood station who answered the police call to Serrano avenue and Sunset Boulevard on the evening of June 16, when Mrs. Pantages rammed the Rokumoto family automobile.

INTOXICATION CHARGED

The testimony of the officers came as a smashing climax to a day of testimony damaging to the defense. All four testified under oath that Mrs. Pantages was intoxicated when they arrived at the scene of the accident.

They told of how they detected liquor on her breath, of her actions following the accident, of what she did in the police ambulance and of how she acted in Hollywood Hospital, to which she was taken.

From William H. Dutton, the first police officer to take the stand, came the following declarations:

"Mrs. Pantages was on the grass between the street and the sidewalk near Serrano and Sunset Boulevard, when we arrived. She was throwing her arms about and kicking. She kept saying that she did not want to go to the hospital, but wished to be taken home."

Then the police officer added:

"In my opinion the woman was drunk."

OTHERS TESTIFY

And from Thomas M. Malone, the police officer who rode with the injured woman in the ambulance from the scene of the accident to the hospital:

"Mrs. Pantages knocked off my hat twice while I was attempting to place her in the ambulance.

"She would kick at me and then swung her arms. She didn't want to go to the hospital.

"I would say that she was drunk."

Then Patrolman Lowell E. Pearson, who also rode the ambulance, added his bit to the prosecution case.

This police officer went into detail regarding Mrs. Pantages's actions while at the hospital.

"She wouldn't stay on the cot," Pearson testified. "I had to push her down," he continued, "and then when we first got to the hospital she resisted us when we tried to take her into the building. She was waving her arms and kicking."

And Pearson ended his testimony with the statement that Mrs. Pantages was intoxicated when he saw her.

James Cavanaugh, police officer and ambulance driver, the last witness of the day, retold all that his brother officers had testified to and then added his opinion that the woman was intoxicated when he placed her in the police ambulance after the fatal accident.

CLASHES OCCUR

But the testimony of the four police officers did not go into the official record unopposed.

Storm after storm of objections, comment and general argument from Defense Counsel Steuer, Gilbert and Ford beat about the police officers as they gave their testimony with Prosecution Attorneys Costello, Jones and Van Cott mixing in from time to time and even Judge Hardy taking a hand when the argument at the counsel table became too pointed.

Not one of the officers got his opinion as to Mrs. Pantages's assertedly intoxicated condition into the record without repeated and sometimes almost violent objections from the defense. In each case, however, the prosecution stuck to

(Continued on Page 5, Column 2)

Girl Actress Barred from "Bad Babies"

Marjorie Montgomery

If Marjorie Montgomery, 17-year-old Hollywood High School actress, wants to continue her part as a maid in the stage play "Bad Babies," now playing at the Figueroa Playhouse, she will have to wait until May 27, 1930, her eighteenth birthday.

For Charles F. Lowy, attorney and deputy of the State Department of Industrial Relations, yesterday decided that the play is a bit too risque for a minor actress and denied Marjorie's application for a minor's employment permit.

"This office is not attempting to take the part of a censor, but one of my investigators and I have seen the play and we feel that Miss Montgomery is too young to play a part in the production," Lowy stated.

Although Marjorie was indignant at the State's stand and her mother, Mrs. Marie Cleveland, said a private tutor has been employed for Marjorie to comply with the city compulsory school laws, Dorothy Gould, Marjorie's understudy, took over the part last night.

COLISEUM ENLARGING CALLED UP

Council Will Discuss Plan for Increasing Seating Capicity Today

The contract between the city, the county and the Community Development Association, under which the association's management of the Municipal Coliseum is extended for another eight years and it agrees to enlarge and make permanent the seating capacity of the stadium is scheduled to be discussed by the City Council, meeting as a committee of the whole, today. The meeting will begin at 2 p.m.

The contract, which already has been approved by the county and the association, has been pending before the Council several months. Upon its first submission it was approved by a vote of 13 to 2, but Mayor Cryer, after holding it in his office almost two months, vetoed it.

The next Councilmanic action was a decision by a narrow vote to delay any further consideration of it until the present Council came into office last July 1. The present Council referred the document to its Finance Committee, where it has lain while several conferences have been held among interested parties looking toward compromise on disputed sections.

Meanwhile the Community Development Association and other public bodies have been demanding definite action. Enlarging the seating capacity and replacing the present temporary seats as soon as the coming football season is over is desired.

KANSANS PICNIC SATURDAY

Final calls have been issued for the Kansas picnic Saturday in Sycamore Grove Park. Judge William F. Schoch is to welcome the Jayhawkers. Miss Mary Harvey will offer cornet calls and solos, and there will be brief talks. The usual attractins" are announced, including State registers, silk badges and hot coffee.

CRASH REPORT DUE IN WEEK

Maj. Young to Fly North Today After Completing Investigation of T.A.T. Plane Disaster

Findings of the government investigators into the probable cause of the disaster to the Transcontinental Air Transport, Inc., plane which crashed into Mt. Taylor with five passengers and three in the crew, are scheduled to be made public in Washington next week, Maj. Clarence Young declared yesterday. Maj. Young, who is chief commissioner of the aviation section of the United States Department of Commerce, is scheduled to leave Los Angeles for San Francisco this morning.

He expects to pilot his own plane to San Francisco. The purpose of his trip is to gather more data on the methods employed by the air transportation companies in assembling weather information for transport pilots. Also it is the intention of the commissioner to complete his investigation into the Mt. Taylor crash.

Maj. Young has examined the records and all the data in the possession of the local offices of the T.A.T. and asserted all his information will be compiled with the findings of Inspector R. J. Hazen, who has been at the scene of the crash since the wrecked plane was located. The reports will be examined by the newly appointed board of inquiry in Washington.

Local officials of T.A.T. have received no information as to the resumption of service, but they asserted their belief that the system will begin operations before the end of the week. They asserted the Los Angeles unit of the T.A.T. system is ready to begin operations immediately.

The Lancer

by Harry Carr

HAVING demanded bootleg champagne and the society of delectable flappers, Count Keyserling goes home to make mean remarks about Los Angeles. When he comes back again we will let him drink vinegar and leave him to the society of Rev. Bob Shuler.

TOO MUCH MOVIE STAR

At the same time there is some merit to his criticisms. The part of Los Angeles with which a visitor comes in contact is unreal. We always trot out the Babbitts and the movie stars—than whom nothing is more unreal.

On the other hand, it would be impossible to find a city anywhere in the world in which there are more interesting people. "Everyone comes here sooner or later. Leaders of science, literature, art, philosophy . . .

TIRESOME BANQUETS

If we could only get over the banquet habit . . . these insufferable feeds in which, of necessity, the fare has all the charm and distinction of patent breakfast food . . . and the tedious speeches roared over the radio . . . .

Not long ago I was one of a party of newspaper men who went on a personally conducted boost tour. Not being of a profession that can be counted on to suffer in silence, half the party presented an ultimatum either to stop the speeches or they were going home. It was impossible to stem the oratory so they went home.

SPEECHES

In the course of five days we listened to more than 100 speeches. Of that stream of wind not one orator made one remark worth saying. One orator was received with wild applause. He said: "Gentlemen, you are welcome"—and sat down.

FASHIONS FOR MEN

All this wheeze about dress reform for men is becoming tedious and silly . . . fat men in hot pursuit of publicity being photographed in B.V.D.'s . . .

This is a semitropic country. In the summer time we ought to dress as men do in such countries. Linen clothes and open collars.

But we don't have to become circus freaks.

COOLED BY SWEAT

If you watch some of the peons on the streets, however, you will notice they are fairly muffled up with clothes. Some of them even wear two pairs of pants and heavy flannel shirts—to get the cooling benefit of evaporating sweat. On the desert the Navajo Indians wear heavy velveteen shirts.

SIESTAS

Our lives are not regulated to meet the heat as they are in hot countries. In the tropics they rise very early, saw off from 1 o'clock to 3, and continue business hours until 7:30. The early Californians had a reason for the noon siesta—and for starting the day at 4 a.m.

TWO ORDINANCES ADOPTED

Ordinances of intention were adopted by the City Council yesterday for the improvement of Briar avenue, between Tevlot street and Glendale Boulevard, and for the lighting of Slauson avenue, between Angeles Mesa Drive and a point 130 feet west of Hillcrest Drive. October 18, next, was set as the date for hearing protests against both ordinances.

AUNT HET

BY ROBERT QUILLEN

"I thought o' sendin' my black taffeta to the heathen after it split in the back, but I happened to think the split place wouldn't show if I save it to be buried in."

(Copyright, 1929, Publishers Syndicate)

Three Policemen Arrested on Indictments for Accepting Bribes

SHERIFF SEEKS ANOTHER TRIO

Heavy Guard Placed Around Home of Informer

Machine-Gun Auto Feared Seeking McDonald

Grand Jury Votes True Bills in Bootleg Craft

Following the arrest of three of the six policemen named in three indictments by the county grand jury yesterday, charged with accepting bribes for protecting bootleggers, a special armed guard of deputy sheriffs was placed about the home of Harry McDonald, whose information led to the indictments.

Two deputy sheriffs were already guarding McDonald but four additional officers were dispatched to Whittier when Frank Dewar, chief of the Sheriff's criminal department, received authentic information that three men in a touring car with two machine guns were seen driving past the Hall of Justice at 8 o'clock last night.

OWNED IN WHITTIER

The same car was seen five minutes later at Seventh street and Broadway, and a check of the description and the license number tallied with the first report. A further check of the car revealed that it was owned by a Whittier resident.

The three officers arrested are Thomas R. Washburn, patrolman; Sergt. Harry M. Hill and Leonard F. Sale. Sale is a member of the vice squad at Central Station. Hill is assigned to the Lincoln Heights division. Washburn was on duty at the City Jail at Central Station when he was arrested.

Hill and Sale are charged in the grand jury indictment with receiving a $600 bribe in exchange for extending protection to a bootlegger. The name of another officer indicted as a co-defendant with Hill and Sale is being withheld pending his arrest.

Washburn is indicted individually in a separate true bill. He is accused also of accepting a $600 bribe in a separate case. An hour after his arrest, Washburn was released under $10,000 bond.

Hill and Sale were released under the same amount of bail a few hours later.

According to Dewar, who was asked by the grand jury to serve the six warrants, the three officers still at liberty will surrender to deputy sheriffs this morning after they have arranged for their bond.

Return of the three indictments is but the first step in the inquiry, according to Ellwood De Garmo, grand jury foreman. Twenty witnesses have been questioned and scores of others are to be called to testify as the investigation broadens, it is indicated.

Of the six men named in the true bills returned yesterday, the highest ranking officer is a detective lieutenant. Evidence in the hands of the grand jury, however, indicates that higher police officials will be involved before the inquiry is closed, according to Dep. Dist.-Atty. Hammon, in charge of grand jury matters.

The investigation was precipitated two weeks ago with the arrest of Harry D. McDonald of 206 Gretna street, Whittier, on a charge of conspiracy to violate the Wright Act.

A few hours after his arrest, McDonald sent word to Dist.-Atty. Fitts that he wanted to talk to him. In the conference that followed McDonald is assered to have revealed the inside story of liquor traffic in Los Angeles, involving a score of police officers.

For five years, McDonald said, he sold illicit liquor in Los Angeles, with the protection of a few police officers. This protection cost him $250 a month at the start, McDonald stated, but as the business grew the toll mounted to $500 a month.

Added to this came extortionate demands from other officers "in on the know," according to McDonald, who constantly requested loans of from $100 to $1000 to keep silent about his operations.

It was these constant demands for more and more money, McDonald told investigators, that eventually drove him into virtual bankruptcy and caused him to decide to tell all he knew to the authorities and free himself from further similar requests.

The headquarters for the liquor ring were located in the back room of a turkish bath-house in East Seventeenth street, once owned by McDonald and "Dutch" Pendgrantz, according to Hammon.

The grand jury will resume its inquiry Friday when three or four additional witnesses will be questioned. Meanwhile other witnesses will be questioned by Hammon, Dep. Dist.-Atty. D. H. Clark and Deputy Sheriff A. C. Ramsey, who are assisting the investigation.

According to Foreman De Garmo, the grand jury investigation is not intended as a move to discredit the Police Department as a whole. "The grand jury has obtained evidence indicating that there are a few 'dirty spots' in the Police Department," he said, "and we intend to continue our investigation until this condition is remedied. We have received hearty co-operation from the Police Commission, Chief Davis, Mayor Porter and city and county authorities."

QUICK-THINKING WOMAN BRINGS SUSPECT ARREST

Presence of mind of Mrs. B. F. Long in writing down on the sidewalk the license number of an automobile in which a suspected bandit was escaping after an unsuccessful attempt to hold up Mrs. S. Hyrota in her grocery at 1320 West Eleventh street yesterday resulted in the arrest, later in the day, of the suspect.

The latter, traced to his home at 1154 Chadwick Drive, gave the name of Benjamin Jenette, 26 years of age. He has a wife and child, detectives said. Jenette admitted, detectives stated, that he was in the vicinity of the grocery store but denied he had attempted to rob anyone.

The attempted robbery took place shortly before noon. Mrs. Hyrota, confronted by the bandit, screamed and ran from her store. The bandit, frightened, leaped into an automobile he had left standing at the curb and fled. Mrs. Long, attracted by Mrs. Hyrota's screams, ran to the front of her home next to the store in time to see an automobile drive hurriedly away. She had a pencil in her hand but no paper, so she scribbled the license number on the sidewalk.

DRUNK-DRIVING CURB PLANNED

(Continued from First Page)

such evidence and how to present it. In order to stimulate policemen to more intensive efforts to enforce the laws against drunk drivers, they will, in the words of the Mayor, be kept "intensely aware of the damage done through their negligence."

Special lectures also will be given to the doctors at the Receiving Hospital and to the Deputy District Attorneys on uniform methods of procedure. The lectures to all three agencies concerned in the apprehension and punishment of drunk drivers will stress the importance of hearty co-operation.

The measures outlined were decided on after a discussion as to the chief difficulties experienced at present in the punishment of drunken drivers. These difficulties were listed in the Mayor's statement as follows:

PRESENT DIFFICULTIES

"(1.) Carelessness in gathering evidence and lack of interest in prosecution by some police officers.

"(2.) Difficulty in getting diagnosis of 'intoxication' from hospital —tendency to be very liberal with 'H.B.D.' (Had been drinking.)

"(3.) Reluctance of deputies in District Attorney's office to issue drunk-driving complaints unless some one has been fatally or seriously injured.

"(4.) Leniency of judges and juries in convicting and imposing sentences."

No direct action could be taken by yesterday's conference to overcome the last-mentioned obstacles to swift and sure punishment of drunk drivers, but it is felt that the measures recommended to insure better presentation of cases against persons charged with this offense will tend to overcome the tendency of judges and juries toward leniency.

LEGION TO HEAR CONSUL

Godfrey A. Fisher, British Consul in Los Angeles, will be the principal speaker tonight at an open meeting of Greayer Clover Post, American Legion, to be held in the clughouse at West Adams street and West Boulevard. His subject will be "Britishers' Impressions of the Strides Made in America Since the World War." The meeting, which is in observance of International Relations Week, will be attended by Clarence L. Kincaid, recently elected California Department Commander of the Legion, and his executive staff.

LIP IMPRINTS CLEW TO WOMAN BURGLAR

Miss Diana Roberts

Miss Roberts's apartment was robbed of furs worth $500.

The imprint of a pair of rouged lips on a popular brand of cigarette was the clew in the hands of Hollywood detectives yesterday by which they hope to apprehend the woman burglar who obtained $500 worth of furs from the apartment of Miss Diana Roberts, singer, at 5757 Franklin avenue.

Miss Roberts, a recent arrival from New York, reported the burglary to the police several days ago. Yesterday in making a further search the detectives found the cigarette which apparently had been smoked by the woman burglar as she ransacked the singer's apartment. The imprint of lips was very plain, the detectives declared.

ACTION TO CURB GAS ORGY TAKEN

(Continued from First Page)

and labor and under the direction of the State Oil and Gas Supervisor cause the wells to be shut in and the unreasonable waste of gas prevented by causing the gas to be confined in a manner so that not more than 2500 cubic feet of gas is produced to each barrel of oil, and that the expense of so doing be taxed against the defendants as a part of the costs of the suit."

Describing the necessity for immediate and stringent action to curb the gas wastage and the effect a further continuance of the present method will have on the future of the State, the complaint says:

"The fuel supplied by the natural gas obtained from the subsurface sand zones is the cheapest and best fuel known to mankind, and the value of the natural gas deposit in the Santa Fe Springs oil field to the State of California and its citizens is many millions of dollars. Since the discovery and bringing under control of the gas deposits in that area large sums of money have come into the State and have been invested in large manufacturing plants, and other large sums of money belonging to the people have been invested in similar manufacturing enterprises causing a great increase in the population of the State, county and city.

"Many cities in and adjacent to the Santa Fe Springs field, including the city of Los Angeles are dependent in a large measure for fuel upon natural gas and for that reason the people have become interested in the protection and continued preservation of the natural gas supply. Millions of dollars invested in manufacturing and the production of electric power and other properties in and near the oil fields are wholly dependent for their continued preservation and for the permanent value of their property upon the natural gas supply. Their location and establishment in the vicinity was due in large measure to the presence of natural gas being available without which such enterprises cannot operate at a profit, and in the event the supply of natural gas should be exhausted many such enterprises in which thousands of the citizens of the State find employment will be compelled to stop operations."

Similiar injunction proceedings against oil operators in Signal Hill, Ventura, Seal Beach and Huntington Beach, now are in course of preparation, according to Bennett, and will be filed in the near future.

Gems Exhibited on Anniversary

With the opening of the fall Fashion Show of 1929 comes the twelfth annual diamond exhibit of the Slavick Jewelry Company, 427 West Seventh street.

"We have assembled for this birthday celebration an unusual collection," said A. N. Slavick, president of the concern. "Diamonds recently received on the Graf Zeppelin have been mounted by our own designers and form a prominent part of the anniversary collection."

Slavick's store is appropriately decorated for this anniversary event.

JUDGE TO SCRATCH HEAD OVER SCALP SHOP ISSUE

If the manager of a hair-growing establishment gets acquainted with all the bald heads in the neighborhood and then leaves his employer flat and starts a scalp saturating shoppe of his own, can the employer curb his activities with an injunction?

Superior Judge Gates, who recently decided the merits of competing wine tonics, and opined that a turnover is a pie, will ponder the vexatious issues involved in the suit of Paul L. Thomas against Maurice Samut and decide the foregoing question Monday.

Thomas operates forty-nine hair restoriums throughout the country, he said, and Samut was working as manager of one of them. After learning the secret process of the Thomas system, the latter asserts, Samut started in business for himself, taking all the good customers. Now the plaintiff asks an injunction to prevent Samut from further interfering with the business.

Red Cross Will Conduct Meet

Championship medals, ribbons and certificates will be offered as prizes in each of four classes in the first annual life-saving pentathlon championship meet at Griffith Park plunge, Riverside and Los Feliz drives, Friday evening, the 20th inst., according to an announcement yesterday by the American Red Cross.

The meet will be open only to registered junior boys, junior girls, senior women and senior men in the American Red Cross live saving service.

A program of more than forty events is scheduid and it is expected that the meet will be the larzest to be held in the entire country.

Any member of the Red Cross life-saving service, junior or senior, wishing to enter the meet may obtain rules and entry blanks from the local Red Cross office.

ACTRESS IN NEW FIELD

Miss Clifford Planning Chain of Cosmetic Stores

Kathleen Clifford, stage and screen actress, has become president of Kathleen Clifford, Inc., a cosmetic corporation with main offices in Hollywood and Beverly Hills, and October 10, next, will open the first of a chain of cosmetic shops. She announced that shops will be opened in Beverly Hills, Hollywood, Westwood Village, Los Angeles, Pasadena and Long Beach, to retail twenty-two beauty preparations of her manufacture.

Miss Clifford shortly will make a national appearance tour of the country's department stores. She personally obtained many of the formulas during trips abroad, while other preparations are from the formulas of her head cosmetician. G. J. Cottrell, formerly assistant general sales manager of Walker's, Inc., is vice-president and general manager of Kathleen Clifford, Inc.

Police Capture Suspect in $40,000 Robbery

Discharged Employee Held as Jewel Burglar

Solving of the theft of $40,000 worth of jewelry from the home of William B. Joyce, Jr., at 611 North Lorraine Boulevard on February 22, last, was announced by police yesterday with the arrest of Robert J. Leins, 28 years of age, former employee at the Joyce home. Leins was taken into custody at 2288 Ellendale Place by Detective-Lieutenants Stoll and Sauter of the Wilshire police division after he had been traced there along a veritable trail of pawnshop tickets leading from this city to Santa Paula, San Francisco and back again.

The theft of the jewelry was reported as a burglary by Joyce. Preliminary investigation by the detectives disclosed that a key to a side door of the Joyce home was missing and that Leins had been discharged from the position of chauffeur.

Several days ago, the detectives stated, Leins appeared in Santa Paula and gave some of the asserted stolen jewelry to Mrs. Charles

NERVOUS MATE WEARIES WIFE

Spouse Freed From Husband Who Couldn't Stand Rustle of Paper

Harold Wetherell was so touchy about noise about his home that he would not even let his wife read a newspaper because the rattle of it annoyed him, Mrs. Amy B. Wetherell told Superior Judge Blake yesterday when applying for a divorce.

The wife asserted her husband was extremely nervous and irritable as a result of an overuse of alcoholic stimulants.

A decree was granted.

'CARNATION KID' PROVES NOT TO BE 'DAPPER DAN'

That the motion-picture "The Carnation Kid" was not purloined from the script of the story "Dapper Dan," written by Rowland Brown, scenario writer, is the opinion of Superior Judge Tappaan who yesterday handed down his decision in the suit brought by Brown against Douglas MacLean, Christie Productions and Famous Players-Lasky. After questioning MacLean for a few moments Judge Tappaan decided the case in favor of the defendants.

In announcing his decision Judge Tappaan declared there was nothing new, startling or original in the idea which was used in both stories. The judge came to this conclusion after reading the script of "Dapper Dan," seeing the picture, "The Carnation Kid," and hearing the testimony.

Such stories, each dealing with a salesman being mistaken for a notorious gangster of the underworld, have been written many times, therefore there is no plagiarism, Judge Tappaan holds.

Brown said he had submitted the manuscript of "Dapper Dan," written so that Douglas MacLean could play the leading role, to the Christie Productions; that later he was notified the story was not available. Still later, he declared, the production, "The Carnation Kid," appeared. He contended that the idea of his story was lifted bodily and used in the film production. The story deals with a hosiery salesman being taken for a gangster. In "The Carnation Kid" a typewriter salesman is taken for a notorious gangster. The defendants denied they stole Brown's story.

Brown asked for an injunction to restrain the showing of the film until an accounting of profits had been made.

HARVARD CLUB TO MEET

The monthly meeting of the Harvard Club of Southern California will be held next Tuesday at 12:15 p.m. in the banquet room of the University Club, 614 South Hope street. Dr. W. A. Morrison, chief surgeon of the Santa Fe Railroad, will speak on "Some Recent Advances in Surgery;" Dr. Harold H. Smith, internal medicine specialist, on "The Control of Pernicious Anemia," and Dr. George Dock, formerly of Tulane, Washington and Michigan universities, on "The Future of Medicine."

AUTO THIEF DRAWS FEDERAL SENTENCE

After pleading guilty to a charge of violating the Dyer Act by transportation of a stolen automobile from Louisiana to Los Angeles, Victor Hooker was sentenced to two years in a Federal prison yesterday by United States District Judge Henning. H. L. Bishop, jointly accused, pleaded guilty and was given a sentence of six months in the County Jail.

Arguments on Hymie Cohen's Case Offered

Arguments on a demurrer seeking to set aside the indictment charging Hymie Cohen with sixteen counts of violation of the State Narcotic Act were submitted to Superior Judge Aggeler yesterday by prosecution and defense counsel. The court will announce his ruling on the demurrer on the 17th inst.

As soon as the ruling is rendered, Cohen will be asked to enter his plea to the charges.

Cohen, who the District Attorney charges was a leader of a Los Angeles narcotic ring, also is charged in another indictment with possession of firearms with the identification numbers removed. He is scheduled to go to trial on this charge on October 10, next.

BATTLE EACH PAY DAY PICTURED IN FAMILY

A battle every pay day was the domestic program in the home of Harry W. McDonald, he testified in his divorce suit against Mrs. Anna T. McDonald in Superior Judge Sproul's court yesterday. "I had to take guns and knives away from her when she picked on me," said McDonald. "Often she flew into a rage when I would sit next to another woman in a street car." McDonald's son said his stepmother attacked his father with a baseball bat on one occasion.

BULLOCK'S

SCHOOL AGAIN!

200 FUR FELT HATS! FOR GIRLS $3.95

ELIZABETH, Beth, Betty and Bess all went to Bullock's to get a new hat! Elizabeth liked the first hat with bright patches at center of upturned brim. Beth chose the second, a neat little brimmed hat with ribbon band. Betty thought the third hat with slashed upturned brim quite frivolous. Bess was captivated by the hat in the upper right corner because its band circled brim and crown, too! But instead of being content with one hat, as the little girl in the story book was with one egg, leaving four, the modern child, thinking in terms of the ensemble, took four Fur Felt hats! Black, Navy, Oakwood, Oakbuff, Castanet, Carmen, Playa, Blue, Green, Almond. "School Again" Values for this very day! $3.95 each!

The Hat! An Example of Girls' and Boys' Things Good for School!

Some day, perhaps, the school curriculum will include an intensive course in clothes personality! This is something the child should learn from babyhood. So far this great task has been undertaken by America's fashionists . . . Bullock's has contributed largely . . . and has succeeded rather well! The up to Bullock standard things good for school presented in Specialized "School Again" values demonstrate this! Each section participating!

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.
—Abraham Lincoln.

Today's Bible Text

"For there are many unruly and vain talkers and deceivers, whose mouths must be stopped; who subvert whole houses, teaching things which they ought not, for filthy lucre's sake." Titus 1:10-11.

JUST AS USUAL

Helen Wills may have lost her tonsils but she can still reach the high ones.

THE SUNDAY SERMON

One man out of every nine in America goes to church. Maybe the other eight have the radio and the Sunday paper and figure that personal attendance is more of a gesture than a duty.

PLANE SAILING

As there are more autos in proportion to population in California than any other State in the Union so also are there more planes in circulation. Our roads are not only loved by the motorist, but our sunny climate is cherished by the flyer. We have what the world wants and we hope we are not stingy with it.

THE BIG TAX

When the city tax is pinched a bit it is a signal for the county rate to be boosted—or so it seems to the citizens who foot the bills. The county tax has been marked up to 88 cents, which would have seemed stupendous in other days. Considering the assessed valuation of the county it is stupendous, but the residents will draw in their belts another notch and settle up.

USE OF GLIDERS

The Aeronautical Chamber of Commerce urges the larger use of gliders for training purposes. A great deal of the knack of handling a motored plane can be acquired by using the glider and many hazards can be met and overcome without encountering the larger danger. The Germans are doing a lot with gliders and have made some rather remarkable scores. They are worth attention.

CALL FOR PENSIONS

The letter carriers' organization seeks to bring about the retirement of all carriers at the age of 62 on a pension of $100 a month. If they can arrange to provide most of the money themselves a plan might be worked out, but if they expect Uncle Sam to foot the bill they are out of luck. Nevertheless, the idea of old age and service pensions seems to be swelling in the popular mind.

MORE SEA ROOM

Talk about trade routes, it is mentioned that the Panama Canal handled more than 30,000,000 tons of shipping last year. With some expansion that can be easily made and by running the locks and the gates night and day, it might be possible for the canal to take care of 50,000,000 tons. But as it is ships sometimes have to wait two or three days to get through and it is important that the surveys and preliminaries for the proposed Nicaragua canal be speeded up. It will be needed by the time it is built.

MONEY ABROAD

By this time Americans are said to have invested nearly $13,000,000,000 in real money in foreign lands—to say nothing of the government loans to the Allies. It cannot be said that we are not doing our part in keeping the world machinery in motion. If we were drawing 7 per cent interest on our overseas plantings we might be considered as merely hoarders. But we are not. A lot of the dough cast upon the waters will never come back. But there is still enough here to warrant the world in pointing us out as an example of national prosperity.

FILMS IN SCHOOLS

At the sessions of the American Association for the Advancement of Science one of the speakers gave the results of some research in the use of films in the public schools. It is asserted that when history is taught by the flickers the pupils learn faster and 20 per cent more. There are many fields of learning in which films can be used to great practical advantage in the schools. It is even possible that there may be an ultimate saving of money—although this was hardly to be expected. But the possibilities for the use of films in the schools and colleges have hardly been scratched.

PAN-EUROPA

The project of Premier Briand of France, tentatively accepted "in principle" by representatives of some twenty-eight nations, to form a confederation of European countries somewhat along the lines of the United States of America, is an interesting and ambitious one. If it could be made to work out it might prove a long step forward toward the elimination of international misunderstandings and the spirit of mutual suspicion and jealousy which is even now leading Europe in the direction of another war.

Such a consummation would be desirable even if, as Washington suspects, one of the chief purposes back of the plan is to form a political and commercial coalition against the United States. If the seeds of war in Europe could be permanently rooted out, the world as a whole would benefit to an extent where this country could afford to take its chances.

Unfortunately, however, it is the very conditions which the plan ostensibly means to eliminate that are most apt to prevent its success.

Such an amalgamation of sovereign powers does not work out. In our own experience, we had to fight a long and bloody civil war to establish the United States of America on its present firm basis. Which is, that the various governments of the United States are political subdivisions of a common general government; not separate entities or separate sovereignties loosely joined together by common agreement.

If such a theory as the latter could not work out among a people with a common language and common interests, what chance has it in Europe where the nations cannot agree upon anything; where one war has followed another—one for each generation and several extra wars thrown in between generations for good measure?

The complexities of European rivalry—which M. Briand proposes to iron out with a graceful gesture—are so involved that (for instance) there are only two living diplomats who pretend to understand the Balkan problem; and one admits candidly that he doesn't understand more than its superficial outward phases. Lord Salisbury said that only two men ever lived who understood the Schleswig-Holstein question.

More than one shrewd diplomat believes that the real motive is to line up Europe in some sort of alliance against the United States; a little gas escaping from the smoldering resentment of many European powers against the fact that Uncle Sam would like to get his money back.

If this should prove to be the fact, the project even then will not be likely to make much progress. Both England and Germany have strong and immediate reasons for seeking friendship with the United States rather than enmity. In the case of Great Britain, it has been made plain that British diplomacy is determined to agree with our international positions at any reasonable cost and with any reasonable concession.

On the face of it, a project to mass Europe against us would seem to hold uncomfortable possibilities for this country. An examination of past similar alliances in Europe, however, enables us to continue to sleep o' nights. Europe will respond with a whoop to any such project of making faces at the United States—until they begin to work out the details of the plan. Then they dig up old rivalries and it ends in everyone going home—mad.

With the League of Nations making reasonable forward progress it is not clear why another and more restricted alliance should be considered necessary. If there ever is a really effective association of governments on the lines of our own union of States, it is much more likely to evolve from the present League than from M. Briand's plan for a United States of Europe.

WIPE OUT THE FRUIT FLY

If the present session of Congress accomplishes no other constructive work than affording the means for stamping out the Mediterranean fruit fly it will have done a great public service. It will do well to heed the request of Secretary of Agriculture Hyde for an appropriation of $26,000,000 to carry on this work. The Secretary says it will take that amount to finish the task of freeing the Florida orchards from the pest and seeing that it does not spread to outside territory.

The Department of Agriculture is not planning the mere control of the fruit fly, for that, according to Secretary Hyde, "would mean living with it, and we want it completely wiped off the continent." The present inspection and certification of fruit and vegetables, he says, will be continued and intensified.

This is the kind of talk and action that California has been waiting for. The special and obvious interest that the people of this State have in the subject is greater than that of any other in the Union save unhappy Florida, where the war is now being carried on. As $4,500,000 already has been appropriated, the sum available for fighting the fly will be $30,500,000, should Congress comply with the request of Secretary Hyde.

Among the scheduled uses of the appropriation, the most radical is that of the proposed destruction of all the vegetation of 7,000,000 acres in Southern Florida, where the fly is said to have its headquarters. This is an area more than twice that of Los Angeles county and it gives Californians an idea of what might be done to our own vegetation should the pest gain a foothold here and infest a territory similar in size to that in which it has spread in Florida.

Just what proportion of this sum, if any, is to be used for reparations to the fruit growers whose crops and—in some cases—trees are destroyed to rout the pest is not set forth. That the appropriation should be large enough to make a start, at least, on such reparations payments is urged by all fair-minded persons who have made a study of the matter. Precedent in such cases indicates that the government should pay, roughly, one-half of the reimbursement agreed on, the affected State to pay the other half. In no case, of course, should the total so paid equal the actual monetary loss. It is to the growers' own interest that no unscrupulous or "temporary" farmer shall be permitted to make money out of the situation.

To invest $30,500,000 in this campaign against the fruit fly would be money well spent, as the insect is capable of more costly damage than a war.

SMALLER TOMBSTONES

At a recent meeting of cemetery superintendents it was decided to recommend the use of smaller and saner tombstones. In many of the newer graveyards the tombstones and even the family monument are forbidden. There may be a marker of granite or bronze but all the rest is a rolling expanse of delightful greenery. It looks like a pleasant place to sleep. The idea is to get away from the marble billboards which advertised the virtues of the departed. It wearies a stranger to note a massive slab on which is carved:

Here lies the bones of Jonathan Spears,
A pilgrim in this vale of tears.
He was large of body and vast of mind,
And this was the biggest stone we could find.

Old-fashioned country churchyards are studded with tombstones after this pattern. Sometimes there was a suspicion that the slab had to be a ponderous one to hold the deceased in place. But now the men who create and control our cemeteries are changing all this. If the mausoleum or crematory is passed over the suggestion is for a quiet little grave under an enduring greensward with no shaft or slab to rear its ghostly presence above the sod.

IMPERIAL VALLEY MELONS

In no previous year have the melon growers of the Imperial Valley had so busy a season or shipped so many of their succulent gourds from their ranches as in that just concluded. They broke all records by sending out of their district 19,858 carloads of melons, or 1469 carloads more than in 1928. The bulk of this bumper crop was shipped to eastern cities for distribution. With 340 crates to the carload, 19,858 carloads means 243,061,920 melons, or more than two for each man, woman and child in the United States.

Imperial Valley has become famous the world over for its cantaloupes, the size, flavor and prodigious quantity of which rank high in the esteem of those who know a good melon when they see and taste it and are aware of the fact that in no other melon-growing section of the country, not excepting the famed Rocky Ford district of Colorado, is there such an enormous production of this excellent fruit.

This year the Imperial Valley cantaloupes were of larger size and better flavor than usual. Weather conditions were such that they ripened slowly, grew larger and could be picked and packed to better advantage. As the prices generally were good, the producers for the most part have had fair returns for their enterprise and labor—and there is plenty of work to do on a big melon patch, particularly when the fruit begins to ripen. At one time it was feared there would be a car shortage, but the transportation companies met the emergency. The freight line managers have shown considerable foresight and business acumen in shipping the crop.

Melon growing in California has had its ups and downs, but on the whole it has been and doubtless will continue to be a profitable industry.

CHECKING UP ON HISTORY

By James J. Montague

You know the tale of King Canute
Accepted still without dispute,
Who sat beside
The rising tide
And bade it not to wet him.
But still the wavelets rose and rose
Until they lapped the monarch's toes
And by and by
Came up so high
That one of them upset him.

But I am sure this royal geht
Was trying an experiment
With courtiers who
More toadish grew
And flattering hour by hour.
Until they said the very sea
was not as puissant as he
And that the tide
Would soon subside
Before his royal power.

I know that history does not state
What was these crafty courtiers' fate
But when the king
Had had his fling
At sounding their sincerity,
I'm certain that the following day
He dragged the bunch, scared ashy gray,
Into his hall
And had them all
Beheaded with celerity.

(Copyright, 1929, by The Bell Syndicate, Inc.)

LEE SIDE O' L.A.

By Lee Shippey

MEXICAN border resorts for many years have been notably a disgrace to Mexico—and to the United States, since nine-tenths of their support comes from the American side. Indeed, most of their drinking, gambling and carousing places have not only been operated for but by Americans, operated in such a way that scenes of drunkenness and debauchery were a large part of the show others from this land of the brave and home of the inconsistent went to see. So we feel that Agua Caliente is an important novelty. It is the first and only beautiful resort on the border from Tia Juana to Matamoras.

Agua Caliente is really beautiful. It is a gambling palace in which, Manager Bowman tells us, $4,000,000, American, already has been expended and $2,500,000 more is being invested in race track and other developments. One hundred times as much space is taken by the lovely hotel, the thirty-two adjoining cottages which form the most charming village in all Mexico, the plunge and amusement grounds and patios and walks, as by the casino and bar. But they can accommodate 2000 people. No doubt twice that many people visit Agua Caliente daily. The hotel feeds an average of more than 2000 and thousands motor out or go out in busses for a few hours only. And the games run all night as well as all day. But there is so much else to do and see that few people spend all their time near the gaming tables. They at least have to step out now and then to get more money.

Hollywood Contributes Liberally

A large proportion of the guests at Agua Caliente are from Hollywood, but for all that it was a quiet and orderly crowd we saw there. Those Hollywooders who have a fondness for wild parties must stay at home if they want to "throw" them, for they won't be allowed to make themselves that much at home at Agua Caliente. We didn't see a person who showed signs of hard drinking or evidenced any inclination toward loud or boisterous conduct. People had to crowd each other to get up to the gaming tables, especially the roulette table, but they did it courteously. There were as many women as men about the tables and all were treated with punctilious respect. Women also stepped up to the bar and ordered drinks in the same matter-of-fact way men did.

But we did see some men—and some women—who were playing with drawn, set, desperate faces. They were among the quietest, most decorous of all. But we saw two or three who looked as if they were looking ruin grimly in the face.

Investors—and Donaters

Such things, however, always have happened at protected gaming resorts and the atmosphere of Agua Caliente is so far ahead of that of any other resort on the Mexican border that it is hard to find fault with it. And maybe if our nouveaux riches didn't go there to throw away their money, they'd go to Monte Carlo to do it. But when one considers the suddenness with which political changes have come to Mexico and the possibilities of what might be called local revolutions, one realizes that the Americans who have invested most of that money and are still investing there must be counting on pretty large profits. Most of the Hollywood and Beverly Hills folks who have been frequent visitors there can feel, with some pride, that they have contributed quite a bit toward the building up of perhaps the most beautiful community in Mexico.

Real Mexico

But Agua Caliente is not Mexican, even though it is a show place of Mexico. It is Southern California Spanish in architecture, American in management, French in cuisine and Mexican only in service. If you want to get the real flavor of Mexico you must go to Ensenada. Ensenada, too, has its American influence. But the town still is quaint and from it you can get an idea of what real Mexico is like which you cannot get from any border town.

A Russian Town in Mexico

Sixteen miles inland from the seaport of Ensenada and a little north of it is the town of Guadalupe, Mexican in name, but wholly Russian in population. In 1904 fifty Russian families founded the town and now there are 330 Russian children in it. But, of course, that is by no means all the children that have been born there. As they mature, most of them come to Los Angeles.

It is a most astonishing thing to one familiar with Mexico to drive into an adobe town—all adobe—and then be confronted by fair-skinned men wearing magnificent curly red whiskers, and see men, women and children in Russian costume marching sedately to church. And if you stop one to ask for something to eat he takes you right along to the church, where a community feast is spread after the service, and there you are introduced to everyone, and they fed you well, and won't take a cent for it, and invite you to come again, and show you the Russian lace their daughters are making to sell when they move to Los Angeles. And if you tell them, proudly, that you have five children of your own at home, they will only look at you pityingly and say something intended to be comforting—for they consider sixteen children to the family a good, healthy average and anything less than a dozen, just too bad,

LETTERS TO The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

Ambassadors of the Air

TUJUNGA, Sept. 5—[To the Editor of The Times:] The friendly feeling shown by the people of this country toward the Graf Zeppelin and its intrepid commander reminds us how short-lived are the hates and animosities engendered during times of war. Ten years ago, whatever bore the German trade-mark was under ban in the United States. Even the realm of art was invaded and during that period so great a genius as Fritz Kreisler was taboo on the American concert stage. The matchless music of the German composers was unheard in public and if we read Goethe or Schiller, it was done clandestinely, with one eye on the right oblique.

And now comes Eckener, sailing serenely over land and sea in his great silver ship, and dropping down on us for a friendly call, is greeted by a nation-wide demonstration of affectionate regard. Again, we are reminded that long ago, the world's greatest Mystic, looking far into the future, said that we should yet see "the Son of Man coming in the clouds of heaven with great power." It is difficult not to associate the literal fulfillment of this saying with our splendid aviators of today, and the roar of their mighty motors high up in the clouds. Certainly, these ambassadors of the air have come in a spirit of good will and are bringing about a better understanding among the nations of the earth.

MAE GUTHRIE TONGIER.

The Night Blooming Radio

LOS ANGELES, Sept. 6.—[To the Editor of The Times:] Cannot something be done to abate the unnecessary night noise evils that we city dwellers are forced to put up with? The new State anticutout law is now in force, but police do not enforce it. Loud-talking revellers returning at all hours of the night keep whole neighborhoods awake. Old model Fords, loose manhole covers, flat-wheel street cars, garbage-can wreckers, crowing roosters, drunken party celebrants, fire - police - ambulance sirens might be given attention.

But of all the nuisances, day or night, radio loud speakers are the worst. Why in the name of common decency cannot radio users tone down their loud speaker reception to a low pitch so that they do not annoy their neighbors by their lack of good breeding. We, who own property and pay taxes, cannot pack up and move overnight like a transient renter. Within a block of where I live is a hospital filled with sick and injured people. And they have to endure the same noise that I do. From 7 a.m., until midnight, day in and day out, musical instruments make life a burden in my neighborhood. In the last six months I've had to listen to every tune ever written, not once but over and over again. Help!

TAXPAYER.

Planes and Lightning

OCEANSIDE, Sept. 8.—[To the Editor of The Times:] It is a known fact that lightning flashes from cloud to cloud as well as from clouds to earth or earth to clouds, and there is no reason to suppose that a plane in the air is not capable of receiving and accumulating an electric charge. Now if this is true, it is reasonable to expect that a plane in flight in the vicinity of an electrical storm would be in a rather hazardous position. This would be particularly true of planes with wings and fuselage of wood and fabric construction, while planes of all metal construction would be less liable to damage from lightning.

J. MERIAM.

Much Interested

LOS ANGELES, Sept. 8.—[To the Editor of The Times:] We have been interested in the articles by Mrs. Mabel Walker Willebrandt which have appeared recently in The Times, and we wish to express our appreciation for the courageous stand taken by the Los Angeles Times in favor of prohibition.

BOARD OF DIRECTORS.
First Church of Christ, Scientist.
Florence Davis Keller, Clerk.

TO ANY NEW FRIEND

And now that I have found
you, gentle friend—
Now that I know your friendship cannot fail,
Now that I feel that you will understand—
Bend low and let me whisper in your ear,
A plea for my own sake because I love you,
A warning to you, since you hold me dear.
Never reveal yourself to me completely;
Never lay bare your soul unto my gaze.
Reveal the temple but conceal the shrine;
Be like a song whose echo never dies;
Keep me forever hungering to know you,
Keep me forever thirsty for your presence.
Remain always my strange, sweet mystery—
Forever be my blessed Unattained.
So may you be to me, and I to you,
A shining pathway stretching up to God.

JAMES M. WARNACK.

British Guiana is the only English colony in South America. A great part of its area is covered with a dense, unbroken growth of timber.

PALESTINE PROBLEMS

BY ARTHUR L. MacKAYE

With the outbreak of racial enmity in Palestine accentuated by violence the British government is faced with several serious problems. Under its mandate from the League of Nations Great Britain is responsible for the preservation of law and order in the Holy Land and for the protection of the minorities of race and sects which have multiplied there since the establishment of peace after the World War.

Following the great British victories under Gen. Allenby all the Christian and Jewish world was thrilled by the announcement of the Zionistic principle of Palestine for the Jews as a homeland. This policy, backed with the appointment of Sir Herbert Samuels as High Commissioner, resulted in a rush of Jewish immigrants to take possession of what they considered their ancient birthright. Organizations of Zionists in many countries sent delegations of their people to Jerusalem and later established a number of agricultural and industrial colonies in the district north of the Dead Sea.

At first there was rejoicing by the native Jews and Arabs over the increased prosperity brought about by the sudden influx of wealth by the newcomers. Since the ninth century, following the conquering of all Syria and Palestine by the Arabs, under the Sultan Omar, the native Jews and the Arab population have succeeded in getting along together as well as might be expected; the Jews having their special privileges and rights, wearing a distinctive garb and keeping to themselves, at peace with all.

Soon, however, the welcome extended at first to the immigrants cooled considerably, followed by antagonisms, as the newcomers proceeded upon the principle that the country was theirs. Many of the latter were disappointed at this attitude of the native Jewish population, a large proportion of whom sympathized with the Arabs, who had expected to take the place in the country of the Turks, who were expelled when the ruling mandate was given to England. During the following years this antagonism has grown, until now there is practically open warfare between the races, represented upon one side by Jewish immigrants, on the other by the native populations, mostly Moslems.

Before this condition of antagonism between races can be relaxed the root of the trouble must be found and eliminated, so far as possible under modern conditions. This is the greatest and hardest of the problems which the British government faces in bringing about a permanent peace. But what are the causes of this trouble? for there are more than one.

First, it is in all probability the state of mind expressed by the various groups of immigrants from half a score of countries, but principally from Russia, Galicia, Poland and Rumania. There is also quite a large delegation from America, and these latter are the best equipped of all for the experiment of developing a new, or rather rehabilitating an old and backward land.

This state of mind as shown by the new citizens of Palestine has greatly alarmed the agrarian Arabs, whose village communities have been subordinated by the newcomers and whose lands have been alienated by the colonies established by the Zionists. The fact that the lands taken were paid for, generously in most cases, has not helped matters. The Arabs feel that their age-long superiority is threatened, that their traditions and ancient mode of life may be rooted out.

Second, there has poured into Palestine from Jewish communities all over the world, but principally from the United States and England, immense sums of money, supposedly for the development of the country as a whole as well as for the well-being of the Jewish population. But a large percentage of this total has gone for the support of the Jewish immigrants, while the native Jews have failed to benefit, except indirectly; but even so they have found that in all walks of their accustomed life they are meeting with increased competition; more effective methods, new ideas that clash with ancient custom and thought. No allowance seems to have been made by the new settlers for this view of life by those who have stuck to the sacred land through centuries and maintained their ancient traditions.

From latest accounts there is no apparent religious foundation to the rioting and assassinations which have troubled the Holy Land during the past few days, except so far as the violence toward the new Jewish immigrants is because of their religious assumption of temporal power and isolation in religious communities, which come into direct economic rivalry with the more backward and easy-going Moslem communities.

ITALY'S WATER POWER

One after another the great waterfalls of the Alps and Apennines have been placed in subjugation by Italy, their waters guided into huge high-pressure conduits and forced to turn giant turbines.

Before the war these turbines were already producing 2,000,000,000 kilowatt hours per year; during the war, because of the shortage of coal and the need for power, this capacity was increased by another billion kilowatts. After the post-war turbulence had settled down into the Fascist regime a new im-

More than thirty cities and towns in England and Scotland, including Glasgow, Hull Chatham, Birmingham, Yarmouth, Norwich, Southend and Cheltenham, have selected tentative sites for airdromes, subject to the approval of the British Air Ministry.

PEN POINTS

War and law have their weakness. They always get the higher-ups.

Ethics alone restrains those who are ethical. The penalties are for the others.

Success: Getting rich enough to become a banker and old enough to buy a rest home.

A republic is a land in which those who delight in elections won't let the others play.

You can travel to many places in Europe, if you go the way the wars have gone.

The long-tailed coat is doomed because it is the newly important thing that is wallet.

It's all in the state of mind. The things he does not like he is henpecked, because he was cause he was driven.

The idea of civilization is to produce a man with the perfect poise and placid temperament of a wild animal.

The objection to painting masculine noses red is that they don't reveal a good thing or hide a bum one.

Americanism: Hating "internationalism" when the federal government takes an interest in local affairs; howling for a congressional appropriation when a local storm destroys a few houses.

Little Jake for today: Jake claims to be a Democrat, but he doesn't even know how to pronounce the word dollar.

The horse took longer to get you there, but you didn't have to drive half-way back home.

Doubtless our grandchildren will prize heirlooms of ours if they must finish paying for them.

Old-timers want to be left alone in a store after meals, but not before.

"How come I always find Mr. Smith out?" asked the caller. "It is remarkable," replied Mr. Smith; "it took me years to find him out."

The recent failure of books and plays is the natural nature of war-time literature. What abnormal is thrilling, is soon fed up is utterly flat.

These idiotic prohibition laws serve one purpose. They show how many in the land are drunk enough to be against it.

What a world! Germany's liquor was to flow in streams; Germany's foolish talk, and now it's to the darned thing.

Correct this sentence: "The party last night was a success," said she, "and I don't mind giving another."

WHERE CAN I LEARN
Golf and Tennis
BY LOUISE L. HOUGHS
[Prepared in cooperation with the Los Angeles examining high schools, and answering free every week. If personal information is desired, a letter is inclosed. Address Louise L. Houghs, care of The Times.]

To meet the demand for instruction in the popular sports of golf and tennis, the Polytechnic Evening High School, 400 West Washington street, has opened a free class in golf and tennis that will meet from 7 to 9 p.m., after which there will be an hour's lesson in clogging. Only women are admitted to the classes and there are no age restrictions except that they should be over eighteen.

In golf, the beginner's first strokes is taught. Then the ladies in the class run a tournament among themselves so that they will feel the thrill that is kept at the school. Of course, the mistress's time is free to those who wish to learn all of the fine points of the game, but the class is designed to secure practice in driving and using the various clubs, including those of the putting green.

Tennis also can be learned in one semester, so far as the rules of the game and the handling of all of the strokes are concerned. Students are then ready to play, and they receive confidence in a few practice games.

The hour is not primarily intended to fit players for the stage or any professional work, but rather to give exercise and a period of recreation.

In preparation of a report on the use of the word "ain't" in Los Angeles, another of the following will be found: Queen Victoria, Queen Elizabeth, Darius, Hector, Ajax, Helen of Troy, Ruth Elder and Mrs. Bachelor's husband. Which one should be selected as the most suggested answer? Find out.

During the recent Mexican revolution, when the Mexican army was driven over the border into the United States, it was interned at Fort Bliss, El Paso, Texas, and the soldiers were put to work on the construction of the new

PEN POINTS

War and law have the same weakness. They always fail to get the higher-ups.

Ethics alone restrain those who are ethical. The pachyderms are for the others.

Success: Quitting the flivver to become a banker and get rich enough to buy a nice farm.

A republic is a land in which those who delight in cleanliness won't let the others play in it.

You can travel so much faster in a Zeppelin, if you care to go the way the wind's blowing.

The long-tailed evening coat is doomed because so many of the newly important look less important than waiters.

It's all in the state of mind. The things he does now because he is henpecked, he once did because he was chivalrous.

The idea of civilization is to produce a man with the perfect poise and placid contentment of a wild animal.

The objection to pajamas for masculine street wear is that they don't reveal a good figure or hide a bum one.

Americanism: Howling "paternalism" when the Federal government takes an interest in local affairs; howling for a Congressional appropriation when a local storm destroys a few barns.

Little joke for today: "He claims to be a Democrat, and he doesn't even know how to pronounce the word deficit."

The horse took longer to get you there, but you didn't have to drive half-way back to it.

Doubtless our grandchildren will prize heirlooms all the more if they must finish paying for them.

Old-timers went to the drug store after meals, not for meals.

"How come I always find Mr. Smith out?" asked the collector. "It is remarkable," said Mrs. Smith; "it took me five years to find him out."

The recent failure of dramatic books and plays is like the failure of war-time idealism. The abnormal is thrilling, but when fed up is utterly fed.

These idiotic yo-deo-do songs serve one purpose. The applause shows how many in the audience are drunk enough to be easily ilin.

What a world! Getting rid of liquor was to lessen the country's foolish talk, and now here to the darned thing.

Correct this sentence: "The party last night was a huge success," said she, "and I wonder mind giving another tonight."

WHERE CAN I LEARN Golf and Tennis?

BY LOUISE I. TEMPLE

[Prepared in co-operation with the Los Angeles evening high schools. Questions concerning free evening classes will be answered if stamped addressed envelope is inclosed. Address Louise I. Temple, care of The Times.]

To meet the demands for instruction in the popular sports of golf and tennis, the Polytechnic Evening High School, 400 West Washington Boulevard, has opened a free class in golf rules of both games. The golf and tennis class will meet from 7 to 8 p.m., after which there will be an hour's instruction in clogging. Only women are admitted to the classes and there are no age restrictions except that they should be over eighteen.

In golf, the technique of the strokes is taught. Then the ladies in the class run off a tournament anywhere in town that they wish and the record is kept at the school. One semester's time is long enough to learn all of the rules and to secure practice in putting, driving and using all of the clubs, including drivers and brassies.

Tennis also can be learned in one semester, as far as the rules of the game and the technique of all of the strokes are concerned. Students get a chance to play, and they acquire confidence in a few months.

The hour in clogging is not intended to fit students for the stage or any public exhibition, but rather to give suppleness and a period of amusement and relaxation.

List World's Heroines

In preparing a pageant of heroines of the world for a charity ball in London, society women chose the following list of heroines: Joan of Arc, Queen Boadicea, Grace Darling, Nurse Cavell, the Lady of the Lamp, St. Elizabeth of Hungary, Ruth Elder and Mrs. Pankhurst. A bachelor's suggestion that he should be included because she inaugurated marriage was thrown out.

During the recent revolution in Mexico huge herds of cattle were driven over the border into the United States in order to prevent the animals falling into the hands of the revolutionists.

MRS. PANTAGES CALLED DRUNK

Officers Offer Opinions as to Her Condition

Prosecution Nearing Close of Its Testimony

Four More Witnesses Will Be Put on By State

(Continued from First Page)

its guns and in the end the opinions were allowed and did go before the jury and into the record.

It was during the testimony of Cavanaugh, the last witness, that the bitter fight between counsel reached a climax, and when the police officer had snapped out that drunken women were no new or unusual sight to him and the courtroom echoed to the giggles of the spectators Judge Hardy threatened to clear the court.

SURPRISE WITNESS

Little broken dolls, injured Japanese children and wrecked automobiles were pretty well mixed up, in the testimony of Mrs. Dorothy S. Clarke of 1416½ North Serrano avenue, a surprise witness, and the first called to the stand during the afternoon session.

Mrs. Clarke, whose testimony had not been disclosed before she took the witness chair, told of being an eyewitness to the crash between the automobile driven by Mrs. Pantages and the one driven by Rokumoto.

"I was on my way home and was attempting to cross the street in the middle of the block just east of where the crash took place," declared Mrs. Clark.

"The first thing I saw," she continued, "was the automobile which I later learned was driven by Mrs. Pantages, coming down the wrong side of the street. I had to run to get across the pavement out of the way.

"Then came the crash and I closed my eyes. The next thing I saw was the wreckage of the small automobile, a poor little broken doll and the little children on the pavement.

"Later two men took Mrs. Pantages out of the automobile where it had stopped against the curb. There was blood on her lip and her eyes were half closed. They put her down on the grass."

Under questions by Costello later in the direct examination Mrs. Clarke gave it as her opinion that Mrs. Pantages was intoxicated when she saw her lifted from the automobile.

ADDITIONAL STORIES

From Ralph Kenyon, a chauffeur, whom it developed was driving behind the Rokumoto car, and who followed Mrs. Clarke to the stand, came added details of the accident and also testimony that Mrs. Pantages was covered with blood. He testified that he attempted to stop her wounds with his handkerchief. Kenyon declared that he did not know if Mrs. Pantages had been drinking and stated that he did not detect the odor of liquor on her breath.

Mrs. Belle Pope, a passenger on a passing bus, occupied the stand for a few brief moments, but could add little to the story already told by other witnesses. She said that she saw the accident from a bus seat and that the Pantages car was on the wrong side of the street. Then came the police officers.

Most of the cross-examination of the afternoon witnesses, which was carried on by Steuer, was brief. He confined most of his questions to just where the various witnesses were when the crash took place and to where the two cars met. Time and again he gave the impression by his questions that the defense will attempt to place the Rokumoto car in the intersection of Serrano and Sunset Boulevard instead of to the east of it, as testified to by prosecution witnesses.

Then from the police officers and some of the others he brought out the apparent extent of Mrs. Pantages's injuries and just where her car stopped after the accident.

MORNING SESSION

Only two witnesses took the stand and gave testimony during the morning session. They were Harry D. Mason and John F. Mason, father and son. Both were eyewitnesses of the accident between Mrs. Pantages's automobile and the little car driven by Rokumoto. They both testified they were riding in an automobile driven by Cyril T. Holmes, one of Tuesday's witnesses.

Harry D. Mason identified Mrs. Pantages as she sat at the end of the defense counsel table as the driver of the car and then, under the questioning of Dep. Dist.-Atty. Costello, launched into his account of the accident and Mrs. Pantages's driving.

He told of a collision between her car and the machine driven by Holmes near Western avenue and Sunset Boulevard and also accused the woman of driving "all over the street." He testified he was seated in the front of the Holmes car and watched Mrs. Pantages drive her automobile east on Sunset Boulevard, toward the small car loaded with Rokumoto and his family.

ANOTHER ACCOUNT

John F. Mason added little to the direct prosecution testimony. Following his son the elder man fixed the point of collision as about ten or fifteen feet east of the east line of the intersection of Sunset Boulevard and Serrano avenue.

The elder Mason retold his son's account of Mrs. Pantages's zigzag driving and also recounted the collision near Western avenue and Sunset Boulevard. He was unable to give a clear account of the entire affair, however, because, according to his explanation, he was seated in the rear of the Holmes car and at times was unable to see the cars involved in the accident.

Mason, who said he hails from Texas, was anxious to give his testimony correctly, he informed the court. His very caution brought one of the few humorous situations into the otherwise somewhat drab and sordid case.

While pointing out various street intersections and the positions of the automobiles involved in the testimony from a huge map of the entire location of the accident, which is in the courtroom as a prosecution exhibit, the elder Mason was requested to mark with a pencil the spots about which he was testifying.

REFUSES TO MARK IT

"No, I am not going to take a pencil and make a mark on this map. I wouldn't mark on this map at the preliminary examination and I am not going to mark it now."

This answer, shot from Mason when Gilbert of the defense counsel asked him to do the marking.

Then Prosecutors Costello, Jones and Van Cott on one side, Steuer, Gilbert and Ford of the defense on the other, and Judge Hardy and the witness somewhere in between, all got into a courtroom squabble.

Out of the affair Judge Hardy brought order after some shouting by counsel and then explained to the witness that his testimony was of little value unless he would place his mark on the map.

Still muttering and mumbling the elder Mason at last placed his initials on the map but insisted to the court that he hated to do so because he was not quite sure that the various spots indicated by the lettering were correct.

It was during the cross-examination of the two Masons by Max Steuer that it became evident to courtroom observers that the defense intends to assert, and probably will offer some testimony to support the contention, that the accident took place in the intersection of Serrano avenue and Sunset Boulevard, instead of east of the intersection as the prosecution witnesses already have testified.

GIRLS ARRAIGNED ON LIQUOR ACCUSATION

Arrested on charges of attempting to influence witnesses who are to testify for the State in the forthcoming trial of Alexander Pantages, under indictment for an asserted attack on Eunice Pringle, 17-year-old dancer, Nancy Lee, 25, and her half-sister, Janice Hill, 19, were arraigned before Municipal Judge Bogue yesterday on a liquor charge. Both pleaded not guilty and asked for jury trial, which was set for October 8, next. Bail was set at $100 each, which they declared will be furnished.

A writ of habeas corpus, filed by their attorney when they were unable to furnish the $25,000 bail set on the witness-tampering charge, was dismissed by Superior Judge Lagreler yesterday when he was notified that City Prosecutor Nix had filed the liquor complaint against the two girls.

The liquor complaint was issued after officers declared that one of the girls hurled a bottle of absinthe from the window after their arrest. The officers reported they were able to mop up the contents of the shattered bottle with their handkerchiefs.

RAILROAD COMPANY SUES PANTAGES GROUP

Suit was filed yesterday in the United States District Court against Alexander Pantages, Lois A. Pantages, the Pantages Circuit of Vaudeville Theaters and Pantages Theaters Company. The action was brought by the Chicago, Milwaukee, St. Paul and Pacific Railway to obtain $15,150.44, said to be a balance due the company for travel of theatrical troupes on the Pantages circuit. It is asserted in the complaint that the circuit owed the company $35,150.44 for travel from December 1, 1927, to August 1, 1928, and that the amount sought still is unpaid.

They Seek to Convict Magnate's Wife in Crash Case

Representing State in Trial Over Rokumoto Death

Dep. Dist.-Attys. Harold Jones, James Costello and A. H. Van Cott, who are handling the prosecution of Mrs. Lois Pantages.

Woman to be Sentenced for Whipping Child

Found guilty of battery by a jury in Municipal Judge Willis's court for beating a 4-year-old child with a strap and pinching his face and neck, Mrs. Bella Edens, 25 years of age, of 1408 West Tenth Place, will be sentenced by Judge Willis tomorrow. The jury found Mrs. Edens not guilty of unjustifiable cruelty to a child.

Mrs. Edens was arrested by Police Officers Ferguson and Singleton after neighbors complained she had been beating the child. The child told them, the officers reported, that the beatings occurred about three times a week. Mrs. Edens explained that the boy had been given her by his mother, Mrs. Mary Kwanna, 1416 West Tenth Place, about three months ago. She said that she beat him for abusing his 3-year-old step-sister, Marie Kwanna.

Director Denies Wedding Plans

Reports that F. Richard Jones, film director, and Miss Irene Lentz, Hollywood fashion designer, will leave tonight for New York to be married were denied yesterday by the couple. Miss Lentz will leave for a business trip to New York and then will go abroad to study fashions.

According to Jones's secretary, he plans a vacation trip to Canada, although his plans are not definite at present. Both Miss Lentz and Jones declared they are not contemplating marriage. They have been engaged for several years.

SOCIETY

BY JUANA NEAL LEVY

One of the lovely affairs of recent date in college circles was the dancing party with which Miss Barbara McCartney, attractive daughter of Dr. and Mrs. Burrall O. Raulston, entertained at the home of her parents in South June street, the guests being rushees of Phi Beta Phi Sorority at the University of Southern California, and their escorts, seventy being bidden.

The lovely gardens of the home were brilliantly lighted by Japanese lanterns and the young hostess was assisted by her mother and sister, Miss Kathleen McCartney.

Miss Kathleen McCartney is to attend Marlborough School this year, as will also her young cousins, Gabrielle and Althea Davis, daughters of Mr. and Mrs. Francis Pierre Davis of South Rossmore avenue.

Dr. and Mrs. Raulston with their daughters have just returned from an extended motor trip north, while Mr. and Mrs. Davis are enjoying an outing in their cottage at La Jolla.

Mrs. Owen Humphrey Churchill, mother of Mrs. Raulston and Mrs. Davis, who for the past year has been at the Owen Porter Churchill home during their absence abroad, now is at the Davis home, and is receiving congratulations over the arrival of a new grand-daughter, who was born to the Owen Porter Churchills the 10th inst., and will be called Patricia Lucille.

To Wed Here

Announcement is made of the approaching wedding of Miss Doris Graves, one of the popular members of Ebell Juniors, attractive daughter of Mr. and Mrs. Frederick C. Graves, formerly of Boston, Mass., and now making their home at 1914 North Berendo avenue, and James Edward Thompson, formerly of Philadelphia, the ceremony to take place in the Little Church of the Flowers in Glendale, Saturday, followed by a wedding reception and supper for the relatives and a few close friends at the home of the bride's parents.

The bride-elect is of "old-line" ante-Revolutionary stock on both sides of the family.

This afternoon Miss Evelyn Ferris is entertaining at the Beverly-Wilshire with a luncheon-bridge and miscellaneous shower in honor of Miss Graves, who is one of the most popular members of the younger set. After their return from their wedding trip Mr. Thompson and his bride will be honored by many lovely affairs, which were not possible before the wedding.

Honors Daughter

Among the lovely affairs of recent date was the tea with which Mrs. James Posgate of 4342 Victoria Park Place entertained at the Beverly Hills Saturday afternoon, the 1st inst., honoring her daughter, Miss Phyllis Posgate, whose engagement to Judson Brewster Stevens was announced formally at the farewell breakfast given June 14 for the senior members of Gamma Phi Beta Sorority at University of California at Los Angeles, the affair taking place in the sorority house, 1006 Edgemont avenue.

The sun parlor was attractively decorated with early autumn flowers and those included were Mrs. J. Posgate, Mrs. E. Reckenmacher, Mrs. L. Livingston, Mrs. John A. Brown, Mrs. T. T. Blanchard, Mrs. Paul G. Stevens, Mrs. Paul G. Stevens, Jr., Mrs. Bernard Potter, Mrs. Richard Welty, Mrs. John Cosgrove, Mrs. Herbert Sibbett, Mrs. George Byrne, Mrs. Paul Lawrence, Mrs. Stanley Macaulay, Mrs. Joseph Jones, Mrs. Craig Nason, Mrs. Ada Smith, Mrs. Irving Smith, Mrs. James Bowers, Mrs. Dick Russell, Mrs. Paul Welch, Mrs. Edwards Arnold, Mrs. Ella Spackman, Mrs. T. T. Moeson, Mrs. Otto Baumgarten, Mrs. R. T. Rathbourne, Mrs. R. E. Cranfield, Mrs. George McBride, Mrs. K. K. Kresser, Mrs. Fred Rusell, D. D. Ellis, Mrs. Grace Elliott, Mrs. S. S. Spaulding, Miss Janis Posgate, Miss Caroline Brown, Miss Nan Sibbett, Miss Florence Andrews, Miss Ruth Chase, Miss Pat Chatfield, Miss Helma Gibson, Miss Louise Gibson, Miss Marjorie Kendall, Miss Jean Paulson, Miss Helen Scheck, Miss Bernice Smith, Miss Janet Wiley, Miss Esther Friend, Miss Marion Wiley, Miss Veda Rees, Miss Patsy Palmer, Miss Eileen Taylor, Miss Constance Frost, Miss Barbara McBride, Miss Hazel Tilson, Miss Dorothy Strasburg and Miss Janet Blanchard.

Smart Affair

A smart affair given in honor of Miss Cynthia Veach, whose wedding with Homer Glattie of St. Louis, Mo., is to be an event of Saturday, was the formal tea and miscellaneous shower with which Mrs. A. L. Markwell entertained Wednesday afternoon of last week. The hostess chose a color scheme of fall shades of red, carried out with a profusion of pompom dahlias on the tea table and throughout the house.

Mrs. Philip Veach entertained in honor of her sister-in-law the following day, the affair being an evening bridge and supper. Many other lovely affairs are being given in honor of this attractive bride-elect.

Farewell Affair

Miss Margaret Jack of Hollywood was the gracious hostess entertaining Monday afternoon with a luncheon at the Mary Louise in honor of Miss Nancy Ott, who is leaving shortly for the East, where she goes to enter Wellesley College, and Miss Devona Doxie, who will pass the winter at Oberlin Conservatory, Oberlin, O. Covers were arranged at the attractively decorated table for the honorees, Miss Erma Purviance, Miss Geneva Raybold, Miss Jackie Frances Harris, the hostess and honor guests.

Alumnae to Meet

Alumnae of the Catholic Girls' High School, 2900 West Pico street, are anticipating a joyous reunion Sunday, when they assemble at the Elks' Club for their annual banquet.

This affair will be the first of many social events scheduled for the fall, and now that most of the members have returned from their vacations, a representative group from each class is expected to be present. A splendid musical program has been arranged and former presidents of the student body, including Miss Frances Brennan, Miss Marie Leaver and Miss Lavinia Smith, will speak.

Miss Genevieve Ardolf, who always has taken an active interest in the alumnae activities, heads the ticket committee.

GOLDEN WEDDING CELEBRATED

Many Friends Extend Congratulations

Mr. and Mrs. J. T. Mitchell

CELEBRATING their fiftieth wedding anniversary, Mr. and Mrs. J. T. Mitchell were at home to their many friends yesterday at 1737 Fifth avenue. Reminiscent of half a century ago, Mr. and Mrs. Mitchell were attired in the garments which they wore at their wedding forty years ago and were greeted by many old Ohio friends. Mr. and Mrs. Mitchell have been residents of Los Angeles for the past twenty years.

Attending the wedding dinner last evening were their four children, Miss Myrtle Mitchell, Mrs. J. W. Blain, Mrs. H. P. Gage, Roy C. Mitchell and six grandchildren.

YOUR BABY AND MINE

BY MYRTLE MEYER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded in this office, will bring a personal reply.

"This department offers helpful information on feeding the child from 2 weeks to 6 years, prenatal care and diet for the nursing mother, constipation, eczema, outfits for the new baby clothing, weaning, bottles, thumb-sucking, ammoniacal urine, bed wetting, training in cleanly habits, periods of naptime, cod liver oil, orange juice, fruit juices, worms, vomiting, refractory children, green stools, like putty, rupture, sties and boils and cradle cap. Before asking a personal question about one of these subjects it is better to send a self-addressed stamped envelope for the leaflet you need. If your particular problem is not covered in the above list, address will be glad to give you a personal reply.

CHILD FAILS TO GAIN AS EXPECTED

Mrs. R. D. writes: "I had my baby weighed a week ago and to my surprise she only weighed twenty-two pounds. She is 2 years and 9 months of age and weighed ten and one-half pounds when she was born. She is very small-featured and boned.

"She walked at 11 months and started to talk at 8 months. She had sixteen teeth at one year and twenty at 16 months. She is the youngest of seven children, and five years between her and the sixth child. Would that account for her being frail?

"She is very clever and can remember things that happened a year ago. She is also fond of dancing, and can copy a dance step after seeing it done only once.

"Her daddy bought her a bicycle this morning. Is she too young to use it or should I put it away? How shall I feed her to bring her weight up? She has had an earache all this week due to a cold. Is hot water all right to use?"

Answer: If the child were really a frail child she wouldn't have weighed ten and one-half pounds at birth, for that in itself shows that she really should be a hearty, robust child. Her extremely low weight now must be due to the way she has been fed from infancy for she could have weighed what she does now at six months had she kept up the good "start" she had at birth.

Please send for the feeding leaflet we offer mothers for only a self-addressed and stamped envelope, as this will tell you how she should be fed. Meanwhile, I should have her given a thorough physical examination by a baby specialist to discover what may be so hampering her development.

The bicycle riding won't hurt her; she is quite old enough for this. It is chiefly because she is so tiny that she seems like a baby, for in age she is nearly 3 years old and entirely out of the "infant" stage.

Earaches can develop into such dangerous ailments that it were better to have the ear looked at when you go to the doctor. The usual procedure for just an earache without any secretion is to use irrigations of quite hot water running from a douche bag (held low) into and out of the ear. The heat helps to clear up the congestion. If there is the least discharge from the ear, let the doctor advise the treatment.

Nogales Plans Celebration to Last Three Days

Mexico's Independence Day and the establishment by Pickwick Latin-American Airways of a tri-weekly mail, express and passenger service between Los Angeles, Mexico City and Guatemala City, via Nogales, will be celebrated jointly for three days beginning Saturday, it was announced yesterday, with a gala program of sporting events on land and in the air.

Beginning with a series of horse-races, the program, arranged by the Nogales Chamber of Commerce, will close at midnight Monday with a band concert and fireworks in the Nogales Plaza. During the intervening period there will be an aerial derby, motorcycle and bicycle races, baseball games, parachute jumps, military maneuvers and street dancing. Prizes of $3000 have been offered in the air derby.

The celebration will be attended by Governors Phillips of Arizona, Dillon of New Mexico, Rodrigues of Lower California and Elias of Sonora.

STEEL AND IRON CARGO "FREE" TIME EXTENDED

A slight extension of the seventy-two-hour "free" period for steel-and-iron cargo to remain on Harbor Department property was granted by the Harbor Commission yesterday at the request of the Truck Operators' Association. Recently the seventy-two hours of free time was fixed to start at 7 a.m. after the arrival of the ship bringing the freight. The new order provides that the free time shall start at 7 a.m. after departure of the vessel.

The order sets forth that if cargo congestion again is apparent the free time will be reduced to its former status. The board approved a suggestion that a standing committee be appointed from all freight interests at the port to iron out operating difficulties.

Check Offered on Harbor Lease

Making its third tender of money since the first of the year on its lease of fifty-five acres of frontage on the south shore of Terminal Island, which was revoked by the Harbor Commission on January 1, last, the Los Angeles Athletic Club yesterday tendered a check for $900 to the commission for three-quarters of the year. Like the $300 for the first quarter and $600 for the second quarter, it was ordered returned to the club.

The lease was for thirty years. The revocation was on the ground that the club had failed to erect a yacht club as provided. The club contends the harbor department has not lived up to its agreement by providing a breakwater for a protected yacht anchorage.

HOUSEHOLD SUGGESTIONS

Stained Windows

After windows have become stained from rain beating through the screen, use a cleanser dissolved in vinegar. Rub the window thoroughly and then wash in the usual manner. This will remove all that obstinate dirt and will not scratch the glass.

Cleaner Clothes

Before taking down the clothesline rub a damp cloth along it, taking away any dust that has gathered while it has been hanging. This will prevent any of that dirt getting on your clothes the next time it is used, besides being more pleasant to handle.

Paper From Bread

One woman cuts the waxed paper from the bread into squares and has a pile of them in her dresser drawer. Then she is all prepared when she wants to grease any pans or plates and does not have to waste ragged sections of her rolled wax paper.

A Dish Mop

If you use a dish mop for washing dishes you will find it will become sour and unpleasant unless you take good care of it. It must be dried out and sunned to keep sweet. Try standing the handle in an empty milk bottle with the mop part out like a bouquet. Then place out on the back step in the air and sunshine.

Don't Expect Too Much

Remember cedar chests will not kill moths or their eggs. But if the garment is put into the chest free of eggs and larvae it will never become damaged from moths. Just be certain it is perfectly clean before packing away.

SCHOOL GETS NEW PILOT

Lieut. Harry Colliver, March Field instructor, is the latest faculty member to be added to the Curtiss Flying Service School at Mines Field. Other airmen obtained as instructors by Maj. C. C. Moseley, head of Curtiss activities in the West, are Capt. Peyton Gibson and Lieut. William Ball.

GUIDING YOUR CHILD

BRINGING PRESENTS

By Mrs. Agnes Lyne

Almost the first questions the children at camp asked of their visiting parents were, "What did you bring me?" or "Where is my candy?"

One little girl whose parents had been so rash as to visit her without bringing her any present remarked as they rode away: "Well, my mother's got a list of things she has got to bring me next time she comes, and she had better bring 'em, too!"

This attitude on the part of children seems to me very unpleasant. It arises inevitably when they have become accustomed to visitors who habitually bring with them gifts as a bribe of welcome. The least greedy and most affectionate child in the world could hardly escape being corrupted by them. He looks not for the pleasure of seeing some one of whom he is fond, but for what this person will give him.

Presents are delightful, but they remain so only when they are spontaneously given and are received as a surprise or on some festive occasion. Even so, there should not be too many of them and certainly they should not become so common as to be in fact a sort of routine peace offering at every visit.

Don't take your child a present when you go to see him. Let your visit with him stand on its own merits. There ought to be plenty of things to tell and do that will make brimful the hours you spend together.

When you have him back at home with you again, discourage those friends of yours who are under the impression that when they come to see you they must always "bring something for the kiddie."

PROCEEDINGS ABANDONED

The proceedings for the new lighting installation in the Lake-street and Miramar-street lighting district were formally abandoned by the City Council yesterday.

Gobi Desert yields some truths about eggs... *and coffee!*

Copyright Natural History 1929. Reproduced by permission American Museum Natural History.

ROY CHAPMAN ANDREWS, famous leader of Gobi Desert Explorations, checking in a supply of M.J.B. Coffee just unloaded from a camel train at a camp in Central Mongolia.

IN the trackless wastes of Central Asia Roy Chapman Andrews Expeditions discovered fossil eggs more than a million years old. Definite proof was found that the animal life of the world originated here. Priceless data about historic Man, has been brought to light by these expeditions.

Out of the Mongolian Desert, where temperatures also change 70° between day and night, has also come a new knowledge of food supplies.

M.J.B., the Full Flavored Coffee was chosen for the Gobi Expeditions. Packed by the exclusive M. J. B. Vacuum Method, M.J.B. Coffee retains all its natural richness, even under most adverse conditions.

CHEF WYMAN'S RECIPES

...Thursday and Friday at 2 o'clock Mrs. A. L. Wyman will ... ...ay demonstration of good cookery in the lecture ... ...the Southwest Building, 130 South Broadway.

...BERRY PUDDING

...a deep casserole dish and ... ...ayer of stale cake crumbs. Heat in a saucepan four cups ... ...of sugar and one cupful of water. When ... ...ssolved add a cupful of butter, one tablespoonful of sugar and ... ...of a cupful of flour, add half a ... ...ful of salt, one teaspoonful of ... ...ful of baking powder and one teaspoonful of ... ...ful of the flour mixture and ... ...ful of the other mixture and ... ...ugh milk if necessary ... ...ld a rather stiff batter; add ... ...spoonful of almond extract, ...ver the berries, and ... ...ke for an hour in a hot oven, ...the first fifteen minutes ... ...ver the cover and allow to ...

...PLANT A LA CREOLE

...large eggplant, four tomatoes, ...cupful of cooked spaghetti, ...ion and green pepper, ...ve them, five tablespoonfuls ... ...butter, one cupful of thin ... ...ful of salt and pepper; peel the ... ...and slice very thin; place ... ...ful of them in a casserole and ... ...with a little salt; place a ... ...layer of the sliced tomatoes on top of the eggplant, then a layer of spaghetti, using all of it, cover with the grated cheese and dot with bits of butter; then add another layer of the sliced tomatoes, chopped green pepper, and a layer of the eggplant, thickly cover this with the cheese; pour over the cream, place in a moderate oven and bake for about one hour.

BAKED FILET OF SOLE

Cut the filet of sole in strips, roll tightly and fasten with toothpicks; place them in a dish, cover them with oil, to which has been added five tablespoons of lemon juice, allow them to stand for one hour, take one cupful of bread crumbs and season with salt and paprika, roll the fish in this, then in slightly beaten egg, which has been diluted with two tablespoonfuls of water, again in bread crumbs; place the rolls in a baking dish and place on top of each roll a thin slice of fat salt pork, sprinkle generously with finely chopped onions and chopped green olives, place in a moderate oven and bake until well browned.

HAMBURG EGGS

Cream two tablespoonfuls of butter, add to it four tablespoonfuls of bread crumbs, a teaspoonful of finely chopped parsley, a seasoning of salt, paprika and a little celery salt; work all to a smoothe paste, line small individual baking dishes with the mixture, after they have been brushed with melted butter, break one or two eggs into each dish, season with a little salt; cover the mixture with bread crumbs that have been browned in butter; place in a hot oven until the eggs are set.

Mrs. Wyman does not reply to letters. Her friends for recipes are answered in this department. PRACTICAL RECIPES published every Friday.—(All rights to reproduce reserved by A. L. Wyman.)

Guilty Plea in Federal Case Awaits Decision

Although John A. Thomas pleaded guilty yesterday in the court of United States District Judge Henning to a charge of impersonating a Federal official he stated that technically he was not guilty of the charge.

It was charged that Thomas represented to Louis Barnett, a Long Beach shoe merchant, that he could arrange to have Barnett's income-tax affairs straightened out and that he asked $500 for the service. Thomas did not deny that he made such a representation but denied a charge that he asserted he was a government official.

Because of the unusual situation the court took the case under advisement and probably will decide it today.

HEALTH and DIET ADVICE

By Dr Frank McCoy
author of "Your Heart Trust to Doctors"

Dr. McCoy will answer personal questions on health and diet, addressed to him care of the Los Angeles Times. Inclose stamped, addressed envelope for reply.

PUS AND PYORRHEA

It has been estimated that one with a bad case of pyorrhea may lose as much as a gallon of blood each year by leaking out from the gums, and as much as three and a half quarts of pus may be produced during the same time. As this disease progresses, the peridental membrane which supports the teeth, as a tent steadied by its ropes, wastes away, and allows the tooth to tip from its proper position. The bony processes of the jaw surrounding the teeth may also waste away until practically no support is left for the tooth, and it will wobble with a slight pressure.

This disease, by causing the gums to recede, has a tendency to make the teeth appear very long.

The first stage of pyorrhea is an inflammation of the gums, usually caused by a tartar accumulation at the base of the teeth. In the second stage the bony processes begin to disintegrate and the blood does not circulate properly to the tooth because of congestion. Pus pockets also form. As the disease becomes more progressed, the pus pockets grow larger, and the bony processes wear down so that the entire jaw may become almost a continued pus pocket. This produces a severe poisoning of the body, accompanied by a tired, sleepy feeling and a predisposition to rheumatism and heart trouble.

Even dentists are somewhat divided as to the real causes of pyorrhea, but it is generally admitted that at least two conditions must be present. First, a local irritation of the gums, and, secondly, a general weakening of the body's resistance, or acidosis.

A cure depends upon scaling the teeth to remove the tartar; filling crevices in the teeth; correcting the occulusion so that the teeth come together properly; using a diet which requires much chewing; and in the correction of the general diet so that the acidosis is overcome. It is also helpful to use pressure of the gums between the thumb and fingers, working the gums downward toward the teeth. Rough toothbrushes should be avoided and soft ones substituted where there is a tendency to pyorrhea, and the teeth should be kept thoroughly clean by brushing after each meal and frequently rinsing the mouth.

It has been found that the local ultraviolet ray applied to the gums is beneficial and may actually cause the bony processes to re-form to some extent, even after they have been destroyed by pyorrhea. These rays produce a greater activity in the tissues of the gums and cause a deposit of calcium phosphate.

A good agent to use on the toothbrush is a mixture of salt and lemon juice. This has a tendency to cut away mucous deposits and has a hardening effect on the gums.

You must depend on your dentist for the local treatments, however, and be sure to avoid the bad mixtures of food which lead to acidosis.

QUESTIONS AND ANSWERS

Checking Perspiration

Question: J. M. writes: "Kindly advise me if there is any harm in using nonperspirants for checking perspiration under the arms."

Answer: Your system is bound to be harmed by anything which will check elimination of poisons from the body. Stopping the elimination through the pores will hurt you in much the same way as if the flow of urine were partially stopped or in the same way as if you did something to make your bowels more sluggish. It is all right for you to use some deodorant or just plain talcum powder, which will keep the sweat from soiling your clothing.

Feels Drowsy

Q.: E. H. writes: "I am troubled most of the time by a drowsy, heavy feeling. It does not necessarily follow eating. I sometimes have it immediately upon arising. Will you please tell me the cause and remedy?"

A.: You are probably suffering from some kind of toxic condition. Try eating less and exercising more. Take a good walk twice daily, finishing with a cold shower each time.

Heart Trouble

Q.: B. L. W. writes: "My brother has been ill with heart trouble for nearly a year—leaky valve. The heart specialist ordered complete rest, but my brother has insisted on taking two treatments a week from an osteopath and his improvement has been very slow. Would not such treatment force the blood through the heart as rapidly as any other form of exercise?"

A.: Your brother will never be cured of heart trouble as long as he uses the "complete-rest" treatment. Osteopath treatments will surely be helpful to him, but he must get up and walk around several times daily in order to properly exercise the heart muscles. His diet should be very limited, and care must be used to preclude any possibilities of flatulence. Exercises should be taken while lying in bed, and the walking increased each day in order to develop the strength which is needed to overcome any heart derangement.

CITY WANTS NEXT LEGION MEET HERE

Council Invitation Will be Pressed at Convention to Gather in Louisville

The City Council voted unanimously yesterday to extend a formal invitation to the American Legion to hold its 1930 national convention in this city. This action was suggested in a resolution by Councilman Ingram, who is a member of the Legion and will be a delegate to the forthcoming annual convention at Louisville, Ky.

Following adoption of Councilman Ingram's resolution, Councilman Webster moved that Ingram be delegated by the Council to present its invitation at the Louisville convention and to do everything within his power to assure its acceptance. This motion also was unanimously adopted by the Council.

In speaking on his resolution, Councilman Ingram said the movement to bring the 1930 Legion convention to this city was started last year and that all the posts within the county will co-operate at the Louisville convention in the effort to obtain a favorable vote on the Council's invitation.

Covina Citizens Protest Arrow Highway Change

Forty residents and property owners from the vicinity of Covina appeared at a meeting of the County Board of Supervisors yesterday and protested against the course of the Arrow Highway being changed in their district to avoid an S curve to a bridge over the San Gabriel River. The Covina delegation asked for a "straight road," and said the winding bridge crossing is not as objectionable as other curves left in the road.

The Arrow Highway is a new through road to San Bernardino paralleling the Foothill and Valley boulevards, and designed to relieve traffic congestion on both.

DONORS WILL VIEW HOSPITAL MURALS

The nursery of the Orthopaedic Hospital-School will welcome a group of their Shrine friends from Al Malaikah Temple this afternoon to view the new mural decorations of the large third-floor ward where the babies who are under treatment live.

The grown-ups are responsible for the decorations painted upon the walls by Frank B. Parker, an artist of Los Angeles, which entertain these boys and girls during long hours in traction and in casts. A marker on the wall tells of the generosity and a part of the Thursday celebration will be the unveiling of this brass plate.

German Day Fete Set for Next Sunday

The annual German day celebration will be held next Sunday at Rose Hill Park under the auspices of the German-American League, according to an announcement made by H. Lemkuhl, vice-president of the league. The celebration will commemorate the landing of the first German colonists in this country under the leadership of Franz Pastorius, and the founding of Germantown, Pa.

The program will include folk songs by massed choruses and singing society, and gymnastic exhibitions. The principal address will be by Consul S. C. Hagen, who will speak in German. Max E. Sochs, president of the German-American League and vice-president of the National Bank of Commerce, will speak in English.

SEARCHLIGHT FOLK CALLED

The tenth annual picnic of former residents of Searchlight, Nev., noted mining center, will be held at Lincoln Park Sunday. Many men and women who were important figures in the development of Nevada will be present. A luncheon will be served and a program of sports, entertainment and speeches has been arranged.

Keep Old Faces Young Looking

Smooth Mercolized Wax generously over your face each night before retiring and prove to yourself its remarkable power as a home skin beautifier. It seeps deep into the pores, coaxing them to give up all accumulated grime and soil. It absorbs sallowness, freckles, darkened skin and other blemishes. The skin becomes finer and whiter, and the entire face assumes a lovely petal-like delicacy. Mercolized wax brings out the hidden beauty. Removes wrinkles and awaken tired tissues by bathing the face in powdered saxolite dissolved in witch hazel. At all drug and department stores.—[Advertisement.]

TILLAMOOK *cheese is rich in food elements that aid growth*

FREE
Write for copy of Tillamook's new 24-page recipe booklet. Novel and staple dishes for studied menus or hurry-up lunches.

WHAT makes youngsters grow? First of all vitamin A, "the growth producing" vitamin. Then there are calcium, magnesium, potassium, sodium, chlorine, sulphur. All these Tillamook contains — aiding growth, increasing resistance to disease and illness.

Put golden slices of Tillamook in school lunches. Make Tillamook cheese sandwiches. Use Tillamook in au gratin dishes. Tillamook is the cheese best-adapted to *all* uses. Always keep some on hand. Tillamook County Creamery Association, Tillamook, Oregon.

TILLAMOOK whole milk CHEESE

HARBOR BOARD ACTS ON RATES

Advisory Committee to Work on Charge Schedules

Shippers to Be Heard Later on Cargo Handling

Finally Cost Tables Will Be Adopted Officially

Action by the Board of Harbor Commissioners toward early control of cargo handling rates at the port was taken yesterday by that body when it approved the recommendation of Commissioner Spear urging the selection of an advisory committee representing all cargo handling interests.

This committee will be asked to recommend what it considers fair rates and these, with the tentative rates suggested by the Overton Rate Committee, will be submitted at a public hearing at which all freight shippers will have the opportunity to present their views before the board before official rates are adopted.

SPEAR RECOMMENDATION

Control by the Harbor Department of cargo handling rates at the port is provided in Section 139F, of the city charter. The recommendation of Spear follows:

"In line with the Overton Rate Committee report it is recommended that an advisory committee be formed consisting of the port's general manager, as chairman, two representatives to be appointed by the Los Angeles Steamship Owners' Association, which may designate one of them to represent the stevedoring interests if they so desire; a representative of the truck operators, from names submitted by the truck operators to the Los Angeles Chamber of Commerce; two representatives of shippers and receivers, to be appointed by the Los Angeles Chamber of Commerce, and one representative of the rail carriers.

SET FAIR RATES

"This committee should start functioning immediately and recommend to the harbor board what the members consider fair rates for cargo handling at the harbor. When this is done a hearing on tentative rates can be held by the harbor board, giving all shippers of freight an opportunity to object to any rates which might be detrimental to the handling of their particular commodity at the port.

"This report is then to be adopted for the official cargo handling rates to be used over municipal wharves at this port, and in furture any complaint as to rates wil lbe filed with this board and if it is thought advisable be passed on to the advisory committee for any change that might be considered desirable."

TRUCK COMPLAINT EXPLAINED BY BOARD

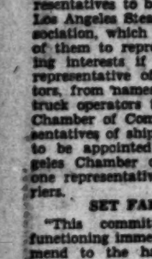
When Phil Jacobson, secretary for the Motor Freight Carriers' Association, appeared before the Harbor Commission yesterday to deny a published report that the association has withdrawn its fight against the proposed charge against trucks hauling freight to or from wharves, as recommended by the Overton Rate Committee, he was informed by Commissioner Spear and President Allen that no decision had been made to enforce such charges.

The commissioners explained that the committee is merely an advisory body and that public hearings will be held before any new rules are adopted, in order to give all parties interested a chance to make their protests. Thus far, Jacobson was informed, the matter of enforcing rates against trucks handling cargo at the port has not come before the board.

Jacobson explained that about 75 per cent of the freight moving between downtown Los Angeles and the harbor is handled in trucks of the association members. The tax, he said, would work a hardship on concerns that do not have rail sidings and are dependent on truck deliveries.

Famed Beauty Here as Bride

Accompanied by her husband, Mrs. A. J. Yugada, who as Lucile Pinson was crowned queen of beauties with the title of "Miss Los Angeles" in 1926, arrived in Los Angeles yesterday on a honeymoon that has taken her through Canada by motor and will end when she establishes a permanent home here following a voyage to Honolulu. The couple are at the Hollywood Plaza Hotel.



MRS. ARTHUR J. YUGADA

Although she is the winner of eight silver trophies for beauty, Mrs. Yugada said she intends to give her time to her home.

"For eleven years," she said, "the women have had the right of way as far as a career was concerned; but I don't think the sum total of their achievement in intellectual or artistic lines justifies the spiritual bankruptcy of semiabandoned children and a home turned into 'just a house.'"

Her husband is a New York publisher.

MRS. COCHRAN RITES ARRANGED FOR TODAY

Members of the Eastern Star will conduct the funeral services for Mrs. Maud Cochran, 2414½ Maple avenue, today at 1:30 p.m. at Bresee Brothers' chapel, 855 South Figueroa street. Interment will follow in Inglewood Park Cemetery. Mrs. Cochran, who was 58 years of age, was prominent in the activities of the Eastern Star. She was born in Nashville, Tenn., in 1871. Her death last Monday was the result of heart disease. She leaves a husband, George P. Cochran, and two daughters, Mrs. Mattie Lundberg and Mrs. Blanche B. Knight, both of Los Angeles.

FETE MARKS OPENING OF MEN'S STORE

Silverwoods New Wilshire Institution to Greet Public in Celebration Today

Starting tocay and continuing through to the close of the week, Silverwoods will celebrate the formal opening of its new Wilshire store at 5522 Wilshire Boulevard, near La Brea avenue, in the west end of the Wilshire Tower Building, with doors open daily from 9 a.m. to 10 p.m.

THEODORE DUGGER

The "open house celebration is expected to attract thousands of residents of the Wilshire, Hancock Park, Beverly Hills and Hollywood districts to the new establishment, which is said to be one of the finest examples of modern store design and arrangement in the country. An orchestra will provide musical selections daily during the celebration and a circus for boys will be given Saturday at a location opposite the store.

Included on the circus program will be aerial and acrobatic acts, clowns, trained horses, dogs and ponies, and a side show with a Punch and Judy, strong man, knife throwing and other numbers. Admission will be free.

Theodore Dugger, formerly assistant to the clothing department manager of Silverwoods downtown store, has been named manager of the new Wilshire store, according to announcement yesterday by G. E. Nagel, president of the concern, and Arthur K. Rebard, general manager.

Among the features of the new store are the men's lounge on the mezzanine floor, where books and magazines from all over the world are assembled, and a recreation room for boys also on the mezzanine floor. Games, books and magazines for boys have been provided in the latter room. A large area for parking of customers' automobiles has been set aside at the store's southern entrance, and parking space also is available on Wilshire Boulevard and along interseeting streets.

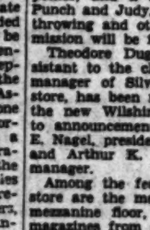
Preopening inspection reveals that the interior of this second store of the pioneer local mercantile concern embodies the most modern ideas of advantage in merchandising and yet reflects rich and simply dignity. Woodwork throughout is of American black walnut and all metal used is of dull silver. The circular corner show window where displays are set forth with dramatized effect by special lighting arrangements, is one of the interesting features. Throughout the interior, color has been placed with careful thought to assist the lighting in producing the desired effects.

Assuring efficient and courteous service to the public, Manager Dugger personally selected the staff of employees manning the new establishment. Those employees will share in the benefits accruing to the concern's entire staff of workers under the terms of its liberal policy of distributing a percentage of the profits yearly to those who have been with the company one year or more. Insurance coverage, of the accident, sickness and life types, also is given the employees after serving with the concern a specified length of time.

Merchandise carried in stock at the new Wilshire store is complete in every respect and also includes special selections for the requirements of the district served, according to Manager Dugger. Apparel and kindred lines for men and boys, manufactured by nationally known concerns and by local and Pacific Coast plants, make up the stock.

Telephone Man Heads Industry Unit for Chest

E. E. Manning, assistant general manager of the Southern California Telephone Company, yesterday assumed the chairmanship of the Community Chest campaign industrial department, a new unit created this year, patterned after units in chests in other cities. Manning's appointment was announced by Chest Campaign Manager J. A. H. Kerr.



E. E. MANNING

In announcing the appointment, Kerr pointed out that last year there were 2328 establishments which were solicited by a volunteer army of 3000 workers. There were 161,231 employees in these establishments, and of this number 126,789 subscribed $410,806 or $3.24 per capita.

TRAFFIC DEATHS MOUNT TO FIVE

Two Men, Woman and Child Killed Outright

Another Succumbs to Hurts Suffered in June

One of Victims Los Angeles City Employee

Two men, a woman and a child were killed outright in traffic accidents in the city and county yesterday and a third man died of injuries received in an automobile wreck on June 21, last.

Pauline Glines, 12 years of age, of 2121 El Sereno avenue, Altadena, died at the Pasadena Hospital last night after being struck by a car driven, according to Deputy Sheriff Eberz, by David B. Baxendale, 21, of 401 Langdon street, San Gabriel, who was not held after investigation showed the accident unavoidable. The girl was struck down and fatally injured when she rode a bicycle in front of the Baxendale machine near Figueroa street and North Fair Oaks avenue.

Within ten minutes between the hours of 2 and 3 o'clock yesterday afternoon the two men were killed in traffic accidents occurring in separate localities in the city.

At Ninth and Main streets, William E. Allison, 37, drove his automobile into the side of a street car. He died on the way to the Georgia-street Receiving Hospital.

In front of 803 Macy street, Roy F. Duclox, 19, of San Bernardino, skidded on his motorcycle and crashed into a heavy truck. He also died on the way to the hospital.

Pearl Moseley, 35, a colored maid, who lived at 1609 East Sixty-third street, was killed instantly last night when she was struck by an automobile in front of Willard's Cafe, 9625 West Pico Boulevard. According to police of the Georgia-street division, the driver continued for a block and a half, stopping at a restaurant where he ordered supper. The case was turned over to the Sawtelle division detectives for investigation.

CITY EMPLOYEE

Allison lived at 524 West Third street. He was an employee of the Los Angeles Bureau of Water and Power. He was alone in his car when it collided with the street car, police reported. Passengers on the street car were shaken severely by the impact but none was reported injured.

Allison, driving in his automobile alone south on Main street, was crowded by heavy traffic into the Los Angeles Street Railway car going north, it was reported by witnesses.

The impact of the collision smashed off the steering wheel and drove the steel steering post through Allison's body.

INQUESTS LATER

Both bodies were taken to the County Morgue. Inquests will be set today. Police were endeavoring last night to get in touch with relatives of Duclox in San Bernardino.

W. Potter of 429½ Lucas street died at the Good Samaritan Hospital yesterday morning as the result of injuries received when he was struck down by an automobile June 21, last, according to a report at the Coroner's office.

The body was removed to the County Morgue, where an inquest will be conducted at 1:30 p.m. today. Frank Keith of 526 Oleander Drive, driver of the machine which hit Potter, according to police, will be ordered to be present at the inquiry. The accident occurred at Fifth and Main streets.

STUNT PILOT ADVOCATES AIR SAFETY

Dick Grace and Bob Lloyd Speak Before Junior City Club's Aviation Group

Ability of an airplane pilot to pull a plane out of a spin and to keep it from falling off in case of a stall is the only stunt knowledge required of a flyer at present and even this knowledge will not be necessary within a few years.

That was the contention made by Dick Grace, noted crash and stunt pilot, during a meeting of the aviation division of the Junior City Club last night.

Although Grace earns his living stunting airplanes he believes a student pilot should not be taught aero acrobatics and that safety factors of future planes will require nothing but straight flying.

Bob Lloyd, local veteran flyer and chairman of the club division, pointed out in tracing the history of the United States air mail that mail pilots every day last month flew 52,070 miles on schedule and that the government paid approximately $1,000,000 to air-transport companies on mail contracts.

RADIO AIDS LOYALTY WEEK

Eleven Los Angeles County Stations to Continue Law Enforcement Broadcast Until Sunday

In observance of Loyalty Week, eleven Los Angeles county radio stations will continue until next Sunday to broadcast a statement setting forth the purposes of the week and calling on all listeners-in to lend their support to law enforcement, it was announced yesterday by Wilbur Le Geite, executive secretary of the Citizens' Loyalty Alliance, which is sponsoring the campaign. The stations are KEJK, KFI, KFQZ, KFVD, KFWB, KGEF, KSFJ, KHJ, KMTR, KNX and KPLA.

"This week, from the 8th to the 15th inst., the statement reads, "has been set aside and is to be observed by all civic, religious and patriotic organizations throughout the State as Law-Enforcement Week and a 'back-our-President' campaign, that all citizens of our great State and nation, and also all boys and girls, may acquaint themselves with the State Constitution, and the Constitution of the United States. It is not for the purpose of suggesting any particular provision of the law, but for the enforcement and observance of all laws.

"The Citizens' Loyalty Alliance, which is sponsoring the campaign, is composed of more than 100 civic, religious and patriotic organizations throughout the State and nation. It is nonpolitical and nonsectarian. Its objectives are to promote law observance and to assist in law enforcement and particularly obedience to the Constitution of the United States. Obtain a copy of the Constitution and memorize it. It should be near and dear to your heart."

Dist.-Atty. Fitts, it is announced, will speak on law enforcement over KHJ today from 12:45 to 1 p.m.

CAVE MAN PLAN ENDS WITH WRIT

Woman Who Told of Being Held Captive Hours Asks Complaint for Howe

Carl H. Howe's plans for a hasty elopement to Mexico where he hoped to marry Caroline R. Kellogg of 1517 Portia street, ended in disaster yesterday when Miss Kellogg appeared at the District Attorney's office and swore to a complaint charging the man with forgery and false imprisonment. The complaint was issued by Dep. Dist.-Atty. Bonner Richardson.

Miss Kellogg appealed to the police department two days ago for protection charging that Howe forcibly had imprisoned her in his home at 1338 McDuff street for forty-eight hours while trying to force her to consent to elope with him to Mexico.

At the same time Howe took her check book and forged and cashed a check for $10, the woman asserts.

Detective Lieutenants Hopkins and Lennen of Central Station took Howe into custody. Following an investigation they asserted that he once was convicted of forgery in El Centro and in 1925 was sentenced to Folsom Prison for child stealing. Howe was released from Folsom May 10, last.

ROCK PLANT GRINDS VALUES

Santa Monica District Realty Sales Hard Hit By Crusher Plans, Witness Declares

That the Santa Monica mountain district should be the "white spot" in the real estate market of America and that it would be were it not for the Alphonzo Bell rock-crushing project which is proposed to be located in this district, was the gist of the testimony of V. E. Maescher, Beverly Hills real estate operator, last night at the hearing before the City Planning Commission at the City Hall.

William Peart, a commissioner of the Salvation Army, now a resident of Pacific Palisades, declared that the establishment of a rock-crushing plant would be an "insult to the mountains."

"Also, I was given to understand when I built my home there that the district always was to be free of industry. The establishment of a plant of the nature proposed would be destructive to the beauty of the neighborhood," he said.

Mr. Maescher testified that the Botanic Gardens subdivision sales had met with stiff resistence since the effort to build the crusher had been started.

The hearing was continued until Tuesday afternoon, at which time Adelbert Bartlett, a photographer, will complete his testimony, which was started last night.

TEXANS DANCE TOMORROW

Texans living here will rally and dance tomorrow night at 1137 South Hope street, it was announced by Lyston Black, president of the local Lone Star organization. He promises a popular program to precede the dancing.

Parent-Teacher Slate Selected

Mrs. Hugh Bradford of Sacramento for president and Mrs. F. O. McColloch of Los Angeles for vice-president will be the California nominees for the next election of the National Congress of Parents and Teachers.

The board of directors of the California Congress so instructed Mrs. R. L. Cardiff, State president, at a meeting Tuesday at the Alexandria. The nominations were made without opposition, it is said.

The State body still is seeking a city for its convention next May.

The parent-teacher body will be represented at the Teachers' Institute at Riverside next month by Mrs. James K. Lytle of Los Angeles, Mrs. O. M. Robertson of Arlington, and Mrs. H. C. Baldwin of Pasadena.

The Mark of Genuine Aspirin

BAYER ASPIRIN is like an old friend, tried and true. There can never be a satisfactory substitute for either one. Bayer Aspirin is genuine. It is the accepted antidote for pain. Its relief may always be relied on, whether used for the occasional headache, to head-off a cold, or for the more serious aches and pains from neuralgia, neuritis, rheumatism or other ailments. It's easy to identify Bayer Aspirin by the Bayer Cross on every tablet, by the name Bayer on the box and the word "genuine" always printed in red.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

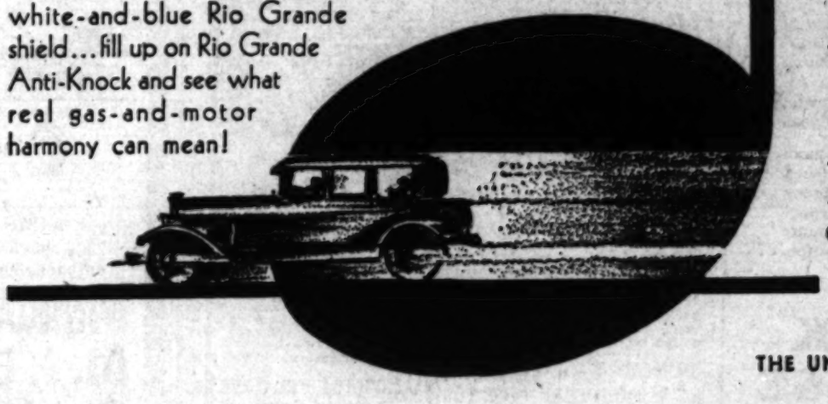
Tuned to MODERN MOTORS

Rio Grande Gasoline sings a tuneful song of speed and service to the motors of today...and tomorrow!

YESTERDAY'S gasoline won't do today. High-compression motors call for high-compression fuel. For, engines of this type cannot run efficiently on ordinary gasoline. Hence the ever-widening demand of Rio Grande Anti-Knock Gasoline. ¶ If your motor is high-compression you will get from Rio Grande immediate response impossible with ordinary gasoline. No stutter when you step on the starter! No miss when you accelerate! Gear-shifting loses its frequency! Hills melt away on high! Your motor runs cooler, yet yields more power! You glide along, propelled by an engine smooth, sure, silent! It performs in perfect harmony! ¶ On the other hand...if your car is not high-compression, Rio Grande (by eliminating that "knock") insures the maximum in pick-up, power, mileage. ¶ Best of all, Rio Grande Anti-Knock costs no more than ordinary gasoline. It is premium in performance but NOT in price. Stop at the next red-white-and-blue Rio Grande shield...fill up on Rio Grande Anti-Knock and see what real gas-and-motor harmony can mean!



THE SIX ESSENTIALS OF MODERN GASOLINE

1) Anti-Knock
2) Lightning Pick-up
3) Quick Starting
4) Smooth Running
5) Ample Power
6) Maximum Mileage

Rio Grande has them all

ACTRESS HEARD BY GRAND JURY

Sallie O'Neil Questioned on Brother's Whereabouts

Suspect Wanted by Officers on Burglary Charge

Search Fails to Locate Him; Friends Quizzed

Sallie O'Neil, motion-picture actress, yesterday spent twenty minutes on the witness stand before the county grand jury, presumably answering questions pertaining to the whereabouts of her brother, Jack Noonan, who is charged, with burglary in a complain issued by police of the Peace Billings of Beverly Hills two weeks ago.

Two other witnesses were questioned by Fred Shelley, deputy District Attorney, assisting in grand jury matters, regarding the same case. They are Frank Depaul and [illegible] Tansey, said to be close friends of Noonan.

Young Noonan in the Beverly Hills complaint is charged with entering the apartment of Ted [illegible], musician and vaudeville artist, at 1404½ Havenhurst Drive, Hollywood, taking furs and clothing valued at $8000.

In the investigation conducted by Deputy Sheriffs Bogardus and [illegible] under Capt. William Hansen of the Fairfax substation, $2000 worth of the asserted stolen property was recovered. Since the complaint was issued against Noonan, however, the officers have been unable to find him.

CAVE EXPLORER RECALLS THRILL

(Continued from First Page)

caverns that I am sure the eye of man never beheld before. Many times we crawled flat on our backs through a narrow aperture and found we were in a great room. Then a new formation of stalactites and walls. Several new rooms that Willis had never seen were found during our exploration trip. In one room we found the skeleton of two men, both of whom had been dead for at least 100 years. It was my job to carry these ancient bones three miles through the darkness to the cave entrance. They now are in the museum at Washington."

In the Rotogravure section of The Times next Sunday will be published a magnificent double-page drawing by Charles Owens, famous staff artist, of the Carlsbad Caverns. In his own inimitable way Mr. Owens will present to the readers of The Times his own impressions of this little known and beautiful cave which for so many years lay right at the back door of civilization but was not recognized for its true value until a few years ago.

Mrs. Audrian's Mother Expires

Mrs. Mary N. Audrian, 88 years of age, mother of Dr. Leslie C. Audrian, well-known physician of Los Angeles, died at her home in Inglewood last night after a lingering illness. Mrs. Audrian came to Los Angeles years ago. She was born in High Hills, Mo.

Besides Dr. Audrian she leaves a son, F. M. Audrian of Long Beach; two daughters, Mrs. J. J. Sumpter of Long Beach, Mrs. J. A. Boynton of Hawthorne and Mrs. Kathryn Audrian of Berkeley, and a sister, Mrs. Catherine Parker of San Fernando.

Funeral services will be conducted from the Roupe Mortuary, 950 West Adams street, Saturday afternoon, and burial will be in Inglewood Park.

FIRST TO GATHER

The fourth annual reunion of the Fourth Division Association of Southern California, composed of former veterans of the West's famous division overseas during the World War, will be at Pasadena Saturday afternoon and evening, the 21st inst., it was announced yesterday by William [illegible], president. Many entertainment features are being planned for the occasion, which will begin with registration of the [illegible] buddies of the Wild West days. Mann declared. Guernsey [illegible] is chairman of the entertainment committee.

MEN TO GET STA... THAT'LL BE F...

[illegible] have straws, prepare to [illegible] now! For tomorrow, Friday the thirteenth, the old straw hat is sentenced to go a-gimmicking and in its place on the head of well-dressed man will appear [illegible] straws. This is by decree of the makers, and yesterday they issued a warning to all fathers, sons and brothers to obey under pain of humiliation from the fashion-bound [illegible].

Furthermore, they are offering for the [illegible] male's inspection and approval a wide variety of new felt [illegible]. The variety applies to [illegible] as well as color. There is [illegible]

ADMISSION INTO UNION OBSERVED

Architects of City Hall Introduced on Program of Breakfast Club

California's admission to the Union and the founding of Los Angeles 148 years ago were observed at the Breakfast Club yesterday morning by the introduction of the architects of the new City Hall, John Parkinson, John C. Austin and Albert C. Martin, and a program that ran the gamut from songs and dances of Spain to the modern in music and dance.

Special guests were Rudy Vallee, Clarence Saunders, founder of the chain of stores that bears his name, and R. A. Allen, vice-president of the Clarence Saunders Stores.

On the entertainment program were Emily Hardy, soprano; Elane Hammond, banjoist; Mildred Costello, danseuse; Harold Hodges, baritone, and the Haynes twins, singers and instrumentalists.

The hosts were Dudley M. Mills, vice-president of the company that did the marble work on the City Hall, and R. C. Bloomfield, inventor and executive of the Tool Steel Gear and Pinion Company of Cincinnati.

DR. PARRISH ABSOLVED IN CRASH SUIT

Health Officer Declared to Have Been Guiltless as Williams Was Injured

Following the trial of the suit for $36,000 damages brought against Dr. George Parrish, City Health Officer, by Richard W. Williams, a carpenter, Superior Judge Westover yesterday found for the the defendant, thereby absolving Dr. Parrish of any blame for injuries suffered by Williams when struck by an automobile at the intersection of Reno and Beverly boulevards.

Williams asserted he was struck by an automobile driven in a reckless manner by Dr. Parrish; that he was thrown to the pavement and severly injured.

It developed at the trial of the suit from testimony offered that Williams started to cross the intersection while all the automobiles in traffic were at a standstill waiting for the signal to move across the street; that he started running and when in front of the second line of cars in traffic the driver of the first car in the line suddenly started up his car, striking Williams in the heel. The impact tripped him and he fell against the Parrish car, which was standing still against the curb.

Judge Westover in deciding the case held that the blame for the accident would be on the unidentified driver who started his car too soon and hit Williams before he had time to get from in front of it.

TRAINS FOR BAY REGION TO SPEED UP

Faster and Improved Service Announced by Official of Espee

Improved and faster train service between Los Angeles and San Francisco will be placed in effect within the next few months by Southern Pacific Company, according to F. S. McGinnis, passenger traffic manager for the railroad, who was in the city yesterday for several hours en route to San Diego to attend a meeting of the California Passenger Association.

F. S. McGINNIS

Mr. McGinnis stated that work has been in progress for several months in improving trackage conditions and that new passenger-train equipment has been ordered.

California's most successful summer travel season now is drawing to a close, according to Mr. McGinnis, who added the railroad is preparing for an increase of winter travel to the State during the coming season.

"Westbound travel to California this summer showed a substantial increase over last year," Mr. McGinnis said. "Local travel in the State also has shown a healthy increase, reflecting general conditions of prosperity.

"The ordering of a large number of new Pullman cars, diners, club and observation-lounge cars for our limited trains, together with plans for speeding up and improving service between here and San Francisco, is the best proof I can offer that we are most confident of the future."

STUDENT EXCHANGE SOUGHT

Dr. Richet of Paris Here to Arrange Taking California Men Back to French Universities

Students of Southern California universities may be granted the opportunity to go to Paris for study as a result of a conference to be held at the California Club today when Dr. Charles Richet, member of the Institute of France, discusses a student exchange project with heads of local institutions. Dr. Richet, who also is managing director of one of the largest hospitals in Paris, is visiting Los Angeles as a guest of the medical fraternity.

He will be the luncheon guest today of L. N. Brunswig, president of the Alliance Francaise, who has invited Dr. R. B. Von KleinSmid, president of the University of Southern California; Dr. E. C. Moore, director of the University of California at Los Angeles, and Dr. Robert Millikan of the California Institute of Technology, to meet him.

Dr. Richet's mission to Los Angeles is to stimulate an exchange of American and French university students. He contemplates taking to Paris thirty American students in exchange for a like number of French students being sent to American universities. Ways and means of arranging this exchange are to be discussed today with the heads of local institutions.

There is being built in the Cite Universitaire in Paris a large building for Americans under the leadership of Homer Gage, of Worcester, Mass., explained Dr. Richet. This building can house 300 American students. The foundation is endowed and the building forms part of a group of fifteen similar dormitories erected by various nations of Europe, Asia and the Americas. These buildings are the living quarters of foreign students who go to Paris for postgraduate courses or to get the finishing touches in their various professional trainings.

Dr. Richet was the dinner guest of a large number of medical men last night at the University Club of Pasadena. Following the dinner he addressed the guests.

Legacy Failure Breaks Up Home

Mrs. Piensa Hayden became extremely hard to live with as a wife when she discovered her husband was not going to inherit a fortune he expected to get, according to Lawrence Hayden who asked Superior Judge Blake for a divorce yesterday.

Hayden asserted that when his wife learned the long looked for fortune he expected to inherit did not fall to him she became angered and from then on made life miserable for him. Once, he said, she hit him over the head with a dish pan. Finally she deserted him, he said.

A decree was granted.

Long-Indicted Fugitive Taken

After a search of more than a year, A. A. Taylor, indicted with twenty others on charges of conspiracy to violate the Tariff Act, was arrested by Deputy United States Marshal McLean.

Taylor, who is said to be a member of a large ring of rum-runners, has been a fugitive since April, 1928. It is charged that he participated in the landing of a large load of liquor at San Luis Obispo. His bail, at first fixed at $10,000, last evening was reduced to $5000. Taylor was placed in the County Jail pending the posting of bond.

DISPLAY OF DAHLIAS TO OPEN TODAY

Air Delivery Helps Bloom Entries From all Parts of State and Nation

In a blaze of living color filling both the main ballroom and the foyer of the hotel, this city's leading floral event of the year, the tenth annual dahlia show, will open to the public at the Biltmore at noon today.

Airplanes are delivering fresh-cut blooms from distant parts of the State previously not represented in the big show because it was not heretofore possible to deliver such blooms in the best condition for show purposes. Rare eastern flowers also are being sent air mail to appear in the displays this year.

Director Frank L. Miller, in charge of the event for the Southern California Dahlia Society, said practically every known variety of dahlia would be entered by the 300 amateur and professional growers.

A large number of florists and growers from other parts of the Pacific Coast are in the city to attend the event.

Of considerable interest in the show this year will be a newly created dahlia known as the tyrean rose. Another beautiful display has been entered by a convict.

To insure the flowers being in the best condition for display, the show will only run two days, concluding at 10:30 p.m. tomorrow evening.

DRY REFUGE INVADED SO HE PAYS WET FINE

Arrested by Officers Dykes and Kemp in a hallway of the W.C.T.U. Building at Temple street and Broadway, Ed G. Miller, 612 Crocker street, who says he is a cook employed in the building, pleaded guilty to being drunk before Municipal Judge McConnell yesterday. He was fined $30.

The Cameraman's Report on Late News and Features Around the World

Buried Alive for Forty-two Hours Thirty-five Feet Deep in the Earth through cave-in of a well, Wilkins Priest of Ottumwa, Iowa, was finally rescued by means of a parallel shaft sunk by hundreds of men who worked night and day shifts over the period. Photo shows mouth of well with workers pumping air to imprisoned man. (P. & A. photo.)

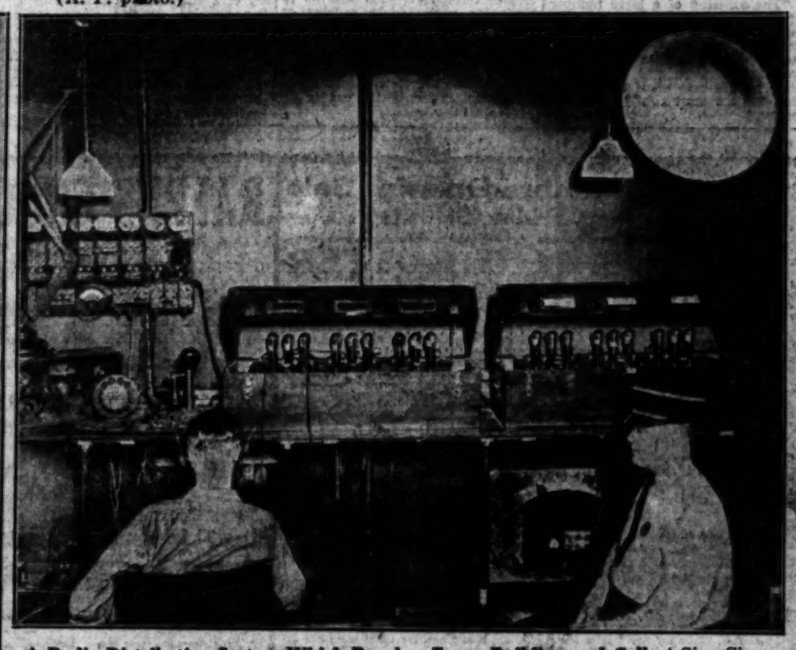
For the First Time in Seventy-three Years of its history the Republican party has chosen as chairman of its national committee a man from the South. He is Claudius H. Huston of Tennessee (left,) pictured with Dr. Hubert Work, whom he succeeds. (A. P. photo.)

One of England's Most Historic Old Structures, Lulworth Castle in Dorset, was destroyed in a spectacular blaze a short time ago. Fortunately, considerable of the old furniture and many relics of the feudal days, as well as valuable paintings were saved. Meager water supply was exhausted in battle with flames and two firemen injured. (P. & A. photo.)

A Four-Room Flat looks good to Florence Trumbull, daughter of the Governor of Connecticut, who will become Mrs. John Coolidge this month. (A. P. photo.)

The Colonel's Lady?—Nope, you're wrong. It's Miss Violet Budd of Syossett, L. I., who bears a striking resemblance to former Anne Morrow. (P. & A. photo.)

Fortune Left Her by her father, William Rhinelander Stewart, makes Princess de Braganza, former Anita Stewart, one of world's wealthiest women. (A. P. photo.)



A Radio Distribution System Which Reaches Every Building and Cell at Sing Sing Prison has been installed by one of the convicts within the walls. The equipment is complete in every respect and utilizes twenty-one loud speakers and 2300 head phones. The convict-expert is shown at left with his keeper in the central radio room. (Herbert photo.)

HEIKS REGAIN LEAD; SERAPHS NOSE OUT SEALS

Golden Bears Decline Tilt With Middies

BERKELEY, Sept. 11.—California will not consider a game with the Navy in the East next year, W. W. Monahan, graduate manager of U. C., said tonight when informed that Annapolis authorities seek such a contest. The fact that the Golden Bears must make the trip east this coming season to play Pennsylvania makes a journey eastward in 1930 an impossibility, Monahan said.

NEW YORK MISS RETAINS LEAD

Helen Hicks Tops Golfers in "Derby" Tourney

CHICAGO, Sept. 11. (AP)—The seventy-two-hole medal play golf derby rounded the three-quarter turn today with Helen Hicks, husky Inwood (L. I.) star, coasting along like a certain winner, ten strokes in front of the faltering field.

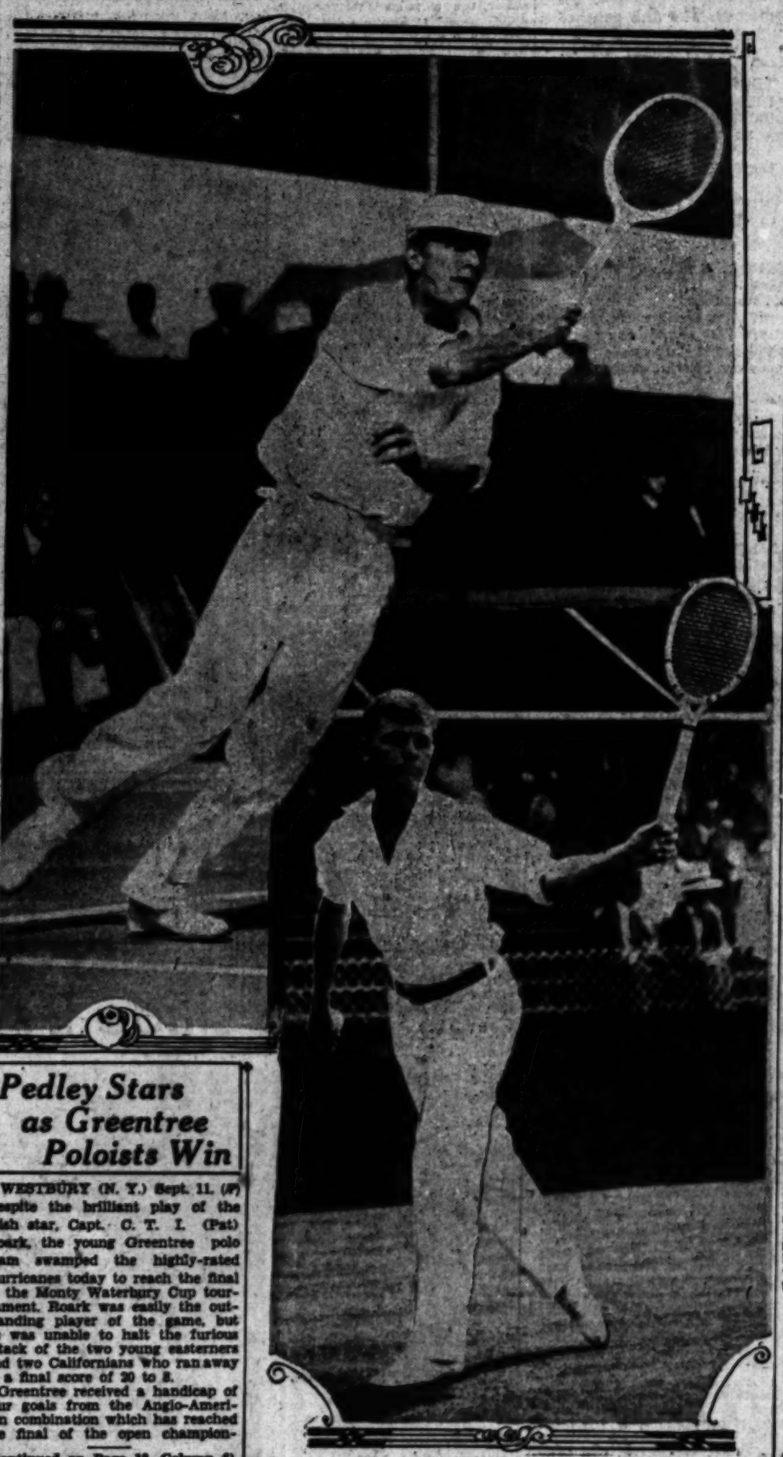
Miss Gregg Lifur...

After two flashy rounds of 78, Miss Hicks loafed in with an 83, three over par, on the Flossmoor Country Club course today. Her closest rival, Mrs. Lee Mida of Chicago, carded the same score, so the New York girl's ten-stroke lead of yesterday was kept intact. Her total for the fifty-four holes stands at 239 and only the worst game of her great season in tomorrow's eighteen-hole finale and Mrs. Mida's best

(Continued on Page 12, Column 4)

INTERNATIONAL FLAVOR TO THE QUARTER-FINALS

Here are "Bunny" Austin (top) of England and Johnny Doeg of Santa Monica, both kid hopes of rival nations, who tangle today in one of the quarter final brackets for the national tennis championship. Neither youngster is much more than out of his teens, and upon their shoulders some day will rest tennis supremacy between Great Britain and the United States.



Pedley Stars as Greentree Poloists Win

WESTBURY (N. Y.) Sept. 11. (AP) Despite the brilliant play of the Irish star, Capt. C. T. I. (Pat) Roark, the young Greentree polo team swamped the highly-rated Hurricanes today to reach the final of the Monty Waterbury Cup tournament. Roark was easily the outstanding player of the game, but he was unable to halt the furious attack of the two young easterners and two Californians who ran away to a final score of 20 to 8.

Greentree received a handicap of four goals from the Anglo-American combination which has reached the final of the open champion-

(Continued on Page 12, Column 6)

World Series Broadcasting Plans Bared

NEW YORK, Sept. 11. (AP) Broadcasts of the world series are to be heard over two chains. Announcement was made today by the Columbia Broadcasting System that it, in addition to the National Broadcasting System, would have microphones in the two parks. Lists of stations in the two chains have not been announced as yet.

HIBBS TO AID FROSH ELEVEN

Former Trojan Captain Will Coach Yearlings

BY RALPH HUSTON

Jess Hibbs, captain of the Trojan national championship grid team of last year and twice all-American tackle, will assist Aubrey Devine in coaching the yearlings at Troy this season, Willis O. Hunter, director of intercollegiate athletics, announced yesterday. Hibbs is the third member of last season's team to be signed to assist Levine, Lloyd Thomas and Charley Boren already being included.

JESSE HIBBS

It is planned to let Devine take the frosh in hand early in the season, drilling them in their fundamentals and plays, and then turn the squad over to Thomas, with Hibbs and Boren assisting, so that Devine can act as scout. Last year Devine trained his glasses on Notre Dame and no small part of the Trojan victory over the Irish was attributed to his diagnosis of the Notre Dame plays.

Varsity regulars and hopefuls continued to show up yesterday. Jess Mortensen, the husky track captain, who is a candidate for a halfback berth, turned up weighing 190 pounds. He looks bigger than ever and announced himself a candidate for Lloyd Thomas's old job.

VETERANS BACK

Captain-elect Nate Barragar, Frank Anthony and Clark (Chick) Galloway all appeared on the scene of action, with a bit of additional poundage. Anthony weighed in at 216 pounds, or twenty-five more than he weighed last season. He intends to run around 200 during the schedule. Barragar was packing 205 pounds, but will lose quite a bit of that. Galloway, crack standing guard, picked up about ten pounds and hovers around the 200 mark. The Trojan line promises to be one of the heaviest in history, with almost every player close to the 200-pound figure.

Uniforms will be issued to the varsity hopefuls tomorrow morning, and the afternoon will be given over to the taking of pictures. Jones has scheduled two practice sessions for Saturday, one in the morning and one in the afternoon. Coaches Pop Warner and Bill Spaulding will be able to send their

KINNEY TWIRLS STARS TO EASY VICTORY OVER REDS

Hollywood Hits Ball Hard to Annex, 12-4

BY BOB RAY

With Walter Kinney, the disappearing southpaw, shouting the praises of Chinese herbs between innings and the rest of the Stars' bats cracking out base hits so often that it sounded like packs of firecrackers making whoopee on Chinee New Year's Oscar Vitt's oriental minded Hollywooders rode back into the league leadership yesterday over the prostrate forms of the Mission Reds with a 12-to-4 triumph.

WALTER KINNEY

Kinney, who claims that Chinese herbs restored the magic to his pitching arm, came out of hiding yesterday afternoon in time to take the mound for the Sheiks and turn back the slugging Missionites with seven scattered hits. Kinney and his famous knuckle-ball had the heavy-hitting Reds swinging like so many barn doors in a windstorm and Vitt is now seriously considering making all of his hurlers go on a diet of Chinese herbs.

SEVEREID HITS HARD

One of the reasons for Hollywood's return to slugging form yesterday was the presence of Hank Severeid in the line-up. Hank was out of Tuesday's game with an ailing big toe, but yesterday, bum big toe and all, he played and slapped out three timely singles that drove across four runs. Red Rollings also contributed three hits, two of them doubles, while Cleo Carlyle aided in the Sheik attack with a triple and a double that chased four mates over the plate.

"Dead Pan" Nelson, one of Killefer's leading right handers, started on the mound for the Reds but was chased in the fourth during a four-run Hollywood rally. "Boo Hoo" Hubbell, who cries for strikes like babies cry for Castoria, followed Nelson and he too receipted for a four-run shellacking that sent him to the showers. Charles Oscar Biggs, a youngster recently signed by the Missions, finished out the game and was touched for Holly-

(Continued on Page 12, Column 2)

Bobby Jones is Hero of 7-6 Angel Win

SAN FRANCISCO, Sept. 11.—Los Angeles squared the series with the Seals today, winning, 7 to 6, but had to go eleven innings to get the verdict. Elmer Jacobs, who was a bear cat for the Seals in the first half of the session, was staked to a four-run lead in the fifth inning, and as late as the seventh he had a margin of three runs, but he could not hold it. The Angels tied the score in the seventh and won the old ball game in the eleventh.

WILBERT PETERS

Johnny Couch got the Seals out of the mess that Jacobs left in the seventh and he got by the next three innings unharmed, but in the eleventh Webb opened on him with a three-bagger and he scored the winning run on a single by Bobby Jones.

BOBBY JONES HERO

Jones was playing right field in place of Schulmerich and although he got only two hits, both of them counted heavily. His single in the seventh drove two runners home and knotted the count, and his hit in the eleventh proved to be the knockout blow.

Ed Baecht, a lanky right-hander who has been something of a sensation for the Angels, started the game for the visitors but he was knocked out of the box in the sixth. Peters, a young southpaw, then went on the job and stopped the Seals in their tracks for the five innings and a fraction he worked. He stopped them Tuesday, also, when he acted as a relief hurler, but he cannot work every day, so the Seals still have a chance.

A double by Stats and a single by Webb gave the Angels a tally in the first inning.

The Seals scored two in the fourth on a pass to Bahr and doubles by Jolley and Caveney. They added three more in the fifth when Pinelli singled, Baker doubled, Johns singled and Wingo doubled and in the sixth inning they batted Baecht out of the box, but scored only one run. He issued two passes and

SPENCE BETTERS RECORD

Pennsylvania Star Breaks Old Mark in 200-Yard Breast-Stroke Event in L.A.A.C. Plunge

Walter Spence, all-around national swimming champion, added another breast-stroke record to his long string of marks at the Los Angeles Athletic Club last night, when he navigated 200 yards of fresh water in 2m., 30s.

Two watches caught the former Pennsylvania Athletic Club star in 2m. 29 4-5s., and one watch in the slower figure, which, under A.A.U. rules, must be taken as official. The old record was 2m. 31s.

WALTER SPENCE

Spence's feat was the outstanding event of the meet that featured national swimming and diving champions. More than 800 local aquatic fans crowded themselves into the Mercury club to view the title-holders in action, and were rewarded with a number of spectacular events.

Miss Olive Hatch, veteran L.A.A.C. speedster, nosed out Josephine McKim, the spectacular Panama Canal Zone miss, who won three national championships at Honolulu, in a 220-yard dash. The Mercury star took a seven-second handicap, and won by about three yards. Miss McKim's actual time for the race was 2m. 45s., and that of Miss Hatch, 2m. 49s. Jennie Cramer, another L.A.A.C. performer, was third, with a fourteen-second handicap.

Spence finished third in his race to Paxton Claude of the Pacific Coast Club, and "Doc" Gunter of the L.A.A.C., but had spotted them each fifteen seconds. All three hit the finishing wall at almost the same time, there being scarcely a foot between first and third places. Spence actually swam about four-

GRID SCANDAL CHARGES HURLED AT OHIO STATE

CLEVELAND (O.) Sept. 11. (AP) Ralph Vince, football coach at John Carroll University, today charged that one of his players had been approached with an offer of free room, board and tuition and a job paying between $15 and $25 a week to play on the Ohio State University team.

The player is Ted Rosequist, star tackle on the Carroll team.

Vince said Rosequist told him that he had been approached by Hal Ellis of Toledo, Ohio State senior and employee at the State Examiner's office at Columbus. Rosequist said he was told that Sam Williaman, Ohio State coach, had a list of players he wished to acquire for his squad and Rosequist's name was on the list.

It had been reported earlier in the summer that Rosequist was considering a transfer to Ohio State, but the possibility seemed negligible when he reported to Vince at the

SELLER VICTOR OVER DWORKIN

Hollywood Player's Winning Streak Finally Ended

Keith Gledhill Triumphs in Tilt With Neil Brown

Stratford Defeats Grove to Enter Semifinal Round

BERKELEY, Sept. 11. (AP)—With the upsets of yesterday out of the way, favorites settled down today and methodically pounded their way through another round of the California State tennis championships.

Bobby Seller, Pacific Coast champion and seeded No. 1 in the tournament, put an end to the winning streak of Leonard Dworkin of Hollywood, in the quarter finals of the men's singles event by scores of 6-1, 6-4.

Seller and Dworkin, both steady players, hammered away at each other in long rallies but the experience of the Coast titleholder finally swung the balance in his direction.

Keith Gledhill of Santa Barbara, seeded No. 2, fought Neil Brown, another seeded player, through two hard-hitting sets and scored a 7-5, 8-6 win to enter the semifinals of the tourney.

The third seeded player, Jerry Stratford, blasted his way into the semifinals at the expense of Frank Gove, 8-6, 6-0, and Cranston Holman, seeded fourth, landed in the quarter finals by defeating Gordon Jason 6-1, 6-4, 6-2.

In the women's singles play Dorothy Weisel of Sacramento, entered the semifinals round by trouncing Mrs. Jean Lorbeer 6-0, 6-0.

The men's doubles event found the favorites again running true to form. Seller and Brown teamed up to defeat Roger Stone and Ray Johnson, 6-0, 6-2 and the strong team of Stratford and Holman had a little harder time defeating Dworkin and Gervais Hillis, 6-3, 3-6, 6-1. The results:

Men's singles: Third round—Cranston Holman defeated Gordon Jason, 6-1, 4-6, 6-1.

Quarter finals—Keith Gledhill defeated Neil Brown, 7-5, 8-6. Cranston Holman defeated Jack Cearnes, 6-2, 6-0. Robert Seller defeated Leonard Dworkin, 6-1, 6-4. Jerry Stratford defeated Frank Gove, 6-1, 4-6, 6-4.

Men's doubles: Quarter finals—Gerald Stratford and Cranston Holman defeated Leonard Dworkin and Gervais Hillis, 6-3, 3-6, 6-1. Mike Laine and Harry Edwards defeated Dr. Carl Jensen and Ray Saville, 6-4, 6-1. Robert Seller and Neil Brown defeated Roger Stone and Ray Johnson, 6-0, 6-2.

Women's singles: Third round—Dorothea Sharts defeated Dorothy Walkup, 6-1, 6-1. Polly Pitch defeated Edith Touch, 6-1, 3-6, 6-3.

Quarter finals—Dorothea Sharts defeated Marjorie Postelthwaite by default. Mrs. Gene Mako defeated Mrs. Grant Gove, 6-4, 6-4. Dorothy Weisel defeated Mrs. Jean Lorbeer, 6-0, 6-0. Josephine Cruickshank defeated Betty Pitch, 6-3, 6-2.

Women's doubles: Quarter final—Dorothea Sharts and Kitty Godden defeated Mrs. Grant Gove and Mrs. Gene Mako, 6-4, 6-2. Edith Roberts and Edith Touch defeated Betty Pitch and Charlotte Miller, 6-4, 6-2. Dorothy Walkup and Enid Miller defeated Josephine Cruickshank and Mrs. Claire Wilson, 6-4, 6-4. Mrs. Claire Wilson and Mrs. Leander defeated Mrs. Claire Wilson and partner by default.

Mixed doubles: First round—Patsy McGuire and Ray Bergez defeated Marjorie Gove and Billy Love, 6-2, 6-3. Avery Aiken and Ray Johnson defeated Dorothy Cook and Janet E. Kinney, 6-4, 10-8.

Junior singles: Quarter finals—Ellsworth Vines defeated Wilmer Tratzer, 6-4, 6-2. Jack Moss defeated Billy Love, 6-4, 6-4. Jack Cosgrove defeated Jack Lynch, 6-3, 6-2.

Junior doubles: Quarter finals—Ted Schroeder and Russel Callaway defeated Gardner Mariner and Bob Fisher, 6-4, 6-1. Ellsworth Vines, Blankenburg and Wilmer Tratzer defeated Ted Grubler and Russel Callaway, 6-2, 6-3.

Girls' singles: Third round—Sally Sumner defeated Peggy Gray, 7-5, 6-2. Patsy McCoy defeated Eugenia Green, 6-0, 6-4.

Quarter final—Charlotte Miller defeated Barbara Weir, 6-2, 6-1.

Girls' doubles: Semifinal—May and Muriel Doeg defeated Edith Touch and Mercedes Mariner, 7-5, 6-4.

Boys' singles: Semifinals—Charles Kunz defeated Jack Lynch, 6-4, 6-4. Sam Lee defeated Jay Cohn, 6-4, 6-3.

Girls' under 18 singles: Quarter final—May Doeg defeated Muriel Nicholas, 6-3, 6-4. Alice Martin defeated Bonnie Miller, 6-4, 6-4.

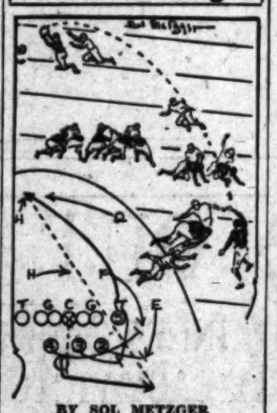
KONZE AND HAYWOOD CLASH AT PASADENA

Al Konze and Jack Haywood flash at the Pasadena Arena tonight in the main event. These boys fought a great ten-round draw at the Arena two weeks ago and are rarin' to go again.

The six-round semifinal tonight will be between a pair of clever 118-pounders, Jimmy Martinez and Foster Manalo. Four-rounders will be Paul Drake vs. Jimmy Lyall, 165 pounds; Lawrence Brown vs. Connie Fambro, 138 pounds; Bennie Rodriguez vs. Gene Pazarus, 112

Army Plays Hinge 'Round Chris Cagle



BY SOL METZGER

Christian K. Cagle, captain and halfback of the Army football team, is bound to be a marked man in every game. He can do anything well on attack—dodge, squirm, leap, sidestep, whirl, change pace, straight-arm and run like a scared rabbit.

Thus when he occupies the No. 1 back position, as per accompanying diagram, it's well to watch him. Chris will begin slowly backing from the line. Suddenly the ball is snapped to him and he is off like a blue streak to the right with ample interference. It's an end run, dollars to doughnuts, everyone thinks. And that's just the impression that comes to the defensive backs. They have been told to watch Cagle. Up they come to stop him before he can pass the line of scrimmage and get into the open. Once there, Cagle is as unstoppable as hooch leaks along our lengthy borders and coast lines.

But Cagle doesn't always run the end. Now and then end No. 5 bumps the opposing tackle and then cuts downfield at a 45 deg. angle, as shown, right between the defensive backs. Bang, Cagle hits him with a bullet-like forward pass! That pass caught both Harvard and Yale napping on successive 1928 Saturdays and will be a factor in Army attack this fall. But foxy old Pop Warner of Stanford stopped it and all Army passes with a defensive idea every fan and player ought to know. It will be explained tomorrow.

[Copyright, 1929, Publishers Syndicate.]

NET VETERANS WIN MATCHES

(Continued from Eleventh Page)

p.m., while Tilden tackles Johnny Van Ryn, youthful member of the American Davis Cup team, at 4 p.m.; Bunny Austin, the lone remaining English player, stacks up against Johnny Doeg at 3, and Fritz Mercur takes on the hard-hitting Texan, Wilmer Allison, in the opening match of the day at 1 o'clock.

Hunter had his troubles today in a thrilling duel with Wilbur F. Coen, Jr., 18-year-old Kansas City youngster, who is Tilden's favorite protege.

Driving and serving beautifully and playing a well-rounded all-court game that seemed to justify Tilden's prediction that some day he will win the national championship, Coen won the first set from Hunter and made a great fight for the second. Here the immature youngster weakened, however, and Hunter's superior stamina and match play experience carried him to victory at 4-6, 7-5, 6-1, 6-4.

Like Williams and Hunter, Austin, too, was forced to come from behind to win from Ed Feibleman, former Harvard player, at 2-6, 8-7, 6-2, 6-1, 6-3.

Allison, Doeg and Van Ryn each dropped a set but were in no real danger. Allison trimmed Elmer J. Griffin of New York, 4-6, 6-3, 6-0, 6-0, while "Jersey Johnny" downed Tamio Abe of Japanese Davis Cup fame, 6-3, 8-6, 5-7, 6-4, and Doeg defeated Julius Seligson of New York, 9-11, 6-2, 6-2, 6-3. Fritz Mercur, like Tilden, won in straight sets, trouncing John Millen, New York youngster, at 6-3, 6-4, 6-1.

The national veterans' singles championship also reached the quarter-finals with H. H. Bassford of Scarsdale, N. Y., defending champion, winning from Dr. Louis Schwartz of New York, 6-4, 6-1.

C. M. Charest, Baltimore, defeated Capt. W. S. Anderson, U.S.N., 7-5, 4-6, 6-4, in a third-round match.

HIBBS TO HELP WITH FRESHMEN

(Continued from Eleventh Page)

charges through two practices daily for some time. The U.C.L.A. registrations does not start until a week from tomorrow, and Stanford about the same time. The Trojans will start classes Monday of next week.

George Dye's eligibility will be definitely established by Monday. The husky center has been putting in a lot of heavy concentrating on the books for the past two weeks and is confident he will have no difficulty in passing the make-up test in German. Dye was getting a better-than-average grade last semester when a rampant flivver bumped him out of his final exam and into a hospital. He had taken all of his finals except the one in German at the time of the accident, and was on his way to that test when he was bumped.

MOHLER SIGNS

There are three or four freshmen who entered the university in February who will be ambitious candidates for the Frosh squad when active work starts. They are Orv Mohler, the Alhambra grid sensation; Leonard Bice, all-City end from Hollywood; Howard Tipton, speedy Belmont fullback who was on the Frosh track team last semester as a sprinter, and Francis McCrae, bulky El Monte guard.

RABBIT PUNCHES

BY PAUL LOWRY

FOOTBALL AT DEL MONTE

ALTHOUGH the national golf championship was quite generally supposed to have been the prevailing topic of conversation at Del Monte last week there was many a corner on the football market. In fact if one had taken a poll of the hotel lobby hounds it might have been possible to determine that football was hotter than even a national golf crown argument.

And it wasn't all gossip devoted to the current situation either. Some of it went back as far as the famous California-Ohio State battle in 1921 which was settled at old Tournament Park in favor of the Bears by a score of 28 to 0.

This brought up the question of Brick Muller's famous and muchly disputed heave—the distance of it—and who scored the first touchdown—Stephens, who caught Muller's pass, or Pesky Sprott.

In the whirlpool of discussion over the matter the eminent Mr. Benjamin Fahy, who sells automobiles which have been known to hop ruts at times, and the conductor of this column stuck together on one point, namely:

That Muller's pass was not the opening touchdown of the game and that Sprott was the gentleman who first punched the ball over the line.

• •

PESKY SPROTT THE HERO

RETURNING from the ocean-rimmed links at Pebble Beach ye conductor consulted the ancient files with the following result:

Sprott's touchdown in the first quarter was the opening score for the Bears.

Muller's pass to Stephens brought the first of two touchdowns for California in the second quarter.

And this is the manner in which the way was paved for Sprott to score the first touchdown:

Ohio State fumbled on its own 26-yard line and Latham retrieved the ball for California.

Sprott shot a pass to Muller for a gain of 13 yards.

Nisbet made two yards over right guard.

Sprott circled Ohio State's right end for 10 yards.

With the ball on the Buckeyes' 4-yard line Sprott made one yard and then crashed through the line for three more and the score.

Although Muller's miraculous heave will always stand out as the high spot of that game Pesky Sprott was really one of the biggest heroes of that game.

He not only scored the first touchdown for the Bears, but he tallied two of the four rung up by the winners, and proved practically unstoppable. He was a riot both on offense and defense.

Incidentally, all the stories of the game in The Times as well as the play-by-play refer to Muller's pass as fifty yards instead of the seventy with which he is credited in the football guide under Professor Parke's statistical column on long-distance heaves.

• •

SOBS FOR ED LEWIS

PROF. CARNATION LUIGI DARO of Glendale calls attention to the fact that in knocking Ed (Strangler) Lewis out of next week's match with Gus Sonnenberg, the king of the heavyweights, Joe Stecher has proved himself a perfect nemesis of the Strangler.

Although Prof. Daro is quite generally satisfied with Mr. Stecher as an opponent for Sonnenberg he believes prayers or something should be offered up for Mr. Lewis.

He cites several incidents to prove that Mr. Lewis has suffered considerable misfortune through his entanglements with Stecher, not to mention the fact that the scissors king withheld the mat crown from his grasp for a period of years.

One of the historical facts that Prof. Daro recalls to mind is the $5000 which Lewis posted as a forfeit for a match with Stecher, then champion, back in 1926. Lewis injured his arm in training and before it healed returned East, forfeiting the $5000 to the California Athletic Commission.

Last week Stecher put a toe hold on Lewis, and ruined a ligament for the Strangler.

This not only put Lewis on the shelf for the forthcoming Sonnenberg soiree, but forced him to cancel matches in Phoenix and Kansas City.

Prof. Daro says it is a cruel world, and he feels so sorry about the matter he is in favor of starting a subscription campaign to buy the Strangler a Christmas present.

KUSSMAN IN TWO EVENTS IN SOUTHWEST TOURNEY

Despite a badly injured right ankle, Art Kussman of Occidental College has entered both the singles and doubles events of the Pacific Southwest championships, slated to open the 23rd inst. at the Los Angeles Tennis Club.

Kussman will pair in the men's doubles with Ben Gorchakoff, former Tiger varsity captain, with whom he won the men's national intercollegiate doubles at Haverford, Pa., this season. It was during the intercollegiates that Kussman turned his ankle and later in the Metropolitan at New York he again injured his ankle and was finally forced to return home.

Many other Pacific Coast satellites with national reputations and many eastern and midwestern titles will carry the Golden State colors in the forthcoming classic against the numerous international visiting stars. One youthful pair is Keith Gledhill and Ellsworth Vines, intersectional champions, and junior national title-holders. They are competing at the State tournament in Berkeley at this time.

Jay Cohn, Santa Monica, and Charlie Hunt, San Francisco, boys' national champions, will also be contenders in the junior division of the Southwest tournament. In this field they encounter Jack Tidball, defending king; Orville Scholtz, U.C.L.A., and other local lights.

Marjorie (Midge) Gladman, sophomore, and Mary Greef, freshman just enrolled at U.S.C., are to carry the Trojan colors in the women's event. Both just returned from the East with many victories and tournament titles and have records that will place them for sure among the honored "first ten" this year. Miss Gladman is the present eighth ranking star of this country.

Other Coast stars coming down from the north are Miss Edith Cross and Mrs. Lawrence Harper, first ten players, and Gerald Stratford, Phil Neer, Ray Casey, Sherman Lockwood, Bob Sellar, Neil Brown, Bradshaw Harrison, Stan Almquist and others.

SPENCE SETS NEW RECORD

(Continued from Eleventh Page)

teen seconds faster than his two rivals.

Buster Crabbe won the 500-yard free style event from Austin Clapp and Prescia, of the Pacific Coast Club, although the Hollywood Athletic Club star gave him a great battle all the way. The time was 5m. 51s. Frank Walton, swimming unattached, won the 100-yard back stroke event in 1m. 4 2-5s., over Bela Kendall, also unattached, and Frank Booth of the Hollywood Athletic Club. Walton was the scratch man in the race, and came from behind to conquer his two rivals.

Buddy Crabbe won the 100-yard free style event for men in 55 2-5s. with Lindgren of the Pacific Coast Club second and Mac Miller of the H.A.C. third.

Additional entertainment was furnished by Georgia Coleman, who holds more diving championships than any woman in the world; Mickey Riley, Dutch Smith and Johnny Riley, Fred Cady's spectacular trio of divers; Joy Crew, 3-year-old miss, who "saved" Mickey Riley from drowning, and a water polo game between two picked teams that included the Crabbe boys, Austin Clapp, Duke Kahanamoku, Spence, Morley Drury and other well-known stars.

COACH FARRELL TO RETIRE

ANN ARBOR (Mich.) Sept. 11. (AP) Stephen J. Farrell, track coach at Michigan for seventeen years, will retire at the end of the present school year, he said here today.

NEW YORK MISS RETAINS LEAD

(Continued from Eleventh Page)

game could dislodge her grip on the title.

Two entrants of national fame, Manreen Orcutt of White Beeches, N. Y., and Virginia Van Wie of Chicago, were the only ones to gain on Miss Hicks today but they are so far behind they had but an outside chance to win. Miss Van Wie scored 39-46—79 for the best score of today's round for a 255 total, while Miss Orcutt got 42-38—80 for the grand sum of 251, which kept her in third place.

The only other 83 of the round was scored by Mrs. Gregg Lifur of Los Angeles, who is tied for fifth place by Mrs. Dorothy Klotz Pardue of Hibbing, Minn., with 256 totals.

JOE SALAS DEFEATS NOTO AT OCEAN PARK

Joe Salas won an unpopular decision over Joe Noto in the eight-round main event at the Ocean Park arena last night. The fans booed long and lustily their disapproval of the verdict. Art Scott defeated Joe Leonard via the decision route in the six-round semifinal. Melvin Bobo beat Frank Abendino in the four-round special. Bill Cain whipped Santiago Lujon in four rounds and Milton Webber beat Jack Clark in another four-rounder.

Advise Grip for Short Fingers

TOLLEY HAS SHORT FINGERS
SO HE RESTS CLUB ON FINGERS OF LEFT HAND THEM CLOSES HAND—THUMB STRETCHES DOWN RIGHT SIDE OF SHAFT

BY SOL METZGER

There is little choice in the matter of grips in playing golf. You either use a palm (baseball) or finger grip. If you are wise you will use the latter, as it helps so much more in obtaining suppleness, in place of rigidity, and wrist action, instead of a stiff-arm swing.

The finger grip may be overlapped, interlocked or non-overlapping. Tolley uses the latter because his fingers are short. He recommends it to others with a like physical handicap, just as he recommends the overlapping grip for those with long fingers.

Theoretically the overlapping finger grip causes the hands to work more in unison. But many golfers, among them Tolley, believe it causes a loss of strength along with a feeling of crampedness.

To take his grip Tolley applies the left hand to the shaft as shown in the accompanying sketches. Tomorrow—the completion of his grip.

Enjoy the thrill of long, straight drives. Write Sol Metzger, care of The Times, for free leaflet on driving. Inclose stamped, addressed envelope.

CHARGES AIMED AT OHIO STATE

(Continued from Eleventh Page)

start of the Carroll training season.

After telling Vince the details of the alleged proposition Rosequist declared that he would return to the Carroll camp at Lake Safford, near Ravenna.

Vince and Father Bracken of Carroll were in conference with the player today. Rosequist reached at his home, declared he would not comment on Vince's charges.

FRENCH TO INVADE ORIENT

PARIS, Sept. 11. (AP)—Led by Henri Cochet, a quartet of France's best racket wielders will leave the 19th inst. for an invasion of Japan. In addition to Cochet the party will be composed of Jacques Brugnon, Pierre Landry and Rodel.

MAT KING SWITCHES HOLDS

Sonnenberg Uses Flying Tackle to Soften Up His Rivals Before Pinning Them

The flying tackle that "Dynamite" Gus Sonnenberg, world's wrestling king, has used to topple over all opposition during the past twenty months, is used by the titleholder only to "soften-up" his foes and put them in a position to be thrown by a pinning grip that is as punishing as any used by the veterans.

Sonnenberg's most crashing hold, which he invariably brings into play after he has weakened his opponent with a series of tackles, is a combination wristlock and flying mare. It is this hold that Sonnenberg used to smash Joe Malcewicz into the mat in his last appearance here, and it is the same one which he expects to use in putting away Joe Stecher, the great Nebraska mat giant, when they meet for the first time in a finish title match at the Olympic Wednesday night.

The champion has proven his ability to snap on this combination flying mare and wristlock in his past two matches here, and the speed of his execution of this hold astonished the wrestling fans that packed the Olympic for both matches.

It was reported yesterday that Sonnenberg has developed a hold known as a "leg breaker," and that he intends to use it on Stecher the first time he gets the former champion off balance by his tackles. In applying the "leg breaker" known to most of the heavyweight grapplers, the pressure must be snapped on quickly, otherwise they leave themselves open to catching the loose foot on the chin as Stecher did here last week.

The battle between Stecher and Sonnenberg, the first ever scheduled between this pair, is expected to be the most colorful seen here this year, while the other two matches are expected to be packed with action. Nick Lutze will meet Jack O'Malley in the second bout of the all-star card, while Marin Plestina mets Nick Velcoff in the opener.

PEDLEY STARS IN POLO WIN

(Continued from Eleventh Page)

ship, but early in the game it became evident that they did not need these extra goals. The combination of Jock Whitney at No. 1, Winston Guest at No. 2, and Eric Pedley at No. 3 tallied two goals in the first period to take a lead which was never threatened. At half-time they had rolled up seven goals for a lead of 11 to 4 with their handicap included.

TAVERNA STOPS LEWIS

SAN FRANCISCO, Sept. 11. (AP)—Tilly Taverna, Santa Rosa heavyweight, scored a sensational two-round knockout over Jack Lewis of San Francisco, after flooring the San Francisco boxer four times with right hands to the jaw.

JOE RIVERS WINNER OVER BELL IN SCRAP

Arizona Joe Rivers won the main event at the Wilmington Bowl last night defeating Joe Bell. Rivers won eight out of the ten rounds and had Bell down on the floor for a no-count in the ninth round. Rivers weighed 143 and Bell 149.

Jack Sparr took the decision from Mat Codam in the six-round semi-wind-up. Young Pete Jackson knocked out Johnny Smith in the first round in the special event. Kid Christman took the decision over Henry Markel and Young Sport won from Kid Carlsan in the preliminaries. Tommy McFarland was the third man in the ring.

CAROLYN BABCOCK ARRIVES IN CITY

California's younger generation of tennis stars continued to drop into town after a strenuous eastern season yesterday, Miss Carolyn Babcock of Marlborough School making her appearance on the courts of the Los Angeles Tennis Club where she will participate in the Pacific Southwest tennis tournament September 20-29.

Miss Babcock reached the quarterfinals in the national junior girls' singles event and, with Miss Helen Marlowe, war finalist in the national girls' doubles losing to the Palfrey sisters of Boston. Miss Marlowe, who reached the final round in singles as well as doubles, is expected to return today. The two youngsters will both be eligible for the national girls' title again next year and hope to make quite a showing in the Pacific Southwest event against the British Wightman Cup squad.

HUDKINS, ANDERSON TO CLASH

Famous Middleweights Mix Up in Main Bout on 24th Inst.

Joe Anderson and Art Hudkins, two of the outstanding middleweights of the district, will clash in the main event at the Commission arena the night of the 24th inst. Because of its pending championship bout at San Francisco, the Hudkins-Anderson match will be a ten-round affair instead of the usual fifteen-round main event. Meanwhile Anderson, who gave up plans to put on a training for the bout with Hudkins, will go on with his training for the battle. Hudkins will start training for the battle at noon. The Wilmington arena will turn out at the Commission.

The fight will be a championship affair, the winner of the Anderson-Hudkins match will be in line for a fight with Vince Dundee, winner of a recent bout with Jimmy Slattery, for the middleweight championship. Dundee is anxious to meet Hudkins and Anderson, and a chance for revenge is what Hudkins craves over Anderson, who won a lucky battler's decision over Hudkins in their last bout.

...on the stage it's PERSONALITY

...in a cigarette it's TASTE!

"BE SURE you're right, then go ahead." There's one sure way to be right about a cigarette: *taste* it.

Taste Chesterfield — really *taste* it as you smoke. Notice its extra fragrance, its richness, its refreshing tobacco flavor — and see if it doesn't live up fully to the Chesterfield rule:

"TASTE *above everything*"

Chicago Moves Step Nearer National Loop Title by Trimming Philadelphia, 5 to 2

WHITE SOX BOW BEFORE MACKS BY 7-TO-4 TALLY

Athletics Take Odd Series Tilt to Practically Cinch Pennant; Yanks Shut Out by Browns, 5 to 0

CHICAGO, Sept. 11. (AP)—Chicago moved nearer the National championship today by defeating Philadelphia 5 to 2 in one of the series.

[illegible] was won on Reeves's single, a bad throw by Page, Detroit pitcher, which allowed him to reach second, and Rothrock's single to left center field, which scored him.

Stone and Alexander hit home runs during a six-run Tiger rally in the seventh inning which gave Detroit a 7-to-2 lead and apparently broke up the game. The Red Sox, who made seventeen hits during the game, came back with three runs in the eighth and two in the ninth, however. Todt hit a homer for the Sox. Score:

CHICAGOANS LOSE

PHILADELPHIA, Sept. 11. (AP)—The Athletics took an odd-scoring game from the White Sox, 7 to 4, here today, as the Chicagoans began their last Philadelphia series of the season. By so doing, as the Yanks were succumbing before the Browns, the Macks reduced their pennant requirements to four victories.

All of the runs in the battle at Shibe Park were concentrated into the first inning. After the White Sox had raked Bob Grove for five hits and their four markers, the Athletics turned upon Ted Lyons and McKain for seven blows and seven runs. Bill Shores entered the box for the A's after a pinch batsman was called on for Grove in the big first inning, and with McKain made it a pitchers' battle of the rest of the route. Score:

PIRATES SCUTTLED

PITTSBURGH, Sept. 11. (AP)—The Giants defeated the pirates in both games of a double-header this afternoon by 2 to 1, and 10 to 5. The invaders, through their double victory, reduced Pittsburgh's second place lead to four and one-half games.

The first clash brought a brilliant slab duel featuring Burleigh Grimes and Bill Walker. Grimes held his former mates to six hits, but his supporting cast left the laurels on the bases. The contest was completed in one hour and twenty-six minutes. It was Grimes's sixth defeat.

The second game was a loose affair. Dutch Henry and Heinie Meine started the fight but both were missing at the finish. Carl Mays went to the relief of Henry in the second and proved effective. Ralph Erickson, a recruit left hander, finished the game for Pittsburgh.

Melvin Ott connected for his thirty-seventh homer in the second game. Scores:

Losing pitcher—Swetonic. Time of game—3h. 44m. Umpires—Jorda, Quigley and Moran.

BROWNS SCORE

NEW YORK, Sept. 11. (AP)—The St. Louis Browns defeated the Yankees easily in the first game of their four-game series, winning by a score of 5 to 0. It was New York's fifth straight defeat at the hands of the Browns. In these games the Yanks have scored only two runs.

Alvin Crowder, who shut out the Yankees with two hits in St. Louis last month, blanked them with five today. Eddie Wells, New York left-hander, was wild and ineffective in the early innings, but settled down later in the game. Score:

TRIGO RACES TO VICTORY IN ENGLISH TURF CLASSIC

DONCASTER (Eng.) Sept. 11. (AP)—Trigo, owned by W. Barnett and winner of the Epsom derby, today captured the St. Leger stakes, worth $60,000. Bosworth was second and Horus was third. Fourteen horses ran.

The St. Leger stakes, fifth and last of the season's British turf classics, brought out a race between three of the season's foremost winners. Trigo, the outsider, who romped away with the Derby, captured the race from Mr. Jinks, winner of the Two Thousand Guineas at Newmarket, and Pennycomequick, owned by Lord Astor, winner of the Epsom Oaks. The Doncaster course is one mile six furlongs and 132 yards long. For racing purposes it is considered superior to Epsom, where the classic Derby and Oaks are run. Trigo won by a short head from Bosworth. There was three-quarters of a length between Bosworth and Horus.

STARS BACK IN LOOP LEAD

Kinney Stops Mission Sluggers as Hollywooders Wallop Three Red Hurlers for 12-4 Win

(Continued from Eleventh Page)

wood's final two tallies. The three Mission moundsmen were walloped by savage Star swatsmen.

Inasmuch as the Angels nosed out the Seals yesterday and the Ducks beat Oakland, the five flag contenders are back in the same place they were before Tuesday's games. The Stars are leading, a half-game ahead of the Missions, a game and a half in front of Los Angeles, three games ahead of the Seals and three and a half contests in the van of the Ducks. It's still anybody's race.

Lefty Johns, who has recovered from a leg injury that kept him on the shelf all last week, will do the hurling for Hollywood today and Vitt believes the capable southpaw will produce another victory. George Caster, Killefer's sensational youngster, who has won six and lost one, will oppose Johns. Caster hurled a two-hit game his last time out, so today's clash ought to furnish a lot of flossy flinging.

UMPIRING TERRIBLE

The umpiring was once more atrocious. Jack Sherlock got kicked out of the game in the first inning for protesting a bad decision by Perle Casey at first base. Kolls pulled a couple of Lulus on the Stars but the Vitsmen were so far ahead they were able to laugh them off, although the fans gave Blind Louie a lot of cheers made famous in the Bronx. There's no telling what the fans might have done had Kolls made those boots in a close game.

Hollywood scored two runs in the first for a quick getaway, doubles by Rollings and Carlyle and Funk's single producing the tallies.

The Reds scored after two were out in the second when Slade got one of the seven walks issued by Kinney, took second on a wild pitch and came in on Hofmann's single with the count three and nothing.

The Stars went on a four-run rampage in the fourth, driving Nelson out of the box. A walk to Kinney, Rollings's double, a walk to Funk, Severeid's hit and Carlyle's triple off the left field wall produced the scores. Hubbell was pitching when Carlyle got his three-bagger, which might have been caught by any other outfielder besides Hufft.

Kinney yielded an unearned run in the fifth on Lee's error, a walk to Boone, a passed ball and Hufft's single to left.

HUBBELL GETS HIS'N

Hubbell was subjected to rough treatment by the Stars and by his mates, in the sixth when four more Hollywooders dented the plate. Errors by Finn and Scott, who moved in to first base after Sherlock was chased, and hits by Severeid and Albert did the damage.

Biggs started pitching in the seventh and the Sheiks bunched hits off the youngster to score one run in each of their final times at bat.

A couple of walks by Kinney, Baldwin's double and an infield out gave the Missions their final brace of runs in the ninth. Score:

Baldwin. Time of game—2h. 4m. Umpires—Kolls and Casey.

ANGELS UPSET SEALS, 7 TO 6

(Continued from Eleventh Page)

then Jahn batted one of the runners home.

DITTMAR HITS HOMER

With two men out in the sixth, Jacobs singled and Dittmar hit a homer. Sandberg singled, but Baecht made the third out.

Jacobs went into the seventh inning with a three-run lead, but it did not last long. Haney singled and was forced at second. Webb was walked, Berger lifted a double to right field, one run scoring, and then Bobby Jones cracked a single to right to score two more and tie the score.

Jacobs went to the clubhouse and Johnny Couch got the side out. Johnny went along all right until Webb opened the eleventh with a three-bagger. Berger struck out, but Jones again made good with a single to score Webb. Jacobs also singled, but there was no further scoring.

Gus Suhr opened the last of the eleventh with a single and Donovan was put on to run for him. As Jahn struck out, Donovan stole second. Jolley popped out to Dittmar and Wingo ended the game by whiffing. Score:

GOOD FISHING AT REDONDO

REDONDO BEACH, Sept. 11.—Autumnal fishing is now at its height at Redondo Beach. Heavy rock bass, bonita, and yellowtail are being taken from the fishing barges Emigh and Lahaina, according to reports of Capt. W. L. Monstad. Early this week an eleven-pound bonita was landed after a several minutes' battle by a Los Angeles angler.

BROWN SET TO BATTLE DADO SOON

Wants Battle With Tiny Filipino If He Defeats Hughes in Legion Go

Newsboy Brown stands ready to fight Speedy Dado in case he beats Tommy Hughes in the main event at the Hollywood American Legion stadium tomorrow night. Brown being the only fighter who has beaten Dado, believes he is the undisputed flyweight champion of the West, but Dado disputes that claim. Brown is favorite over Hughes, but the margin is slight.

The fighters will do light training this afternoon and weigh in tomorrow afternoon. Brown hasn't fought as much as he should have to be at his best. One of these fine days some good youngster will get Brown off his stride and give him a shellacking. Blas Rodrigues came near doing it at Hollywood a few months ago.

The card is one of the best Hollywood fans have been tendered in some time. Frankie Forbes and Carmen Tuzzalino should put up the best preliminary fight. Forbes is going to be the favorite but Tuzzalino has the best of the weight, height and reach and packs a good wallop. Forbes claims he will outgame the Italian.

Leonard Rahming beat Kewpie Hernandes several weeks ago at Hollywood, and he must rule a favorite on account of that fight. These kids are flyweights. Jimmy Benway and Joe Espinosa will fight one of the four-rounders, and Nat Liftin opens the show with Johnny Navarro.

Tevis to Lead San Mateo in Polo Matches

Climaxing the brilliantly successful season of summer polo at Rustic Canyon field, the Uplifters bring the 1929 schedule to a close with a two-game series with the San Mateo Polo Club. The first contest is Sunday. The last game of the year takes place a week from Sunday.

Followers of the mounted mallet sport are due for a treat when W. S. Tevis, six-goal star of the visiting four, swings into action. He ranks up with Eric Pedley, Elmer Boeseke and Carleton Burke as California's outstanding players. A sensational rider and a long hitter, Tevis will open up the game and give the Uplifters a strenuous afternoon.

The San Mateo squad is made up of Lewis Carpenter at No. 1, Jean De St. Cyr at No. 2, Tevis at No. 3 and Dana Fuller at back. Carpenter and St. Cyr each rate one goal, giving the side an eight-goal rating.

Fred Stone, famed stage comedian and considerable of a sportsman in his own right, has "gone polo" and is putting up individual trophies for the winning players to shoot at.

No Racing at Bowl Tonight

The customary Thursday automobile races will not be staged at the American Legion Speedway tonight.

Legion racing officials, headed by Dr. Fred Loring, had tonight's meeting canceled because of the 100-lap event that is scheduled for a week from Sunday at the Alhambra Boulevard oval. Arranging the forthcoming races, which are expected to prove the greatest since the days of the old Culver City board plant, has required all of the time of the men behind the castor oil sport in this section, hence the calling off of this evening's regular festivities.

Pilots and mechanics are busy this week rebuilding their mounts for the 100-lap grind. Mel Kenealy is changing his Simplex Special, in which he has captured the last five contests here. The Irish pilot believes that the machine needed mechan

KHJ WILL HAVE FREE-FOR-ALL

Half of Staff Expected to be Heard Tonight

Classics Will be Included on Other Programs

KEJK Will Start Series of Sunday Concerts

BY DR. RALPH L. POWER

KHJ, the Don Lee station, will have a sort of free-for-all studio event between 8 and 9 o'clock tonight. Practically half of the entire KHJ staff will have a chance to make a brief curtsey before the microphone.

There will be the male quartet, the girls' instrumental trio; the Sierra Symphonists, dance aggregation; the studio concert orchestra; Nell Larson and Mona Content, pianists; Ralph Peterson, tenor soloist; Elvia Allman and Don Wilson, in a novelty act; and plenty of other entertainers in case they are needed.

The broadcast will run up and down the scale of classics and semi-classics and jazz to the lower-down blues numbers.

Programs from other stations include an hour of the classics by the Lubovski Trio, through KNX at 8:30 o'clock; Winona Love, and Don and Archie, harmony duo, on KFI at 9 o'clock; J. Albert Erickson, directing the KEJK orchestra, from 9 to 10 p.m.; Paul Finstein and his Pacific Salon Orchestra, a KMTR feature, at 8 o'clock; and the Long Beach Municipal band over KFOX at 8:30 o'clock.

SUNDAY NIGHT KEJK CONCERT SERIES TO START

BEVERLY HILLS, Sept. 11. (Exclusive)—A series of brilliant Sunday concerts will be brought to the radio audience, commencing this Sunday at 9 p.m. through the medium of KEJK.

This will be in the form of the Mischa Gegna instrumental trio. Mischa Gegna, 'cellist, Jascha Mischa, violin virtuoso, and a concert pianist comprise the group.

The series will continue indefinitely from the studios of the Beverly Hills station.

Mischa Gegna, Russian leader of the trio, has concertised the world over. He is a former pupil of the great Auer, and toured the United States with Tetrazzini, Garden, Caruso, Ruffo and others.

Woman Seized for Carrying Pistol in Bag

Women who carry pistols in handbags are as liable to arrest for carrying concealed weapons as men with hip-pocket holsters, it was shown yesterday when Mrs. Margaret Roberts, 24 years of age, a dancer, was arrested in the Ship Cafe at Venice.

Mrs. Roberts was taken into custody by Officer Stebbins, who reported that the dancer was in possession of a .38-caliber revolver. She was booked at the Venice station for carrying concealed weapons and later transferred to the County Jail to await appearance in court.

Mrs. Roberts told police she carried the gun as protection against a man who was following her. She added that a week ago she fired a shot at a man who attempted to gain entrance to her apartment at 528 South Union avenue.

Boy at School Breaks Neck in Fall on Steps

Falling backward from the top of a flight of stone steps at the Van Nuys grammar school, James Curtis, 11 years of age, of 14764½ Sherman Way, broke his neck and died a few minutes later at the Van Nuys Emergency Hospital yesterday afternoon.

The lad was playing tag with several other boys at the time, according to police. As he excitedly ran up the steps his feet slipped. Unable to recover his balance he fell backward down the steps, his head striking the pavement at the bottom. Terror-stricken playmates notified school authorities, who called for a police ambulance. Hospital surgeons, unable to rend aid, stated the boy's neck had been broken by the fall.

Motion Delays Extract Penalty

Found guilty by a jury in Municipal Judge Curtis's court yesterday of four counts of violating the State liquor laws by selling "ginger extract," Joseph Morowitz, manager of a drug store at Fifth and San Pedro streets, will appear before Judge Curtis on the 18th inst. on his motion for a new trial. If the motion is denied sentence will follow.

Deputy City Prosecutor Fox called Detectives Bender and McDonald of the District Attorney's dry squad as his witnesses. They testified that they arrested the druggist after purchasing three two-ounce bottles of "ginger extract" from him on July 9 for $1, and doing the same thing on July 10, last. Fox declared that the drug store books showed average purchases by Morowitz of 3000 labels for the "extract" monthly, indicating sales of that amount.

Be sure to hear the new PHILCO before you buy any radio

We want you to hear the new Philco perform on Free Demonstration in your own home, under the same conditions it will encounter in actual use. When you compare the tone with any you have ever heard, when you bring in station after station you have never been able to get before, then if you decide to keep this new Balanced-Unit Philco, your local Philco dealer will arrange easy payments for your convenience.

BALL PLAYER MAKES REAL HIT

So Umpire Cupid Dusts Off Home Plate

Howard Lee Burkett and Miss Lu Ree Wiese

HOWARD LEE BURKETT, 27 years of age, second baseman of the Hollywood team in the Pacific Coast League, having made a hit with Lu Ree Wiese, 24-year-old screen actress, started yesterday on a circuit that is expected to lead him to the home plate.

First base was the marriage license bureau, where Burkett and Miss Wiese filed their notice of intention to wed. Second base will be passed when the actual marriage license is obtained three days later.

Third base is St. Augustine Church at Culver City, where Father O'Donnell will perform the marriage ceremony Monday. After the baseball season the couple will start on a honeymoon tour to the former home of the bridegroom at Worcester, Mass., and in January they will return to Los Angeles, where they will make their home.

Window Nailing Called Cruelty

It is an act of cruelty when a husband nails down the windows in his home and refuses to permit his wife to have proper ventilation for her health and comfort, Superior Judge Gould decided yesterday when he granted a divorce to Mrs. Eliza Newton at the close of a hearing on her petition against George H. Newton.

The wife testified that her husband nailed down all of the windows in the home and refused to let her open them.

Once, Mrs. Newton declared, friends were calling at the home and Newton came through the room partly dressed to humiliate her.

The couple had been married twenty-six years.

RESERVIST TO GIVE LECTURE COURSES

Lieutenant-Commander Clarence Williams of the United States Naval Reserve will conduct two weekly lecture courses, the theory of flight on Wednesday from 7 to 9:20 p.m., and meteorology and air navigation on Thursday evenings at the same time, for university college, University of Southern California.

Earl W. Hill, educational director for Western Air Express, is to be in charge of a Tuesday-evening course in commercial aviation from 7 to 9:20 o'clock, and a Friday evening course in airport management. A twelve weeks' course in airplane power plants will be conducted by Edward N. Sweitzer, including a study of principles of internal-combustion types of engine, trouble detection, servicing and emergency repairing.

COURT TILT WON BY BEACH CLUB

Damage Seekers Defeated in Deauville Battle

Membership Fraud Charges Refuted by Judge

Promises Held to Have Been Fully Carried Out

The Deauville Beach Club of Santa Monica won a sweeping victory in a decision handed down yesterday by Superior Judge Tuttle in the lawsuit brought against it by W. R. Jackson, as assignee of nearly fifty persons seeking to recover various sums expended by them for membership. The action sought to recover $5929.80 actual and $15,000 punitive damages.

The plaintiffs asserted that when they were solicited for their membership they were led to believe the club was to build two buildings accommodating 3500 persons with a beach frontage of 700 feet.

DEFENSE VOICED

The club, in its defense, denied that any such promises were made to prospective members and that the plans as outlined to them were carried out. In fact, it was asserted, the original plans were bettered.

Judge Tuttle held that the plaintiffs could have no recovery on the theory that the membership contracts they signed were void as such, a condition which now would require a different cause of action.

The court also held that the contention of the plaintiffs that there was a total failure of consideration for their membership fees and other monies paid into the club by them was not established as a clubhouse had been built and facilities provided.

FUND MISUSE DENIED

Judge Tuttle further held that the evidence was insufficient to show that there had been any misuse of the club's funds.

In answering the charge of the plaintiffs that there was misrepresentation made at the time of the sale of memberships in 1926, the court holds that while they may not have obtained what they expected to get, the evidence showed they had received the value of their investment, therefore have suffered no damages.

The trial was conducted before Judge Tuttle in July.

Lubitsch May Direct Estate

Appointment of Ernst Lubitsch, film director, as administrator of the will of Paul Leni, known in private life as Paul Levi, was requested by the widow, Mrs. Leonore Levi, when the will was filed for probate yesterday.

The will, one of the shortest on record, left $25,000 in stocks and bonds to Mrs. Levi. It was offered for probate by Attorney Phil Cohen.

Leni, a film director, died on the 2nd inst.

VALLEE HEARD AT PREMIERE

Jazz Troubadour Scores Hit With Audience

"Street Girl" is Attraction at R.K.O. Theater

Film Opening and Special Program Draw Throng

BY EDWIN SCHALLERT

To Rudy Vallee, and his moonlight-on-the-water voice, the honors of giving novelty and interest to a film premiere above the ordinary! His appearance was a high light of the opening of the R. K. O. Theater (the erstwhile Hillstreet) last evening. Vallee climaxed the stage program and received insistent applause both for his singing and the performance by his orchestra. It was his introduction at any playhouse in this locality, although he has been heard once previously during a hotel dansant.

Vallee apologized for his band, but he didn't need to. Their presentation of a series of popular numbers was easy and finished. He has a unique style in his renditions, and stresses the vocalising. There are only seven members to his orchestra beside himself, and he uses no baton in directing them. He plays and sings by turns, occasionally giving place to one of the others as soloist. The whole scheme of his program is essentially simple and unaffected, as is his own work. Except for a rather weak try at comedy, what he offered last evening is a relief from ordinary band music.

Always clever, Fanny Brice, singing her Cleopatra travesty; Arn Pennington in a dance number and Bert Wheeler, dancing, were other interesting personalities of the stage program, but lest this should all be taken to indicate that the R.K.O. Theater has not departed the Hillstreet custom of presenting vaudeville as a primary attraction, it may be mentioned that these were special attractions of the opening showing only.

The R.K.O. is to be a picture house primarily, and offers interesting entertainment in its feature, "Street Girl," a musical and talking production. Betty Compson is featured and Jack Oakie, Ned Sparks, John Harron, Ivan Lebedeff and Joseph Cawthorn are other prominent players in this picture directed by Wesley Ruggles.

Our old friend, the plot about the girl who is taken under the wing of a group of men, is disclosed in this film, but there are pleasant new angles to this establishing of a protectorate for a poor little stray lassie. The men are young for one thing.

Really, "Street Girl" is amazingly good in its comedy situations, and Oakie and Sparks shine out as excellent contributors of humor. They also have very good lines allotted to them, plus the opportunity for characterization.

Harron heroes in the romance, rescuing the "street girl," played by Miss Compson from the streets, and inducing his three associates in a jazz band, to adopt her. She comes from a mythical kingdom, and there is a prince out of the same realm, who causes the jazz player the pangs of jealousy. Around this emotion, and the winning of success by the band does most of the plot center.

It is a trivial sort of story, but rather well told, and embellished with pleasing music written by Oscar Levant. Principal numbers are the jazz "Lovable and Sweet," and the theme song, "My Dream Memory," with which the heroine captures the Prince. With its humor and sentiment, the picture will very likely appeal.

The story was written by W. Carey Wonderlyr, and adapted by Jane Murfin. Dance numbers are attractively staged.

Miss Compson's impersonation of the heroine will please, while Harron, Lebedeff and Cawthorn measure up to the requirements of their roles. Sparks and Oakie will be the popular winners though.

Ruggles has imbued the direction with a meritorious smoothness.

Charles Irwin acted as master of ceremonies for the stage acts, and Jack Benny introduced the members of the "Street Girl" cast after the showing of the pictures, besides Richard Dix, Bebe Daniels and others. The dancing chorus in the stage numbers trained by Pearl Eaton scored a hit.

The premiere was dressy and attracted a large audience, which augured favorably for the change of policy at the theater. Alterations in the interior decoration of the house prove inviting.

New Master of Ceremonies at Fox Boulevard

Jack Stanley, coming direct from engagements in Chicago, Boston, Philadelphia and New Orleans, starts at the Boulevard Theater today as the new master of ceremonies. He is said to be one of the most rhythmic band leaders of the present de luxe motion-picture houses.

Stanley was brought west by Fanchon and Marco to take the place of Lynn Cowan, who is filling an engagement in St. Louis. The new show at the Boulevard brings "College Love," the first all-talking, feature length picture of the "Collegiana." Dorothy Gulliver, George Lewis, Eddie Phillips and Churchill Ross are the principal players.

STORY PREPARED

"Her Man," Wallace Smith's latest original screen story, is scheduled to go into immediate production on the R.-K.-O. lot with Bebe Daniels in the starring role. Smith is at work writing the screen play and dialogue for his original opus, which is the third one he has completed for this studio since his recent affiliation.

CRESPO RETURNING

Jose Crespo, distinguished Spanish actor who is remembered for his part of Juan in "Joy Street," is appearing this week with the Virginia Fabregas company in "The Enemy" in Mexico City, and upon completion of this engagement will return to Hollywood to resume his picture work.

Film of Youth Sets Fast Pace

Loretta Young

Who costars with Douglas Fairbanks, Jr., in "Fast Life," a First National production starting today at Warner Brothers Theater in Hollywood.

Future Stars to Appear at Late Matinee

At the billion dollar midnight matinee—Saturday—at Grauman's Chinese Theater, Gus Edwards, noted song writer, producer and one of the author-stars of the "Hollywood Revue of 1929," will make a personal appearance on the stage. Edwards, well known as a discoverer of stars who already include some of the most noted on the stage and screen before the public today, will for the first time present his 1929 luminaries, whom he hopes to bring to stardom.

Anita Page, one of the blond stars of Metro-Goldwyn - Mayer's "Hollywood Revue of 1929," is announced as one of the guest stars. This blond is a unique type and had much to do with the change of style in screen vamps, it is said. Gwen Lee, one of the most promising of the younger generation of screen personalities, and Charles Kaley, who has just been cast as the leading man in M.-G.-M.'s "Lord Byron of Broadway," will both make personal appearances from the stage.

Clarence Brown Has Busy Time at M.-G.-M.

Clarence Brown at present is one of the busiest men in Hollywood. He is doing two things, either of which is a full-size job. The noted director is working half the time on the final cutting and editing of his latest Metro-Goldwyn-Mayer production, "Navy Blues," which has William Haines as star. The rest of the long working day he is conferring with Frances Marion, scenarist, on the adaptation, scenario and dialogue of his next picture, "Anna Christie," which will introduce Greta Garbo in her first talking role.

Both jobs demand concentrated effort, it is said, as speed is demanded in each case. A print of "Navy Blues" is due soon in the Metro-Goldwyn-Mayer New York office. And Brown's schedule calls for an early start on "Anna Christie."

Popular Stars Cast in Film at Paramount

"Illusion," the first of the Paramount specials to come to the Paramount Theater during Paramount month, starts today. Based on Arthur Train's novel, "Illusion," the production stars two of Paramount's most popular players. Buddy Rogers is cast in the leading role of the vaudeville magician and Nancy Carroll is his partner in the act.

Nancy Carroll, as Buddy's partner, secretly loves him, but Rogers, who is tired of stage life, is caught up in a mad whirl of society life, where he meets and falls in love with June Collyer, a beautiful heiress. This new existence makes Rogers dissatisfied with his lot and he decides to leave the stage. From this point the picture is developed through a series of dramatic sequences.

Chaney Essays New Character in "Thunder"

"Thunder," a drama of thrills, pathos and romance, with Lon Chaney in a new characterization, Phyllis Haver essaying her last screen role and James Murray and George Duryea in the cast, is the feature attraction on the new program starting today at Loew's State.

Chaney's new character portrayal is that of a grizzled old engineer, veteran of railroading, hiding a lovable heart behind eccentricities which gain him the name of "Grumpy" among his railroad associates. The drama of the roaring rails is caught by Byron Morgan, master of speed fiction, in his original story for Metro-Goldwyn-Mayer, it is said. William Nigh directed.

The love story involves Phyllis Haver, a night club entertainer, and one of the sons, and is woven into the plot with Miss Haver providing considerable comedy. Fanchon and Marco present their latest footlights idea, "Kisses," with Gene Morgan in his second week as master of ceremonies.

Popular Run at Fox Criterion

With all of the lilting music, scenic splendor and human drama which have made it a success throughout the country, "The Broadway Melody," Metro-Goldwyn-Mayer's melodic story of New York stage life, started a popular run yesterday at the Criterion Theater. Opening-day attendance indicates a highly successful engagement at the Criterion house, where the film is expected to show for several weeks.

"The Broadway Melody" has been hailed by critics as a high point in talking-picture entertainment. It is unique among the new musical films in that it combines the verve of a musical revue with a human and entertaining story. Spectacle in the film reaches a climax with a chorus sequence which is filmed entirely in color.

Charles King, Bessie Love and Anita Page are seen in the featured roles, although important parts are also essayed by Kenneth Thomson, Jed Prouty and Edward Dillon. Catchy melodies are abundant throughout the picture. Nacio Herb Brown and Arthur Freed are responsible for the songs and Harry Beaumont directed the production.

Studios Combine in Preparation for Gala Event

In tribute to Will Rogers, perhaps the most popular comedian Oolagah, Okla. and Beverly Hills ever gave to Culver City and Hollywood, both the Metro-Goldwyn-Mayer and Fox studios announce that virtually every prominent star on their rosters will be present at the Will Rogers premiere at the Carthay Circle.

"Dynamite," current Cecil B. De Mille talking thriller, ends its run Tuesday night. On Wednesday afternoon the Circle will be dark in preparation for the evening's gala ceremonies.

The Fox electrical department has made arrangements for the greatest electrical display ever given a Fox picture. Lights will be banked en masse for blocks, so that the illumination can be seen from all parts of the city. Talking motion pictures of the opening night's ceremonies, both interior and exterior, will be made by Fox Movietone for distribution to theaters over the country.

Potentialities of Young Actor Held Favorable

The prediction made several months ago by both D. W. Griffith and Douglas Fairbanks that young William Bakewell was potential starring timber is about to be substantiated, it is claimed. According to a reliable report exhibitors throughout the country have informed the film salesmen that audiences are now sponsoring this juvenile actor's promotion to stardom, following his performance as leading man opposite Alice White in "Hot Stuff," a First National all-talking production.

As a direct result of this revealment of his box-office status, it is claimed, First National executives, Hal Wallis and Graham Baker, signed Bakewell to again appear as leading man opposite their stellar attraction, Miss White, in Vina Delmar's latest story, "Playing Around." This already has gone into production under the direction of Mervyn LeRoy.

HORTON TO RETURN IN NEW PLAY

"Command Performance" Selected for Star; Kay Hammond Cast

Edward Everett Horton, popular stage and screen star, will return to the Majestic Theater stage the 27th inst. in "The Command Performance," a comedy by C. S. Dickens. This play has been selected as the comedian's returning vehicle and will offer a fine opportunity for his whimsical talents.

Horton will enact a dual role in the satire, which will show him as a headstrong and happy-go-lucky prince, and again as an idealistic actor, who dares to love above his station.

"The Command Performance," with its royal loves and regal ambitions, is on the verge of rehearsals, with sets already under construction under the supervision of Danny Hall. An exceptionally brilliant cast, characteristic of all Horton productions, is assured for the new play. Kay Hammond, local favorite, has been selected as Horton's leading lady.

Plans Made for New Season at Philharmonic

George Leslie Smith, manager of the Philharmonic Orchestra, left Los Angeles Wednesday evening to attend a managers' meeting in Detroit, and will return to open the season here October 24.

Dr. Artur Rodzinski, new leader of the orchestra, has programmed some interesting works for the opening concerts. Five composers will be represented as follows: Beethoven's overture Leonore, Mozart's G minor symphony, Bach-Weiner's Toccata and Fugue No. 1, Debussy's nocturnes and feste romane by Respighi.

Dr. Rodzinski also announces a list of novelties to be given during the season as follows: Daphnis et Chloe, "Fete dieu a Seville," Impressions from a Music Hall, Sinfonietta, Stained Church Windows, Konigskinder, Don Quixote and others. A brilliant array of artists will also appear at the symphony concerts, including Vladimir Horowitz, Serge Prokofieff, Josef Lhevinne, Jacques Thibaud and Nathan Milstein and others.

Noted Comedian to Officiate in Theater Lobby

The inimitable Benny Rubin will broadcast the activities of Hollywood on first night parade over the radio Sunday night, at the opening of the Harry Carroll Revue at Carroll's Music Box Theater.

Rubin, a noted stage, film and radio star, will act as the lobby master of ceremonies at the premiere, introducing the celebrities of filmland and other prominent first nighters.

The Carroll Revue will end the dearth of first class musical revues which has so long been one of the outstanding features of the local rialto, it is said. Many new songs, original dances and hilarious sketches will be introduced for the first time.

The revue, opening last night in San Diego, was received in a cordial spirit by a large first-night audience.

Lawrence Gray Will Appear at Mayan Tonight

The audience at the Mayan Theater, where "Marianne," starring Marion Davies, is on view, will probably consist mostly of the feminine sex tonight, since Lawrence Gray, the leading man of the screen musical comedy, is to make a personal appearance.

Miss Davies' first talking, singing and dancing picture is drawing large audiences at the Mayan, it is reported. Cliff Edwards and Benny Rubin furnish the numerous laughs with their clowning as Soapy and Sam, an irrepressible duo of doughboys waiting around to be sent home from the war. Laurel and Hardy present "Their Perfect Day," their newest fun riot, which precedes the picture, along with a miniature musical comedy, "The Doll Shop," an M.-G.-M. colortone revue.

Player Seen in Both Stage and Screen Roles

Opening of "Fast Life" at Warner Brothers' Theater today will find Douglas Fairbanks, Jr., enjoying distinction of appearing in Hollywood simultaneously in the leading role both of a stage production and in the premiere of an all-talking motion picture.

Young Fairbanks started earlier this week at the Vine-street in the title role of "The Youngest," Philip Barry's comedy, which Franklin Pangborn is presenting for the first time in the West. The popular reception given him in the first performances of "The Youngest" indicates, according to Pangborn, that this comedy of triumphant youth probably will settle down for a long stay at the Hollywood house.

MINE CONGRESS TO AID HOOVER

Public Lands Policy for West Supported

Secretary Comments on New Possibilities Opened

States Will Benefit Through Powers to Tax

"Every effort will be put forth at the annual convention of the American Mining Congress to support President Hoover in his program for the return of surface rights of government lands in the West to the eleven principal States," said J. F. Calibreath at the Biltmore yesterday.

Mr. Calibreath completed his twenty-fifth year last month as secretary of the American Mining Congress and is en route to Spokane to participate in the convention of the Western division, which will be held from the 30th inst. to October 5.

HOOVER HELPS WEST

"President Hoover is offering a helping hand to the West—perhaps the first since government lands were withdrawn under Roosevelt's administration. The interest of the nation at large always is served by the greatest prosperity in each of its units.

"The Federal government will be expected to transfer the public lands to the United States under such restrictions as will protect the several States and at the same time encourage development of the land and add to State incomes through the power to tax the lands transferred.

"This accomplished, it is probable that the next step will be the return of the mineral rights of public lands to the States. The prosperity of the West would be increased vastly if the development of its mineral resources could be relieved of the management of theoretical men. The States would be benefited by having this property subject to the taxing power through which public roads and public schools could receive the benefit.

WILBUR PRAISED

Mr. Calibreath said no announcement has been made during recent years carrying a greater benefit for the West than the address of Dr. Ray Lyman Wilbur, Secretary of the Interior, before the Governor's Conference at Boise, Idaho, in July, at which he favored a new land policy under which the States would take control of the lands with the exception of retention of the mineral resources by the government.

"For many years these lands were administered by the Federal government upon the theory that they were held by it as trustee for the benefit of the States in which the lands were located," continued Mr. Calibreath. "Under that policy the West prospered more rapidly than the East and in fact its protection of miners's largely assisted the progress of the East. For a time there was a careless use and needless waste of forests, which, had it continued, would in the end have created conditions similar to those which exist in the wastes of China and the Far East.

"There was a real necessity to protect the forests of the West and out of that issue grew the forest policy of the Federal government.

"Then the political reformer appeared and the danger of a monopoly in public land ownership was used as an excuse for the withdrawal of the mineral deposits and the water power of the West from location and entry. The withdrawals took from the enterprising pioneer the incentives which justified the hardships which must be undergone in the development of natural resources.

"All of this was done in the name of conservation which had its culmination in the leasing law. Immediately the development of the West was retarded. It remained for the present administration to realize the danger of this situation. It is up to the West to break from the condition of restriction under which its public aspirations have been subdued, and to rise to the occasion now afforded to show its ability to administer its own property in such a way as to prevent waste and bring a renewal of successful development."

Renew Your Health By Purification

"Any physician will tell you that Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs, once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs are the greatest of all system purifiers. Get a family package with full directions. Only 35 cts. at drugstore.—[Advertisement.

ABORIGINAL POTTERS LOSE ART

Museum Acquires Indian Artifacts

Miss Veotta McKinley With Indian Pottery

POTS and pans from the 5-and-10-cent store are taking the place of hand-made Indian pottery, even among the Indians, according to Charles Amsden, curator of the Southwest Museum, and M. R. Harrington, research director of the institution, who have just returned from an expedition in quest of additional specimens.

The pair spent several days ransacking the pueblos of Santa Fe, Santo Domingo, Cochiti, Tesuque, Santa Ana and Sia and brought back a large collection of the Indian pottery which seems in danger of becoming extinct.

The Indians seem to consider making waterpots, vases and other receptacles a sheer waste of time and energy in these days when their needs may be supplied at such trifling cost, Amsden said. However, since the commercial possibilities of their handiwork was pointed out by the white visitors, many of the redskins have decided to begin all over again.

The new collection, which includes some splendid specimens of ancient pottery, now is being arranged for display and already has occasioned keen enthusiasm among those who have inspected it. The purchase was made possible by funds donated by Gen. Charles McC. Reeve of Pasadena, a trustee of the museum.

Meanwhile the Casa Adobe has received a generous gift of early Spanish furniture from a generous friend of the museum which will-nigh fills the vacant corners of the structure. The pieces, sixteen in all, accurately represent the early mission era. Nearly all are hand-carved and they range in age from seventy-five to 150 years. All were selected by Mr. Harrington.

One of Southern California's keenest enthusiasts on the subject of Indian handicraft is Miss Veotta McKinley, who will assist in arranging the display. One of the first to view the antique furniture was Mrs. Florence Dodson Schoneman, a descendant of the Sepulveda line, who said it represents California's only authentic antiques.

NEW AIR LINE TO OPEN SOON

Boeing Official Tells Plans for Service to Chicago; Burbank Field Will Be Ready This Fall

Dedication of the Boeing airport in Burbank, start of a new transcontinental air passenger service and plans for the installation of a continuous air telephone service were some of the highlights of a statement given newspaper men at a luncheon at the Alexandria yesterday noon by Harold Crary, an official of the Boeing Airplane Company.

Mr. Crary said the Burbank field, 240 acres under construction by his company and forty acres additional owned by the City of Burbank, will be one of the most complete air terminals in the United States.

The field, which will be opened this fall, will provide for three loading stations and in addition to the facilities for the Boeing company will offer a terminal service to other transport lines and to individual flyers, as well as provide ground for manufacturing plants. Mr. Crary described the port as a five-way field, with the shortest runway 3500 feet in length and 200 feet wide.

The transcontinental line will be in operation about October 15 between San Francisco and Chicago and will give the first all-plane route to the Great Lakes with a time of twenty hours. Connecting lines to be established in the future will bring the air route time to New York down to thirty-one hours.

There is a possibility, the Boeing official declared, that within the next year Los Angeles will be connected with the Atlantic Coast on the same route, planes leaving here and connecting at Salt Lake City.

With the start of the new transcontinental route the twelve-passenger planes will be linked to the ground with an air telephone service, talking with ground stations spaced every 200 miles.

"With this service the line will be the best guarded anywhere in the world. The pilots can receive warnings of storms and likewise can give the condition of the air as they pass through it," Mr. Crary said.

He also told of the growth of passenger travel in planes and the increasing use of the air mail, which, he said, is three times greater now than it was a year ago.

Eastern Banker Will Speak to Fraternity Men

James E. Davidson of Bay City, Mich., Republican National Committeeman for Michigan, will be speaker at a luncheon tendered by Phi Delta Theta college alumni club at University Club this noon.

Mr. Davidson, who was graduated at Hillsdale College in Michigan, always was an enthusiastic alumnus, both of his college and his college fraternity and recently became the largest donor to an endowment fund which Phi Delta of the ninety-five American and Canadian chapters are employing to provide scholarship funds so that worthy youths can complete their schooling.

Mr. Davidson is president of banking houses, and steamship lines, which cover the Great Lakes area with headquarters in Bay City, Cleveland, Detroit and Duluth. He was one of President Coolidge's appointees on the St. Lawrence Waterway Commission, is past grand commander of Knights Templar in Michigan, and a Thirty-third Degree Mason.

His present trip to California is one of his infrequent trips away from the scene of his industrial and political integests.

LIFE GUARDS SAVE SELVES FROM BLAST

Beach Club Employees Dive from Blazing Craft, Sunk by Explosion

By a "Times" Staff Correspondent

SANTA MONICA, Sept. 11.—Fire and explosion today forced two men to leap for their lives from the private launch Irene when it caught fire and burned to the water's edge a mile off Ocean Park pier. The launch, which was owned by James J. Costello, president of the Deauville Beach Club, was valued at several thousand dollars.

James Eagan and Charles Tracy, life guards of the club, were cruising in the Irene a mile offshore when they were forced to jump by a blast of flaming gasoline, ignited by a backfiring motor.

Both men are strong swimmers and were able to swim away from the launch before its gasoline tank blew up. They were picked up by the speed launch Oceana, a tender of the fishing barge Billings. The flaming launch furnished a thrilling spectacle for thousands of spectators and bathers lining the beach.

TONICS REPORT SET FOR TODAY

Council Committee Ready to Submit Findings

Suggestion for Regulatory Measures Expected

Shuler Under Ingram's Fire at Second Hearing

Following the second public hearing conducted yesterday by the Public Welfare Committee of the City Council on Councilman Randall's resolution asking for an ordinance to prohibit the sale of wine tonics in this city, the committee announced that it will submit its report to the Council this morning. It is believed they will recommend that regulatory measures be adopted. It is understood that the committee also will recommend that the matter be taken up by the Council as a committee of the whole.

After the committee announcement Councilman Randall said he will move then that the Council take the matter up next Monday morning.

Every inch of standing room was occupied when the committee began its hearing. Most of the opponents of the prohibition move present were retail druggists.

SHULER UNDER FIRE

Rev. R. P. Shuler was present but took no part in the proceedings. Seated in a front-row seat, he was the target for a denunciation by Chairman Ingram.

Chairman Ingram called to the stand Dr. M. Lenn Hutchins, medical director of the W.C.T.U., and informed her that Shuler had asserted that she had been insulted by Ingram at the previous hearing. He asked her if that was true.

"Certainly not," Dr. Hutchins replied. "The chairman at all times was courteous to me."

Chairman Ingram then added that he regretted "this same radio speaker also took occasion to reflect on my services in the armed forces of my country during the war."

"It is too bad," he concluded, "that such character assassins are permitted to go on."

This statement brought on a demonstration which lasted almost five minutes. It was shortly afterward that Mr. Shuler departed.

The first witness at the hearing was Vernon Tabor, 14 years of age, a high-school student. He testified that at the behest of a local newspaper he visited nine drug stores and in five had been sold wine tonic without question. In another he was questioned, but a bottle was sold to him. In the other three he was turned away, he said.

Sherman Smith, secretary of the Lunacy Commission, testified that about eighteen to twenty cases of addiction to wine tonics are brought to the attention of his commission every month. In reply to a question from Councilman Martin he stated that there is a greater percentage of cases of insanity resulting from drinking wine tonics than from the drinking of bootleg booze.

Dr. S. T. Montgomery of the Anti-Saloon League informed the committee that the Federal government has recognized the dangers of the abuse of the privilege of dispensing wine tonics and produced a letter which he had just received from Prohibition Commissioner Doran.

REMEDY SUGGESTED

It was argued by Dr. Montgomery that an immediate step can be taken to lessen the consumption of wine tonics as a beverage by enforcement of the Gandier ordinance.

After Dr. Montgomery's testimony four leading figures in the druggist business made pleas against an absolute ban on the sale of wine tonics. They were L. M. Brunswig, Harvey A. Henry, president of the Southern California Retail Druggists' Association; Roy Warner, first vice-president of the same organization, and F. E. Mortenson, past-president of the National Association of Pharmacists. They urged that the best course would be the adoption of a regulatory ordinance.

At their behest, Isidore Dockweiler prepared the draft of a proposed regulatory ordinance. The concluding speaker against the prohibitory proposal was Pierson M. Hall, who represented two associations of grocers.

OR THE GRAND CANYON

A saxophone is produced in America every forty seconds. It is estimated that if they were piled in one place in the Sahara Desert it would be a good idea.—[London Opinion.

CIRCUS ROLLS INTO TOWN

Ringling Brothers, Barnum & Bailey Aggregation Scheduled for Four-Day Stay

Ringling Brothers and Barnum & Bailey Circus begins a four-day engagement at the Washington and Hill street show grounds today. Shortly after dawn the first of the four sections of the world's largest circus train was scheduled to roll into town from Santa Barbara over the Southern Pacific Railroad.

There are new features in the program of the circus this year, but none so thrilling as the act of Hugo Zacchini, the human projectile, who at each performance is shot from the mouth of a siege gun to land in a net on the opposite side of the big top 100 feet distant.

Other thrilling acts are presented by the Wallenda and Rellmut troupes of high-wire performers, who build human pyramids three persons high on a thin wire stretched across the great tent forty feet above the ground.

Con Colleano, wizard of the tight wire, leads a large group representing the best in the world and including M. Maximo, wire comedian.

AERIALISTS GALORE

Aerialists in greater numbers than ever are led by the queen of aerial performers, Lillian Leitzel. Others include Alfredo Codona, Luicita Leers, the Aerial Clarks, the Charles Seigrist and the Seigrist-Silbon troupes.

The greatest of acrobats have been gathered and among them are the Rubio sisters, the Piacchianis troupe, the Yacopis and Miss Theol Nelson, the champion long-distance tumbler of the world.

Horses, as usual, play a prominent part in the program. Foremost among the bareback riders are the Rieffenach sisters, the Davenports, the Rieffenach family, the Ernestes, Clarence Bruce and Ella Bradna.

One of the most attractive numbers on the program is the presentation of high school and riding horses, each ridden by a girl rider. Among these are Cleo Webber, Mary Leonard, with her dancing horse, Margaret; Peggy Murray, Miss Theresa Fillis, Bernice Brown, Bobbie Warner and Anna Louise Hutchinson.

ARRAY OF ANIMALS

In the huge menagerie are 1000 animals, including forty-two large and small elephants, twenty-five of which perform in the five rings in a single display.

Goliath, the monster sea elephant, a ton heavier than he was last season, will be exhibited at each performance.

A hundred clowns are with the circus.

Performances will be given at 2 and 8 p.m., with the doors to the menagerie opening one hour earlier. There will be no street parade in this or any other city, none having been given by "the big show" since 1921, but the opening number on the program is a beautifully costumed pageant followed by the Fete of the Garlands, in which 200 horses and riders take part.

ENROLLING SHOWS GAIN IN SCHOOLS

Incomplete Figures Give 218,689 Names Recorded for First Day of New Term

While figures still are incomplete, the day-school enrollment for the first day of the term shows a total of 210,435. This, added to the 8234 students in the evening schools reporting up to 4 p.m., yesterday gives 218,689. This figure is 577 more than the 4 per cent increase predicted by Clarence H. Tritt, chief clerk, in charge of enrollment.

Of the 210,435 in the day schools on the opening day last Tuesday, 134,112 were elementary students, 29,698 junior high pupils and 46,698 were in the senior high schools.

Last year the total number of students on the first day, both day and evening schools, was 209,300. This figure swelled to 227,564 by the close of the week.

COUNCIL DELAYS HEARINGS

Hearing of protests against the ordinance of intention for the construction of the fifth section of the Jefferson-street storm drain was postponed yesterday by the City Council until tomorrow. The Council postponed to next Wednesday hearing protests against the ordinance of intention for the improvement of the streets in the Lantana-Drive and Church-street improvement district and appeals against the confirmation of assessments for the opening and widening of Raymond avenue, between Manchester avenue and Eighty-third street. The latter project probably will be abandoned.

PARASOL STAND NOT FEE-PROOF

Commissioner-Concessionaire Hit by Tax Ruling

Venice Agreement Subject to City License

Rittenhouse Facing Further Charge of $900

Commissioner E. M. Rittenhouse of the Playground and Recreation Commission, who holds street-end concessions to rent umbrellas on the Venice beach granted to him prior to annexation of Venice to Los Angeles, faces the prospect of paying more license fees to the city under an opinion yesterday by City Attorney Werner.

Rittenhouse, who pays $1100 annually for the use of the street ends, must also pay a license tax of $150 for each of six street-ends annually, in the opinion of the City Attorney, in part as follows:

CONCESSION NOT TAXED

"The courts have repeatedly held that while a municipality may contract away the right to collect a license tax, the intention to waive the right must appear unequivocally from the terms of the contract and the right to license still exists unless there is a distinct agreement, clearly expressed, that the sums paid under the contract are in lieu of the license tax.

"The city of Venice contracted with Rittenhouse to lease the use of its street-ends for the purpose of conducting a certain business at a stipulated sum. At no place in the said contract does it appear that the sum exacted for the use of its street ends was in lieu of the license to be paid for the business Mr. Rittenhouse was to conduct on these street ends, namely, the renting of umbrellas, etc.; therefore, it must necessarily follow that it was intended that a license tax for the business should be paid in addition to the sum paid for use of the street ends."

OUSTER SOUGHT

Through complaint of his fellow commissioners, who seek to oust him from the board, Rittenhouse recently discovered he had to pay a license tax for umbrella stands he conducts on private property. He promptly paid the fees. Now he must pay the license fees on public property in addition to what he pays on his contract.

Werner's opinion was in reply to a request from City Lessee Hal Wallace.

NICARAGUANS AID OIL DEAL

Three Visitors Arrive to Further Development of 500,000 Acres By California Company

Three leaders in the affairs of Nicaragua are in Los Angeles in the interests of a gigantic transaction looking to the development by the California Mammoth Oil Company of 500,000 acres of petroleum lands in the Central American republic. They are Juan J. Ruiz, former cabinet member and commissioner of education; Frank Pennington, merchant and inspector of Nicaraguan consulates on the Pacific Coast, and Miguel D'Escoto, editorial writer associated with the leading Nicaraguan newspapers. They will remain about a month.

According to Senor Ruiz, their announced, a syndicate headed by William F. Young, president of the California Mammoth Oil Company, has been organized to develop the vast acreages suitable for the growing of coffee, sugar and rubber in Nicaragua, according to the visitors, is evincing an unusual interest in the proposed development. All three visitors expressed the opinion that Los Angeles will be the principal port of trade with the southern republic.

THREE FED ON DOLLAR PER DAY, YET HE SEE

How Mrs. Geraldine Bonner formed a modern miracle and three persons on $1 a day, including Sunday dinners, was disclosed in Superior Judge Schauer's court at an alimony hearing yesterday. Dave Resnick, her husband, is suing for a divorce, asserting cruelty. She replied with the charge that he allowed her only $1 a week. Resnick asked for alimony but Judge Schauer held the husband should support herself. The court ordered Resnick to pay $15 a month for the support of his child.

"Timeliness"—An Emphatic Feature at Sears, Roebuck

The Merchandise You Need At the Time You Want It! At Our Nation-Wide Low Prices! See for Yourself!

Tablecloths

Mercerized

$1.00

Full pattern cloths woven from good staple cotton yarns. Bleached white and hemmed. Size 58x69 inches.

At Our Four Stores

Alarm Clocks

National Call

$2.90

Eight day alarm clocks fitted with a pedestal base. Nickel plated. Plain dial. Button at top for alarm control.

Luminous Dial Clocks, $3.30

At Our Four Stores

Blankets

Nashua

$4.30

Part wool blankets that are a favorite with thousands of homemakers. Several attractive plaids in a 72x84-inch size.

At Our Four Stores

Pongee

12-momme

37c

An imported pongee fabric of especially selected quality. All-silk content. Offered in a practical 33-inch width.

At Our Four Stores

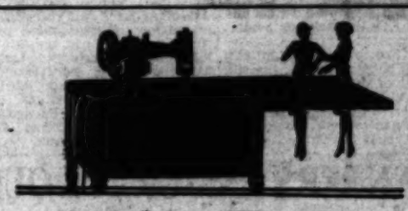
Stockings

for Boys

39c

Golf stockings for the schoolboy. Shown in a variety of novel patterns. Several shades. Sizes, 7 to 10½.

At Our Four Stores



Franklin Electric Sewing Machines

Guaranteed for 20 Years

Sewing standards have reached a new height of efficiency! The Franklin rotary illustrates these new principles in each one of its outstanding construction features. Come in and let us give you a demonstration as well as full particulars .....
